The essential conditions of the new loan appear to me to be these:

1*st*. That the principal and interest shall be made payable in coin.

2*d*. That the bonds known as the five-twenty bonds shall be received in exchange for the new bonds.

3*d*. That the principal be payable in this country, and the interest payable either in the United States or in Europe, as the subscribers to the loan may desire.

4*th*. That the rate of interest shall not exceed 4½ per cent. per annum.

5*th*. That the subscribers in Europe shall receive their interest at London, Paris, Berlin, or Frankfort, as they may elect.

6*th*. That the bonds, both principal and interest, shall be free from all taxes, deductions, or abatements of any sort, unless it shall be thought wise to subject citizens of the United States to such tax upon income from the bonds as is imposed by the laws of the United States upon income derived from other money investments.

* * * * * * * * *

In offering the new loan citizens and subjects of other governments should receive the strongest assurance that the interest and principal are to be paid in coin, according to the terms of the bonds issued, without any deduction or abatement whatsoever.

Mr. Boutwell recommended that, in order to avoid the necessity of employing agents for the negotiation of the proposed new loan, a liberal commission be allowed to subscribers, and that those first subscribing be permitted to select the class of bonds in which their subscriptions should be made; and further, that the national banks be required to substitute bonds of the proposed new loan for such as were then deposited in the treasury as security for the redemption of their circulating notes.

On the 12th of January, 1870, a bill "to authorize the refunding and consolidation of the national debt, to extend banking facilities, and to establish specie payments"† was introduced in the Senate by Mr. Sumner, of Massachusetts, and was extensively debated for several months, during which time the financial system pursued by the government during the war of the rebellion was fully reviewed.

---

* See Congressional Globe, 2d sess. 41st Cong., part 5, pp. 4669.

† Cong. Globe, 2d sess. 41st Cong., p. 378.

Various amendments to the bill were adopted, and it finally passed both houses, and became a law, July 14, 1870 (16 Statutes, 272). The following is the text of that portion of the act relative to refunding:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Treasury is hereby authorized to issue, in a sum or sums not exceeding in the aggregate two hundred million dollars, coupon or registered bonds of the United States, in such form as he may prescribe, and of denominations of fifty dollars, or some multiple of that sum, redeemable in coin of the present standard value, at the pleasure of the United States, after ten years from the date of their issue, and bearing interest, payable semi-annually, in such coin at the rate of five per cent. per annum; also a sum or sums not exceeding in the aggregate three hundred million dollars of like bonds, the same in all respects, but payable at the pleasure of the United States after fifteen years from the date of their issue, and bearing interest at the rate of four and a half per cent. per annum; also a sum or sums not exceeding in the aggregate one thousand million dollars of like bonds, the same in all respects, but payable at the pleasure of the United States after thirty years from the date of their issue, and bearing interest at the rate of four per cent. per annum; all of which said several classes of bonds and the interest thereon shall be exempt from the payment of all taxes or duties of the United States, as well as from taxation in any form by or under state, municipal, or local authority; and the said bonds shall have set forth and expressed upon their face the above specified conditions, and shall, with their coupons, be made payable at the treasury of the United States. But nothing in this act, or in any other law now in force, shall be construed to authorize any increase whatever of the bonded debt of the United States.

SEC. 2. *And be it further enacted*, That the Secretary of the Treasury is hereby authorized to sell and dispose of any of the bonds issued under this act, at not less than their par value for coin, and to apply the proceeds thereof to the redemption of any of the bonds of the United States outstanding, and known as five-twenty bonds, at their par value, or he may exchange the same for such five-twenty bonds, par for par; but the bonds hereby authorized shall be used for no other purpose whatsoever. And a sum not exceeding one-half of one per cent. of the bonds herein authorized is hereby appropriated to pay the expense of preparing, issuing, advertising, and disposing of the same.

SEC. 3. *And be it further enacted*, That the payment of any of the bonds hereby authorized after the expiration of the said several terms of ten, fifteen, and thirty years shall be made in amounts to be determined from time to time by the Secretary of the Treasury, at his discretion, the bonds so to be paid to be distinguished and described by the dates and numbers, beginning for each successive payment with the bonds of each class last dated and numbered; of the time of which intended payment or redemption the Secretary of the Treasury shall give public notice, and the interest on the particular bonds so selected at any time to be paid shall cease at the expiration of three months from the date of such notice.

SEC. 4. *And be it further enacted*, That the Secretary of the Treasury is hereby authorized, with any coin of the treasury in the United States which he may lawfully apply to such purpose, or which may be derived from the sale of any of the bonds, the issue of which is provided for in this act, to pay at par and cancel any six per cent. bonds of the United States of the kind known as five-twenty bonds which have become or shall hereafter become redeemable by the terms of their issue. But the particular bonds so to be paid and canceled shall in all cases be indicated and specified by class, date, and number, in the order of their numbers and issue, beginning with the first numbered and issued, in public notice to be given by the Secretary of the Treasury; and in three months after the date of such public notice the interest on the bonds so selected and advertised to be paid shall cease.

The act of January 20, 1871 (16 Statutes, 399), amending the above, reads as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the amount of bonds authorized by the act approved July fourteen, eighteen hundred and seventy, entitled "An act to authorize the refunding of the national debt", to be issued bearing five per centum interest per annum, be, and the same is, increased to five hundred millions of dollars, and the interest of any portion of the bonds issued under said act, or this act, may, at the discretion of the Secretary of the Treasury, be made payable quarter yearly: *Provided, however*, That this act shall not be construed to authorize any increase of the total amount of bonds provided for by the act to which this act is an amendment.

The first step toward refunding under the above acts was taken by Secretary Boutwell on the 28th of February, 1871, by the issue of public notice that on and after the 6th of March following books would be opened in this country and Europe for subscriptions to the several classes of bonds to be issued under the refunding acts.

The following is a statement of the amount of the coin-interest-bearing debt outstanding on the 1st of March, 1871, the nearest date prior to the commencement of operations under the refunding acts quoted above:

Title of loan.	Authorizing act.	Rate.	When redeemable.	When payable.	Amount.
		Per ct.			
Loan of 1858	June 14, 1858	5		January 1, 1874	$20,000,000
Loan of February, 1861 ('81's)	February 8, 1861	6		December 31, 1880	18,415,000
Oregon war debt	March 2, 1861	6		July 1, 1881	945,000
Loan of July and August, 1861 ('81's)	July 17 and August 5, 1861	6		June 30, 1881	189,318,100
Five-twenties of 1862	February 25, 1862	6	After May 1, 1867	May 1, 1882	493,738,350
Loan of 1863 ('81's)	March 3, 1863	6		June 30, 1881	75,000,000
Ten-forties of 1864	March 3, 1864	5	After March 1, 1874	March 1, 1904	194,567,300
Five-twenties of March, 1864	do	6	After November 1, 1869	November 1, 1884	8,102,600
Five-twenties of June, 1864	June 30, 1864	6	do	do	102,028,900
Five-twenties of 1865	March 3, 1865	6	After November 1, 1870	November 1, 1885	182,112,450
Consols of 1865	do	6	After July 1, 1870	July 1, 1885	264,619,700
Consols of 1867	do	6	After July 1, 1872	July 1, 1887	338,832,550
Consols of 1868	do	6	After July 1, 1873	July 1, 1888	39,663,750
Total					1,922,343,700

The act of December 17, 1873 (18 Statutes, 1), authorized the issue of an equal amount of bonds of the "loan of 1858" which the holders thereof might, on or before February 1, 1874, elect to exchange for bonds bearing the same rate of interest issued under the refunding acts. Under this authority $13,957,000 of the loan of 1881 and $260,000 of the loan of 1907 were issued in exchange for a like amount of bonds of the "loan of 1858".

The act of January 14, 1875 (18 Statutes, 296), entitled "An act to provide for the resumption of specie payments", reads as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Treasury is hereby authorized and required, as rapidly as practicable, to cause to be coined, at the mints of the United States, silver coins of the denominations of ten, twenty-five, and fifty cents, of standard value, and to issue them in redemption of an equal number and amount of fractional currency of similar denominations, or, at his discretion, he may issue such silver coins through the mints, the sub-treasuries, public depositaries, and post-offices of the United States; and upon such issue he is hereby authorized and required to redeem an equal amount of such fractional currency, until the whole amount of such fractional currency outstanding shall be redeemed.

SEC. 2. That so much of section three thousand five hundred and twenty-four of the Revised Statutes of the United States as provides for a charge of one-fifth of one per centum for converting standard gold bullion into coin is hereby repealed, and hereafter no charge shall be made for that service.

SEC. 3. That section five thousand one hundred and seventy-seven of the Revised Statutes, limiting the aggregate amount of circulating notes of national banking associations, be, and is hereby, repealed; and each existing banking association may increase its circulating notes in accordance with existing law without respect to said aggregate limit; and new banking associations may be organized in accordance with existing law without respect to said aggregate limit; and the provisions of law for the withdrawal and redistribution of national-bank currency among the several states and territories are hereby repealed. And whenever, and so often, as circulating notes shall be issued to any such banking association, so increasing its capital or circulating notes, or so newly organized as aforesaid, it shall be the duty of the Secretary of the Treasury to redeem the legal-tender United States notes in excess only of three hundred million of dollars, to the amount of eighty per centum of the sum of national-bank notes so issued to any such banking association as aforesaid, and to continue such redemption as such circulating notes are issued until there shall be outstanding the sum of three hundred million dollars of such legal-tender United States notes, and no more. And on and after the first day of January, anno Domini eighteen hundred and seventy-nine, the Secretary of the Treasury shall redeem, in coin, the United States legal-tender notes then outstanding, on their presentation for redemption at the office of the assistant treasurer of the United States in the city of New York, in sums of not less than fifty dollars. And to enable the Secretary of the Treasury to prepare and provide for the redemption in this act authorized or required he is authorized to use any surplus revenues from time to time in the treasury not otherwise appropriated, and to issue, sell, and dispose of, at not less than par, in coin, either of the descriptions of bonds of the United States described in the act of Congress approved July fourteenth, eighteen hundred and seventy, entitled "An act to authorize the refunding of the national debt", with like quanties, privileges, and exemptions, to the extent necessary to carry this act into full effect and to use the proceeds thereof for the purposes aforesaid. And all provisions of law inconsistent with the provisions of this act are hereby repealed.

Under the authority granted by this act 5 per cent. bonds of the "loan of 1881" have been issued to the amount of $17,494,150, for the purpose of replacing the coin used in the purchase of silver applied to the redemption of fractional currency. Bonds have been sold for resumption purposes since March 1, 1877, amounting to $65,000,000 of the 4½ per cent. loan of 1891, and $25,000,000 of the 4 per cent. loan of 1907. In 1878 there were issued $5,500,000 of the 4 per cent. bonds of 1907, for the purpose of replacing the coin used in payment of the Halifax award.

The act of March 3, 1875 (18 Statutes, 466), directed the Secretary of the Treasury to issue bonds of the character and description set out in the act of July 14, 1870 (16 Statutes, 272), to James B. Eads or his legal representatives in payment at par of the warrants of the Secretary of War for the construction of jetties and auxiliary works to maintain a wide and deep channel between the South pass of the Mississippi river and the Gulf of Mexico, unless Congress should have previously provided for the payment of the same by the necessary appropriation of money.

Under this authority the sum of $500,000 of the 5 per cent. bonds of 1881 was issued in 1877.

The act of January 25, 1879 (20 Statutes, 265), provides:

That the Secretary of the Treasury is hereby authorized in the process of refunding the national debt under existing laws to exchange directly at par the bonds of the United States bearing interest at four per centum per annum authorized by law for the bonds of the United States commonly known as five-twenties outstanding and uncalled, and, whenever all such five-twenty bonds shall have been redeemed, the provisions of this section and all existing provisions of law authorizing the refunding of the national debt shall apply to any bonds of the United States bearing interest at five per centum per annum or a higher rate, which may be redeemable. In any exchange made under the provisions of this section interest may be allowed, on the bonds redeemed, for a period of three months.

The whole amount of bonds issued under the several refunding acts above referred to are as follows:

Five per cent. loan of 1881	$517,494,150
Four and one-half per cent. loan of 1891	250,000,000
Four per cent. loan of 1907	739,480,800

The following is a copy of the text of the four per cent. United States bonds issued under the authority above referred to:

1877. FOUR PER CENT. CONSOLS OF THE UNITED STATES. 1907.

WASHINGTON, *July* 1, 1877.

The United States of America are indebted to ———, or assigns, in the sum of ———.

This bond is issued in accordance with the provisions of an act of Congress entitled "An act to authorize the refunding of the national debt, approved July 14, 1870", amended by an act approved January 20, 1871, and is redeemable at the *pleasure* of the United States, after the first day of July, A. D. 1907, in coin of the standard value of the United States on said July 14, 1870, with interest in such coin from the day of the date hereof at the rate of 4 per centum per annum, payable quarterly on the 1st day of October, January, April, and July in each year. The principal and interest are exempt from the payment of all taxes or duties of the United States, as well as from taxation in any form by or under state, municipal, or local authority.

{ Transferable on the books of the office.
{ Entered:

Recorded: { .....
{ .....

The text of the 4½ and 5 per cent. bonds, issued under the same authority, is the same as the preceding, with the exception of the date of issue, the rate per cent., and the dates of maturity.

The following is a statement showing the refunding operations since March 1, 1871, and the reduction of the annual interest charge:

Title of loan.	Authorizing act.	Interest.	Amount refunded.	Annual interest charge.
		Per cent.		
Loan of 1858	June 14, 1858	5	$14,217,000 00	$10,405,362 50
Ten-forties of 1864	March 3, 1864	5	193,890,250 00	
Five-twenties of 1862	February 25, 1862	6	401,145,600 00	71,234,433 00
Five-twenties of March, 1864	March 3, 1864	6	1,327,100 00	
Five-twenties of June, 1864	June 30, 1864	6	59,185,450 00	
Five-twenties of 1865	March 3, 1865	6	160,144,500 00	
Consols of 1865	March 3, 1865	6	211,337,050 00	
Consols of 1867	March 3, 1865	6	316,423,800 00	
Consols of 1868	March 3, 1865	6	37,677,050 00	
Total			1,395,347,800 00	81,639,795 50

In lieu of the above bonds, there have been issued other bonds bearing interest as follows:

Title of loan.	Authorizing act.	Interest.	Amount issued.	Annual interest charge.
		Per cent.		
Funded loan of 1881	July 14, 1870	5	$500,000,000 00	$25,000,000 00
Funded loan of 1891	July 14, 1870	4½	185,000,000 00	8,325,000 00
Funded loan of 1907, including refunding certificates	July 14, 1870	4	710,347,800 00	28,413,912 00
Total			1,395,347,800 00	61,738,912 00

Making an annual saving hereafter in the interest charge, on account of refunding operations, of $19,900,883 50.

The interest-bearing debt has been reduced during the same period as follows:

Interest-bearing debt, March 1, 1871	$1,977,581,700 00
Interest-bearing debt, July 1, 1880	1,723,993,100 00
Reduction in interest-bearing debt	253,588,600 00
Annual interest charge, March 1, 1871	114,858,869 00
Annual interest charge, July 1, 1880	79,633,981 00
Reduction in annual interest charge	35,224,888 00

With a reduction of the total principal of the debt as follows:

Debt, less cash in the treasury, March 1, 1871 (principal)	$2,283,145,432 13
Debt, less cash in the treasury, July 1, 1880 (principal)	1,919,326,747 75
Total reduction	363,818,684 38
Reduction of principal of the debt since March 1, 1871	286,758,875 81

REFUNDING CERTIFICATES.

A bill authorizing the issue of certificates of deposit in aid of the refunding of the public debt was reported to the House of Representatives, from the committee of ways and means, December 10, 1878; which was read twice and recommitted. The bill was reported back to the House, with a favorable recommendation, on the 15th of January 1879, and was at once taken up for consideration. It authorized the Secretary of the Treasury to issue, in exchange for lawful money, certificates of deposit of the denomination of $10, bearing interest at the rate of 3 per cent. per annum, and convertible at any time, with accrued interest, into 4 per cent. bonds described in the refunding act. An exciting debate ensued, during which it was stated that this was a measure intended to convert the treasury into a savings bank for small investments, and at the same time discriminate between them and the holder of securities in larger amounts. On the other hand, it was shown to be simply a means of facilitating the refunding of the debt with more rapidity by permitting private subscriptions of $10 each, or any multiple of $10, to be held by the government as a loan at 3 per cent. interest until such time as the individual subscriptions should amount to $50, when they could be transferred or converted into 4 per cent. bonds. The bill passed the House and was amended in the Senate by an increase in the rate of interest from 3 to 4 per cent., which amendment was concurred in by the House, and the bill became a law February 26, 1879 (20 Statutes, 321). Section 1 of the act provides:

That the Secretary of the Treasury is hereby authorized and directed to issue, in exchange for lawful money of the United States that may be presented for such exchange, certificates of deposit, of the denomination of ten dollars, bearing interest at the rate of four per

cent. per annum, and convertible at any time, with accrued interest, into the four per cent. bonds described in the refunding act; and the money so received shall be applied only to the payment of the bonds bearing interest at a rate of not less than five per cent. in the mode prescribed by said act; and he is authorized to prescribe suitable rules and regulations in conformity with this act.

Under this act refunding certificates have been issued amounting to $40,012,750, all of which have been refunded into 4 per cents. of 1907 except $1,367,000, outstanding June 30, 1880.

CERTIFICATES OF DEPOSIT.

On the 21st of February, 1872, Mr. Merriam, of New York, introduced in the House of Representatives "A bill to facilitate bank clearing-house exchanges", which was read twice and referred to the committee on banking and currency. The bill as reported back from the committee on the 8th of March, with several amendments, and number and title changed, came up for consideration on the 10th of May. After a brief explanation from Mr. Merriam, in which he stated that no principle of finance was involved in it, but that it was simply intended to lessen the burdens of the clearing-house exchanges, which had grown to such a magnitude as to render it almost impossible to transact business with safety without the aid of this legislation, the rules were suspended and the bill passed the House unanimously. It passed the Senate on the 6th of June, without debate, and became a law June 8, 1872 (17 Statutes, 336). The following is the text of the act:

Be it enacted, &c., That the Secretary of the Treasury is hereby authorized to receive United States notes on deposit, without interest, from national banking associations, in sums not less than $10,000, and to issue certificates therefor in such form as the Secretary may prescribe, in denominations of not less than $5,000; which certificate shall be payable on demand in United States notes, at the place where the deposits were made.

SEC. 2. That the United States notes so deposited in the treasury of the United States shall not be counted as part of the legal reserve; but the certificates issued therefor may be held and counted by national banks as part of their legal reserve, and may be accepted in the settlement of clearing-house balances at the places where the deposits therefor were made.

SEC. 3. That nothing contained in this act shall be construed to authorize any expansion or contraction of the currency; and the United States notes for which such certificates are issued, or other United States notes of like amount, shall be held as special deposits in the treasury, and used only for the redemption of such certificates.

SILVER CERTIFICATES.

On the 5th of November, 1877, Mr. Bland, of Missouri, introduced in the House of Representatives "A bill to authorize the free coinage of the standard silver dollar, and to restore its legal-tender character". It authorized the coinage of silver dollars of the weight of 412½ grains, troy, of standard silver, in conformity with the provisions of the act of January 18, 1837 (5 Statutes, 136), which coins, together with all silver dollars heretofore coined by the United States of like weight and fineness, should be a legal tender, at their nominal value, for all debts and dues, public and private, except where otherwise provided by contract; and provided that any owner of silver bullion might deposit the same at any United States mint or assay office, to be coined into such dollars, for his benefit, upon the same terms and conditions as gold bullion deposited for coinage under existing laws. The bill appears to have passed the House, without debate, the same day, by a vote of 163 ayes; 34 nays; not voting, 93. The bill was reported to the Senate by the committee on finance November 21, with several important amendments added thereto, and it came up for consideration on the 6th of December. On the 31st of January, 1878, Mr. Booth, of California, introduced in the Senate an amendment as follows:

SEC. —. That any holder of the coin authorized by this act may deposit the same with the treasurer or any assistant treasurer of the United States, in sums not less than ten dollars, and receive therefor certificates of not less than ten dollars each, corresponding with the denominations of the United States notes. The coin deposited for or representing the certificates shall be retained in the treasury for the payment of the same on demand. Said certificates shall be receivable for customs, taxes, and all public dues, and, when so received, may be reissued.

After an extended debate, during which the several amendments to the original bill as it passed the House were freely discussed, and the whole question of the remonetization of silver was thoroughly reviewed, the bill, as amended, passed the Senate on the 15th, and the Senate amendments were agreed to by the House on the 21st of February. The President declined to approve it, and gave his reasons therefor in a special message to the House of Representatives, notwithstanding which the bill was passed over the veto of the President the same day, and became a law February 28, 1878 (20 Statutes, 26). The act is as follows:

"*Be it enacted, &c.*, That there shall be coined, at the several mints of the United States, silver dollars of the weight of 412½ grains troy of standard silver, as provided in the act of January 18, 1837, on which shall be the devices and superscriptions provided by said act; which coins, together with all silver dollars heretofore coined by the United States, of like weight and fineness, shall be a legal tender, at their nominal value, for all debts and dues, public and private, except where otherwise expressly stipulated in the contract. And the Secretary of the Treasury is authorized and directed to purchase, from time to time, silver bullion, at the market price thereof, not less than $2,000,000 worth per month, nor more than $4,000,000 worth per month, and cause the same to be coined monthly, as fast as so purchased, into such dollars; and a sum sufficient to carry out the foregoing provision of this act is hereby appropriated out of any money in the treasury not otherwise appropriated. Any gain or seigniorage arising from this coinage shall be accounted for and paid into the treasury,

as provided under existing laws relative to the subsidiary coinage: *Provided*, That the amount of money at any one time invested in such silver bullion, exclusive of such resulting coin, shall not exceed $5,000,000: *And provided further*, That nothing in this act shall be construed to authorize the payment in silver of certificates of deposit issued under the provisions of section 254 of the Revised Statutes.

SEC. 2. That immediately after the passage of this act, the President shall invite the governments of the countries composing the Latin Union, so called, and of such other European nations as he may deem advisable, to join the United States in a conference to adopt a common ratio between gold and silver, for the purpose of establishing, internationally, the use of bi-metallic money, and securing fixity of relative value between those metals; such conference to be held at such place, in Europe or in the United States, at such time, within six months, as may be mutually agreed upon by the executives of the governments joining in the same, whenever the governments so invited, or any three of them, shall have signified their willingness to unite in the same. The President shall, by and with the advice and consent of the Senate, appoint three commissioners, who shall attend such conference on behalf of the United States, and shall report the doings thereof to the President, who shall transmit the same to Congress. Said commissioners shall each receive the sum of $2,500 and their reasonable expenses, to be approved by the Secretary of State; and the amount necessary to pay such compensation and expenses is hereby appropriated out of any money in the Treasury not otherwise appropriated.

SEC. 3. That any holder of the coin authorized by this act may deposit the same with the treasurer or any assistant treasurer of the United States, in sums not less than ten dollars, and receive therefore certicates of not less than ten dollars each, corresponding with the denominations of the United States notes. The coin deposited for or representing the certificates shall be retained in the treasury for the payment of the same on demand. Said certificates shall be receivable for customs, taxes, and all public dues, and, when so received, may be reissued.

SEC. 4. All acts and parts of acts inconsistent with the provisions of this act are hereby repealed.

The whole amount issued under the provisions of section 3 of the above act, including reissues, to June 30, 1880, was $21,018,000.

THE NATIONAL LOANS OF THE UNITED STATES FROM JULY 4, 1776, TO JUNE 30, 1880.

SECTION II.—ISSUES AND REDEMPTIONS.

LOAN FROM FARMERS-GENERAL OF FRANCE.

The authority for contracting this loan is found in the Secret Journals of Congress, "Foreign Affairs", volume ii, page 36, under date of December 23, 1776, as follows, to wit:

"*Resolved*, That the commissioners of Congress at the court of France be authorized to borrow, on the faith of the thirteen United States, a sum not exceeding two millions sterling, for a term not less than ten years. That if the money borrowed cannot be obtained at a less interest than six per cent., the commissioners be permitted to engage for that rate of interest; and that they stipulate for the payment of the interest at periods not less than annual. That if the commissioners can contract for the payment of the principal and interest in the products of North America, to be delivered here, it will be very agreeable to Congress."

Length of loan, indefinite; payable as per contract; amount authorized, $10,000,000; amount issued, $181,500; sold at par; interest 5 per cent., payable annually; final redemption December 31, 1793.

*These payments were made in tobacco. The interest on the balance of this loan ($153,688 89) ceased December 31, 1793, when it was merged in the general account of the French debt; this date is therefore given as that of its final redemption.

FRENCH LOAN OF EIGHTEEN MILLION LIVRES.

The Continental Congress, by resolution of December 3, 1777, authorized the commissioners at the courts of France and Spain to obtain "a loan of two millions sterling, on the faith of the thirteen United States, for a term not less than ten years, with permission, if practicable, to pay the same sooner if it shall be agreeable to these states, giving twelve months' previous notice to the lender of such intention to return the money" (Journals of Congress, vol. ii, p. 359). If the money borrowed could not be obtained at a less rate of interest than 6 per cent., the commissioners were permitted to engage for that rate, and to stipulate for the payment of the interest at periods not less than annual (Secret Journals, vol. ii, p. 55).

Length of loan, indefinite; payable as per contract; amount authorized, $10,000,000; amount issued, $3,267,000, sold at par; interest 5 per cent., payable annually; final redemption, December 31, 1795.

LOAN FROM SPAIN IN 1781.

The authority for contracting this loan is found in the Secret Journals of Congress, vol. ii, p. 263, it being, in substance, the concluding portion of instructions issued September 28, 1779, to John Jay, minister plenipotentiary to the court of Spain, being as follows, to wit:

The distressed state of our finances and the great depreciation of our paper money inclined Congress to hope that his Catholick majesty, if he shall conclude a treaty with these states, will be induced to lend them money: You are, therefore, to represent to him the great distress of these states on that account, and to solicit a loan of five millions of dollars upon the best terms in your power, not exceeding six per centum per annum, effectually to enable them to co-operate with the allies against the common enemy. But before you make any propositions to his Catholick majesty for a loan, you are to endeavor to obtain a subsidy in consideration of the guarantee aforesaid.

Length of loan, indefinite; payable as per contract; amount authorized, $5,000,000; amount issued, $174,017$\frac{13}{90}$; sold at par; interest 5 per cent., payable annually; final redemption August 21, 1793.

1793			24,102 95		24,102 95
Total					174,017 13

In the Receipts and Expenditures for 1793, Appendix, the principal of this loan is stated at $174,011, and the interest due to December 31, 1790, at $76,371 50. The difference, amounting to 6\frac{13}{90}$, appears, in the final adjustment, to belong to principal instead of interest (see Journal O. G., p. 3065). In this account of issues the dollar is divided into 90 parts and each 90th is subdivided into 68 parts, in conformity with the method of computation at the time the loan was made. This will explain the apparent discrepancy in the additions.

FRENCH LOAN OF TEN MILLION LIVRES.

The Continental Congress, by resolution of October 26, 1779, authorized the commissioner to Holland to borrow a sum not exceeding $10,000,000, at a rate of interest not exceeding 6 per cent. per annum; to employ, on the best terms in his power, some proper mercantile or banking house in Amsterdam, or elsewhere, to assist in the procuring of loans, to receive and pay the money borrowed, to keep the accounts, and to pay the interest; also, to pledge the faith of the United States by executing such securities or obligations for the payment of the money as he might think proper; and that the interest should not be reduced nor the principal paid during the term for which the same should have been borrowed, without the consent of the lenders or their representatives (Secret Journals, vol. ii, p. 283).

Length of loan, 15 years; payable in ten annual installments from November 5, 1787; amount authorized, $10,000,000; amount issued, $1,815,000; sold at par; interest 4 per cent., payable annually; final redemption December 31, 1795.

* This amount was redeemed by an exchange of 4½ per cent. stock, issued under the act of March 3, 1795 (1 Statutes, 433).

The money for this loan was procured in Holland, under a contract between the king of France and the United Provinces of the Netherlands, dated November 5, 1781, and is included in the French government loans (see Section I, p. 307, *ante*).

FRENCH LOAN OF SIX MILLION LIVRES.

The Continental Congress resolved, September 14, 1782, that a sum not exceeding $4,000,000, exclusive of the money which might be obtained by the loan being negotiated in Holland, be borrowed in Europe, on the faith of the United States of America, and applied toward defraying the expenses which might be incurred and of those which had been incurred during that year, for carrying on the war (Journals of Congress, vol. iv, p. 78.)

Length of loan, 13 years; payable in six annual installments from 1797 to 1802; amount authorized, $4,000,000; amount issued, $1,089,000; sold at par; interest 5 per cent., payable annually; final redemption December 31, 1795.

This loan was all redeemed by an exchange of 5½ per cent. stock issued under the act of March 3, 1795 (1 Statutes, 433).

HOLLAND LOAN OF 1782.

The Continental Congress, by resolution of October 26, 1779 (Secret Journals, vol. ii, p. 283), authorized the commissioner to Holland to borrow a sum not exceeding $10,000,000, at a rate of interest not exceeding 6 per cent. per annum; to employ, on the best terms in his power, some proper mercantile or banking house in Amsterdam, or elsewhere, to assist in the procuring of loans, to receive and pay the money borrowed, to keep the accounts, and to pay the interest; also, to pledge the faith of the United States, by executing such securities or obligations for the payment of the money as he might think proper; and that the interest should not be reduced nor the principal paid during the term for which the same should have been borrowed without the consent of the lenders or their representatives. This loan was approved and ratified by Congress September 14, 1782.

Length of loan, 10 to 15 years; payable in five equal installments annually, from 1793 to 1797; amount authorized, $10,000,000; amount issued, $2,000,000; sold at par; interest 5 per cent., payable annually; final redemption, 1797.

HOLLAND LOAN OF 1790.

The act of August 4, 1790 (1 Statutes, 139, section 2), authorized a loan of not exceeding $12,000,000, to be applied to paying, in whole or in part, the foreign debt of the United States. The rate of interest was not limited. No contract was to be made which should preclude the government from reimbursing the loan within 15 years. The act of August 12, 1790 (1 Statutes, 187, section 4), authorized a loan of not exceeding $2,000,000, at not exceeding 5 per cent. interest, to be applied to the purchase of the debt of the United States.

Length of loan, 10 to 15 years; payable in annual installments from February 1, 1800; amount authorized, $14,000,000; amount issued, $1,200,000; sold at 95½ per cent.; interest, 5 per cent., payable annually; final redemption, 1804.

DEBT DUE FOREIGN OFFICERS.

The authority for the issue of these certificates is found in a resolution of Congress, dated January 22, 1784 (Journals of Congress, vol. iv, p. 330), based upon the report of a committee appointed, in response to an appeal from, and in behalf of, certain foreign officers, serving in the Continental army, during the Revolutionary War, authorizing the superintendent of finance to take order for paying these officers such sums, on account of their pay, as might be necessary to relieve their then present embarrassments, and enable those in America to return to their native country. The act of May 8, 1792 (1 Statutes, 282), authorized the redemption of these certificates.

Length of loan, indefinite; redeemable as per contract; amount authorized, indefinite; amount issued, $186,988 78; sold at par; interest, 6 per cent., payable annually; final redemption, 1828.

The principal and interest of these certificates were payable in Paris, at the house of Monsieur F. Grand, and it was so expressed upon their face.

TEMPORARY LOAN OF 1789.

This loan was made upon the authority of the Secretary of the Treasury. The money was obtained from the Bank of New York and the Bank of North America, to meet expenses incurred at the beginning of the present government of the United States. The secretary says (American State Papers, "Finance," vol. i, p. 38): "Obvious considerations dictate the propriety, in future cases, of making previous provision by law for such loans as the public exigencies may call for, defining their extent and giving special authority to make them."

Length of loan, temporary; redeemable as per contract; amount issued, $191,608 81; sold at par; interest, 6 per cent., payable as per contract; final redemption, June 8, 1790.

* This includes an overcharge of $8 81 in the interest account.

By the terms of the contract with the Bank of New York these advances were repayable out of the first moneys which accrued, in the state of New York, from the duties on imports and tonnage. The same terms were made with the Bank of North America for repayment out of the first moneys which accrued, in the state of Pennsylvania, from a like source. This is believed to be the only loan ever negotiated by the Treasury Department without authority of law.

TEMPORARY LOAN OF 1790.

The act of March 26, 1790, section 7 (1 Statutes, 105), authorized the making of such loans as might be requisite to carry into effect the appropriations made by the preceding sections of the same act, and the revenues derived from duties on imports and tonnage were pledged for their repayment.

Length of loan, indefinite; redeemable as per contract; amount authorized, indefinite; amount issued, $55,000; sold at par; interest, 6 per cent., payable at maturity; final redemption, May 22, 1790.

The contract for this loan, providing for its repayment upon similar terms as the preceding loan from the Bank of New York, was approved by the President March 31, 1790.

SIX PER CENT., THREE PER CENT., AND DEFERRED SIX PER CENT. STOCKS OF 1790.

The act of August 4, 1790 (1 Statutes, 138), provided for funding the revolutionary or domestic debt. Section 3 directed that a loan to the full amount of the debt be proposed and that the subscriptions be payable in the certificates and indents of interest issued under the authority of the Continental Congress. Section 4 directed that for two-thirds of the amount subscribed and paid in the principal of the domestic debt, certificates be issued bearing 6 per cent. interest per annum, payable quarterly, the United States to have the right to redeem said certificates by payments not exceeding 8 per cent. in each year on account of both principal and interest. Section 13 proposed a loan of $21,500,000, subscriptions to be payable in the certificates or notes issued by the respective states. For two-thirds of any sum subscribed and paid in these certificates or notes, a certificate was to be issued purporting that the United States owe to the holder a sum equal to two-thirds of the aforesaid two-thirds, bearing 6 per cent. interest per annum, payable quarterly, and subject to redemption by payments not exceeding 8 per cent. per annum, principal and interest. (This stock is known as the "Six per cent. stock of 1790".)

Sections 4 and 15 of the same act directed that for one-third of the amount subscribed and paid in certificates issued under the authority of the Continental Congress, and for two-ninths of the amount subscribed and paid in certificates or notes issued by the several states, certificates of stock should be issued bearing interest at 6 per cent. after the year 1800, and subject to redemption by payment not exceeding in one year 8 per cent. on account of both principal and interest. (This stock is known as the "Deferred 6 per cent. stock of 1790".)

Sections 4 and 15 of the same act also directed that for one-third of the amount subscribed and paid in indents of interest issued by authority of the Continental Congress, or in certificates or notes issued by the several states, certificates should be issued bearing an interest of 3 per cent. per annum, payable quarterly, and subject to redemption whenever provision should be made by law for that purpose. (This stock is known as the "Three per cent. stock of 1790".) (See also page 111, *post*.)

Length of loan, indefinite; redeemable as provided for by law; amount authorized, indefinite; amount issued, $64,456,963.90; sold at par; interest, 3 and 6 per cent., as above; payable quarterly. Amount outstanding June 30, 1880, included under the title of "old debt".

*See "Notes to Recapitulation"—C, post.

The 7th section of the act of May 8, 1792 (1 Statutes, 283), provided that the interest on so much of the debt of the United States as had been or should be purchased or redeemed, or paid into the treasury in satisfaction of any debt or demand, and the surplus of any sum appropriated for the payment of interest on the public debt, after the payment of such interest, should be appropriated for and to the purchase and redemption of the said debt, to be applied under the direction of the commissioners of the sinking fund: First, to the purchase of the several species of stock constituting the debt of the United States, at their respective market prices not exceeding par, and as nearly as might be in equal proportions, until the annual amount of the said funds, together with any other provisions made by law, should be equal to 2 per cent. of the whole amount of outstanding funded stock bearing a present interest of 6 per cent. Thenceforth, secondly, to the redemption of the said last-mentioned stock, according to the right for that purpose reserved to the United States, until the whole should be redeemed. And, lastly, after such redemption, to the purchase, at market price, of any other stock of the United States remaining unredeemed. All purchases to be made at the lowest price at which the same could be obtained, either by open purchase, or by receiving sealed proposals, to be opened in the presence of the commissioners, or persons authorized by them to make purchases, and the persons making such proposals.

The 8th section of the act of March 3, 1795 (1 Statutes, 434), provided that the following appropriations be made to the fund constituted by section 7 of the act of May 8, 1792, to be thereafter denominated "The Sinking Fund": First, so much of the duties on imports, tonnage, spirits distilled within the United States, and stills, as, together with the moneys constituting said fund, or accruing to it by virtue of provisions before made, and the interest upon each installment which should be reimbursed, would be sufficient yearly and every year, commencing January 1, 1796, to reimburse and pay so much as might rightfully be reimbursed and paid of the principal of that part of the debt which on the 1st of January, 1796, should bear an interest of 6 per cent. per annum, redeemable by payments on account both of principal and interest, not exceeding in one year 8 per cent. Second, the dividends from time to time declared on stock in the Bank of the United States belonging to the United States (deducting therefrom the sum requisite to pay the interest on any part remaining unpaid of the loan of $2,000,000 borrowed of the Bank of the United States under the authority of section 11 of the act of February 25, 1791). Third, so much of the duties on imports, tonnage, etc., as, with the said dividends after such deduction, would be sufficient, yearly and every year, to pay the remaining installments of the principal of said loan as they should become due, and as, together with any moneys which, by virtue of former acts, should on the 1st of January, 1802, belong to the sinking fund not otherwise specially appropriated, and with the interest on each installment or part of principal, which should from time to time be reimbursed or paid of that part of the debt which on the 1st of January, 1801, began to bear interest at 6 per cent. per annum would be sufficient yearly and every year, commencing January 1, 1802, to reimburse so much as might rightfully be reimbursed and paid of the said debt. Fourth, the net proceeds of the sales of lands belonging to the United States in the western territory. Fifth, all moneys which should be received into the treasury on account of debts due the United States by reason of any matter prior to their present constitution. And, lastly, all surplus revenues of the United States remaining at the end of any calendar year beyond the appropriations charged against them, and which during the session of Congress next thereafter should not be otherwise specially appropriated or reserved by law. The following is a statement of the amount of 6 per cent., deferred 6 per cent., and 3 per cent. stocks, transferred to the United States in payment for public lands, under the provisions of the acts of May 8, 1792, March 3, 1795, and March 3, 1797:

Year.	6 per cent.	Deferred 6 per cent.	3 per cent.	Total.

SUBSCRIPTION LOAN OF 1791.

The act of February 25, 1791, section 11 (1 Statutes, 196), authorized the making of a subscription of $2,000,000 to the capital stock of the Bank of the United States, the same to be paid out of the money which should be borrowed by virtue of the act of August 4, 1790 (1 Statutes, 138), and the act of August 12, 1790 (1 Statutes, 186), and also authorized the borrowing from the bank of an equal sum to be applied to the purposes for which the said money was procured. The rate of interest was not limited, and the loan was made reimbursable in ten years, by equal annual installments, or sooner or in greater proportions, as the government might think proper.

Length of loan, indefinite; redeemable in ten years by equal annual installments; amount authorized, $2,000,000; amount issued, $2,000,000; sold at par; interest, 6 per cent., payable semi-annually; final redemption, December 31, 1801.

For a copy of the contract for this loan see American State Papers, "Finance," vol. i, p. 278. The interest on $1,000,000 commenced December 20, 1791, and upon the remaining $1,000,000 July 1, 1792.

TEMPORARY LOAN FROM BANK OF NORTH AMERICA.

The act of March 3, 1791, section 16 (1 Statutes, 224), authorized the making of a loan of $312,686 20, or such portion thereof as should be necessary to satisfy the appropriations made by the same act, for defraying the expenses of certain military forces in the service of the United States. The rate of interest was not to exceed 6 per cent. per annum, and the reimbursement was charged to moneys which, prior to January 1, 1792, should accrue from certain specified duties, and the faith of the United States was pledged to make good any deficiency.

Length of loan, indefinite; redeemable as per contract; amount authorized, $312,686 20; amount issued, $156,595 56; sold at par; interest, none; final redemption, December 21, 1793.

This loan was made without interest, in consideration of the advantages gained by the bank in having a large amount of bills of exchange on Amsterdam remaining on deposit.

TEMPORARY LOAN OF 1792.

The act of May 2, 1792, section 16 (1 Statutes, 262), authorized the making of a loan of $523,500, the reimbursement of which was charged to the surplus of duties imposed by the same act. The rate of interest was not to exceed 5 per cent. per annum, and the principal was made reimbursable at the pleasure of the government. The moneys derived from this loan to be applied towards carrying into execution the act entitled "An act for making further and more effectual provision for the protection of the frontiers of the United States" (1 Statutes, 241).

Length of loan, indefinite; redeemable at the pleasure of the government; amount authorized, $523,500; amount issued, $400,000; sold at par; interest, 5 per cent., payable semi-annually; final redemption, December 31, 1796.

Total					400,000 00

The interest accruing to January 1, 1793, was made payable on that day, and thenceforth July 1 and January 1 of each year.

TEMPORARY LOAN OF 1793.

The act of February 28, 1793, section 3 (1 Statutes, 328), authorized the making of a loan of $800,000 for defraying the expenses of certain appropriations made by the same act. The reimbursement was charged to the surplus of the duties on imports and tonnage to the end of the year 1793. The rate of interest was not to exceed 5 per cent. per annum, and the loan was made reimbursable at the pleasure of the government.

Length of loan, indefinite; redeemable at the pleasure of the government; amount authorized, $800,000; amount issued, $800,000; sold at par; interest, 5 per cent., payable semi-annually; final redemption, June 11, 1794.

The interest on this loan commenced October 8, 1794.

TEMPORARY LOAN OF MARCH, 1794.

The act of March 20, 1794, chapter viii (1 Statutes, 345), authorized the making of a loan of $1,000,000, to be applied to such public purposes as were authorized by law. The reimbursement was charged to the revenues from duties on imports and tonnage to the end of the year 1794. The rate of interest was not to exceed 5 per cent. per annum, and the loan was made reimbursable at the pleasure of the government.

Length of loan, indefinite; redeemable at the pleasure of the government; amount authorized, $1,000,000; amount issued, $1,000,000; sold at par; interest, 5 per cent., payable semi-annually; final redemption, January 1, 1795.

Total					1,000,000 00

This loan commenced to bear interest as follows: April 1, on $400,000; May 1, on $200,000; June 1, on $200,000; and July 1, 1794, on $200,000.

TEMPORARY LOAN OF JUNE, 1794.

The act of June 9, 1794, section 2 (1 Statutes, 395), authorized the making of a loan of $1,000,000, to be applied to public purposes specified in said act. The payment of interest and reimbursement was charged to revenues to be provided during that session of Congress.

Length of loan, indefinite; redeemable within one year; amount authorized, $1,000,000; amount issued, $1,000,000; sold at par; interest, 5 per cent., payable semi-annually; final redemption, April 1, 1795.

REDEMPTIONS.

1795		$1,000,000 00			$1,000,000 00
Total					1,000,000 00

The interest on this loan commenced July 1, 1794.

TEMPORARY LOAN OF DECEMBER, 1794.

The act of December 18, 1794, section 1 (1 Statutes, 404), authorized the making of a loan of $2,000,000, the same to be applied to such public purposes as were authorized by law. The reimbursement was charged to the revenues from duties on imports and tonnage to the end of the year 1795. The rate of interest was not to exceed 5 per cent. per annum, and the loan was made reimbursable at the pleasure of the government.

Length of loan, indefinite; redeemable at the pleasure of the government; amount authorized, $2,000,000; amount issued, $2,000,000, sold at par; interest, 5 per cent., payable semi-annually; final redemption, September 27, 1805.

The time for the redemption of this loan was extended by mutual agreement. Interest commenced, on $1,000,000, January 1, and on the remaining $1,000,000, April 1, 1795.

TEMPORARY LOAN OF FEBRUARY, 1795.

The act of February 21, 1795 (1 Statutes, 418), authorized the making of a loan of $800,000, to be applied to the purposes set forth in two acts entitled: "An act making further provisions for the expenses attending the intercourse of the United States with foreign nations" (1 Statutes, 345) and "An act providing the means of intercourse between the United States and foreign nations" (1 Statutes, 128). The reimbursement was charged upon the revenues of certain duties specified in this act.

Length of loan, indefinite; redeemable at the pleasure of the government; amount authorized, $800,000; amount issued, $800,000; sold at par; interest, 6 per cent., payable quarterly; final redemption, October 17, 1803.

The interest on this loan commenced January 1, 1795.

TEMPORARY LOAN OF MARCH, 1795, *A*.

The act of March 3, 1795, section 1 (1 Statutes, 433), authorized the making of discretionary loans by the commissioners of the sinking fund, with the approval of the President, not exceeding in one year $1,000,000, to be applied to the payment of interest on the public debt. The reimbursement was charged to sundry revenues from duties specified, of which these loans were hypothecations. The interest was not to exceed 6 per cent. per annum, and each loan was to be reimbursed within one year from its date. By section 4, the interest and principal of these loans were payable at the United States treasury alone.

Length of loan, 1 year; redeemable January 1, 1797, or sooner, by giving one month's notice; amount authorized, $1,000,000; amount issued, $500,000; sold at par; interest, 6 per cent., payable semi-annually; final redemption, September 27, 1805.

The time for the redemption of this loan was extended by mutual agreement. For copy of the contract see American State Papers, "Finance," vol. ii, p. 372. Interest commenced January 1, 1796.

TEMPORARY LOAN OF MARCH, 1795, *B.*

The act of March 3, 1795, section 6 (1 Statutes, 439), authorized the making of a loan of $1,469,439 29, to be applied to the liquidation of certain appropriations made by the act. The reimbursement was charged to specific revenues named in section 5. The rate of interest and the time of reimbursement were not specified.

Length of loan, 1 year; redeemable as per contract; amount authorized, $1,469,439 29; amount issued, $500,000 sold at par; interest, 6 per cent., payable semi-annually; final redemption, June 30, 1802.

The interest on this loan commenced October 1, 1795.

FIVE AND ONE-HALF PER CENT. STOCK OF 1795.

The act of March 3, 1795, section 2 (1 Statutes, 433), authorized the opening of a loan to the full amount of the foreign debt, for which it was exchangeable and which it was intended to replace. The interest was fixed at a rate of one-half per cent. in excess of the rate already borne by such debt, to commence on the 1st day of January next succeeding each subscription. The interest and reimbursement were charged to certain revenues from duties specified in the act, and the loan made reimbursable at the pleasure of the government.

Length of loan, indefinite; redeemable at the pleasure of the government; amount authorized, total of foreign debt; amount issued, $1,848,900; sold at par; interest, 5½ per cent., payable quarterly; final redemption, March 31, 1815.

*This amount was transferred to the government, in payment for public lands, April 1, 1797.

This stock having been issued for the purpose of paying off the balance due on the French loans of eighteen and six million livres, no money ever came into the treasury on this account, and the money for completing its redemption was provided from the general funds in the treasury, and advanced to the commissioners of the sinking fund in 1806. For this reason, a statement of the public debt, made up from the receipts and expenditures, cannot be correct, unless the amount issued on account of this stock is added to the receipt side, and a like course pursued with regard to all stocks of a similar character. This stock commenced to bear interest January 1, 1796.

FOUR AND ONE-HALF PER CENT. STOCK OF 1795.

The act of March 3, 1795, section 2 (1 Statutes, 433), authorized the opening of a loan to the full amount of the foreign debt, for which it was exchangeable and which it was intended to replace. The interest was fixed at a rate of one-half per cent. in excess of the rate already borne by such debt, to commence on the 1st day of January next succeeding each subscription. The interest and reimbursement were charged to certain revenues from duties specified in the act, and the loan made reimbursable at the pleasure of the government.

Length of loan, indefinite; redeemable at the pleasure of the government; amount authorized, total of foreign debt; amount issued, $176,000; sold at par; interest, 4½ per cent., payable quarterly; final redemption, September 30, 1808.

This stock having been issued for the purpose of paying off the balance due on the French loan of ten million livres, no money ever came into the treasury on this account, and the money for its redemption was provided from the general funds in the treasury, and advanced to the commissioners of the sinking fund in September, 1807. This stock commenced to bear interest January 1, 1796.

TEMPORARY LOAN FROM BANK OF NEW YORK.

The act of May 31, 1796 (1 Statutes, 488), authorized "the commissioners of the sinking fund, with the approbation of the President of the United States, to borrow or cause to be borrowed, on the credit of the United States, any sum not exceeding five million of dollars, to be applied to the payment of the capital or principal of any parts of the public debt now due or to become due during the course of the present year, to the Bank of the United States, or to the Bank of New York, or for any installment of foreign debt".

Length of loan, one year; redeemable, as per contract; amount authorized, $5,000,000; amount issued, $320,000; sold at par; interest, 6 per cent., payable semi-annually; final redemption, November 14, 1797.

The interest on this loan commenced July 1, 1796.

TEMPORARY LOAN OF 1798.

The act of March 3, 1795, section 10 (1 Statutes, 435), authorized the commissioners of the sinking fund, with the approval of the President, to borrow the sums requisite for the payment of the installments of the principal of the public debt as provided for by the same act. The reimbursement was charged to certain revenues from duties specified. The interest was not to exceed 6 per cent. per annum, and the loans made reimbursable at the pleasure of the government.

Length of loan, 4 years; redeemable January 1, 1803; amount authorized, $1,000,000; amount issued, $200,000; sold at par; interest, 6 per cent., payable semi-annually (July and January); final redemption, September 27, 1805.

SIX PER CENT. STOCK OF 1796.

The act of May 31, 1796 (1 Statutes, 488), authorized a loan of $5,000,000, to be applied to the payment of the principal of the public debt. The reimbursement was charged to certain specified revenues. The rate of interest was fixed at 6 per cent., payable quarterly, and the loan made reimbursable at the pleasure of the government after December 31, 1819. Credits in the same manner as for the domestic funded debt were authorized, with the issue of scrip certificates. A proviso was inserted regulating the price of the stock, forbidding the sale of but one moiety below par.

Length of loan, 23 years; redeemable after December 31, 1819; amount authorized, $5,000,000; amount issued, $80,000; sold at 87½ per cent.; interest, 6 per cent., payable quarterly; final redemption, July 2, 1822.

*This stock was sold through the agency of the Bank of New York to the New York Insurance Company, March 1, 1797, at seventeen shillings and sixpence to the pound, one-half payable in cash, the other half in sixty days, (see American State Papers, "Finance," vol. i, p. 502).

NAVY SIX PER CENT. STOCK.

The act of June 30, 1798 (1 Statutes, 575), authorized the President of the United States to accept, on behalf of the said States, from any person or persons who should offer and undertake to complete, provide, and deliver the same, to the use and upon the credit of the United States, a certain number of vessels, not exceeding twelve above the number already authorized, then building or to be built within the United States; and he was further empowered to cause proper certificates of indebtedness so incurred to be made and given at the Treasury Department. The rate of interest was not to exceed 6 per cent., and the stock was made reimbursable at the will of Congress.

Length of loan, indefinite; redeemable at the will of Congress; amount authorized, limited to cost of certain vessels; amount issued, $711,700; sold at par; interest, 6 per cent., payable quarterly; outstanding June 30, 1880, $100.*

This stock having been issued in payment for sundry vessels built for naval purposes, no money ever came into the treasury on this account, and the money for its redemption was provided from the general funds in the treasury, and advanced to the commissioners of the sinking fund in 1806.

EIGHT PER CENT. LOAN OF 1798.*

The act of July 16, 1798 (1 Statutes, 607), authorized the making of a loan of $5,000,000, to be applied to making good deficiencies in appropriations made during that session of Congress, and defraying expenses incurred by calling into service the military forces of the United States. It was provided that no engagement or contract should be entered into which would preclude its reimbursement at any time after fifteen years from the date of the loan. The payment of interest and reimbursement of the principal were charged to the surplusage of certain duties on imports and tonnage, and the faith of the United States was pledged to make good any deficiency.

Length of loan, 15 years; redeemable after 15 years; amount authorized, $5,000,000; amount issued, $5,000,000; sold at par; interest 8 per cent., payable quarterly.

*For redemption of this loan, see "Eight per cent. loan of 1800".

EIGHT PER CENT. LOAN OF 1800.

The act of May 7, 1800 (2 Statutes, 60), authorized the making of a loan of $3,500,000, to be applied to making good deficiencies in appropriations made during that session of Congress, and defraying expenses incurred by calling into service the military forces of the United States. It was provided that no engagement or contract should be entered into which would preclude its reimbursement at any time after fifteen years from the date of the loan. The payment of interest and reimbursement of the principal were charged to the surplusage of certain duties on imports and tonnage, and the faith of the United States was pledged to make good any deficiency.

Length of loan, 15 years; redeemable after 15 years; amount authorized, $3,500,000; amount issued, $1,481,700; sold at an average premium of nearly 5¾ per cent.; interest, 8 per cent.; payable quarterly; outstanding June 30, 1880, $500.

*These amounts were transferred to the government in payment for public lands.
†Unsettled account in Pennsylvania loan office.
‡Unsettled account in Bank of Columbia, District of Columbia.

The redemption accounts of the eight per cent. loans of 1798 and 1800, authorized by the acts above referred to, have been merged in this statement on account of the loss of a portion of the earlier records relating to their redemption as separate loans. Proposals for the eight per cent. loan of 1798 were invited January 12, 1799 (New York Commercial Advertiser, January 19, 1799). In 1807 the commissioners of the sinking fund purchased $866,700 of these stocks at various rates from 101¾ to 103½, the premium amounting to $23,820 75. In 1808 they purchased $190,000, at rates ranging from 101 to 102½, the premium amounting to $3,100 75. On these purchases they allowed a broker's commission of one-fourth of one per cent., amounting to $2,641 75. Included in the above statement for the year 1808 is the sum of $200, redeemed on bonds of indemnity in this amount for certificates lost before being funded. The redemption of these certificates was authorized by act of March 11, 1808 (6 Statutes, 71), and in the Receipts and Expenditures for that year the transaction is erroneously reported as an expenditure on account of "Miscellaneous claims" (Receipts and Expenditures, 1808, pp. 56, 57).

The $1,000 excess of redemptions is accounted for by the fraudulent overissue of this amount in the eight per cent. loan of 1798, for a full explanation of which see remarks on this loan in Part I. In 1836 the sum of $500 was repaid into the treasury by the New York loan office, on account of moneys advanced for the redemption of this stock, and this amount still remains as outstanding, being included in the public debt statement under the title of "Old debt."

LOUISIANA SIX PER CENT. STOCK.

The act of November 10, 1803 (2 Statutes, 245), authorized the issue of certificates of stock to the amount of $11,250,000, the same to be paid over to the French government, in conformity with the provisions of the treaty of April 30, 1803, by which Louisiana was ceded to the United States. The reimbursement of the principal and payment of the interest were charged upon the commissioners of the sinking fund. No special revenues were appropriated or charged for the reimbursement. The stock was made reimbursable in four equal annual installments, and the rate of interest fixed at 6 per cent. per annum. The certificates of stock were made transferable only on the books of the Treasury Department.

Length of loan, 15 years; redeemable, in four equal annual installments, in 1818, '19, '20, '21; amount authorized, $11,250,000; amount issued, $11,250,000; sold at par; interest, 6 per cent., payable quarterly; final redemption, October 23, 1823.

This stock having been issued to the French government, in part payment for Louisiana, no money was ever received into the treasury on this account, and the money for its redemption was provided from the general funds in the treasury.

In 1812 the commissioners of the sinking fund purchased $179,300 of this stock, at rates varying from 96¾ to 99¾ per cent., the discount amounting to $3,326. In 1813 they purchased $147,200, at from 99¼ to 99½ per cent., the discount amounting to $1,196. In 1817 they purchased $631,800, at from 99¼ per cent. to par, the discount amounting to $37 50. In 1818 they purhased $335,800, at from 97 per cent. to par, the discount amounting to $3,697 50. A broker's commission of one-fourth of one per cent. was allowed on these purchases.

EXCHANGED SIX PER CENT. STOCK OF 1807.

The act of February 11, 1807, section 2 (2 Statutes, 415), authorized the creation of a stock equal to the unredeemed amount of old 6 per cent. and deferred stocks, for which it was exchangeable. The rate of interest was fixed at 6 per cent. per annum, payable quarterly, and the stock made reimbursable, at the pleasure of the government, after six months' previous public notice. The payments of interest and reimbursement were charged upon the funds already pledged for the payment of the old 6 per cent. and deferred stocks.

Length of loan, indefinite; redeemable, after six months' public notice; amount authorized, equal to unredeemed old 6 per cent. and deferred stocks; amount issued, $6,294,051 12; sold at par; interest, 6 per cent., payable quarterly.

*Of this amount $700 was transferred to the government in payment for public lands.

† This balance was transferred to the Bank of Columbia, District of Columbia, acting as loan agents, May 14, 1824 (see Aux. Ledger, p. 558).

This stock having been issued in exchange for the unredeemed portion of the "6 per cent. stock of 1790" of the nominal amount of $7,435,767 61, and the unredeemed portion of "deferred 6 per cent. stock" of the nominal amount of $1,940,672 01, no money ever came into the treasury on this account, and the money for its redemption was provided from the general funds in the treasury. In 1807 the commissioners of the sinking fund purchased $300,007 62 of this stock, at rates varying from 96 to 99 per cent., the discount amounting to $6,553 40, on which they allowed a broker's commission of one-fourth of one per cent.

CONVERTED SIX PER CENT. STOCK OF 1807.

The act of February 11, 1807, section 3 (2 Statutes, 416), authorized the creation of a stock equal to the unredeemed amount of 3 per cent. stock, for which it was convertible, at 65 per cent. of said stock so converted. The rate of interest was fixed at 6 per cent. per annum, payable quarterly, and the stock made reimbursable, at the pleasure of the government, after six months' previous public notice. The payments of interest and reimbursement were charged upon the funds already pledged for the payment of the 3 per cent. stock.

Length of loan, indefinite; redeemable, at pleasure of the government; amount authorized, equal to unredeemed 3 per cent. stock; amount issued, $1,859,850 70; converted at 65 per cent.; interest, 6 per cent., payable quarterly; final redemption, May 5, 1829.

* This amount was transferred to the government in payment for public lands.

This stock having been issued in exchange for $2,861,309 15 "three per cent. stock of 1790", no money ever came into the treasury on this account, and the money for its redemption was provided from the general funds in the treasury.

SIX PER CENT. LOAN OF 1810.

The act of May 1, 1810 (2 Statutes, 610), authorized the creation of a loan not to exceed in amount the sum of the principal of the public debt reimbursable during the current year, at a rate of interest not exceeding 6 per cent. per annum, payable quarterly, and reimbursable at such time as should be stipulated by contract, not to exceed six years from January 1, 1811. No stock was to be sold under par. By section 2 the 6 per cent. stock of 1807 was made exchangeable for this, and a preference was given to the holders in the subscriptions to this loan. The payments of interest and reimbursement were charged upon the sinking fund, and the faith of the United States pledged to make good any deficiencies.

Length of loan, 1 year; redeemable on or before December 31, 1811; amount authorized, not to exceed the amount of the principal of the debt reimbursable in 1810; amount issued, $2,750,000; sold at par; interest, 6 per cent., payable quarterly; final redemption, September 1, 1811.

SIX PER CENT. LOAN OF 1812.

The act of March 14, 1812 (2 Statutes, 694), authorized the making of a loan of $11,000,000, and the issue of certificates therefor, for the purpose of defraying expenses for which appropriations were made during that session of Congress. The rate of interest was not to exceed 6 per cent., and the payment of interest and reimbursement of the principal were charged upon the sinking fund. The act provided that no stock should be sold under par, and that no engagement or contract should be entered into which would preclude the United States from reimbursing this loan at any time after January 1, 1825.

Length of loan, 12 years; redeemable after January 1, 1825; amount authorized, $11,000,000; amount issued, $8,134,700; sold at par; interest, 6 per cent., payable quarterly; final redemption, March 12, 1833.

Proposals for this loan were invited March 31, 1812 (American State Papers, "Finance," vol. ii, p. 565). In 1812 the commissioners of the sinking fund purchased $60,400 of this stock at from 99½ to 99¾ per cent., the discount amounting to $276. In 1813 they purchased $263,800 at from 98¾ to 1.01 per cent., the discount amounting to $1,769. In 1817 they purchased $1,603,997 88 at various rates, the discount amounting to $2,309 08.

TEMPORARY LOAN OF 1812.

The act of March 14, 1812 (2 Statutes, 694), authorized the making of a loan of $11,000,000, and the issue of certificates therefor, for the purpose of defraying expenses for which appropriations were made during that session of Congress. The rate of interest was not to exceed 6 per cent., and the payment of interest and reimbursement of the principal were charged upon the sinking fund. The act provided that no stock should be sold under par, and that no engagement or contract should be entered into which would preclude the United States from reimbursing the money borrowed at any time after January 1, 1825.

Length of loan, irregular; redeemable at various dates, according to contract; amount authorized, $11,000,000; amount issued, $2,150,000; sold at par; interest, 6 per cent., payable quarterly; final redemption, June 28, 1817.

TREASURY NOTES OF 1812.

The act of June 30, 1812 (2 Statutes, 766), authorized the issue of treasury notes, not to exceed $5,000,000, the same to be applied in payment for supplies or debts due by the United States. The rate of interest was fixed at 5⅔ per cent., and the notes were made reimbursable one year from date of issue. The notes were made transferable by delivery and assignment, and were receivable in payment of all duties and taxes laid by the United States, and for all public lands sold. The reimbursement of the principal and payment of interest were charged upon the sinking fund.

Length of loan, 1 year; redeemable 1 year from date; amount authorized, $5,000,000; amount issued, $5,000,000; sold at par; interest, 5⅔ per cent., payable on redemption.

EXCHANGED SIX PER CENT. STOCK OF 1812.

The act of July 6, 1812 (2 Statutes, 783), authorized a subscription to the full amount of the old 6 per cent. and deferred stocks and the issue of certificates exchangeable for the unredeemed amount of the principal of such stocks. The rate of interest was fixed at 6 per cent. per annum, payable quarterly, from the first day of the quarter in which subscriptions were made. The stock was made redeemable at any time after December 31, 1824, provided that no reimbursement should be made except for the whole amount credited to any proprietor, and after six months' previous public notice of such intended reimbursement. The payment of interest and reimbursement of the principal were charged to the sinking fund.

Length of loan, 12 years; redeemable after December 31, 1824; amount authorized, the full amount of old 6 per cent. and deferred stocks; amount issued, $2,984,746 72; sold at par; interest, 6 per cent., payable quarterly; final redemption, February 10, 1827.

Total					2,984,746 72

This stock having been issued in exchange for the unredeemed portion of the "6 per cent. stock of 1790" of the nominal amount of $3,455,731 81, and the unredeemed portion of deferred 6 per cent. stock of the nominal amount of $2,345,156 58, no money ever came into the treasury on this account, and the money for its redemption was provided from the general funds in the treasury. In 1817 the commissioners of the sinking fund purchased $315,637 73 of this stock at rates varying from 99 per cent. to par, the discount amounting to $1,050.

SIXTEEN MILLION LOAN OF 1813.

The act of February 8, 1813 (2 Statutes, 798), authorized the making of a loan of $16,000,000, to be applied to defraying any public expenses authorized by law for which appropriations were made. It was provided that no engagement or contract should be entered into which would preclude its reimbursement after January 1, 1826. A commission of one-fourth of one per cent. was allowed to agents. The payment of interest and reimbursement of the principal were charged to the sinking fund, and the faith of the United States pledged to establish sufficient revenues to make good any deficiency.

Length of loan, 13 years; redeemable after January 1, 1826; amount authorized, $16,000,000; amount issued, $18,109,377 43; sold at 88 per cent.; interest, 6 per cent., payable quarterly; outstanding June 30, 1880, $46 39.

*Included in the public debt statement, under the title of "Old debt".

Proposals for this loan were invited February 20, 1813; a commission of one-fourth of one per cent. was allowed on subscriptions amounting to $100,000 (American State Papers, "Finance," vol. ii, p. 625). In 1817 the commissioners of the sinking fund purchased $2,580,943 68 of this stock at par, and $6,160 94 at a discount of $61 61. In 1819 they purchased $1,136 36 at par. The brokerage on these purchases amounted to $18 09. The amount redeemed in 1822 was exchanged for 5 per cent. stock issued under the act of April 20, 1822. The amount redeemed in 1824 and 1825 was exchanged for 4½ per cent. stock issued under the act of May 26, 1824. The amount redeemed in 1826 was exchanged for 4½ per cent. stock issued under the act of March 3, 1825. The interest on $2,740,423 91 ceased July 1, 1828, public notice having been given by the Secretary of the Treasury, on the 15th of April preceding, of his readiness to redeem this sum at that date. A difference of $2 73 in the amount of stock issued, from the true sum calculated at 88 per cent., was caused by slight variations in the certificates of stock in small amounts issued at different offices.

TREASURY NOTES OF 1813.

The act of February 25, 1813 (2 Statutes, 801), authorized the issue of treasury notes, not to exceed $5,000,000, to be applied in payment for supplies, or debts due by the United States, or for the purpose of borrowing money. The rate of interest was fixed at 5⅔ per cent., and the notes made reimbursable one year from date of issue. The notes were made transferable by delivery and assignment, and were receivable in payment of all duties and taxes laid by the United States, and for public lands sold by the same authority. A commission of one-fourth of one per cent. was allowed to agents. The reimbursement of the principal and payment of interest were charged upon the sinking fund.

Length of loan, 1 year; redeemable 1 year from date; amount authorized, $5,000,000; amount issued, $5,000,000; sold at par; interest, 5⅔ per cent., payable on redemption.

SEVEN AND ONE-HALF MILLION LOAN OF 1813.

The act of August 2, 1813 (3 Statutes, 75), authorized the making of a loan of $7,500,000, to be applied to defraying any expenses authorized by law for which appropriations were made. It was provided that no contract or agreement should be entered into which would preclude its reimbursement at any time after January 1, 1826. No stock was to be sold at a rate less than 88 per cent. A commission of one-fourth of one per cent. was allowed to agents. The payment of interest and reimbursement of the principal were charged to the sinking fund, and the faith of the United States was pledged to establish sufficient revenues to make good any deficiency.

Length of loan, 12 years; redeemable after January 1, 1826; amount authorized, $7,500,000; amount issued, $8,498,581 95; sold at 88¼ per cent.; interest, 6 per cent., payable quarterly; final redemption, August 2, 1845.

Proposals for this loan were invited August 30, 1813; a commission of one-eighth of one per cent. was allowed on subscriptions amounting to $100,000 (American State Papers, "Finance," vol. ii, p. 662). A difference of $1 62 in the amount of stock issued, from the true sum calculated at 88¼ per cent., was caused by slight variations in the certificates of stock in small amounts issued at different offices. In 1817 the commissioners of the sinking fund purchased $1,662,349 56 of this stock at par. The amount redeemed in 1822 was exchanged for 5 per cent. stock issued under the act of April 20, 1822. The amount redeemed in 1824 and 1825 was exchanged for 4½ per cent. stock issued under the act of May 26, 1824. The amount redeemed in 1826 was exchanged for 4½ per cent. stock issued under the act of March 3, 1825.

TREASURY NOTES OF MARCH, 1814.

The act of March 4, 1814 (3 Statutes, 100), authorized the issue of treasury notes, not to exceed $10,000,000, to be applied in payment for supplies, or debts due by the United States, or for the purpose of borrowing money. The rate of interest was fixed at 5⅔ per cent., and the notes made reimbursable one year from date of issue. The notes were made transferable by delivery and assignment, and were receivable in payment of all duties and taxes laid by the United States, and for public lands sold. A commission of one-fourth of one per cent. was allowed to agents. The reimbursement of the principal and payment of the interest were charged upon the sinking fund.

Length of loan, 1 year; redeemable 1 year from date; amount authorized, $10,000,000; amount issued, $10,000,000; sold at par; interest, 5⅔ per cent., payable on redemption.

TEN MILLION LOAN OF 1814.

The act of March 24, 1814 (3 Statutes, 111), authorized the making of a loan, not exceeding $25,000,000, for the purpose of defraying any expenses authorized by law during the year 1814 for which appropriations were made, and the issue of stock certificates, with interest payable quarterly, redeemable after the expiration of twelve years from December 31, 1814. Neither the rate of interest nor the price of stock was limited, and the reimbursement of the principal and payment of the interest were charged upon the commissioners of the sinking fund.

Length of loan, 12 years; redeemable after December 31, 1826; amount authorized, $25,000,000; amount issued, $9,919,476 25; sold at 80 per cent.; interest, 6 per cent., payable quarterly (January, April, July, and October); outstanding, June 30, 1880, $288 98.

*Included in the public debt statement, under the title of "Old debt".

In 1817 the commissioners of the sinking fund purchased $2,207 12 of this stock at 99 per cent., the discount amounting to $22 07, and $1,406,095 90 at par. The amount redeemed in 1822 was exchanged for 5 per cent. stock issued under the act of April 20, 1822. The interest on $2,256,039 21 ceased July 1, 1828, these bonds having been called in for redemption at that time, by circular-letter from the Secretary of the Treasury dated April 15, 1828.

SIX MILLION LOAN OF 1814.

The act of March 24, 1814 (3 Statutes, 111), authorized the making of a loan, not exceeding $25,000,000, for the purpose of defraying any expenses authorized by law during the year 1814 for which appropriations were made, and the issue of stock certificates, with interest payable quarterly, redeemable after the expiration of twelve years from December 31, 1814. Neither the rate of interest nor the price of stock were limited, and the reimbursement of the principal and payment of the interest were charged upon the commissioners of the sinking fund.

Length of loan, 12 years; redeemable after December 31, 1826; amount authorized, $25,000,000; amount issued, $5,384,134 87; sold at 80 per cent.; interest, 6 per cent., payable quarterly (January, April, July, and October); final redemption, August 15, 1834.

Total					5,384,134 87

This loan was advertised July 25, 1814. Proposals to be received until August 22, 1814. Deposits to be made with such banks as might be selected, if convenient to the treasury. Commissions of one-fourth of one per cent. were allowed on subscriptions of $25,000 or over. Scrip certificates, assignable by indorsement, were issued for deposits made. These certificates were fundable after full payment, or for the amount of any installment paid (after the payment of the next succeeding installment), on presentation to the commissioner of loans for the state in which the deposits were made. The accepted proposals were at the rate of eighty dollars in money for one hundred dollars in stock (Finance Report, 1814, pp. 538–540). The interest was calculated from mean dates fixed after payment of final installments (Comptroller's Circular, May 29, 1812).

Of this stock $250,000 was taken by six banks of Philadelphia, the money to be expended in the defense of that city; $675,000 by seven banks of Baltimore, on the same terms; and $1,100,009 87 by the corporation of New York city, the money to be expended for fortifications, supplies, &c., at New York (American State Papers, "Finance," vol. i, p. 917; Comptroller's Letter, February 14, 1815).

The cash received and covered into the treasury on account of this loan, in 1814, is stated at $3,452,300 (Receipts and Expenditures for 1814, p. 14). Deduct from this $150,000 received from the Baltimore committee of vigilance and safety on account of undesignated stock of 1814, but erroneously credited to this loan, and the result is $3,302,300, the true amount received in 1814. The cash received and covered in 1815 is stated at $1,123,320 12 (Receipts and Expenditures for 1815, p. 13). Add to this $50,000 received from the Planters' Bank of Savannah on account of this loan, but erroneously credited to temporary loan of November, 1814, and deduct $43,222 22 received from the Bank of Pennsylvania, $25,000 from the Bank of Columbia, and $100,000 from the Mechanic's Bank of Alexandria on account of undesignated stock of 1814, but erroneously credited to this loan, and the result is $1,005,007 90, the true amount received in 1815.

In 1817 the commissioners of the sinking fund purchased $350,000 of this stock at 99 per cent. and $976,354 10 at par. A commission of one-fourth of one per cent. was allowed agents on purchases. In 1822 $7,000 was redeemed by conversion into exchanged stock of 1822.

UNDESIGNATED LOAN OF 1814.

The act of March 24, 1814 (3 Statutes, 111), authorized the making of a loan, not exceeding $25,000,000, for the purpose of defraying any expenses authorized by law during the year 1814 for which appropriations were made, and the issue of stock certificates, with interest payable quarterly, redeemable after the expiration of twelve years from December 31, 1814. Neither the rate of interest nor the price of stock were limited, and the reimbursement of the principal and payment of the interest were charged upon the commissioners of the sinking fund.

Length of loan, 12 years; redeemable after December 31, 1826; amount authorized, $25,000,000; amount issued, $746,403 31; sold at from 80 to 95 per cent.; interest, 6 per cent., payable quarterly (January, April, July, and October); final redemption, August 15, 1834.

Total					746,403 31

The cash received and covered into the treasury in the year 1814, on account of this loan, was $150,000, which was subscribed by several corporations of Baltimore for the purpose of building a steam frigate for the defense of that port. This amount is erroneously included in a credit of $690,000 to the chairman of the vigilance committee, &c., on account of the "six million loan of 1814" (R. and Ex. for 1814, p. 14); deduct it from that account and add it to this to find the true amount received in 1814. The cash received and covered in 1815 is stated at $74,590 75 (R. and Ex. for 1815, p. 13). Add to this $43,222 22 received from Bank of Pennsylvania, $25,000 from Bank of Columbia, $100,000 from Mechanics' Bank of Alexandria, on account of this loan, but erroneously credited to the "six million loan of 1814" (R. and Ex. for 1815, p. 13), and $15,000 treasury notes of February 25, 1813, with accrued interest, $810 ($15,810), redeemed by conversion into this stock, and the result is $258,622 97, the true amount received in 1815. The cash received and covered in 1816 was $243,911 39, but this amount is erroneously credited to loan of $3,000,000 of November 15, 1814 (R. and Ex. for 1816, p. 13); deducted from that account and added to this gives the true amount received in 1816. In 1817 the commissioners of the sinking fund purchased $208,507 54 of this stock at par.

MISSISSIPPI STOCK.

The act of March 31, 1814 (3 Statutes, 116), authorized the issue of certificates of stock, not to exceed $5,000,000, the same to be applied to indemnify certain claimants of public lands in the Mississippi territory. The stock was to bear no interest, and was redeemable out of the first money in the treasury arising from the sale of said lands after certain money due and the expenses of surveying such lands should have been satisfied. The certificates were made receivable for other public lands at the rate of $95 in stock and $5 in cash for every hundred dollars to be paid for such other lands.

Length of loan, indefinite; redeemable as provided for by law; amount authorized, $5,000,000; amount awarded,* $4,282,151 12½; amount issued, $4,282,036 92; sold at par; interest, none; outstanding June 30, 1880, $871 78.

This stock having been issued in settlement of claims for certain lands, no money ever came into the treasury on this account. Stock amounting to $2,448,789 44 was transferred to the government in payment for public lands.

TEMPORARY LOAN OF 1814.

The act of November 15, 1814 (3 Statutes, 144), authorized the making of a loan of $3,000,000, to be applied to defray any expenses that should be authorized by law, and the issue of scrip certificates therefor. It was provided that no engagement or contract should be entered into which would preclude its reimbursement at any time after December 31, 1826. A commission of one-fourth of one per cent. was allowed to agents. The payment of the interest and reimbursement of the principal were charged upon the sinking fund.

Length of loan, indefinite; redeemable as per contract; amount authorized, $3,000,000; amount issued, $1,450,000; sold at par; interest, 6 to 7 per cent., payable annually; final redemption, September 16, 1816.

*$400,000 of this amount was borrowed at 7 per cent. interest and the balance of the loan at 6 per cent.

TREASURY NOTES OF DECEMBER, 1814.

The act of December 26, 1814 (3 Statutes, 161), authorized the issue of treasury notes, not to exceed $10,500,000; $7,500,000, in lieu of uneffected portions of the loans authorized by acts of March 24 and November 15, 1814, to be applied to the same uses, and a further sum of $3,000,000 to defray the expenses of the War Department for the current year. The rate of interest was fixed at 5$\frac{2}{3}$ per cent., and the notes were made reimbursable one year from date of issue, transferable by delivery and assignment, and receivable in payment of duties and taxes laid by the United States, and for public lands sold by the same authority. A commission of one-fourth of one per cent. was allowed to agents. The reimbursement of the principal and payment of interest were charged upon the sinking fund.

Length of loan, 1 year; redeemable 1 year from date; amount authorized, $10,500,000; amount issued, $8,318,400; sold at par; interest, 5$\frac{2}{3}$ per cent., payable on redemption.

DIRECT-TAX LOAN.

The act of January 9, 1815, section 42 (3 Statutes, 179), authorized the making of a loan of $6,000,000, in hypothecation of the direct tax laid by the same act. The rate of interest was not to exceed 6 per cent. per annum, and the money obtained was to be applied and appropriated to the payment of the public debt and other expenses of the government.

Length of loan, indefinite; redeemable upon receipt of direct tax; amount authorized, $6,000,000; amount issued, $200,000; sold at par; interest, 6 per cent.; final redemption, June 1, 1815.

TEMPORARY LOAN OF FEBRUARY, 1815.

The act of February 13, 1815 (3 Statutes, 205), authorized the making of a loan of $500,000, to be applied to repairing and rebuilding the President's house, Capitol, and other public offices on their present sites in the city of Washington. The rate of interest was not to exceed 6 per cent. per annum.

Length of loan, indefinite; redeemable as per contract; amount authorized, $500,000; amount issued, $225,000; sold at par; interest, 6 per cent., payable annually; final redemption, May 8, 1816.

SEVEN PER CENT. STOCK OF 1815.

The act of February 24, 1815 (3 Statutes, 213), authorized the issue of $25,000,000 in treasury notes of various denominations; notes of lower denominations than $100 to bear no interest, and to be transferable by delivery alone, and exchangeable at par for certificates of funded stock, redeemable after December 31, 1824, bearing interest at seven per cent. per annum, payable quarterly. The payment of interest and reimbursement of the principal were to be effected out of funds established by law for payment and reimbursement of funded public debts contracted since the declaration of war against Great Britain, and the faith of the United States was pledged to establish and appropriate sufficient revenues in addition to said fund, if necessary.

Length of loan, irregular; redeemable after December 31, 1824; amount authorized, $25,000,000; amount issued, $9,070,386; issued for treasury notes at par; interest, 7 per cent., payable quarterly (January, April, July, and October); outstanding June 30, 1880, $32 52.

* Included in the public debt statement, under the title of "Old debt".

The cash received and covered into the treasury on account of this loan in the year 1815 is stated at $5,432,543 (R. and Ex. for 1815, p. 15). Add to this $945 received on account of this loan, but erroneously credited to small treasury notes of 1815, and deduct $300,000 received on account of small treasury notes of 1815, but erroneously credited to this loan, and the result is $5,133,488, the true amount received in 1815. The cash received and covered in 1816 is stated at $3,842,804 (R. and Ex. for 1816, p. 14). Deduct from this $20 received on account of small treasury notes of 1815, but erroneously credited to this loan, and the result is $3,842,784, the true amount received in 1816.

The cash received and covered in each of the years from 1815 to 1820 (R. and Ex. for 1815, p. 15; 1816, p. 14; 1817, p. 13; 1818, p. 13; 1819, p. 13; 1820, p. 12) does not agree with the above statement of issues for corresponding years, though the total cash received and stock issued do agree. The explanation is that the law directed the issue of the stock on the first day of the month following the deposit of the treasury notes. For deposits made and

covered in December, therefore, the stock was not issued until January, and hence a constant discrepancy in each year's account until the loan was closed. The stock bore interest from the date of issue (Comptroller's Circular, March 24, 1815).

The receipts in 1817, from the commissioner of loans for Massachusetts, are stated at $38,188 (R. and Ex. for 1817, p. 13), but $100 of this was a "cashier's certificate not presented for stock". This certificate does not appear ever to have been presented for conversion, and it is not included in the above account.

During the years 1817 to 1825, small treasury notes of 1815 to the amount of $16,002 were converted into stock of this loan. These conversions do not appear in the Receipts and Expenditures.

In 1817 the sinking fund commissioners purchased $332,990 51 of this stock at from 105.75 to 106.51, the premiums amounting to $21,677 63; and, in 1819, $136,947 22 at from 104.40 to 104.57, the premiums amounting to $6,224 80.

The act of January 22, 1824 (4 Statutes, 4), authorized the sinking fund commissioners to purchase, during the year, $8,610,000 of this stock at not to exceed the following rates: If purchased before April 1, 1824, interest to that date and two per cent. premium; between April 1 and July 1, interest to the latter date and three-fourths of one per cent. premium; between July 1 and October 1, interest to the latter date; and between October 1 and January 1, 1825, interest to date of purchase. Under this authority, the following amounts were purchased: $1,949,404 01, on which was paid $38,987 93 premium, and $1,376,839 39, on which was paid $10,325 94 premium. A commission of one-fourth of one per cent. was allowed to purchasing agents.

TREASURY NOTES OF 1815.

The act of February 24, 1815 (3 Statutes, 213), authorized the issue of treasury notes of various denominations, not to exceed $25,000,000, to be applied in payment for services, or supplies, or for debts due by the United States, or for borrowing money. Notes of the denomination of $100 and over were made payable to order and transferable by delivery and assignment, and to bear an interest of 5½ per cent. per annum. These notes were made exchangeable for a 6 per cent. funded stock created by virtue of the same act, and were receivable in all payments to the United States; but, however redeemed or surrendered, were liable to reissue in like manner as originally issued.

Length of loan, indefinite; redeemable at the pleasure of the government; amount authorized, $25,000,000; amount issued, $4,969,400; sold at par; interest, 5½ per cent., payable on redemption.

SMALL TREASURY NOTES OF 1815.

The act of February 24, 1815 (3 Statutes, 213), authorized the issue of treasury notes of various denominations, not to exceed $25,000,000, to be applied in payment for services, or supplies, or for debts due by the United States, or for borrowing money; notes of lower denominations than $100 to bear no interest and to be transferable by delivery alone. These notes were made exchangeable for a 7 per cent. funded stock, created by virtue of the same act, and were receivable in all payments to the United States; but however redeemed or surrendered, were liable to be reissued, and applied anew to the same purposes, and in the same manner, as when originally issued.

Length of loan, indefinite; redeemable at the pleasure of the government; amount authorized, $25,000,000; amount issued, $3,392,994; sold at various rates from par to 4 per cent. premium; interest, none.

TEMPORARY LOAN OF MARCH, 1815.

The act of March 3, 1815 (3 Statutes, 227), authorized the making of a loan of $18,452,800, to be applied to defraying any expenses authorized by law for which appropriations were made. It provided that no engagement or contract should be entered into which would preclude its reimbursement at any time after December 31, 1827. A commission of one-fourth of one per cent. was allowed to agents. The payment of the interest and reimbursement of the principal were charged to the sinking fund, and the faith of the United States pledged to make good any deficiency.

Length of loan, indefinite; redeemable at various dates, as per contract; amount authorized, $18,452,800; amount issued, $1,150,000; sold at par; interest, 6 per cent., payable quarterly; final redemption, April 26, 1817.

* For an explanation of this item, see "Notes to Recapitulation", *post*.

In 1817 the commissioners of the sinking fund purchased $2,782,524 23 of this stock, at from 99 per cent. to par, the discount amounting to $2,565 13. The brokerage on these purchases amounted to $638 02.

FIVE PER CENT. LOAN OF 1816.

The act of April 10, 1816, section 6 (3 Statutes, 269), authorized a subscription on the part of the United States of $7,000,000, for seventy thousand shares of the capital stock of the Bank of the United States, to be paid in gold or silver coin, or in stock of the United States bearing interest at the rate of 5 per cent. per annum; if in public stock the interest was to be paid quarterly, and the principal reimbursed at the pleasure of the government. A proviso prohibited the bank from selling or transferring more than two million dollars of this stock in any one year.

Length of loan, indefinite; redeemable, at the pleasure of the government; amount authorized, $7,000,000; amount issued, $7,000,000; sold at par; interest, 5 per cent., payable quarterly; final redemption, June 30, 1831.

This stock having been issued in payment of the government subscription for seventy thousand shares of the capital stock of the Bank of the United States, no money ever came into the treasury on this account, and the money for its redemption was provided from the general funds in the treasury.

FIVE PER CENT. LOAN OF 1820.

The act of May 15, 1820 (3 Statutes, 582), authorized the making of a loan of $3,000,000, for the purpose of defraying any public expenses authorized by law. The rate of interest was not to exceed 5 per cent. per annum, payable quarterly, and the loan was made reimbursable after January 1, 1832. The payment of interest and reimbursement of the principal were charged to the sinking fund. No stock was to be sold below par, and a commission of one-eighth of one per cent. was allowed to agents.

Length of loan, 12 years; redeemable, after January 1, 1832; amount authorized, $3,000,000; amount issued, $999,999 13; sold at par; interest, 5 per cent., payable quarterly; final redemption, April 14, 1834.

SIX PER CENT. LOAN OF 1820.

The act of May 15, 1820 (3 Statutes, 582), authorized the making of a loan of $3,000,000, for the purpose of defraying any public expenses authorized by law. The rate of interest was not to exceed 6 per cent. per annum, payable quarterly, and the loan was made reimbursable at the pleasure of the government. The payment of interest and reimbursement of the principal were charged to the sinking fund. No stock was to be sold below par, and a commission of one-eighth of one per cent. was allowed to agents.

Length of loan, indefinite; redeemable at the pleasure of the government; amount authorized, $3,000,000; amount issued, $2,000,000; sold at a premium of 2 per cent.; interest 6 per cent., payable quarterly; final redemption, December 27, 1822.

ISSUES.

Total					2,000,000 00

The premium received on account of this loan amounted to $40,000.

FIVE PER CENT. LOAN OF 1821.

The act of March 3, 1821 (3 Statutes, 635), authorized the making of a loan of $5,000,000, to be applied to defraying such public expenses as were authorized by law. The rate of interest was not to exceed 5 per cent. per annum, payable quarterly, and the loan was made reimbursable after January 1, 1835. No stock was to be sold below par, and a commission of one-eighth of one per cent. was allowed to agents. The payment of interest and reimbursement of the principal were charged to the sinking fund, and the faith of the United States was pledged to establish sufficient revenues to cover any deficiencies in such funds.

Length of loan, 14 years; redeemable after January 1, 1835; amount authorized, $5,000,000; amount issued, $4,735,296 30; sold at a premium of 5.147 to 8 per cent.; interest, 5 per cent., payable quarterly; final redemption, June 11, 1839.

Total					4,735,296 34

An over-redemption of four cents, which occurred in the New York loan office, was evidently a clerical error. The premium received on account of this loan amounted to $264,703 70.

EXCHANGED FIVE PER CENT. STOCK OF 1822.

The act of April 20, 1822 (3 Statutes, 663), authorized a subscription to the amount of $12,000,000 of the 7 per cent. stock of 1815 and 6 per cent. stock of 1812; also, for $14,000,000 of the 6 per cent. stock of 1813, 1814, and 1815, for which certificates were to be issued, the same to be exchangeable for stock certificates bearing interest at the rate of 5 per cent. per annum, payable quarterly. This stock was made transferable and subject to redemption at the pleasure of the United States, one-third after December 31, 1830, one-third after December 31, 1831, and the remainder at any time after December 31, 1832, provided that no reimbursement was to be made save of the whole amount of any certificate, and after six months' public notice. The payment of interest and reimbursement of the principal were charged upon the sinking fund.

Length of loan, 8, 9, and 10 years; redeemable as provided for by law; amount authorized, $26,000,000; amount issued, $56,704 77; sold at par; interest, 5 per cent., payable quarterly; final redemption, December 30, 1833.

Total					56,704 77

This stock was issued in exchange for the following amounts: 6 per cent. stock of 1813, sixteen million loan, $23,317 82; 6 per cent. stock of 1813, seven and one-half million loan, $23,386 95; 6 per cent. stock of 1814, ten million loan, $3,000; 6 per cent. stock of 1814, six million loan, $7,000. For this reason no money ever came into the treasury on this account, and the money for its redemption was provided from the general funds in the treasury.

FOUR AND ONE-HALF PER CENT. LOAN OF 1824.

The act of May 24, 1824 (4 Statutes, 33), authorized the making of a loan of $5,000,000, for the purpose of providing funds to discharge the awards of the commissioners under the treaty with Spain of February 22, 1819. The rate of interest was not to exceed four and one-half per cent. per annum, and the loan was made redeemable at any time after January 1, 1832. The interest on this loan for the first year was provided for by appropriation.

Length of loan, 8 years; redeemable after January 1, 1832; amount authorized, $5,000,000; amount issued, $5,000,000; sold at par; interest, 4½ per cent., payable quarterly; final redemption, December 24, 1833.

EXCHANGED FOUR AND ONE-HALF PER CENT. STOCK OF 1824.

The act of May 26, 1824, section 3 (4 Statutes, 74), authorized a subscription to the six per cent. stock of 1813, to the amount of $15,000,000, the same to be effected by a transfer of said stock to the United States and the issue of scrip certificates therefor bearing an interest of four and one-half per cent. per annum. The loan was made reimbursable, at the pleasure of the government, one-half at any time after December 31, 1832, and the remainder at any time after December 31, 1833, provided that no reimbursement should take place until after six months' public notice. The interest, payable quarterly, and the reimbursement of the principal were charged upon the sinking fund.

Length of loan, 8 and 9 years; redeemable after December 31, 1832 and 1833; amount authorized, $15,000,000; amount issued, $4,454,727 95; sold at par; interest, 4½ per cent., payable quarterly; final redemption, March 11, 1843.

ISSUES.

Calendar year.	First quarter.	Second quarter.	Third quarter.	Fourth quarter.	Total.
1824				$3, 848, 923 04	$3, 848, 923 04

Total					4, 454, 727 94

This stock having been issued in exchange for $3,094,766 97 of the sixteen million loan of 1813 and $1,359,960 98 of the seven and a half million loan of 1813, no money ever came into the treasury on this account, and the money for its redemption was provided from the general funds in the treasury. In 1836 the bank of the United States, acting as loan agent for the redemption of this stock, repaid the sum of $3,110 32 previously advanced, which amount was subsequently redeemed at the treasury. There is a difference of one cent in the redemption account of the Pennsylvania loan agency, which was evidently a clerical error.

FOUR AND ONE-HALF PER CENT. LOAN OF 1824.

The act of May 26, 1824, section 1 (4 Statutes, 73), authorized a loan of $5,000,000 for the purpose of discharging such a part of the six per cent. stock of 1812 as should be redeemable after January 1, 1825. The interest was not to exceed four and one-half per cent. per annum, payable quarterly, and the principal was made reimbursable, at the pleasure of the government, at any time after December 31, 1831. The payment of interest and reimbursement of the principal were charged upon the sinking fund. A proviso forbade the stock to be sold below par.

Length of loan, indefinite; redeemable at any time after December 31, 1831; amount authorized, $5,000,000; amount issued, $5,000,000; sold at par; interest 4½ per cent., payable quarterly; final redemption, February 21, 1834.

EXCHANGED FOUR AND ONE-HALF PER CENT. STOCK OF 1825.

The act of March 3, 1825 (4 Statutes, 129), authorized a loan of $12,000,000, to be applied to paying off and discharging such part of the six per cent. stock of 1813 as would be redeemable after January 1, 1826. The stock was made exchangeable for stock bearing 6 per cent. interest, and was redeemable: one-half after January 1, 1828, and one-half after January 1, 1829. The rate of interest was not to exceed 4½ per cent. per annum, payable quarterly. The act provided that no stock should be sold under par. The payment of interest and reimbursement of the principal were charged upon the sinking fund, and six months' public notice was required to be given previous to such reimbursement.

Length of loan, 3 and 4 years; redeemable January 1, 1828 and 1829; amount authorized, $12,000,000; amount issued, $1,539,336 16; sold at par; interest, 4½ per cent., payable quarterly; final redemption, March 31, 1834.

This stock having been issued in exchange for $1,148,854 20 of the sixteen million loan of 1813 and $390,481 96 of the seven and a half million loan of 1813, no money ever came into the treasury on this account, and the money for its redemption was provided from the general funds in the treasury.

TREASURY NOTES PRIOR TO 1846.

The act of October 12, 1837 (5 Statutes, 201), authorized the President to cause the issue of treasury notes in such sums as the exigencies of the government might require, not exceeding, in the whole, the sum of $10,000,000, of denominations not less than $50 for any one note, redeemable one year after date, bearing interest from their respective dates for the term of one year, at rates to be fixed by the Secretary of the Treasury, but not to exceed 6 per cent. They were to be issued in payment of debts due by the United States, to such public creditors or other persons as chose to receive them in payment at their par value; were to be transferable by delivery and assignment, indorsed on them by the person to whom they had been made payable; and were to be received in payment of all duties and taxes laid by the United States, of all public lands sold by the same authority, and of all debts due to the United States, credit to be given for the interest due on the notes at the time of payment. The Secretary of the Treasury was authorized to borrow, not below par, such sums as the President might deem expedient, on the credit of the notes. The acts of May 21, 1838 (5 Statutes, 228); March 2, 1839 (5 Statutes, 323); March 31, 1840 (5 Statutes, 370); February 15, 1841 (5 Statutes, 411); January 31, 1842 (5 Statutes, 469); August 31, 1842 (5 Statutes, 581); and March 3, 1843 (5 Statutes, 614), authorized a further issue of treasury notes in various amounts, subject to similar provisions, conditions, limitations, and restrictions as were contained in the act of October 12, 1837.

Length of loan, 1 and 2 years; redeemable 1 and 2 years from date; amount authorized, $51,000,000; amount issued, $47,002,900; sold at par; interest at various rates from $\frac{1}{10}$ of 1 to 6 per cent., payable on redemption. Outstanding June 30, 1880, $82,525 35.

*This account is stated by calendar years to June 30, 1843, and subsequently by fiscal years commencing July 1st of each year (see Act of August 26, 1842, 5 Statutes, 536).

†For an explanation of this item, see "Notes to Recapitulation", *post*.

Under date of March 31, 1847, the first comptroller of the treasury directed the register to close the specific accounts under the several acts above referred to, with a view of bringing them into one account; and to consolidate and transfer the balances outstanding, amounting in the aggregate to $328,083 14, to a new account under the head of "Treasury notes issued and reimbursed under acts prior to the act of July 22, 1846". This plan has been pursued in this statement with the redemption account.

LOAN OF 1841.

The act of July 21, 1841 (5 Statutes, 438), authorized a loan of not exceeding $12,000,000, at not exceeding 6 per cent. interest, payable quarterly or semi-annually, reimbursable at the will of the Secretary of the Treasury, after six months' notice, or at any time after three years from January 1, 1842; the money borrowed to be used in the redemption of treasury notes and to defray public expenses.

Length of loan, 3 years; redeemable January 1, 1845; amount authorized, $12,000,000; amount issued $5,672,976 88; sold at par; interest, 5¼, 5½, and 6 per cent., payable semi-annually; final redemption, 1847.

*The account of issues, as stated above, is by calendar years, and the redemption account by fiscal years.

Bonds were issued for this loan, bearing interest, as follows: $16,155 at 5¾ per cent.; $3,213,791 88 at 5½ per cent.; and $2,443,030 02 at 6 per cent. For a list of subscribers, see H. of R. Ex. Doc. No. 15, 1st sess., 28th Cong., pp. 994–1001. From August 21 to December 16, 1844, the Secretary of the Treasury purchased $490,350 of the 5½ per-cents, and $128,125 of the 6 per-cents, at various rates, ranging from $\frac{11}{100}$ to $\frac{75}{100}$ of 1 per cent. above par, the premium paid amounting to $3,268 93.

LOAN OF 1842.

The act of April 15, 1842 (5 Statutes, 473), extended the provisions of the act of July 21, 1841, increasing the amount by $5,000,000, and provided that so much of the loan as was obtained after the passage of the act should be reimbursable, as might be agreed upon at the time of issuing said stock, either at the will of the Secretary of the Treasury after six months' notice, or at any time not exceeding twenty years from January 1, 1843. The stock was not to be sold under par until the same had been advertised a reasonable time and proposals for subscriptions invited.

Length of loan, 20 years; redeemable January 1, 1863; amount authorized, $17,000,000; amount issued, $8,343,886 03; sold at 97.50 to par; interest, 6 per cent., payable semi-annually; final redemption, 1872.

*The account of issues, as stated above, is by calendar years, and the redemption account by fiscal years.

Proposals for this loan were invited April 18, 1842 (H. of R. Ex. Doc. No. 15, 1st sess., 28th Cong., p. 991). $1,700,000 was sold at 97.50, the discount, less accrued interest at the time of issue, amounting to $42,417 80. From 1849 to 1858, the Secretary of the Treasury purchased $5,460,521 92 of this stock at various rates, ranging from 5 to 19¼ per cent. above par. The total premium paid (exclusive of commissions) amounted to $729,686 87, as follows: $5,169 50 in 1849; $26,865 98 in 1853; $443,198 84 in 1854; $99,002 92 in 1855; $42,441 75 in 1856; $51,580 80 in 1857; and $61,427 08 in 1858.

LOAN OF 1843.

The act of March 3, 1843 (5 Statutes, 614), authorized a loan in lieu of treasury notes authorized by the same act, if, in the opinion of the President, it should be for the interest of the United States; the stock to be issued in redemption of treasury notes outstanding, under the limitations, restrictions, and provisions contained in the act of April 15, 1842, except that no commissions were to be allowed and the stock should be made redeemable at a period not longer than ten years from the issue thereof.

Length of loan, 10 years; redeemable July 1, 1853; amount authorized, indefinite; amount issued, $7,004,231 35; sold at from 1 to 3¾ per cent. premium; interest, 5 per cent., payable semi-annually; final redemption, 1855.

Total					7,004,231 35

Proposals for this loan were invited April 2, 1843. For a list of accepted bids, see Finance Report, 1843, p. 629. The net premium realized on the stock sold amounted to $76,632 35. In 1845 the Secretary of the Treasury purchased $400,000 at an average rate of 3¾ per cent. above par, the premium paid amounting to $14,962 50. In November, 1848, $136,000 was purchased at 1$\frac{2525}{1000}$ per cent. below par, the discount amounting to $1,725. In 1852 $15,000 was purchased at an advance of one-fourth of one per cent. and $137,700 at an advance of 1½ per cent., the premium paid amounting to $2,101 37. In 1853 $4,296,862 50 was purchased at various rates from par to 2¼ per cent. advance, the premium paid amounting to $6,268 18.

TREASURY NOTES OF 1846.

The act of July 22, 1846 (9 Statutes, 39), authorized the issue of treasury notes in such sums as the exigencies of the government might require, the amount of this emission outstanding at any one time not to exceed $10,000,000, to bear interest at not exceeding 6 per cent. per annum, and redeemable one year from date. These notes were receivable in payment of all debts due the United States, including customs-duties.

Length of loan, 1 year; redeemable 1 year from date; amount authorized, $10,000,000; amount issued, $7,687,800; sold at par; interest, $\frac{1}{10}$ of 1 per cent. to 5⅛ per cent., payable on redemption; outstanding June 30, 1880, $6,000.

LOAN OF 1846.

The act of July 22, 1846 (9 Statutes, 40), which provided for the issue of treasury notes, authorized the President, if in his opinion it should be for the interest of the United States so to do, instead of issuing the whole amount of treasury notes, to borrow such an amount of money as he might deem proper, in the same form and

under the same restrictions, limitations, and provisions as are contained in the act of April 15, 1842; but the sum so borrowed, together with the treasury notes that might be issued by virtue of the act, was not to exceed, in the whole, $10,000,000. The stock was to be redeemable at a period not longer than ten years from the issue thereof.

Length of loan, 10 years; redeemable November 12, 1856; amount authorized, $10,000,000; amount issued, $4,999,149 45; sold at rates varying from par to $\frac{277}{1000}$ of 1 per cent. premium; interest, 6 per cent., payable semi-annually; final redemption, 1861.

Proposals for this loan were invited October 30, 1846 (Finance Report, 1846, p. 29). From November 18 to December 21, 1846, $363,900 of the stock was sold at an average rate of $\frac{277}{1000}$ of 1 per cent. above par, the premium realized amounting to $1,007 75. On the 4th of October, 1852, the Secretary of the Treasury purchased $3,000 at an advance of $18\frac{3}{8}$ per cent., the premium paid amounting to $558 77. From May 21 to June 29, 1853, purchases were made in the sum of $65,200, at various rates from $6\frac{22}{100}$ to $7\frac{57}{100}$ per cent. above par, the premium paid amounting to $4,317 72. From 1854 to 1857, inclusive, purchases were made in the sum of $4,896,939 71, at various rates from $\frac{18}{100}$ of 1 per cent. to 9 per cent. above par, the premium paid amounting to $221,329 88, as follows: $168,347 71 in 1854; $28,567 13 in 1855; $24,130 26 in 1856, and $284 78 in 1857.

MEXICAN INDEMNITY STOCK.

The act of August 10, 1846 (9 Statutes, 94), contains the following clause: "For paying the principal and interest of the fourth and fifth installments of the Mexican indemnities due in April and July, in the year 1844, the sum of $320,000: *Provided*, The claimants, each for himself, shall relinquish to the United States his right to said installments: *Provided further*, That each of the claimants shall agree to take in payment the scrip of a stock bearing interest at five per cent., payable in five years."

Length of loan, 5 years; redeemable 5 years from date; amount authorized, $320,000; amount issued, $303,573 92; sold at par; interest 5 per cent., payable quarterly; outstanding June 30, 1880, $1,104 91.

ISSUES.

This stock having been issued in payment for claims, no money ever came into the treasury on this account, and the money for its redemption has been provided from the general funds in the treasury.

TREASURY NOTES OF 1847.

The act of January 28, 1847 (9 Statutes, 118), authorized the issue of $23,000,000 in treasury notes, with interest at not exceeding 6 per cent. per annum, or the issue of stock for any portion of the amount, with interest at 6 per cent. per annum. The treasury notes under this act were redeemable at the expiration of one or two years, and the interest was to cease at the expiration of sixty days' notice. These notes were receivable in payment of all debts due the United States, including customs-duties.

Length of loan, 1 and 2 years; redeemable 1 and 2 years from date; amount authorized, $23,000,000; amount issued (including reissues), $26,122,100; sold at par; interest, 5⅝ and 6 per cent., payable on redemption; outstanding June 30, 1880, $950.

LOAN OF 1847.

The act of January 28, 1847 (9 Statutes, 118), authorized the issue of $23,000,000 in treasury notes, with interest at not exceeding 6 per cent. per annum, or the issue of stock for any portion of the amount, with interest at 6 per cent. per annum, reimbursable after December 31, 1867. Section 14 authorized the conversion of treasury notes under this or any preceding act into like stock, which accounts for the apparent overissue.

Length of loan, 20 years; redeemable January 1, 1868; amount authorized, $23,000,000; amount issued, $28,230,350; sold at rates varying from 1¼ to 2 per cent. premium; interest, 6 per cent., payable semi-annually; outstanding June 30, 1880, $1,250.

					28,229,100 00
Outstanding June 30, 1880					1,250 00
Total					28,230,350 00

Proposals for this loan were invited February 9, 1847. For a list of accepted bids, see Finance Report, 1847, p. 215. The premium realized from 1847 to 1850 on a portion of the stock issued amounted to $74,884 98. From 1849 to 1858 the Secretary of the Treasury purchased $18,815,100 of this stock at various rates, ranging from $1\frac{26}{100}$ to $21\frac{55}{100}$ per cent. above par. The total premium paid (exclusive of commissions) amounted to $3,466,106 90, as follows: $59,965 69 in 1849; $69,255 70 in 1851; $167,999 55 in 1852; $324,565 33 in 1853; $1,659,018 64 in 1854; $580,379 15 in 1855; $163,381 08 in 1856; $159,949 76 in 1857; and $281,592 in 1858.

In 1869 the redemption on account of this loan is stated in the Receipts and Expenditures as $764,750. Add to this $5,500, erroneously charged to the "loan of 1848", and deduct $43,050, erroneously charged to this loan, which should have been charged to the "loan of 1848", and the result is $727,200, the true amount redeemed in 1869 (report No. 6391, January 25, 1869).

BOUNTY-LAND SCRIP.

The ninth section of the act of February 11, 1847 (9 Statutes, 125), provides "That each non-commissioned officer, musician, or private, enlisted or to be enlisted in the regular army, or regularly mustered in any volunteer company for a period of not less than twelve months, who has served or may serve during the present war with Mexico, and who shall receive an honorable discharge, or who shall have been killed, or died of wounds received or sickness incurred in the course of such service, or who shall have been discharged before the expiration of his term of service in consequence of wounds received or sickness incurred in the course of such service, shall be entitled to receive a certificate or warrant from the War Department for the quantity of one hundred and sixty acres, and which may be located by the warrantee, or his heirs-at-law, at any land office of the United States, in one body, and in conformity to the legal subdivisions of the public lands, upon any of the public lands in such district then subject to private entry; and upon the return of such certificate or warrant, with evidence of the location thereof having been legally made, to the General Land Office, a patent shall be issued therefor.

* * * * * * *

"*Provided*, That every such non-commissioned officer, musician, and private who may be entitled, under the provisions of this act, to receive a certificate or warrant for one hundred and sixty acres of land, shall be allowed the option to receive such certificate or warrant or a treasury scrip for one hundred dollars, and such scrip, whenever it is preferred, shall be issued by the Secretary of the Treasury to such person or persons as would be authorized to receive such certificates or warrants for lands; said scrip to bear an interest of six per cent. per annum, payable semi-annually, redeemable at the pleasure of the government." The interest on this stock ceased July 1, 1849.

Length of loan, indefinite; redeemable at the pleasure of the government; amount authorized, indefinite; amount issued, $233,075; sold at par; interest, 6 per cent., payable semi-annually; outstanding June 30, 1880, $3,275.

*Certificates to the amount of $400 were canceled, having been improperly obtained.

This stock having been issued as bounty to soldiers, no money ever came into the treasury on this account, and the money for its redemption has been provided from the general funds in the treasury.

LOAN OF 1848.

The act of March 31, 1848 (9 Statutes, 217), authorized a loan of not exceeding $16,000,000, at an interest not exceeding 6 per cent. per annum, payable quarterly or semi-annually, reimbursable at any time after twenty years from July 1, 1848; no stock to be sold below par.

Length of loan, 20 years; redeemable July 1, 1868; amount authorized, $16,000,000; amount issued, $16,000,000; sold at rates varying from 3.02 to 4.05 per cent. premium; interest, 6 per cent., payable semi-annually; final redemption, December 31, 1872.

Total					16,000,000 00

Proposals for this loan were invited April 17, 1848. For a list of accepted bids, see Finance Report, December 9, 1848, p. 56. The net premium realized on the whole amount of stock issued was $487,191 16. From 1849 to 1858, inclusive, the Secretary of the Treasury purchased $7,091,658 20 of this stock at various rates, ranging from $8\frac{185}{1000}$

to 22$\frac{46}{100}$ per cent. above par. The total premium paid (exclusive of commissions) amounted to $1,251,258 04, as follows: $21,281 25 in 1849; $37,706 50 in 1853; $552,590 18 in 1854; $138,672 91 in 1855; $127,580 90 in 1856; $143,682 30 in 1857; and $229,744 in 1858.

In 1869 the redemption on account of this loan is stated in the Receipts and Expenditures as $7,666,891 80. Add to this $43,050, erroneously charged to the "loan of 1847", and deduct $5,500, erroneously charged to this loan, which should have been charged to the "loan of 1847", and the result is $7,704,441 80, the true amount redeemed in 1869 (report No. 6391, January 25, 1869).

TEXAS INDEMNITY STOCK.

The act of September 9, 1850 (9 Statutes, 447), authorized the issue of $10,000,000 stock, with interest at 5 per cent. per annum, to the state of Texas, in satisfaction of all claims against the United States arising out of the annexation of the said state. The stock was to be redeemable at the end of fourteen years.

Length of loan, 14 years; redeemable January 1, 1865; amount authorized, $10,000,000; amount issued, $5,000,000; sold at par; interest, 5 per cent., payable semi-annually (January and July); outstanding June 30, 1880, $21,000.

Total					5,000,000 00

From 1854 to 1858, inclusive, the Secretary of the Treasury purchased $1,539,000 of this stock at various rates, ranging from 5$\frac{14}{100}$ to 12 per cent. above par. The total premium paid (exclusive of commissions) amounted to $117,534 26, as follows: $56,180 60 in 1854; $23,760 in 1855; $27,838 91 in 1856; $8,074 75 in 1857; and $1,680 in 1858. In the receipts and expenditures for 1865 the amount of this stock redeemed that year is stated as $1,631,889 38. To this should be added $17,080, being a discount of 4 per cent. on $427,000, and also $14 73, discount on $5,000, and $15 89, discount on $8,000, erroneously charged to "interest on the public debt", thus making the true amount redeemed in 1865 $1,649,000, as stated above. This stock having been issued in settlement of claims assumed by the United States, no money ever came into the treasury on this account, and the money for its redemption has been provided from the general funds in the treasury.

TREASURY NOTES OF 1857.

The act of December 23, 1857 (11 Statutes, 257), authorized the issue of treasury notes for such an amount as the exigencies of the public service might require, but not to exceed at any time $20,000,000. The first issue was limited to $6,000,000, at such rate of interest as should be expressed in said notes, and the remainder with interest at the lowest rate offered by bidders, which in no case should exceed 6 per cent. per annum. These notes were redeemable at the expiration of one year, and interest was to cease at the expiration of sixty days' notice after maturity. They were receivable in payment of all debts due the United States, including customs duties.

Length of loan, 1 year; redeemable 1 year from date of issue; amount authorized, indefinite; amount issued, $52,778,900; sold at par; interest at various rates from 3 to 6 per cent., payable on redemption; outstanding June 30, 1880, $1,700.

*For an explanation of this item, see "Notes to Recapitulation", *post*.

Notes were issued under this act, bearing interest as follows: $6,323,600 at 3 per cent.; $107,000 at 3½ per cent.; $110,000 at 3¾ per cent.; $768,000 at 4 per cent.; $688,000 at 4¼ per cent.; $10,055,700 at 4½ per cent.; $4,532,500 at 4¾ per cent.; $7,533,900 at 5 per cent.; $8,204,500 at 5½ per cent.; $3,514,100 at 5¾ per cent.; and $10,941,600 at 6 per cent.; making a total of $52,778,900.

The amount of these notes redeemed in 1861, as stated in the Receipts and Expenditures, was $18,080,150. Deduct from this $10,950, "treasury notes of 1861," erroneously charged to this loan, and the result is $18,069,200, the true amount redeemed in 1861 (report No. 9641, warrant No. 4677½, June 29, 1861). The amount redeemed in 1862, as stated in the Receipts and Expenditures, was $2,568,100. Deduct from this $100,000, "notes of 1861," erroneously charged to this loan, and the result is $2,468,100, the true amount redeemed in 1862 (report No. 9700, warrant No. 4789, September 13, 1861). The amount redeemed in 1868, as stated in the Receipts and Expenditures, was $200. Deduct from this $100, "treasury notes of 1860," erroneously charged to this loan, and the result is $100, the true amount redeemed in 1868 (report No. 22709, warrant No. 18, January 8, 1868).

LOAN OF 1858.

The act of June 14, 1858 (11 Statutes, 365), authorized a loan of $20,000,000, with interest at not exceeding 5 per cent. per annum, and redeemable at any time after January 1, 1874. The stock was required to be issued in certificates of not less than $1,000 each, with interest coupons attached. The act of March 3, 1859, section 6 (11 Statutes, 430), authorized the issue of coupon or registered stock, as the purchaser might elect.

Length of loan, 15 years; redeemable January 1, 1874; amount authorized, $20,000,000; amount issued, $20,000,000; sold at an average premium of $3\frac{50}{100}$ per cent.; interest, 5 per cent., payable semi-annually (January and July); outstanding June 30, 1880, $8,000.

Proposals for this loan were invited June 26 and September 17, 1858, being for $10,000,000 at each date. The net premium realized on the issue of this stock, as stated in the Receipts and Expenditures, amounted to $719,365 72.

LOAN OF 1860.

The act of June 22, 1860 (12 Statutes, 79), authorized a loan of $21,000,000 (to be used in redemption of treasury notes), with interest at not exceeding 6 per cent. per annum, redeemable in not less than ten nor more than twenty years.

Length of loan, 10 years; redeemable January 1, 1871; amount authorized, $21,000,000; amount issued, $7,022,000; sold at rates varying from par to $1\frac{45}{100}$ per cent. premium; interest, 5 per cent., payable semi-annually; outstanding June 30, 1880, $10,000.

					7,012,000 00
Outstanding June 30, 1880					10,000 00
Total					7,022,000 00

Proposals for this loan were invited September 8, 1860 (for a list of bids, see Finance Report for 1860, pp. 480–483). The net premium realized on the issue of this stock, as stated in the Receipts and Expenditures, amounted to $33,216 20.

TREASURY NOTES OF 1860.

The first section of the act of December 17, 1860 (12 Statutes, 121), authorized the issue of treasury notes for an amount not exceeding $10,000,000, with interest at the rate of 6 per cent. per annum, redeemable at the expiration of one year from the date of the notes. Section 4 of the same act authorized the issue of such portion of these notes as might be deemed expedient to public creditors who would receive them at such a rate of interest as might be offered by the lowest responsible bidders, after due advertisement.

Length of loan, 1 year; redeemable 1 year after date; amount authorized, $10,000,000; amount issued, including reissues, $10,010,900; sold at par; interest, from 6 to 12 per cent., payable on redemption; final redemption, 1868.

ISSUES.

Fiscal year.	First quarter.	Second quarter.	Third quarter.	Fourth quarter.	Total.
1861		$1,681,000 00	$8,329,900 00		$10,010,900 00
Total					10,010,900 00

REDEMPTIONS.

1861			$60,200 00	$8,150 00	$68,350 00
1862		$429,000 00	9,504,750 00		9,933,750 00
1863	$4,500 00	400 00	2,600 00	700 00	8,200 00
1868			100 00	500 00	600 00
Total					10,010,900 00

The amount of these notes redeemed in 1862, as stated in the Receipts and Expenditures, was $9,936,150. Deduct from this $2,400, "treasury notes of 1861", erroneously charged to this loan, and the result is $9,933,750, the true amount redeemed in 1862 (report No. 9822, warrant No. 4874; report No. 9858, warrant No. 4874*n*; report No. 12002, warrant No. 7442). The amount redeemed in 1868, as stated in the Receipts and Expenditures, was $500. Add to this $100, erroneously charged to "treasury notes of 1857", and the result is $600, the true amount redeemed in 1868 (report No. 22709, warrant No. 18). Note No. 258, for $500, alleged to have been stolen, was redeemed on a bond of indemnity (warrant No. 7924, report No. 12513, June 17, 1863). Afterward a note, with name and number probably changed, bearing the No. 134, was redeemed as No. 258 (report No. 23187, June 17, 1868), the original No. 134 having been redeemed in 1862 (report No. 9974); it is evident from this that No. 258 has been twice paid (caveat case, No. 687).

LOAN OF FEBRUARY, 1861.

The act of February 8, 1861 (12 Statutes, 129), authorized a loan of $25,000,000, with interest at not exceeding 6 per cent. per annum, reimbursable in not less than ten nor more than twenty years from the date of the act.

Length of loan, 10 or 20 years; redeemable December 31, 1880; amount authorized, $25,000,000; amount issued, $18,415,000; sold at an average rate of 89.03 per cent.; interest, 6 per cent., payable semi-annually (January and July); outstanding June 30, 1880, $15,578,000.

ISSUES.

Fiscal year.	First quarter.	Second quarter.	Third quarter.	Fourth quarter.	Total.
1861			$7,243,275 35	$9,096,691 05	$16,339,966 40

Outstanding June 30, 1880					15,578,000 00
Total					18,415,000 00

Proposals for this loan were invited February 13, March 26, and May 11, 1861. For a list of bids, see Finance Report of July 4, 1861. Stock was issued as follows: $8,006,000 at an average rate of $90 $47\frac{8}{10}$; $3,099,000 at an average rate of $94 01; and $7,310,000 at an average rate of $85 $34\frac{37}{100}$ per $100.

TREASURY NOTES OF 1861.

The act of March 2, 1861 (12 Statutes, 178), authorized a loan of $10,000,000, with interest at not exceeding 6 per cent. per annum, redeemable on three months' notice after July 1, 1871, and payable July 1, 1881. If proposals for the loan were not satisfactory, authority was given to issue the whole amount in treasury notes, with interest at not exceeding 6 per cent. per annum. The same act gave authority to substitute treasury notes for the whole or any part of loans authorized at the time of the passage of this act. These notes were to be received in payment of all debts due the United States, including customs-duties, and were redeemable at any time within two years from the date of the act.

Length of loan, 60 days and 2 years; redeemable 60 days and 2 years from date; amount authorized, indefinite; amount issued, $35,364,450; sold at rates ranging from par to $1\frac{37}{100}$ per cent. premium; interest 6 per cent., payable on redemption; outstanding June 30, 1880, $3,000.

* For an explanation of this item, see "Notes to Recapitulation", *post*.

Proposals for $4,901,000 of this loan were invited April 6, 1861. For a list of bids, see Finance Report, July 4, 1861. The sum of $414 70 was realized as premium on a small portion of the earlier issues. The cash received and covered into the treasury on account of this loan in 1862 is stated at $26,918,884 66 (Receipts and Expenditures for 1862, pp. 22–24). Deduct from this $44,900, received on account of "seven-thirties of 1861", but erroneously credited to this loan (per warrants Nos. 268 and 269, September 30, 1861), and the result is $26,873,984 66, the true amount received in 1862. The amount redeemed on account of this loan in 1861 is stated at $586,050 (Receipts and Expenditures for 1861, p. 77). Add to this $10,950, erroneously charged as "notes of 1857" (warrant No. 4677½, report No. 9641, June 29, 1861), and the result is $597,000, the true amount redeemed in 1861. The amount redeemed in 1862 on account of this loan is stated at $30,606,150 (Receipts and Expenditures for 1862, p. 39). Add to this $100,000, erroneously charged as "notes of 1857" (warrant No. 4789, report No. 9700, September 13, 1861), and $2,400 erroneously charged as "notes of 1860" (warrants Nos. 4874, 4874*n*, and 7442, reports Nos. 9822, 9858, and 12002, September 30, 1861, and February 27, 1862), and the result is $30,708,550, the true amount redeemed in 1862.

OREGON WAR DEBT.

The act of March 2, 1861 (12 Statutes, 198), appropriated $2,800,000 for the payment of expenses incurred by the territories of Washington and Oregon in the suppression of Indian hostilities in the years 1855 and 1856. Section 4 of the act authorized the Secretary of the Treasury, if he should deem it expedient, to issue to the claimants or their legal representatives, bonds of the United States of denominations not less than fifty dollars; redeemable in twenty years; and bearing interest at 6 per cent. per annum, payable upon coupons, annually or semi-annually, in the discretion of the Secretary.

Length of loan, 20 years; redeemable July 1, 1881; amount authorized, $2,800,000; amount issued, $1,090,850; sold at par; interest, 6 per cent., payable semi-annually (January and July); outstanding June 30, 1880, $742,450.

ISSUES.

Outstanding June 30, 1880					742,450 00
Total					1,090,850 00

The cash received and covered into the treasury on account of this loan in 1863 is stated at $145,050 (Receipts and Expenditures for 1863, p. 22). Deduct from this $54,900 erroneously credited to this loan, but for which "five-twenties of 1862" were issued, in exchange for "Oregon War Certificates" Nos. 657 to 670, inclusive (see Register's Certificates Nos. 1001 to 1030, August and September, 1862), and the result is $90,150, the true amount received in 1863.

LOAN OF JULY AND AUGUST, 1861.

The act of July 17, 1861 (12 Statutes, 259), authorized the issue of $250,000,000 in bonds, with interest at not exceeding 7 per centum per annum, redeemable after twenty years. The act of August 5, 1861 (12 Statutes, 313), authorized the issue of bonds, with interest at 6 per cent. per annum, payable at the pleasure of the government after twenty years from date, in exchange for 7-30 notes issued under the act of July 17, 1861. None of such bonds were to be issued for a sum less than $500, and the whole amount of them was not to exceed the whole amount of 7-30 notes issued under the above act.

Length of loan, 20 years; redeemable at the pleasure of the government after June 30, 1881; amount authorized, $250,000,000; amount issued, $189,321,350; sold at par; interest, 6 per cent., payable semi-annually (January and July); outstanding June 30, 1880, $157,257,100.

Total					189,321,350 00

REDEMPTIONS.

1880		$6,796,000 00	$11,065,850 00	$14,202,400 00	$32,064,250 00
Outstanding June 30, 1880					157,257,100 00
Total					189,321,350 00

The amount of bonds of this loan issued under the authority of the first section of the act of July 17, 1861, was $50,000,000, and the remainder, amounting to $139,321,350, was issued in exchange for 7-30s, as authorized by the first section of the act of August 5, 1861.

The cash received and covered into the treasury on account of this loan in 1862 is stated at $46,303,129 17 (Receipts and Expenditures for 1862, p. 22). Deduct from this $7,650 35 (misc. cov. warrant No. 337, December 31, 1861), and $500,000 (misc. cov. warrant No. 242, March 31, 1862) received on account of "seven-thirties of 1861", but erroneously credited to this loan. Deduct also 34 cents, error in subscription of the Associate Banks, Boston (misc. cov. warrants Nos. 333 and 348, December 31, 1861), and $1,134,246 57, accrued interest, and the result is $44,661,231 91, the true sum received as principal. This amount represents the proceeds of $50,000,000 of bonds sold at a price equivalent to 7 per cent. bonds at par. The cash received and covered into the treasury on account of this loan in 1865 is stated at $108,573,524 55 (Receipts and Expenditures for 1865, p. 38). Add to this $1,000, principal erroneously covered as interest (warrant No. 587, December 31, 1864), and the result is $108,574,524 55, the true amount received.

OLD DEMAND NOTES.

The act of July 17, 1861 (12 Statutes, 259), authorized the issue of $50,000,000 treasury notes, not bearing interest, of a less denomination than fifty dollars and not less than ten dollars, and payable, on demand, by the assistant treasurers at Philadelphia, New York, or Boston. The act of August 5, 1861 (12 Statutes, 313), authorized the issue of these notes in denomination of five dollars; it also added the offices of assistant treasurer at Saint Louis and the designated depositary at Cincinnati to the places where these notes were made payable. The act of February 12, 1862 (12 Statutes, 338), authorized an increase of $10,000,000 in the amount of demand notes.

Length of loan, indefinite; redeemable on demand; amount authorized, $60,000,000; amount issued, including reissues, $60,030,000; sold at par; interest, none; outstanding June 30, 1880, $60,975.

In 1866 the amount redeemed on account of this loan during the year, is stated at $258,810 75 (Receipts and Expenditures, 1866, p. lxi). Deduct from this $18,000, erroneously covered into the treasury as a "miscellaneous receipt" (warrant No. 367, 3d quarter, 1865), that amount being a part of $37,106 84, proceeds of securities recovered in 1865 from a defaulter, who had abstracted $18,000 of redeemed notes when they were being destroyed by burning. The loan having already received credit for the destruction of these notes which were thus put into circulation a second time, it should have been charged with the amount when it was recovered (Treasurer's letter to the Secretary, November 1; Secretary's letter to the first comptroller, December 22, 1870).

SEVEN-THIRTIES OF 1861.

The act of July 17, 1861 (12 Statutes, 259), authorized the Secretary of the Treasury to borrow on the credit of the United States, within twelve months from the passage of the act, a sum not exceeding $250,000,000, or so much thereof as he might deem necessary for the public service, for which he was authorized to issue coupon or registered bonds, or treasury notes, in such proportions of each as he might deem advisable; the bonds to be irredeemable for twenty years, and after that period redeemable at the pleasure of the United States, and to bear interest at a rate not exceeding 7 per cent. per annum; the treasury notes to be of any denomination fixed by the Secretary of the Treasury, not less than $50, payable three years after date, with interest at the rate of $7\frac{3}{10}$ per cent. per annum, payable semi-annually.

Length of loan, 3 years; redeemable August 19 and October 1, 1864; amount authorized, indefinite; amount issued, $139,999,750; sold at an average premium of $\frac{465}{1000}$ of 1 per cent.; interest, $7\frac{3}{10}$ per cent., payable semi-annually; outstanding June 30, 1880, $16,600.

*For an explanation of this item, see "Notes to Recapitulation", *post*.

The cash received and covered into the treasury in 1862 and 1863 on account of this loan is stated at $183,676,035 34 (Receipts and Expenditures, 1862, p. 22; 1863, p. 22). In the examination of this account, several discrepancies have been discovered, and corrections have been made as follows: To the amount before stated has been added $30,400 (part of warrants Nos. 268 and 269, 3d quarter, 1861), erroneously covered as "sixty day" "treasury notes of 1861"; also, $2 04 (part of warrant No. 258, 4th quarter, 1861), principal erroneously covered as interest, part of a certificate in favor of G. W. Dulach; also, $500,000 (part of warrant No. 219, 1st quarter, 1862), erroneously covered to the "loan of July and August, 1861"; also, $200,000 (part of warrant No. 231, 3d quarter, 1862), erroneously covered as "five-twenties of 1862"; also, $50, being an amount found short in the account of N. W. Goodhue, subscription agent (see agency book); also, $3,865, amount of principal erroneously covered as interest by different warrants (see agency book); also, $75 (part of warrant No. 611, 3d quarter, 1868), erroneously covered as a "miscellaneous receipt". These additions make an aggregate total of $184,410,427 38, from which has been made the following deductions: $44,375,000, being the amount deposited by the "Associate Banks" on account of this loan, but returned to them in money; also, $3,600 on account of "sixty day" "treasury notes of 1861", erroneously covered to this loan; also, $56 17 (part of warrant No. 328, 3d quarter, 1861), $42 85 (part of warrant No. 265, 3d quarter, 1861, certificate of deposit No. 3657), $200 (part of several warrants), these three items being on account of interest erroneously covered as principal (see agency book); and $31,778 36 yet remaining unadjusted, awaiting investigation as to the particular source from whence derived. These corrections, amounting in the aggregate to $44,410,677 38, deducted from the whole amount credited, will leave the total issue $139,999,750. The $50,000 represented by misc. cov. warrant No. 264, 4th quarter, 1862, was a deposit on redemption of ten $5,000 bonds (warrant No. 6929, December 18, 1862), to effect an exchange for one hundred $500 bonds, thus increasing the scale numbers, but not the actual issue. There was also $45,000 in notes received by the treasurer, and not issued, but returned to the register as statistical. These differences, amounting to $95,000, will account for an apparent excess of issues to this extent, as shown by prior reports. The premium realized on this loan amounted to $650,324 44.

FIVE-TWENTIES OF 1862.

The act of February 25, 1862 (12 Statutes, 345), for the purpose of enabling the Secretary of the Treasury to fund the treasury notes and floating debt of the United States, authorized the issue of bonds in the amount of $500,000,000, redeemable at the pleasure of the United States after five years and payable twenty years from date, bearing interest at the rate of 6 per cent. per annum. The act of March 3, 1864 (13 Statutes, 13), authorized an additional issue of $11,000,000 of bonds to persons who subscribed for the loan on or before January 21, 1864. The act of January 28, 1865 (13 Statutes, 425), authorized an additional issue of $4,000,000 of these bonds and their sale in the United States or Europe.

Length of loan, 5 or 20 years; redeemable May 1, 1867; payable May 1, 1882; amount authorized, $515,000,000; amount issued, $514,771,600; sold at an average premium of $\frac{355}{1000}$ of 1 per cent.; interest, 6 per cent., payable semi-annually (May and November); outstanding June 30, 1880, $393,400.

Total					514,771,600 00

The cash received and covered into the treasury in 1862, on account of this loan, is stated at $13,990,600 (Receipts and Expenditures, 1862, p. 22). Add to this $54,900, received on account of "Oregon War Certificates" Nos. 657 to 670 inclusive, for which bonds of this loan were issued, and deduct $200,000, received on account of "seven-thirties of 1861", erroneously credited to this loan, and the result is $13,845,500, the true amount received in 1862. The cash received and covered in 1863 is stated at $175,037,259 44 (Receipts and Expenditures, 1863, p. 22). Add to this $6,500, erroneously credited to "temporary loan" (warrant No. 257, 1st quarter, 1863, certificates of deposit Nos. 55 and 69), and deduct $11,635 53, interest erroneously covered as principal by various warrants in small sums, and the result is $175,032,123 91, the true amount received in 1863. The amount received and covered in 1864 is stated at $321,551,283 41 (Receipts and Expenditures, 1864, p. 26). Add to this $89,895 42 (warrant No. 527, 3d quarter, 1864), erroneously covered as accrued interest, and 25 cents in the account of Jay Cooke (certificate of deposit No. 219), excess of interest, and the result is $321,641,179 08, the true amount received in 1864. The amount received and covered in 1865 is stated at $252,657 15 (Receipts and Expenditures, 1865, p. xl). Add to this $4,000,000, principal deposited in First National Bank of Washington by Jay Cooke, June, 1865, erroneously covered to "five-twenties of June, 1864", and $139 86, principal erroneously covered as accrued interest (warrant No. 645, 3d quarter, 1868), and the result is $4,252,797 01, the true amount received in 1865. The amount of premium realized on a portion of the issues of this loan, as stated in the Receipts and Expenditures, amounted to $1,826,868 75.

LEGAL-TENDER NOTES.

The act of February 25, 1862 (12 Statutes, 345), authorized the issue of $150,000,000 United States notes, not bearing interest, payable to bearer, at the treasury of the United States, and of such denominations, not less than five dollars, as the Secretary of the Treasury might deem expedient, $50,000,000 to be applied to the redemption of demand-notes authorized by the act of July 17, 1861; these notes to be a legal tender in payment of all debts, public and private, within the United States, except duties on imports and interest on the public debt, and to be exchangeable for 6 per cent. United States bonds. The act of July 11, 1862 (12 Statutes, 532), authorized an additional issue of $150,000,000, of such denominations as the Secretary of the Treasury might deem expedient, but no such note should be for a fractional part of a dollar, and not more than $35,000,000 of a lower denomination than five dollars; these notes to be a legal tender, as before authorized. The act of March 3, 1863 (12 Statutes, 710), authorized an additional issue of $150,000,000 of such denominations, not less than one dollar, as the Secretary of the Treasury might prescribe; which notes were made a legal tender, as before authorized. The same act limited the time in which treasury notes might be exchanged for United States bonds to July 1, 1863. The amount of notes authorized by this act was to be in lieu of $100,000,000 authorized by the resolution of January 17, 1863 (12 Statutes, 822).

Length of loan, indefinite; amount authorized, $450,000,000; amount issued, including reissues, $1,640,559,947; highest amount outstanding June 30, 1864, $449,338,902, sold at par; interest, none; outstanding June 30, 1880, $346,681,016.

In 1866 the amount redeemed on account of this loan during the year is stated at $32,695,827 14 (Receipts and Expenditures, 1866, p. 48). Deduct from this $6,000, erroneously covered into the treasury as a "miscellaneous receipt" (warrant No. 367, 3d quarter, 1865), that amount being a part of $37,106 84, proceeds of securities recovered in 1865 from a defaulter, who had abstracted $6,000 of redeemed notes when they were being destroyed by burning. The loan having already received credit for the destruction of these notes, which were thus put into circulation a second time, it should have been charged with the amount when it was recovered (treasurer's letter to the Secretary, November 1; Secretary's letter to the first comptroller, December 22, 1870).

TEMPORARY LOAN.

The act of February 25, 1862 (12 Statutes, 346), authorized temporary-loan deposits of $25,000,000, for not less than thirty days, with interest at 5 per cent. per annum, payable after ten days' notice. The act of March 17, 1862 (12 Statutes, 370), authorized the increase of temporary-loan deposits to $50,000,000, at rates of interest prescribed by the Secretary of the Treasury, not exceeding 5 per cent. per annum. The act of July 11, 1862 (12 Statutes, 532), authorized a further increase of temporary-loan deposits to $100,000,000. The act of June 30, 1864 (13 Statutes, 218), authorized a further increase of temporary-loan deposits to an amount not exceeding $150,000,000, and an increase of the rate of interest to not exceeding 6 per cent. per annum, or a decrease of the rate of interest, on ten days' notice, as the public interest might require.

Length of loan, indefinite; redeemable after 10 days' notice; amount authorized, $150,000,000; amount issued, $716,099,247 16; highest amount outstanding June 12, 1866, $149,500,000; sold at par; interest, 4, 5, and 6 per cent., according to contract, payable on redemption; outstanding June 30, 1880, $2,960.

The amount received and covered into the treasury in 1863 on account of this loan is stated at $115,226,762 21 (Receipts and Expenditures, 1863, p. 22). Deduct from this $6,500, on account of "five-twenties of 1862", erroneously credited to this loan (warrant No. 257, March 31, 1863), and the result is $115,220,262 21, the true amount received in 1863. The amount received and covered in 1866 is stated at $236,090,344 04 (Receipts and Expenditures, 1866, p. lxxiv). Deduct from this $10,000,000, on account of "navy pension fund", erroneously credited to this loan, and the result is $226,090,344 04, the true amount received in 1866. The amount received and covered in 1867 is stated at $7,394,659 64 (Receipts and Expenditures, 1867, p. l). Deduct from this $3,000,000, on account of "navy pension fund", erroneously credited to this loan, and the result is $4,394,659 64, the true amount received in 1867. The amount received and covered in 1868 is stated at $3,260,000. Deduct from this $1,460 50, excess of deposit in 1867 (not located), and the result is $3,258,539 50, the true amount received in 1868. The amount redeemed in 1864 is stated at $197,299,734 04 (Receipts and Expenditures, 1864, p. 34). Deduct from this 27 cents, interest charged as principal (warrant No. 8758, November 23, 1863), to find the true amount redeemed in 1864. The amount redeemed in 1866 is stated at $205,245,395 16 (Receipts and Expenditures, 1866, p. lxiii). Add to this $10,000, principal charged as interest (warrant No. 4839, January 20, 1866), to find the true amount redeemed in 1866. The amount redeemed in 1868 is stated at $7,197,664 45 (Receipts and Expenditures, 1868, p. xli). Deduct from this $2,000, on account of "seven-thirties of 1861" (warrant No. 51, February 6, 1868) erroneously charged to this loan, to find the true amount redeemed in 1868.

CERTIFICATES OF INDEBTEDNESS.

The act of March 1, 1862 (12 Statutes, 352), authorized the issue of certificates of indebtedness to public creditors who might elect to receive them, to bear interest at the rate of 6 per cent. per annum, and payable one year from date, or earlier, at the option of the government. The act of March 17, 1862 (12 Statutes, 370), authorized the issue of these certificates in payment of disbursing officers' checks. The act of March 3, 1863 (12 Statutes, 710), made the interest payable in lawful money.

Length of loan, 1 year; redeemable 1 year after date; amount authorized, no limit; amount issued, including reissues, $561,753,241 65; sold at par; interest, 6 per cent.; outstanding June 30, 1880, $4,000.

The amount received in 1866 on account of this loan is stated at $54,240,983 12 (Receipts and Expenditures, 1866, p. lxxvi). Deduct from this $3,183 75, received on account of premium, erroneously credited to principal (warrant No. 743, June 30, 1866), and the result is $54,237,799 37, the true amount received, as stated above (Secretary's letter to the first comptroller, December 22, 1870).

FRACTIONAL CURRENCY.

The act of July 17, 1862 (12 Statutes, 592), authorized the use of postal and other stamps as currency, and made them receivable in payment of all dues to the United States less than five dollars. The fourth section of the act of March 3, 1863 (12 Statutes, 711), authorized the issue of fractional notes in lieu of postage and revenue stamps commonly called postage currency; made them exchangeable in sums not less than three dollars for United States notes, and receivable for postage and revenue stamps, and in any payment of dues to the United States, except duties on imports, less than five dollars; and limited the amount to $50,000,000. The fifth section of the act of June 30, 1864 (13 Statutes, 220), authorized an issue of $50,000,000 in fractional currency, and provided that the whole amount of these notes outstanding at any one time should not exceed this sum.

Length of loan, indefinite; redeemable on presentation; amount authorized, $50,000,000; amount issued, including reissues, $368,720,079 51; sold at par; interest, none; outstanding June 30, 1880, $7,214,954 37.

LOAN OF 1863.

The act of March 3, 1863 (12 Statutes, 709), authorized the issue of bonds in the amount of $900,000,000, bearing interest at a rate not exceeding 6 per cent. per annum, and redeemable in not less than ten nor more than forty years, principal and interest payable in coin. The act of June 30, 1864, section 3 (13 Statutes, 219), repealed so much of the preceding act as limited the authority thereunder to the current fiscal year, and also repealed the authority altogether except as to $75,000,000 of bonds for which subscriptions had already been invited.

Length of loan, 17 years; redeemable July 1, 1881; amount authorized, $75,000,000; amount issued, $75,000,000; sold at an average premium of $4\frac{453}{1000}$ per cent.; interest, 6 per cent., payable semi-annually (January and July); outstanding June 30, 1880, $62,202,850.

The premium realized on the issue of this loan, as stated in the Receipts and Expenditures, amounted to $3,339,751 70.

The amount received and covered into the treasury in 1869 on account of this loan is stated at $537,473 94 (Receipts and Expenditures, 1869, p. lvi). Deduct from this $150 22, received on account of premium, erroneously credited to principal of this loan (misc. cov. warrant, No. 650, September 30, 1868), and the result is $537,323 72, the true amount received in 1869 (Secretary's letter to the first comptroller, June 11, 1870; requisition No. 270).

ONE-YEAR NOTES OF 1863.

The act of March 3, 1863, section 2 (12 Statutes, 710), authorized the issue of $400,000,000 treasury notes, with interest at not exceeding 6 per cent. per annum; redeemable in not more than three years; principal and interest payable in lawful money, to be a legal tender for their face value, excluding interest.

Length of loan, 1 year; redeemable 1 year after date; amount authorized, $400,000,000; amount issued, $44,520,000; sold at par; interest, 5 per cent., payable on redemption; outstanding June 30, 1880, $46,535.

Under date of August 10, 1875, the first comptroller of the treasury directed the register to charge the treasurer with $2,280,337, on account of the redemption of this loan, and credit this sum to the treasurer on account of the redemption of "one-year notes of 1863", and consolidate and close the two accounts.

COIN CERTIFICATES.

The fifth section of the act of March 3, 1863, (12 Statutes, 711), authorized the deposit of gold coin and bullion with the treasurer or any assistant treasurer, in sums not less than $20, and the issue of certificates therefor in denominations the same as United States notes; also authorized the issue of these certificates in payment of interest on the public debt. It limited the amount of them to a sum not greater than 20 per cent. of the amount of coin and bullion in the treasury, and directed their receipt in payment for duties on imports.

Length of loan, indefinite; payable on demand; amount authorized, indefinite; amount issued, including reissues, $981,134,880 46; sold at par; interest, none; outstanding June 30, 1880, $8,004,600.

COMPOUND-INTEREST NOTES.

The act of March 3, 1863, section 2 (12 Statutes, 710), authorized the issue of $400,000,000 in treasury notes, with interest at not exceeding 6 per cent. per annum, in lawful money, payable not more than three years from date, and to be a legal tender for their face value. The act of June 30, 1864 (13 Statutes, 218), authorized the issue of $200,000,000 treasury notes, of any denomination not less than $10, payable not more than three years from date, or redeemable at any time after three years, with interest at not exceeding $7\frac{3}{10}$ per cent., payable in lawful money at maturity, and made them a legal tender to the same extent as United States notes for their face value, excluding interest.

Length of loan, 3 years; redeemable 3 years from date; amount authorized, $400,000,000; amount issued, $266,595,440; sold at par; interest, 6 per cent. compound, payable on redemption; outstanding June 30, 1880, $242,590.

Total					196,118,300 00

The premium realized on the issue of a portion of this loan, as stated in the Receipts and Expenditures, amounted to $659,422 78.

The cash received and covered into the treasury on account of this loan in 1865 is stated at $99,558,400 01 (Receipts and Expenditures for 1865, p. xl). Add to this $1,000, being for a duplicate issue of two bonds, for $500 each, issued June 9, 1865, to Hiram Sherwood, in lieu of two bonds of like denomination previously issued, but lost in transmission by mail. For this reason the issues on account of this loan are $1,000 in excess of the cash receipts.

FIVE-TWENTIES OF MARCH, 1864.

The act of March 3, 1864 (13 Statutes, 13), authorized the issue of $200,000,000 in bonds, bearing interest at not exceeding 6 per cent. per annum, payable on bonds not over one hundred dollars annually, and on all other bonds semi-annually, in coin; redeemable after any period not less than five and payable not more than forty years from date, in coin.

Length of loan, 5 or 20 years; redeemable after 5 and payable 20 years from date; amount authorized, $200,000,000; amount issued, $3,882,500; sold at par; interest 6 per cent., payable semi-annually (May and November); final redemption, 1877.

FIVE-TWENTIES OF JUNE, 1864.

The act of June 30, 1864 (13 Statutes, 218), authorized a loan of $400,000,000, and the issue therefor of bonds redeemable in not less than five nor more than thirty years, or, if deemed expedient, made payable at any period not more than forty years from date, with interest at not exceeding 6 per cent. per annum, payable semi-annually, in coin.

Length of loan, 5 or 20 years; redeemable, at the pleasure of the government, after November 1, 1869; payable November 1, 1884; amount authorized, $400,000,000; amount issued, $125,561,300; sold at an average rate of 2 $\frac{521}{1000}$ per cent. premium; interest, 6 per cent., payable semi-annually (May and November); outstanding June 30, 1880, $68,250.

The cash received and covered into the treasury in 1865 on account of this loan is stated at $94,706,250 25 (Receipts and Expenditures, 1865, p. xl). Deduct from this, $4,000,000 received on account of the "five-twenties of 1862," but erroneously credited to this loan (warrant No. 500, 2d quarter, 1865), and add $104, erroneously covered as premium (warrants Nos. 394 and 504 in part, 3d quarter, 1864), and the result is $90,706,354 25, the true amount of cash received on account of this loan in 1865. To this must be added $30,000 for duplicate bonds issued, in lieu of coupon bonds, forwarded to be exchanged for registered bonds in name of treasurer of the United States, in trust for the First National Bank, of Plainfield, N. J., and stolen from the Treasury Department in November, 1864, thus making the issues for this loan $30,000 in excess of the cash receipts. The cash received and covered in 1867 on account of this loan is stated at $25,540,000 (Receipts and Expenditures, 1867, p. l). Deduct from this $8,700 received on account of the "five-twenties of 1865," but erroneously credited to this loan (warrant No. 773, 1st quarter, 1867), and the result is $25,531,300, the true amount received in 1867. The premium realized on this loan, as stated in the Receipts and Expenditures, amounted to $3,178,710 81.

SEVEN-THIRTIES OF 1864 AND 1865.

The act of June 30, 1864 (13 Statutes, 218), authorized the issue of $200,000,000 in treasury notes, of not less than $10 each, payable at not more than three years from date, or redeemable at any time after three years, with interest at not exceeding 7 $\frac{3}{10}$ per cent. per annum. The act of March 3, 1865 (13 Statutes, 468), authorized a loan of $600,000,000, and the issue therefor of bonds or treasury notes; the notes to be of denominations of not less than $50, with interest in lawful money at not more than 7 $\frac{3}{10}$ per cent. per annum.

Length of loan, 3 years; redeemable, August 15, 1867, June 15 and July 15, 1868; amount authorized, $800,000,000; amount issued, including reissues, $829,992,500; sold at an average rate of $\frac{33}{1000}$ of 1 per cent. premium; interest, 7 $\frac{3}{10}$ per cent., payable semi-annually; outstanding June 30, 1880, $144,900.

*For an explanation of this item, see "Notes to Recapitulation", *post*.

The amount received and covered into the treasury in 1865 on account of this loan is stated at $675,556,297 02 (Receipts and Expenditures, 1865, p. xxxviii). Deduct from this $3,945,900, erroneously covered as deposited with the treasurer of the United States, and charged against the loan by counter entry (report No. 16, p. 309; Receipts and Expenditures, 1865, pp. lvii, 257); also $444,553 21, the amount reported in excess by national banks, covered, but afterwards refunded to Jay Cooke, subscription agent (report No. 154, p. 951; Receipts and Expenditures, 1866, p. 321); also $604 88, reported in excess in the account of subscription agent (in small sums), and covered into the treasury, but properly belonging to the banks reporting the same; also $100, excess in error, not located; and the result is $671,165,138 93, the true amount received in 1865. These corrections having been made in this statement in the account of issues, the counter entries, to offset the same in the redemption account, have been made in conformity therewith. The premium realized on a portion of this loan, as stated in the Receipts and Expenditures, amounted to $316,876 14.

NAVY PENSION FUND.

The act of July 1, 1864 (13 Statutes, 414), authorized the Secretary of the Navy to invest in registered securities of the United States so much of the navy pension fund in the treasury, January 1 and July 1 in each year, as would not be required for the payment of naval pensions. Section 2 of the act of July 23, 1868 (15 Statutes, 170), fixed the interest on this fund at 3 per cent. per annum in lawful money, and confined its use to the payment of naval pensions exclusively.

Length of loan, indefinite; amount authorized, indefinite; amount invested, $14,000,000; sold at par; interest 3 per cent., payable semi-annually (January and July); outstanding June 30, 1880, $14,000,000.

1869		1,000,000 00			1,000,000 00
Outstanding June 30, 1880					14,000,000 00

The deposits on account of this loan were made as follows: December 1, 1864, $5,000,000; March 14, 1865, $2,000,000; July 18, 1865, $2,000,000; January 3, 1866, $1,000,000; covered in, per warrant No. 700, June 30, 1866, on account of "temporary loan," per act of February 25, 1862. Deposited July 25, 1866, $1,750,000; January 30, 1867, $750,000; July 23, 1867, $500,000; covered in, per warrants Nos. 562 and 563, September 30, 1867, for $500,000, and $2,500,000 on account of "temporary loan", per act of February 25, 1862. These amounts are included in the Receipts and Expenditures, as received on account of the "temporary loan", and in this statement have been deducted from that account and added to this, to agree with the true amount received on account of this loan. Deposited October 29, 1868, $1,000,000; covered in, per warrant No. 243, November 20, 1869, on account of this loan, per act of July 23, 1868.

FIVE-TWENTIES OF 1865.

The act of March 3, 1865 (13 Statutes, 468), authorized the issue of $600,000,000 in bonds or treasury notes, in addition to amounts previously authorized; the bonds to be for not less than $50, payable not more than forty years from date of issue, or after any period not less than five years; interest payable semi-annually, at not exceeding 6 per cent. per annum when in coin, or $7\frac{3}{10}$ per cent. per annum when in currency. In addition to the amount of bonds authorized by this act, authority was also given to convert treasury notes or other interest-bearing obligations into bonds authorized by it. The act of April 12, 1866 (14 Statutes, 31), construed the above act to authorize the Secretary of the Treasury to receive any obligations of the United States, whether bearing interest or not, in exchange for any bonds authorized by it, or to sell any of such bonds, provided the public debt should not be increased thereby.

Length of loan, 5 or 20 years; redeemable November 1, 1870; payable November 1, 1885; amount authorized, indefinite; amount issued, $203,327,250; sold at an average premium of $2\frac{5\,4\,7}{1000}$ per cent.; interest, 6 per cent., payable semi-annually (May and November); outstanding June 30, 1880, $114,550.

The cash received and covered into the treasury on account of this loan in 1866, is stated at $92,492,647. Deduct from this $995,247, being on account of premium (warrant No. 459, December 20, 1865), and $1,000, being on account of seven-thirties of 1865, but erroneously credited to this loan (warrant No. 362, 4th quarter, 1866, report 21,048), and the result is $91,496,400, the true amount received in 1866.

The cash received and covered in 1867 is stated at $70,984,200. Add to this, $8,700 received on account of this loan, but erroneously credited to the five-twenties of June, 1864 (warrant No. 773, 1st quarter, 1867), and deduct $27,000 received on account of premium, but erroneously covered as principal (warrant No. 661, 2d quarter, 1867), and the result is $70,965,900, the true amount received in 1867. To this should also be added $20,000 issued to the First National Bank, of St. Louis, September 19, 1866, in lieu of seven-thirty notes lost by the robbery of Adams' Express Company, May 5, 1865, and for which no money came into the treasury (caveat case No. 316), thus making an excess of issues over and above the cash received to this amount. The premium realized on the stock issued amounted to $5,179,393 07.

CONSOLS OF 1865.

The act of March 3, 1865 (13 Statutes, 468), authorized the issue of $600,000,000 in bonds or treasury notes, in addition to amounts previously authorized; the bonds to be for not less than $50, payable not more than forty years from date of issue, or after any period not less than five years; interest payable semi-annually, at not exceeding six per cent. per annum when in coin, or $7\frac{3}{10}$ per cent. per annum when in currency. In addition to the amount of bonds authorized by this act, authority was also given to convert treasury notes or other interest-bearing obligations into bonds authorized by it. The act of April 12, 1866 (14 Statutes, 31), construed the above act to authorize the Secretary of the Treasury to receive any obligations of the United States, whether bearing interest or not, in exchange for any bonds authorized by it, or to sell any of such bonds, provided the public debt should not be increased thereby.

Length of loan, 5 or 20 years; redeemable July 1, 1870; payable July 1, 1885; amount authorized, indefinite; amount issued, $332,998,950; sold at an average premium of $3\frac{6\,2\,1}{1000}$ per cent.; interest, 6 per cent., payable semi-annually (January and July); outstanding June 30, 1880, $612,400.

The premium realized on the stock issued amounted to $12,291,531 54.

CONSOLS OF 1867.

The act of March 3, 1865 (13 Statutes, 468), authorized the issue of $600,000,000 in bonds or treasury notes, in addition to amounts previously authorized; the bonds to be for not less than $50, payable not more than forty years from date of issue, or after any period not less than five years; interest payable semi-annually at not exceeding six per cent. per annum when in coin, or $7\frac{3}{10}$ per cent. per annum when in currency. In addition to the amount of bonds authorized by this act, authority was also given to convert treasury notes or other interest-bearing obligations into bonds authorized by it. The act of April 12, 1866 (14 Statutes, 31), construed the above act to authorize the Secretary of the Treasury to receive any obligations of the United States, whether bearing interest or not, in exchange for any bonds authorized by it, or to sell any of such bonds, provided the public debt should not be increased thereby.

Length of loan, 5 or 20 years; redeemable after July 1, 1872; payable July 1, 1887; amount authorized, indefinite; amount issued, $379,618,000; sold at an average premium of $1\frac{82}{1000}$ per cent.; interest, 6 per cent., payable semi-annually (January and July); outstanding June 30, 1880, $2,330,150.

THREE PER CENT. CERTIFICATES.

The act of March 2, 1867 (14 Statutes, 558), authorized the issue of $50,000,000 in temporary-loan certificates of deposit, with interest at 3 per cent. per annum, payable in lawful money on demand, to be used in redemption of compound-interest notes. The act of July 25, 1868 (15 Statutes, 183), authorized $25,000,000 additional of those certificates, for the sole purpose of redeeming compound-interest notes.

Length of loan, indefinite; payable on demand; amount authorized, $75,000,000; amount issued, including reissues, $85,155,000; sold at par; interest 3 per cent., payable semi-annually; outstanding June 30, 1880, $5,000.

CERTIFICATES OF INDEBTEDNESS OF 1870.

The act of July 8, 1870 (16 Statutes, 197), authorized the issue of certificates of indebtedness, payable five years after date, with interest at 4 per cent. per annum, payable semi-annually, principal and interest, in lawful money, to be hereafter appropriated and provided for by Congress. These certificates were issued, one-third to the state of Maine and two-thirds to the state of Massachusetts, both for the use and benefit of the European and North American Railway Company, and were in full adjustment and payment of any and all claims of said states or railway company for moneys expended (or interest thereon) by the state of Massachusetts on account of the war of 1812–'15.

Length of loan, 5 years; payable September 1, 1875; amount authorized, $678,362 41; amount issued, $678,362 41; sold at par; interest, 4 per cent., payable semi-annually (March and September); final redemption, December 31, 1875.

BONDS ISSUED UNDER THE REFUNDING ACTS OF JULY 14, 1870, AND JANUARY 20, 1871.

The act of July 14, 1870 (16 Statutes, 272), authorized the issue of bonds in the amount of $1,500,000,000, $200,000,000 payable at the pleasure of the government after ten years, and bearing interest at 5 per cent. per annum; $300,000,000 payable at the pleasure of the government after fifteen years from the date of their issue, bearing interest at 4½ per cent. per annum; and $1,000,000,000 payable at the pleasure of the government after thirty years from the date of their issue, bearing interest at 4 per cent. per annum; all of these several classes of bonds to be exempt from the payment of all taxes or duties of the United States, as well as from taxation in any form by or under state, municipal, or local authority. The act authorized the sale of the bonds at not less than par, in coin, and the application of their proceeds to the redemption of 5-20s, or the exchange of the bonds for said 5-20s, par for par. The act further provided that the bonds should be redeemed after maturity, upon three months' public notice, when the interest thereon should cease, and that the bonds of each class last dated and numbered should be first redeemed. The act of January 20, 1871 (16 Statutes, 399), increased the amount of 5 per cent. bonds to $500,000,000, provided that the aggregate amount issued of the three classes should not exceed the amount originally authorized. It also provided that the interest on any of the bonds might be paid quarterly.

FIVE PER CENT. LOAN OF 1881.

The amount of 5 per cent. bonds issued under authority of the refunding acts was $486,043,000. In addition to this amount there was issued $31,951,150 in bonds of the same loan, under authority of the acts described below.

The act of December 17, 1873 (18 Statutes, 1), authorized the issue of 5 per cent. bonds, in lieu of any bonds of the loan of 1858 which the holders thereof might, on or before February 1, 1874, elect to exchange for the bonds of this loan.

The act of January 14, 1875 (18 Statutes, 296), authorized the Secretary of the Treasury to use any surplus revenues from time to time in the treasury not otherwise appropriated, and to issue, sell, and dispose of, at not less than par, in coin, bonds of the United States of any of the classes described in the act of July 14, 1870, to the extent necessary for the redemption of fractional currency in silver coins of the denominations of ten, twenty-five, and fifty cents of standard value.

The act of March 3, 1875 (18 Statutes, 466), directed the Secretary of the Treasury to issue bonds of the character and description set forth in the act of July 14, 1870, to James B. Eads, or his legal representatives, in payment, at par, of the warrants of the Secretary of War for the construction of jetties and auxiliary works to maintain a wide and deep channel between the South pass of the Mississippi river and the Gulf of Mexico, unless Congress should have previously provided for the payment of the same by the necessary appropriation of money.

Length of loan, 10 years; redeemable after May 1, 1881; amount authorized, indefinite; amount issued, $517,994,150; sold at par; interest, 5 per cent., payable quarterly (February, May, August, and November); outstanding June 30, 1880, $484,864,900.

CERTIFICATES OF DEPOSIT.

The act of June 8, 1872 (17 Statutes, 336), authorized the deposit of United States notes, without interest by banking associations, in sums not less than $10,000, and the issue of certificates therefor in denominations of not less than $5,000; payable on demand, in United States, notes at the place where the deposits were made. It provided that the notes so deposited in the treasury should not be counted as a part of the legal reserve, but that the certificates issued therefor might be held and counted by the national banks as part of their legal reserve, and accepted in the settlement of clearing-house balances at the places where the deposits therefor were made, and that the United States notes for which such certificates were issued, or other United States notes of like amount, should be held as special deposits in the treasury, and used only for the redemption of such certificates.

Length of loan, indefinite; redeemable on demand; amount authorized, indefinite; amount issued, $601,600,000; sold at par; interest, none; outstanding June 30, 1880, $14,465,000.

SILVER CERTIFICATES.

The act of February 28, 1878 (20 Statutes 26, section 3), authorized the issue of certificates in denominations corresponding to those of United States notes, but not of smaller denominations than ten dollars, in exchange for the coin authorized by this act, said coin to be deposited by the holder with the treasurer or any assistant treasurer of the United States, and be retained in the treasury for the payment of the certificates on their presentation; said certificates to be receivable for customs, taxes, and all public dues, and be subject to reissue when so received.

Length of loan, indefinite; redeemable on demand; amount authorized, indefinite; amount issued, $21,018,000; sold at par; interest, none; outstanding June 30, 1880, $12,374,270.

22.	Six per cent. stock of 1790*†		
23.	Deferred six per cent. stock of 1790*†		
24.	Three per cent. stock of 1790*		
	Amount short	69,182 30	
	Amount over		92,815 46

(A.) *In order to locate correctly the above discrepancies, and fully complete an exact account of the redemption of each loan, it has been found necessary to closely examine the books and nearly all of the statements containing the accounts of loan transactions from 1814 to the present time. This labor has not yet been completed. A clear understanding may be had of these differences, however, from the statements of "issues and redemptions" of each loan, the variations being there stated as "unadjusted," awaiting the completion of the examination now in progress. The requisite changes have already been made, so far as they have been proved to be correct, as will be seen from the notes following each loan.

(B.) †The redemption of these two loans, subsequent to the year 1836, is included in the "Receipts and Expenditures" under the head of interest and reimbursement of the (old) funded debt.

(C.) The amount stated as redeemed on account of the 6 per cent. stock of 1790, in 1818, and on account of the deferred 6 per cent. stock, in 1824, is estimated, and may vary slightly when finally adjusted with the earlier loans.

RECAPITULATION BY LOANS FROM JULY 4, 1776, TO JUNE 30, 1880.

Title of loans.	Issues.	Redemptions.	Outstanding June 30, 1881.	Redemptions apparently short.	Redemptions apparently over.

Areas in body-color represent male holders, those in line-work, female holders.

OWNERSHIP OF NATIONAL DEBT.

REGISTERED BONDS.

The act of Congress approved April 20, 1880, by its second section, made it the duty of the Superintendent of Census to collect and collate, as far as possible, by experts and agents and from officers of the government, information in relation to the ownership of the public debt of the United States.

In compliance with this provision of law, the work of ascertaining the distribution of the registered bonds of the United States was intrusted to Mr. ROBERT P. PORTER, of Chicago, special agent of the Tenth Census on wealth, debt, and taxation, who directed the investigation from its inception to its completion. To aid in the prosecution of this inquiry, the honorable Secretary of the Treasury kindly placed the quarterly-interest schedules at the disposal of the Census Office. Many valuable suggestions relating to the most practical method of tabulating these statistics were made by the Hon. Glenni W. Scofield, register of the treasury; Mr. N. B. Walker, of the register's office, and Mr. Hartwell Jennison, who for twelve years has been the chief of the loan division of the treasury. The principal part of the clerical work was done by Miss Fannie A. Tucker, of Wisconsin, and Mrs. Emily M. Pattison, of New York, both of whom deserve great credit for the painstaking, conscientious, and extremely accurate manner in which they brought the work to a successful termination. It was impossible to ascertain positively whether the figures had been drawn off with absolute accuracy until the total number of the holders (80,802) and the aggregate amount held ($825,917,100) were transferred from the treasury books and distributed in the columns representing the various classifications adopted by the Census Office.

The report shows the number of male and female holders of the United States registered bonds and the amount held in the several States and in one hundred and seventeen of the principal cities of the country; also the amounts held by individual bondholders, varying from less than $500 to $50,000 and upward (excepting the 6 per cents). No attempt was made to separate the territories in the classification, the total number of bondholders and amount of bonds held in all the territories alone being given. The amounts of each of the issues of registered bonds held as investments by national, savings, and private banks, insurance, trust, and express companies are given, but not separated by states or cities. The sex of the owner was determined by the Christian name on the treasury schedules, and hence a few errors may have arisen in cases where the given names applied alike to male and female. In all doubtful cases the holders were classed as males. For the convenience of the Treasury Department the quarterly interest on the four per cent. consols is made payable on the 1st day of July, October, January, and April; that of the four and one-half per cent. funded loan on the 1st day of June, September, December, and March; that of the five per cent. loan on the 1st day of August, November, February, and May; and the semi-annual interest on the six per cent. loans in January and July.

The most available records nearest the date of taking the census, June 1, 1880, were taken for each loan, the tables showing the distribution of the four per cent. consols July 1, 1880; the four and one-half per cent. loan June 1, 1880; the five per cent. loan August 1, 1880; and the six per cent. loans July 1, 1880.

According to the register of the treasury the total amount of registered four, four and one-half, five, and six per cent. bonds owned by foreign and domestic holders, and by banks, to secure circulation on which the quarterly and semi-annual interest was paid during the months of June, July, and August, 1880, was $1,173,749,250. To make this total the various issues of bonds are taken at the following dates:

Registered four per cent. consols of 1907, on which the quarterly dividend of interest was paid July 1, 1880	$528,100,950
Registered four and one-half per cent. funded loan of 1891, on which the quarterly dividend of interest was paid June 1, 1880	170,280,800
Registered five per cent. funded loan of 1881, on which the quarterly dividend of interest was paid August 1, 1880	294,440,800
Registered six per cent. loans of 1880 and 1881, on which the semi-annual dividend of interest was paid July 1, 1880	180,926,700
Total	1,173,749,250

The public debt statement June 30, 1880, of the outstanding registered bonds, does not, of course, agree exactly with the above statement taken from the register's books at the respective dates nearest the census year, when the quarterly or semi-annual interest was due and paid. Below is the public debt statement of the registered bonds as shown June 30, 1880:

Registered four per cent. consols	$527,707,950
Registered four and one-half per cent. funded loan	171,107,350
Registered 5 per cent. funded loan of 1881	294,586,500
Registered six per cent. funded loans of 1880 and 1881	177,692,050
Total	1,171,093,850

The difference in the dates causes a discrepancy of $2,655,400 between the total registered bonds on which the interest was paid in June, July, and August, 1880, and those appearing in the public debt statement of June 30, 1880. These registered bonds were found to be distributed as follows:

Private individuals	$271,435,900	
Banks, insurance, trust companies, &c	113,306,900	
National banks (to secure circulation)	136,526,700	
Foreign holders	6,831,450	
Total 4 per cent. registered bonds		$528,100,950
Private individuals	72,010,900	
Banks, insurance, trust companies, &c	53,620,400	
National banks (to secure circulation)	39,461,950	
Foreign holders	5,187,550	
Total 4½ per cent. registered bonds		170,280,800
Private individuals	74,092,050	
Banks, insurance, trust companies, &c	60,524,250	
National banks (to secure circulation)	143,949,150	
Foreign holders	15,875,350	
Total 5 per cent. registered bonds		294,440,800
Total of 4, 4½, and 5 per cent. registered bonds		992,822,550
Total 6 per cent. registered bonds as distributed in ten large cities		180,926,700
Grand total		1,173,749,250

The interest on the six per cent. bonds of 1880 and 1881 was made payable semi-annually (July and January), in the ten principal cities of the country, New York, Boston, Philadelphia, Baltimore, Chicago, Cincinnati, Washington, San Francisco, St. Louis, and New Orleans, and not sent direct by draft to the holders. The treasury books were sent to the subtreasuries of these cities, and the owners or persons authorized called and receipted for the interest. These bonds, aggregating at that time $180,926,700, were owned by 7,688 corporations and private individuals; 4,239 of these holders received their interest in New York City; 1,611 in Boston; 1,306 in Philadelphia; 243 in Baltimore; 42 in Chicago; 54 in Cincinnati; 169 in Washington; 5 in San Francisco; 10 in St. Louis; and 9 in New Orleans. The other three species of registered bonds aggregated $992,822,550, and were owned as follows:

Private individuals and corporations	$644,990,400
Foreign holders	27,894,350
National banks (to secure circulation)	319,937,800
Total	992,822,550

From the exhibits herewith presented it appears that the aggregate number of holders of four, four and one-half, five, and six per cent. registered bonds is 80,802, and that the aggregate amount held is $825,917,100. Table I shows the number of holders and amounts held of the various registered loans:

TABLE I.

Loans.	Number of holders and amounts held of the 4 per cent., 4½ per cent., 5 per cent., and 6 per cent. loans.			
	Number of holders.	Amounts.	Holders, per cent.	Amounts, per cent.
4 per cent	55,278	$384,742,800	68.41	46.58
4½ per cent	10,745	125,631,300	13.30	15.22
5 per cent	7,091	134,616,300	8.78	16.29
6 per cent	7,688	180,926,700	9.51	21.91
Total	80,802	825,917,100	100.00	100.00

Omitting the six per cent. bonds from the calculation, we find that of the total number of holders (73,114) of four, four and one half, and five per cent. registered bonds, 42,262 are males, 29,325 are females, and 1,527 are

corporations; and of the amount held, the males own $327,185,500, the females $90,353,350, and the corporations $227,451,550. The average per capita for the male holders is $7,741 84, for the female holders $3,081 10, for the corporations $148,953 20, and for both sexes and the corporations $8,821 70.

Of the $644,990,400 no less than $410,279,400 is held in amounts of over fifty thousand dollars; $58,730,600 in amounts varying from twenty-five thousand to fifty thousand dollars; $59,143,850 in amounts exceeding ten thousand dollars and reaching to twenty-five thousand; $41,079,900 in amounts exceeding five thousand and reaching to ten thousand dollars; $33,070,950 in amounts exceeding twenty-five hundred and reaching to five thousand dollars; $22,032,550 in amounts of over one thousand and including twenty-five hundred dollars; $13,097,250 in amounts of over five hundred dollars and including one thousand; and $7,555,900 in amounts of less than five hundred dollars.

Table II shows the number of males, females, and corporations holding the above-mentioned classified amounts:

TABLE II.

Classes.	Males.	Females.	Corporations.	Total.	Classes.	Males.	Females.	Corporations.	Total.
Amounts exceeding $50,000..	830	168	531	1,529	From $1,000 to $2,500	7,505	4,871	53	12,429

From $2,500 to $5,000.....	21,406,300	11,032,950	631,700	33,070,950	Total	327,185,500	90,353,350	227,451,550	644,990,400

Of the 73,114 holders, 37,256, or fifty-one per cent., reside in one hundred and seventeen cities of the United States, and of the aggregate amount, $644,990,400, the tables show that $549,200,600, or eighty-five per cent., is held in these cities. Table IV shows the relative proportion of male and female holders and corporations in the cities to the total for the United States:

TABLE IV.

	MALE AND CORPORATIONS.				FEMALE.				AGGREGATE.

Total.....	42,262	100.00	29,325	100.00	1,527	.....	73,114	100.00

Tables V and VIII bring out the fact that while over thirty-six per cent. of the holders reside in the New England states, not more than eleven per cent. of the aggregate amount of bonds are credited to New England. On the other hand, over forty-two per cent. of the holders have their residence in the middle states, and upward of forty-three per cent. of the aggregate amount of bonds is held in that section. Over three and one-half per cent. of the holders reside in the southern states, and about two per cent. of the bonds are owned there. In the western states are fifteen per cent. of the holders, and nearly eight and one-half per cent. of the bonds. The banks, insurance companies, and other corporations, representing in number only two per cent., own about thirty-five per cent. of the bonds.

The holders are distributed in the various states of the Union as follows:

TABLE VI.

States.	Number.	Per cent. of bond-holders.	Per cent. of popu-lation.	States.	Number.	Per cent. of bond-holders.	Per cent. of popu-lation.
Massachusetts	16,855	23.04	3.56	Wisconsin	342	0.47	2.62

Virginia	458	0.63	3.02	Nebraska	55	0.07	0.90
Michigan	453	0.62	3.26	Nevada	18	0.03	0.14
Kentucky	451	0.61	3.29	Oregon	14	0.02	0.34
California	411	0.56	1.72				
Tennessee	369	0.51	3.07	Total	73,114	100.00	100.00

Table VI establishes the fact that Massachusetts, with only three and one-half per cent. of the total population of the country, has twenty-three per cent. of the total number of bondholders; while New York, with over ten per cent. of the total population, has twenty per cent. of the bondholders. Ohio has over six per cent. of the total population and over five and one-half per cent. of the bondholders. Illinois and New Hampshire each has over four per cent. of the bondholders, while the former state has over six per cent. of the total population of the country and the latter has only six-tenths of one per cent. Oregon has the least number of holders, 14, and Massachusetts the highest, 16,855.

Table VII shows that, in the amounts held, New York comes first, with $210,264,250, and Oregon has the least, $126,300.

TABLE VII.

States.	Amounts.	Per cent. of amounts held.	Per cent. of popu-lation.	States.	Amounts.	Per cent. of amounts held.	Per cent. of popu-lation.
New York	$210,264,250	32.60	10.14	Wisconsin	$1,331,400	0.21	2.62

Table IX shows the number of private bondholders in each 100,000 of the population in each state and in the United States:

TABLE IX.

States.	Number.	States.	Number.	States.	Number.	States.	Number.
District of Columbia	1, 320	Illinois	100	Louisiana	30	Alabama	10
Massachusetts	950	Maryland	100	West Virginia	30	Mississippi	10
New Hampshire	850	Delaware	70	Colorado	30	Arkansas	10
Vermont	570	California	50	Nevada	30	Minnesota	10
Connecticut	390	Indiana	40	Iowa	20	Nebraska	10
Rhode Island	300	Missouri	40	Tennessee	20	Oregon	9
New York	290	Kentucky	30	Territories	20	Georgia	4
Maine	260	Michigan	30	Florida	20		
Pennsylvania	240	Virginia	30	South Carolina	15	United States	146
New Jersey	240	Wisconsin	30	Texas	10		
Ohio	130	Kansas	30	North Carolina	10		

It will be seen from table IX that the District of Columbia contains more bondholders, in proportion to its population, than any of the states of the Union, no less than 1,320 in each 100,000 of the population being holders of the various loans. Of the states, it will be observed that Massachusetts, which has the largest number of bondholders, also presents a greater number of holders in proportion to her population than any other state. As the table shows, the New England states lead in this regard, New York alone breaking the solid column and taking precedence over Maine. The middle states take high rank in the proportion of bondholders to their population, while in the western and southern states, with a few exceptions, a very small percentage of the population is represented in the total number of male and female holders.

The following exhibits give, in the proper order, the distribution of the male and female holders, and the amounts held, in the various states of the Union, of the several classes of United States registered bonds:

Exhibit I shows the aggregate number of male and female private holders, and the amounts of the four, four and one-half, and five per cent. bonds held in every state, and by the banks and insurance, trust, and express companies.

Exhibit II shows the aggregate number of male and female private holders, and amounts held, of the four, four and one-half, and five per cent. bonds, in 117 cities of the United States.

Exhibit III shows the distribution, by male and female private holders, and amounts held, of the four, four and one-half, and five per cent. registered bonds—"a," "b," "c," and "d," respectively, showing the amounts of the individual ownership, varying from sums of less than $500 to over $50,000.

Exhibit IV shows the distribution, by male and female private holders, and amounts held, of the four per cent. consols of 1907, July 1, 1880.

Exhibit V shows the distribution, by male and female private holders, and amounts held, of the four per cent. consols of 1907, July 1, 1880—"a," "b," "c," and "d," respectively, showing the amounts of this individual ownership, varying from sums of less than $500 to over $50,000.

Exhibit VI shows the distribution, by male and female private holders, and amounts held, of the four and one-half per cent. funded loan, 1891–1898, June 1, 1880.

Exhibit VII shows the distribution, by male and female holders, and amounts held, of the four and one-half per cent. funded loan, 1891–1898, June 1, 1880—"a," "b," "c," and "d," respectively, showing the amounts of this individual ownership, varying from sums of less than $500 to over $50,000.

Exhibit VIII shows the distribution, by male and female private holders, and amounts held, of the five per cent. funded loan of 1881, August 1, 1880.

Exhibit IX shows the distribution, by male and female private holders, and amounts held, of the five per cent. funded loan of 1881, August 1, 1880—"a," "b," "c," and "d," respectively, showing the amounts of this individual ownership, varying from sums of less than $500 to over $50,000.

Exhibit X shows the distribution of the six per cent. registered bonds by number of holders and amounts held in the ten principal cities of the country, July 1, 1880.

COUPON BONDS.

It has already been shown that the public debt statement of June 30, 1880, reported $1,171,093,850 of registered bonds outstanding, and the discrepancy of $2,655,400 between this statement and that given in the census investigation has been explained. The distribution of the registered bonds among the several states and territories has also been given. There still remained, June 30, 1880, $537,532,250 of coupon bonds on which quarterly and semi-annual interest was paid at the United States treasury and the several sub-treasuries. As the coupons of these bonds are handled very much the same as cash, it is impossible to trace the ownership with the same exactitude as that of the registered bonds. The only method that presented itself was first to ascertain the amount of 4, 4½, 5, and 6 per cent. coupons paid at the respective dates at the United States treasury and the nine sub-treasuries, and from the results thus obtained calculate the amount of bonds probably owned in the vicinity of these sub-treasuries. Nearly all the coupons held in foreign countries were paid at the sub-treasury in New York. These coupons do not come direct from foreign owners to the sub-treasury, but are sent through banking houses and brokers. It thus became necessary to ascertain the names of the principal bankers doing this class of business in New York, and visit each one personally.

It was found that the sub-treasury in New York paid in quarterly and semi-annual interest $1,287,337 on 4 per cents, representing a principal of $128,733,700; on 4½ per cents, $727,643 69, representing a principal of $64,679,464; on 5 per cents, $2,048,657 70, representing a principal of $163,892,640; and on 6 per cents, $1,203,843, representing a value of $40,128,100; the aggregate value of the principal represented by these payments of interest in New York being $397,433,904. Of this amount twenty of the leading bankers had sent into the sub-treasury coupons of the several species of bonds representing a principal of $241,959,962. These twenty individuals very courteously furnished an approximate statement of the amount of these coupons which had been sent them for collection from foreign bondholders, and the amount owned by domestic bondholders. The following table shows the amount of principal represented by the quarterly and semi-annual dividends of interest for which cash was received by each of these twenty firms, together with the amount of principal represented by the coupons received from foreign and domestic holders, and the aggregate amount of principal represented by the foreign and domestic coupons:

(*)	Aggregate amount of principal represented.	Domestic.					Foreign.				
		Total.	Amount of 4 per cent. principal represented.	Amount of 4½ per cent. principal represented.	Amount of 5 per cent. principal represented.	Amount of 6 per cent. principal represented.	Total.	Amount of 4 per cent. principal represented.	Amount of 4½ per cent. principal represented.	Amount of 5 per cent. principal represented.	Amount of 6 per cent. principal represented.

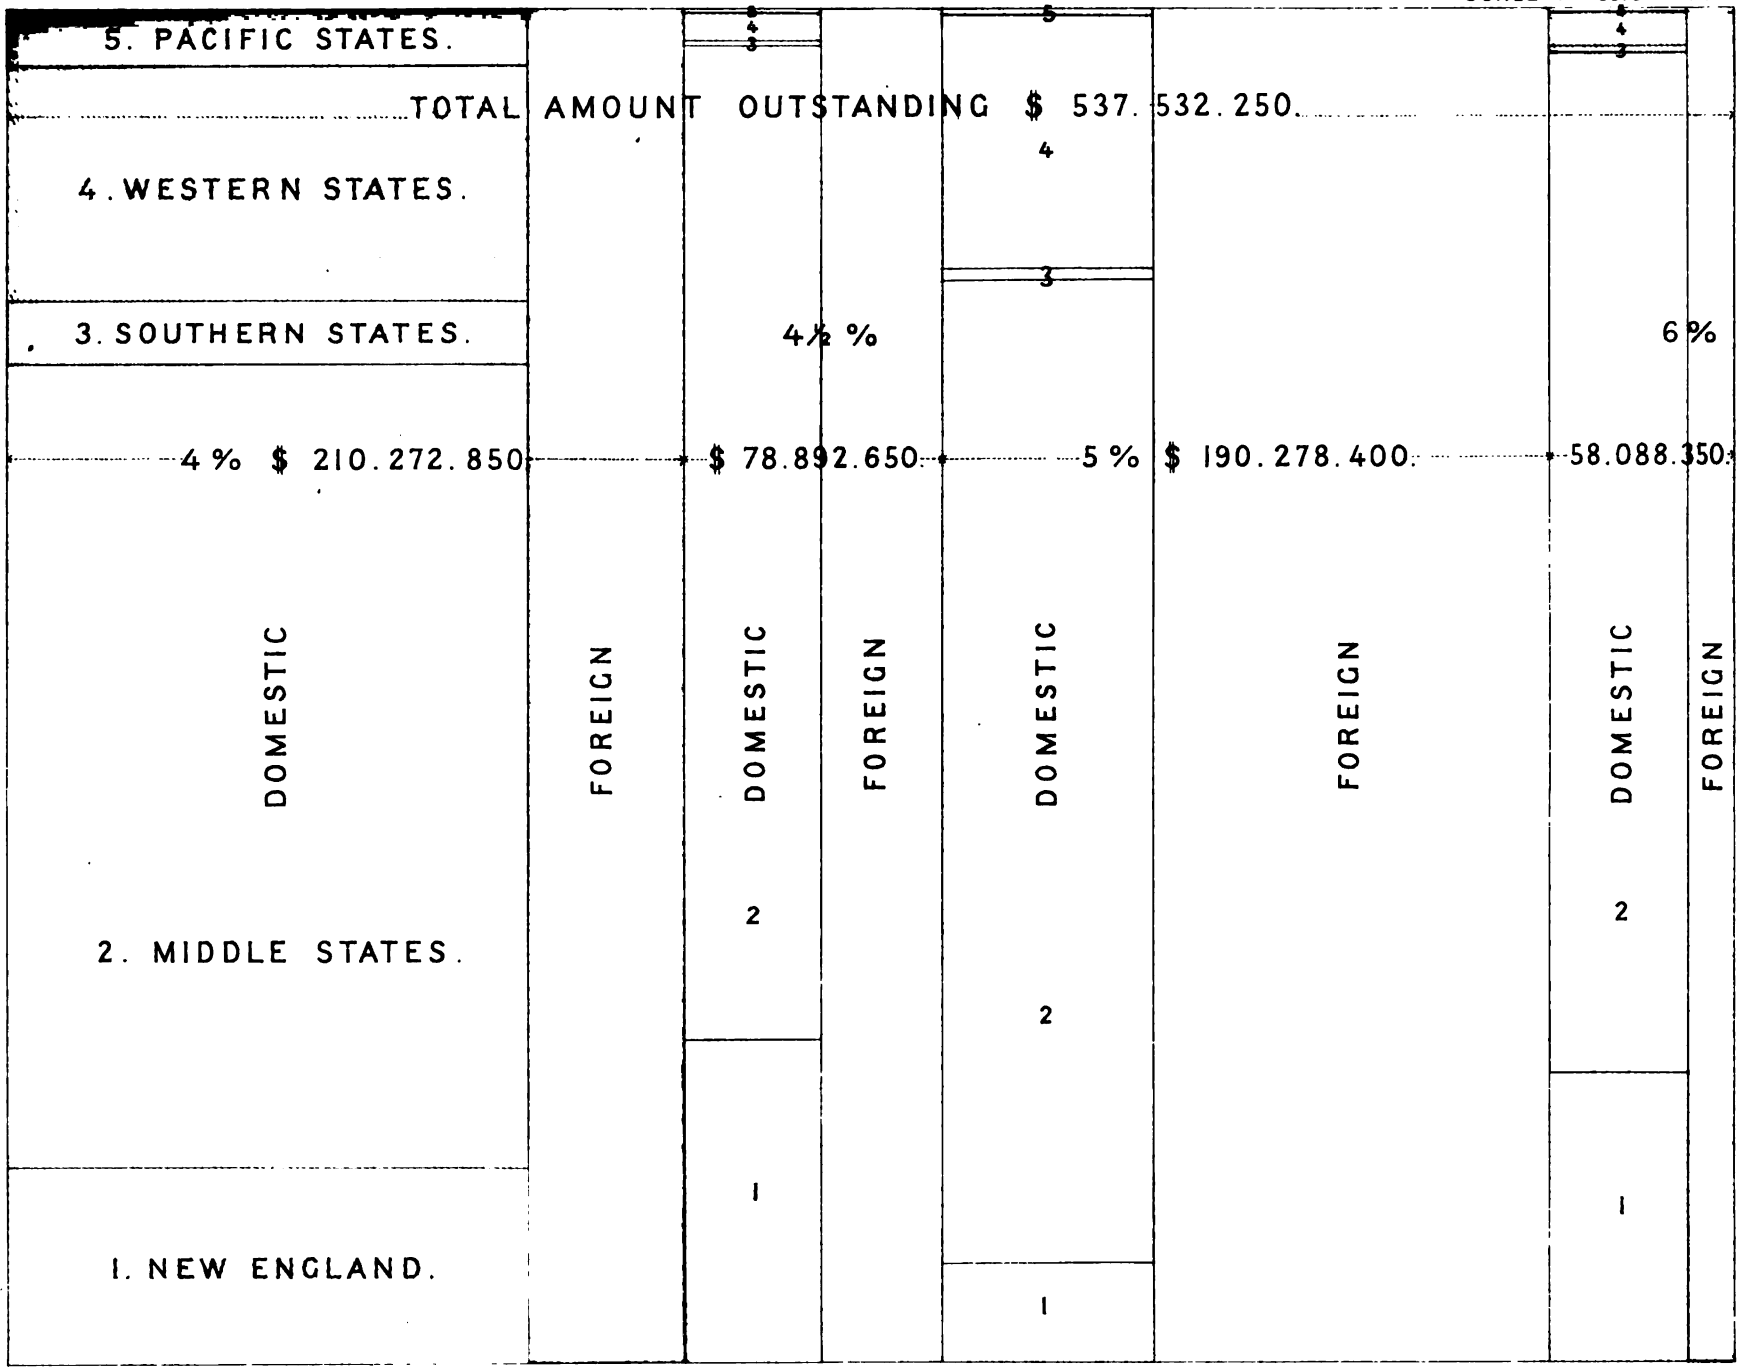
* Numerals have been substituted instead of the names of the firms, as the information obtained was confidential.

If the above statement may be relied upon, and it would seem to be as nearly accurate as it is possible to make an approximation, the interest on $221,108,425 of the $397,433,904 paid at the sub-treasury in New York was sent through twenty banking firms to foreign bond-holders, or, in other words, 55.64 per cent. were owned by foreign and 44.36 by domestic holders. Those well versed in these matters say that outside of the twenty firms given above there are few channels through which foreign coupons are likely to come to this country, and as it has been impossible to obtain any definite data, $221,108,425 has been accepted as the amount of coupon bonds held abroad

PLATE XII.

COUPON BONDS OUTSTANDING JUNE 30. 1880, AND WHERE HELD.

SCALE 1" = 59.9 MILL'S



at the dates nearest the census year for the payment of the quarterly and semi-annual dividends of interest on these four classes of bonds. The statement obtained through the sub-treasury in New York and the twenty New York banking houses may thus be summarized:

Total amount of all classes of coupon bonds as represented by coupons sent by foreign holders to twenty banking houses for payment	$221,108,425
Total amount of all classes of coupon bonds as represented by coupons sent by domestic holders to twenty banking houses for payment	20,851,537
Total amount of all classes of coupon bonds as represented by coupons presented for payment by unknown holders at the sub-treasury	155,473,942
Total	397,433,904

Of $155,473,942, the coupons for which were presented by unknown holders, $72,712,300 was represented by 4 per cent. coupons; $23,390,132 by 4½ per cent. coupons; $33,839,960 by 5 per cent. coupons; and $25,531,550 by 6 per cent. coupons. It is supposed that a large amount of these coupons came from holders in New York and neighboring states, while undoubtedly no small portion came in the way of business from the interior of the country, and was collected at the counter by the smaller bankers and brokers who are not in the habit of making out coupon schedules.

The United States treasurer at Washington gave the following statement of the amounts of the several classes of coupons paid at the United States treasury, but could not state whether presented by bankers or by private owners:

Bonds.	Amount of coupons paid.	Total principal represented.
4 per cent	$468,379	$11,709,475
4½ per cent	15,914	353,644
5 per cent	33,576	671,520
6 per cent	86,161	1,436,033
Total		14,170,672

The statements received from the other United States sub-treasuries were necessarily less satisfactory than those from New York and from the United States treasury at Washington. The assistant United States treasurer at Boston wrote that the coupons were not presented in such a form that a really satisfactory analysis could be given.

The total amount presented and paid of each class of coupons at the respective dates nearest the census year were as follows:

Bonds.	Amount of coupons paid.	Total principal represented.
4 per cent	$235,582	$23,558,200
4½ per cent	113,533	10,091,822
5 per cent	57,068	4,565,440
6 per cent	273,321	9,110,700
Total		47,326,162

The assistant United States treasurer at Philadelphia sent the following statement of the amount of the several classes of coupons paid at the sub-treasury in that city, together with a statement of the amount paid to bankers, banks, trust companies, and to individuals:

	Bonds.	Amount of coupons paid.	Total principal represented.
Bankers, banks, and trust companies	4 per cent	$48,685 00	$4,868,500
Do	4½ per cent	11,109 84	987,541
Do	5 per cent	40,874 53	3,269,962
Do	6 per cent	54,344 50	1,811,483
Total			10,937,486
Individuals	4 per cent	45,928 50	4,592,850
Do	4½ per cent	6,379 78	567,091
Do	5 per cent	24,675 45	1,974,036
Do	6 per cent	44,676 50	1,489,216
Total			8,623,193
Grand total			19,560,679

The assistant United States treasurer at Cincinnati wrote that it would be impossible to give amount of coupons presented by individuals and bankers, as no records were kept, but made the following statement of the total amount of coupons paid:

Bonds.	Amount of coupons paid.	Total principal represented.
4 per cent	$149,394 50	$14,939,450
4½ per cent	1,971 98	175,287
5 per cent	23,106 19	1,848,495
6 per cent	23,754 00	791,800
Total		17,755,032

The assistant United States treasurers at Baltimore, Chicago, and Saint Louis replied that it was impossible to give any information on the subject, but reliable figures were obtained from the United States treasury for these three sub-treasuries. The assistant United States treasurer at New Orleans made the following report:

Bonds.	Amount of coupons paid.	Total principal represented.
4 per cent	$14,309 00	$1,430,900
4½ per cent	1,727 01	153,512
5 per cent	667 59	53,400
6 per cent	810 00	27,000
Total		1,664,812

The assistant United States treasurer at San Francisco reported as follows:

Bonds.	Amount of coupons paid.	Total principal represented.
4 per cent	$36,964 00	$3,696,400
4½ per cent	1,131 88	100,622
5 per cent	3,251 51	220,160
6 per cent	2,753 50	91,800
Total		4,108,982

If the remainder of coupon bonds unaccounted for were paid in Baltimore, Chicago, and Saint Louis, and the amount were to be prorated in the same proportion as the registered bonds, Baltimore would have 30 per cent., Saint Louis 30 per cent., and Chicago 40 per cent. The table herewith given shows the amount of principal of each class of bonds as represented by the coupons paid at the United States Treasury and the nine United States sub-treasuries for the date nearest the census year:

Sub-treasuries where coupons are cashed.	4 per cent.		4½ per cent.		5 per cent.		6 per cent.		Total.	
	Amount.	Per cent.	Amount.	Per cent.	Amount.	Per cent.	Amount.	Per cent.	Amount.	Per cent.

HISTORY OF STATE DEBTS.

STATE DEBTS.

ASSUMPTION OF STATE DEBTS BY THE FEDERAL GOVERNMENT.

One of the first questions agitated in Congress was that of the assumption of the state debts. As early as 1790 a Senate committee reported that it would be greatly conducive "to an orderly, economical, and effectual arrangement of the public finance" should an equal distribution be made of the burdens of the several states among the citizens of the United States. Such a course, it was said, would not only promote more general justice to the different classes of public creditors, but would also serve to give stability to public credit. The justice of this assumption was also strongly urged on the ground that the debts were essentially contracted in the prosecution of the Revolutionary war. An act providing for the assumption of state debts by the general government passed Congress and was approved August 4, 1790.

The following statement, showing the amount authorized to be assumed in the redemption of the debt of each state and the amount assumed, is taken from the "History of the National Loans", prepared by R. A. Bayley, esq., which is published as a part of this report:

States.	Amount authorized.	Amount assumed.	States.	Amount authorized.	Amount assumed.
New Hampshire	$300,000 00	$282,595 51	Maryland	$800,000 00	$517,491 08
Massachusetts	4,000,000 00	3,981,733 05	Virginia and Kentucky	3,500,000 00	2,934,416 00
Rhode Island	200,000 00	200,000 00	North Carolina	2,400,000 00	1,793,903 85
Connecticut	1,600,000 00	1,600,000 00	South Carolina	4,000,000 00	3,999,651 73
New York	1,200,000 00	1,183,716 69	Georgia	300,000 00	246,030 73
New Jersey	800,000 00	695,202 70	Total	21,500,000 00	18,271,786 47
Pennsylvania	2,200,000 00	777,963 48			
Delaware	200,000 00	59,151 65			

From this time to 1820 but a small amount of state debt was contracted. Some of the states incurred a small war debt to aid in the war of 1812, but public improvements were not fairly pushed until after 1820.

CREATION OF STATE DEBTS BETWEEN 1820 AND 1838.

The earliest exhibit showing the amount of stocks issued and authorized by law to be issued by the several states, after this assumption by the federal government, is contained in the following table:

Amount of stocks issued by the several states named below in each period of five years from 1820 *to* 1835, *and from* 1835 *to* 1838.

States.	1820 to 1825.	1825 to 1830.	1830 to 1835.	1835 to 1838.	Total.

Total	12,790,728	13,679,689	40,012,769	107,823,808	174,306,994

*It is claimed by the people of Mississippi that the debt of $5,000,000 was contracted in violation of the constitution, and that the state was not liable therefor.
†$4,500,000 redeemed. ‡South Carolina had a revolutionary debt of $193,770. §Virginia had a war debt contracted before 1820 of $343,139.

CRISIS IN STATE FINANCE, 1836–'42.

Between the years 1836 and 1842 the states of Pennsylvania, Maryland, Mississippi, Michigan, Louisiana, Indiana, and Illinois had contracted public debts or become obligated for the debts of private corporations, which, in one form or another, through various pretexts, they refused, or threatened to refuse, to pay. At this time Benjamin R. Curtis, esq., afterward a justice of the Supreme Court of the United States, prepared himself with great care and research to sum up the whole case of the repudiating states, and to examine in detail the several arguments, excuses, or subterfuges that had been relied upon, in or out of each particular state, to justify its delinquency. He chose the form of an article in the *North American Review*, because he could there best deposit the facts, principles, and reasoning to which others might resort as to an arsenal, and which would furnish what he deemed the sound and just conclusions to which public opinion should be led. His paper, entitled "Debts of the States", was first published in the *North American Review* for January, 1844, and was immediately republished and widely circulated in pamphlet form. The article is not only valuable now on account of the principles of republican constitutional law to which Judge Curtis has there given the sanction of his authority, but because he presented at length, and with great clearness, many of the causes which had led the states into the financial embarrassments of 1840. Judge Curtis differed from most of the popular writers of the time, holding that a great injustice had been done to the American people in the comments made on the financial policy of the indebted states through leaving out of view the general state of financial affairs at the time when their debts were contracted.

THE CAUSES THAT LED TO IT,

The peace of 1815 [said Judge Curtis] found Europe, and to some extent this country also, exhausted by the wars which were then terminated. Great public debts had been created, population had been kept down by the drain upon it for the armies, production was diminished, and commerce had but a feeble life. The habits and pursuits of the people had so long been formed to a state of war that time was requisite to allow the general peace of the world to produce its effects. This change, however, soon began to be accomplished, and the world was not slow in obtaining the benefit of the new condition of things. Reverses more or less severe occasionally came, especially that most serious one in England in 1825 and 1826, which was felt in this country also; but, on the whole, the affairs of all commercial and manufacturing countries were in a hopeful state. Wealth was increasing, population was greatly multiplied, production was enlarged still faster than population, and the general condition of man in most civilized countries was constantly improving. We felt some checks during the period between 1815 and 1829; but they were beneficial rather than injurious, for they tended to keep the country in a sober and calm state, and to make men industrious and economical without seriously impairing their resources. When General Jackson became President, in 1829, there was a general and well-grounded belief that the financial affairs of the country were prosperous, and that we were in a condition to go forward with accelerated speed.

In 1834 the last installment of the national debt was paid. This fact had a natural tendency to raise the spirits of the people at home and increase the confidence of foreigners in American securities. At that time the money-lenders of Europe were not so familiar with the difference in value existing between the securities of different states, and the promptitude with which the national obligations had been paid made it thereafter less difficult to negotiate state loans.

PURPOSES FOR WHICH THE DEBT WAS CONTRACTED.

Most of the state debts of this period were contracted for the purpose of covering the expense of important works of public improvement. "New communications," said one writer, when commenting on the financial embarrassments of 1840, "have been opened by railroads and canals between different parts of the country, generally at points where they were really wanted, and will be of important service. In some few cases the rage for speculation and the facility for obtaining loans, which characterized the period when the debts were contracted, may have given rise to projects not precisely of this character; but the worst that can be said of them is that they are premature." But at that time the population and the business of the country were rapidly growing up to these improvements, and, as subsequent events have shown, many of the enterprises which at that period of our history seemed to bid fair to bankrupt the states that had promoted them are now profitable investments.

With an improved credit abroad; with an ardent desire at home to push improvements even beyond the wants of population; with manufacturing and commercial industries rapidly increasing, and apparent prosperity on all hands, it is not surprising that, as Judge Curtis said, credit to an immense amount was thus created, and that the entire country felt the stimulating effects of these expenditures. Added to this, it must be borne in mind that during this period occurred the controversy between the government of the United States and the Bank, which finally terminated in the removal of the public deposits from the United States Bank to state banks; and the popular anticipation of the time when the charter of the United States Bank should expire caused local banks to be chartered in many of the states. According to Judge Curtis, in seven years, from 1830 to 1837, the nominal capital of these banks was increased from $110,000,000 to $225,000,000; and paper money, he says, multiplied still faster.

This increase had a necessary effect on prices. The ease with which money was obtained, and the apparent profit from its use, led to the multiplication of engagements of all kinds and to every form of speculation to an amount which, if it could be correctly ascertained, would fill us with astonishment. The following is Judge Curtis'

description of the financial condition of affairs in the United States prior to the widespread bankruptcy and distress of 1837 to 1840:

CONDITION OF AFFAIRS BEFORE THE CRISIS.

If we add that, while those causes were in full operation and were gradually working together to produce their natural effects, some of the states began to receive and expend the great sums of money they had obtained upon loan, and that our own country, in its agriculture and other important resources, had been making a real and great progress, while other countries, and especially England, were in a similar state of excitement, and were constantly reacting on us—if we add all these circumstances together, we shall have little cause to wonder that the American people were brought into that most extraordinary condition in which their public debts were contracted. Former times may have exhibited as great madness, but it reached fewer persons. At no other period did the wild spirit of adventure become epidemic over so many countries till it seemed to affect the whole world. At this time commerce and manufactures had largely increased. Wealth had been both accumulated and diffused to an extent before unknown. Wonderful improvements in the means of communication across wide seas and through great continents had brought all civilized, and especially all commercial men, within one common atmosphere of sentiment and opinion. A long and unbroken peace, in whose sunshine population had increased, and production been stimulated, and private enterprise suffered to act freely, incited men to large undertakings. Some, who in former times would have found occupation suited to their daring tempers in the field, embarked their recklessness in commerce; others, whose rashness under ordinary circumstances would have been soon checked by disaster or prevented from showing itself by want of means, found that their energy and love of adventure had made them leaders; and others still, whose fears would have been roused by danger, lost all hesitation in the general confidence. Men acted as if a short and secure road to wealth had been discovered, on which all might travel, and he who went the fastest would be the first to reach the desired end. The result was such a morbid tendency to excess in all financial affairs as had never before been witnessed. In those countries where the currency was bank paper the quantity of money in circulation was enormously increased. Partly in consequence of this increase, and partly on account of the sanguine hopes of men, prices continued to rise. All uses of capital seemed to be followed by certain and large returns, and men were therefore eager to borrow. All pursuits appeared to be safe and prosperous, and therefore those who had money were desirous to lend it. So much security was felt that little security was asked; and to obtain money nothing more was necessary than to show the lender that it was to be employed in some magnificent scheme, which stood well with the large expectations of the time, and was in season with the glorious summer of men's hopes.*

So much for the extraordinary combination of circumstances which led to the creation of these debts. In speaking of the mania for the construction of great public works, for which the money was actually borrowed, the same authority says:

At this same period, and partly in consequence of this extraordinary state of things, there arose in this country a vehement desire to construct great public works, chiefly such as facilitate and promote internal communication. We do not mean to say that the desire was then new. The people of this country are far too sagacious not to have discovered before that time the great value of such works and the extraordinary natural opportunities for them presented by this continent. They have not much taste for cathedrals and palaces, but "the useful magnificence of roads and bridges" excites their admiration. They knew well enough that a canal or a railroad, piercing a great tract of country, was of immense importance to them. They quite comprehended its objects, and did not underestimate its effects; and when their hopes had been raised and their judgment somewhat disordered by the fever in their veins, and they saw the means of accomplishing these great objects not only within reach, but almost thrust into their hands, it is not strange that they seized upon them with incautious eagerness and expended them with a prodigality somewhat in proportion to the ease with which they were obtained.

PUBLIC IMPROVEMENTS IN ADVANCE OF POPULATION.

In view of these facts, it is hardly surprising that so eminent a jurist as Judge Curtis should consider that a great injustice had been done the people of this country by many of the writers and public men of the period, in not carefully weighing the general state of men's minds and the financial condition of affairs as they existed at that time, when considering the subject of their indebtedness. In the following paragraph he admits the great mistakes which were made during that period, but shows at the same time the palliating causes which led to them:

They have been rash, but it was at a time when rashness was epidemic. They have been improvident, but it was when prudence was generally considered little better than narrow-minded timidity. Their fault may have been very great, but it was very general, and it was a fault of which the creditor largely partook with the debtor. If it was rash and improvident in them to borrow, it was rash and improvident in others to lend; for in these cases the lenders had almost as good means of knowing the grounds of credit as the borrowers had. The borrowers were states, whose resources and means of payment are necessarily made public, so that all may know them. The works on which the money was to be expended were public works; their character and purposes were known; and when the loan was obtained for a specific and declared object, which it often was, the reasonableness and the probable results of the undertaking were open to the judgment of all intelligent men. In our opinion, it was the duty of the lender to exercise his judgment on these points. It is reasonable to expect that creditors will not only be vigilant, but suspicious; for those qualities naturally grow out of the relation of debtor and creditor when it is formed, and they spring up whenever an attempt is made to form it. The fears of creditors and of those who are asked to become creditors not seldom lead to untrue judgments and harsh constructions, which are not to be blamed, because they contribute to the general safety. But when we find rashness where we had a right to expect caution, and a blind confidence in place of a careful examination into means and plans, we cannot doubt that the general infatuation must thereby be increased, and that they who have departed so widely from the qualities which usually belong to their position have done much to produce the mischief.

THE REAL PROSPERITY AN EXCUSE FOR PREMATURE INVESTMENTS.

Another fact which it is important to bear in mind was the real prosperity of the states at the time when these debts were contracted, especially when seen under the bright sunshine which rested at that time upon all things. Truly may it be said that this was a cause, and, to a great extent, a just cause of confidence. Our progress in everything which makes a people powerful and rich had been unexampled. In thirty years the population had increased from 7,000,000 to 17,000,000, and this increase was in a country wide enough to afford ample room for a still

* The life and writings of B. R. Curtis, vol. II, p. 97.

greater population; fertile to produce the means of subsistence; full of all natural resources to invite and reward enterprise, and governed by laws that left the freest scope for the energies of the people. The export of the domestic products of the country had been rapidly increasing. A large amount of capital had been invested in manufactures, until an agricultural community, which had been almost wholly dependent upon foreign nations for manufactured articles, was able to supply many of its home wants, and even to send some of its commodities to other countries. To sum up, in the forcible language of Mr. Charles Francis Adams:

> In the lifetime of one generation we have seen an extent of wilderness that seemed illimitable divided into cultivated farms; solitary inland seas made glad with the presence of an active and prosperous commerce; great rivers, whose waters formerly reflected only the shadows of the forest, running by the luxurious abodes of civilized men and bearing the varied products of labor; cities, which are already worthy of the name, filled with an industrious and intelligent population, springing up in the solitary places; nay, great states, whose people are reckoned by millions, brought into existence and established during this short period.

THE ASSUMPTION OF STATE DEBTS AGITATED IN CONGRESS.

This table gives in detail the amount of each state debt in 1838, and the purposes for which it was contracted:

States.	For banking.	For canals.	For railroads.	For turnpikes.	Miscellaneous.	Total.
Alabama	$7,800,000		$3,000,000			$10,800,000
Arkansas	3,000,000					3,000,000
Illinois	3,000,000	$900,000	7,400,000		$300,000	11,600,000
Indiana	1,390,000	6,750,000	2,600,000	$1,150,000		11,890,000
Kentucky	2,000,000	2,619,000	350,000	2,400,000		7,369,000
Louisiana	22,950,000	50,000	500,000		235,000	23,735,000
Maine					554,976	554,976
Maryland		5,700,000	5,500,000		292,980	11,492,980
Massachusetts			4,290,000			4,290,000
Michigan		2,500,000	2,620,000		220,000	5,340,000
Mississippi	7,000,000					7,000,000
Missouri	2,500,000					2,500,000
New York		13,316,674	3,787,700		1,158,032	18,262,406
Ohio		6,101,000				6,101,000
Pennsylvania		16,579,527	4,964,484	2,595,902	3,166,787	27,306,700
South Carolina		1,550,000	2,000,000		2,203,770	5,753,770
Tennessee	3,000,000	300,000	3,730,000	118,166		7,148,166
Virginia		3,835,350	2,128,900	354,800	343,139	6,662,189
Total	52,640,000	60,201,551	42,871,084	6,618,868	8,474,684	170,806,187

Early in 1840 the question of the United States assuming the states' debts, contracted during the period described, was agitated in Congress. The first figures that bear evidence of authenticity, as showing the amount and the purposes for which the state debts had been contracted, appear in the speech of Senator Benton, made before the Senate in January, 1840, the figures being supplied by Mr. Flagg, the comptroller of the state of New York. From these tables it seems that $170,000,000 of debt had actually been contracted or authorized by the eighteen states previous to 1840, without counting the $28,101,644 91 received from the surplus revenue funds of the federal government. Taking into the calculation the amount probably incurred in the period between the report of Mr. Flagg and the speech of Senator Benton, together with the Florida debt of $5,000,000, and making allowance for possible omissions from Mr. Flagg's tables, the whole debt might then have been estimated at more than $200,000,000. The aggregate, as ascertained by Mr. Flagg ($170,806,187), was distributed among the states of Maine, Massachusetts, New York, Pennsylvania, Maryland, Virginia, South Carolina, Alabama, Louisiana, Tennessee, Kentucky, Ohio, Indiana, Illinois, Missouri, Mississippi, Arkansas, and Michigan. Eight of the states of the Union at that time, viz., New Hampshire, Vermont, Rhode Island, Connecticut, New Jersey, Delaware, North Carolina, and Georgia, enjoyed the distinction of not finding their names on the list. Maine and Missouri were only nominally in debt, the former having created but half a million of debt. Of this $170,806,187, $52,640,000, or about 31 per cent., had been incurred in aiding state banks; $60,201,551, or about 35 per cent., in building canals; $42,871,084, or about 25 per cent., for railroad aid; $6,618,868, or about 4 per cent., for turnpikes and macadamized roads; and for miscellaneous objects $8,474,684. Thus it will be seen that nearly $103,000,000, or about 60 per cent. of this entire amount, was expended for the improvement of our system of internal transportation.

DOWNFALL OF STATE SECURITIES.

It was in the course of the year 1839 that the European market for United States stocks may be said to have been destroyed, and very little, if any, addition was thereafter made to the volume of state indebtedness. An article on state credit in the *Democratic Review* for January, 1842, makes the assertion that no considerable amount of state securities was sold abroad after the summer of 1839, putting out of view, of course, the mere hypothecations

which may have been made of some amounts in the possession of the Bank of the United States and other institutions. The heavy issues of state stocks may be said to have commenced about 1830. The amounts created prior to that date had been comparatively small. The amount of stock authorized to be created by eighteen states in each period of five years, from 1820 to 1838, as already shown, was as follows:*

From 1820 to 1825	$12,790,728
From 1825 to 1830	13,679,689
From 1830 to 1835	40,012,769
From 1835 to 1838 (say 3½ years)	107,823,808
Total	174,306,994

SENATOR BENTON'S VIEWS OF THE SITUATION.

Senator Benton took a very gloomy view of these state debts, and declared that almost the whole amount of what the states received for the $170,000,000 was British dry goods, which were "sold for paper money to construct roads and canals and to build up paper-system banks".

The goods are worn out; the paper money has returned to the place from whence it came; the operation is over, and nothing remains of the transactions but the $170,000,000 of debt, its devouring interest, and the banks, canals, and roads which represent it. The whole of these banks have failed once, and most of them twice, in two years; the greater part of the roads and canals are unfinished, and of those finished several are unproductive.

In the course of the same speech, in calling attention to what the states had realized for their sterling bonds and sterling interest, he said:

The best of the banks are doing but little; the best of the roads and canals are hardly paying repairs, management, and interest. The mass of these institutions and works may be thus characterized: barren banks, which cannot lend; suspended banks, which will not pay; broken banks, which cannot pay; unfinished roads and canals, which are useless; finished ones, which are either bringing their owners in debt or barely paying the expense of repairs, the cost of management, and interest upon the outlay. This is their condition. Their value at home is shown by the thermometer of the stock market, where they range at all the degrees below par down to the freezing point of zero. In Europe, although backed by the credit of states, they rate from one-half to three-fourths of their nominal value.

WILLIAM COST JOHNSON'S RESOLUTION LOOKING TO THE ASSUMPTION OF THE STATE DEBTS BY THE FEDERAL GOVERNMENT.

On July 9, 1842, Mr. William Cost Johnson, of Maryland, made his first move in Congress with a view of having the national government assume the state debts. In his resolution he set forth the fact that the states, not foreseeing the embarrassments which now beset them, had, with a laudable desire to advance their interests, to develop their resources, and, by multiplying the means and facilities of inter-communication, to bring into active operation and value much of their otherwise dormant wealth, involved their credit and incurred heavy debts in the prosecution of works which are calculated to strengthen the bonds of union, multiply the avenues of commerce, and augment the defenses from foreign aggression; that these debts, contracted in times of prosperity, when capital was more plenty and confidence more stable, had now become onerous upon the people, and provisions for the annual interest and final payment of the principal would undoubtedly lead to a system of taxation which would still further depreciate the value of property, and become an unbearable burden to the taxpayer. The resolution admitted that many of the issues were improvident, but claimed that they were not the less binding.

THE WILLIAM COST JOHNSON REPORT.

The matter was brought up several times, and much opposition was exhibited to paying the state debts in this manner. In December of the same year, however, the question was referred to a select committee, who filed their report in March, 1843. The tables which accompanied the report of the select committee contain the first official information relative to state debts. They show that the total amount of the debts of the states was $207,894,613 35, and that the amount of interest paid, or due, annually, was $10,394,730 64. Many of the states had omitted to pay the interest as it accrued, consequently greatly increasing their debt, while the gradual but general depreciation of property in such states continued to render the payment of accruing interest and the final liquidation of the principal more and more difficult and doubtful with every delay.

The main objection to the report of the committee set up by those who were opposed to the proposition was that the plan contemplated the assumption of the debts of the indebted states without extending any benefit to the non-indebted states, and that the latter would be responsible for the debts of the former; that if the states were intrusted with the stock or bonds of the general government they might apply them to other uses than the payment

* This table is taken from Flagg's report, and does not agree within about $4,000,000 with the debt statement as given for 1838, on page 526. The difference mainly arises from the payment by New York of that amount of the debt incurred between the years 1820 and 1825.

of their debts; that if the states were relieved from their present difficulties and embarrassments, they would, in all probability, get heavily in debt again; and finally, that, although the states might be relieved, the issue of the amount of stock proposed would greatly embarrass the general government.

To meet the first objection, that no benefit would be extended to the non-indebted states, a plan of distributing the stock equally among all the states was adopted. The table presented below* shows the amount of the debts of the several states, and also the amount of the $200,000,000 of government bonds that each state and territory would receive had it been divided, as was proposed, among the states, territories, and the District of Columbia (the territories and the District being assumed, for the purpose, to have one representative each), upon the basis of $1,000,000 for each senator, the residue to be divided among the states, and so on, according to the number of representatives under the apportionment law of 1840. It appears that this would have involved the issue of United States stock to the amount of $651,982 38 for each representative in the Twenty-eighth Congress. The table also shows the amount of debts that would have been liquidated by the stock; the balance against the states after absorbing their portion of the stock; the balance of stock belonging to the states, etc., after payment of debts; the amount of interest due annually on the state debts at that time; and the amount that would remain after the distribution to be paid.

Estimates of the debts of the several states and territories.

States, territories, and District of Columbia.	Senators.	Representatives.	Total.	Amount of the debts of the states, etc.	$200,000,000 of government bonds, divided among the states, territories, and District of Columbia.*	Amount of debts paid by the stock.	Balance against the states, after absorbing their portion of stock.	Balance of stock belonging to states, etc., after payment of debts. *The territories and the District of Columbia are placed upon the basis of one representative each, and $1,000,000 is allowed for each senator, and the residue is divided among the representation upon the basis of the apportionment law of 1840, which would be a fraction of a cent more than $651,982 38 for each representative in the 28th Congress.

†It is evident that the figures showing the number of representatives in Connecticut and in Rhode Island should be transposed, but the above table is an exact copy of the public document.

‡The debt of Pennsylvania, according to a report of the state treasurer, issued about this time, amounted to $40,000,000.

§Maryland was actually indebted but $10,000,000, though her nominal indebtedness amounted to the sum in the table.

‖Of this amount $22,200,000 was for the banks, of which $4,811,111 10 was not negotiated, and remained in the banks.

¶The state denies its responsibility for $5,000,000 of this debt.

The above estimates of the debts of the several states and territories are taken from the report made by the Secretary of the Treasury to Congress June 25, 1842. The calculations of the interest annually paid by the several states, etc., in the above table are made at 6 per cent., that being the nearest average.

* Report of committees H. R., 27th Cong., 3d sess., Rep. No. 296, pp. 120, 121.

THE PROPOSED PLAN OF ASSUMPTION.

This plan the advocates of the assumption of the debts by the United States thought would sufficiently remove the first objection urged, that no benefit would be extended to the non-indebted states. To the second objection, that if the states were intrusted with the stocks or bonds of the general government they might apply them to other uses than the payment of their debts, the memorialists answered that it was proposed to credit the states on the books of the treasury with their respective or relative proportions, and that the transfer was to be made, not to the indebted states, but to the holders of their bonds, in exchange for a fixed equivalent amount of state stocks, when the contracting parties, the state and their bondholders, should have made amicable arrangements. The above table shows that $128,103,917 55 would have been the amount of stocks paid, and that $71,896,082 45 would have been the amount standing to the credit of the non-indebted states. This amount, it was suggested, need not be issued, but credited on the books of the department, and the states might draw their semi-annual interest on the same and their proportion of the principal when finally liquidated.

The third objection, that if the states were relieved from their present difficulties and embarrassments they would in all probability get heavily into debt again, was answered by the fact that the states most indebted in 1790, when the government assumed their debts, were Massachusetts and South Carolina, and that at that time (1842) these states had not become again embarrassed.

DISTRIBUTION OF THE SURPLUS REVENUE FUND.

Ever since 1830 efforts had been periodically made to distribute the land revenue or surplus revenue, or to induce the government to assume the stocks of indebted states and to distribute an equal portion of credit to non-indebted states. In 1837 a distribution of the surplus revenues of the United States among the several states, provided for by an act passed in 1836, actually took place. The fund originally proposed to be distributed among the states was $36,000,000, and $28,101,644 91 was in fact distributed, in three quarterly installments, the first amount transferred being under date of February, 1837, the second amount in April, and the third in July of the same year. The fourth and last installment, however, was not paid. A series of disasters, culminating in the panic of 1837, so disordered the finances of the general government before the distribution had been completed that it became necessary to have recourse to a new act of Congress, which was passed on the 2d of October, to direct the postponement of the transfer of the remaining fourth until the 1st of January, 1839. A subsequent act was passed, postponing the payment indefinitely. This last law further provided that the amount deposited should remain with the states until otherwise directed by Congress. Here the matter has rested for forty years.

The amount of money "deposited" with the several states under the act of June 23, 1836.

Maine	$955,838 25	Alabama	$669,086 79
New Hampshire	669,086 79	Louisiana	477,919 14
Massachusetts	1,338,173 58	Mississippi	382,335 30
Vermont	669,086 79	Tennessee	1,433,757 39
Connecticut	764,670 60	Kentucky	1,433,757 39
Rhode Island	382,335 30	Ohio	2,007,260 34
New York	4,014,520 71	Missouri	382,335 30
New Jersey	764,670 60	Indiana	860,254 44
Pennsylvania	2,867,514 78	Illinois	477,919 14
Delaware	286,751 49	Michigan	286,751 49
Maryland	955,838 25	Arkansas	286,751 49
Virginia	2,198,427 99		
North Carolina	1,433,757 39	Total	28,101,644 91
South Carolina	1,051,422 09		
Georgia	1,051,422 09		

THE EFFECT OF THE DISTRIBUTION OF THE SURPLUS REVENUE FUND AND OF THE DISCUSSION OF FEDERAL ASSUMPTION OF STATE DEBTS ON THE PUBLIC MIND.

Undoubtedly this distribution of national funds tended to stimulate improvident undertakings, and at the first signs of embarrassment it was not unnatural that the states should turn to the national government for succor and relief from their premature burdens. The table already given of the annual increment of debt from 1820 to the close of 1839 shows that from 1820 to 1825, when none of the distributive schemes had been thought of in Congress, the amount of state debt incurred was only twelve million and three-quarters in five years—about two and a half million per annum, and this was confined to the old and populous states, whose resources were adequate to their undertakings and whose means were equal to the payment of their contracts. In the next period of five years, from 1825 to 1830, the increase of state debts was still in the same slow and moderate proportion, and, as a general thing, confined to the same class of states. About this time Mr. Dickerson's bill for the distribution of the surplus revenue was brought forward. But it was at that time condemned by the Senate, and hence did not have an important

effect upon the expenditures and undertakings of the several state legislatures. The third period, from 1830 to 1835, was filled with bills and speeches for the distribution of land revenue, and majorities were found in both houses of Congress to countenance the projects.

Then it was [says Senator Benton, in his speech referred to] that speculation and state debt received a powerful impulse, and the debts of the states made the gigantic stride of $40,000,000 in five years, being at the rate of $8,000,000 per annum. What was worse, some of the young states began to be infected with the heresy that state debts were state blessings, and rushed into undertakings for which they were not ripe and for which the credit system had to furnish the means. The fourth period only embraced three years and a half, from 1835 to 1837, and a part of 1838, but it covered the period of the cluster of bills for the distribution of the surplus revenue, as it was called, the seductive speeches in their favor, and the dazzling tables of distributive shares, which then filled this chamber, and which took the ultimate form of a deposit with the states. The state debts in that delusive period advanced $108,000,000. Counting the $28,000,000 received from the United States, and the total advance was $136,000,000, the progressive rate of interest being close on $40,000,000 per annum. This frightful career of debt involved in its course even the youngest and weakest states and some of the territories, and the result of the whole was a larger debt contracted in that brief period by about one-half of the states than the whole Union owed at the highest point of our national debt for all its wars and acquisitions of territory—the Revolutionary war, the Louisiana and Florida purchases, all inclusive.

NEW ENGLAND STATES.

The history of the state debts of the New England states is of the most simple character. The following table presents the debt at six different periods:

New England States.	1839.	1841.		1853.		1860.		1870.		1880.	
		Funded debt.	Other debt.	Funded debt.	Other debt.	Funded debt.	Other debt.	Funded debt.	Other debt.	Funded debt.	Other debt.
Maine	*a* $554,976	*b* $1,734,861	.....	*c* $471,500	.....	*c* $699,500	.....	*d* $8,067,900	.....	$5,848,900	.....

c State treasurer.

d Ninth Census.

e The authority is the Ninth Census. The amount shown is inclusive of $45,019 owed to trust funds.

f Governor.

g The authority is the Ninth Census. The amount shown is inclusive of $3,940 owed to the school fund.

As will be seen by the foot-notes, the figures of this table have been taken from what was deemed to be the most reliable source. It was impossible in all cases to make these figures agree precisely with those in the detailed reports. For example, it has been deemed that the data in the William Cost Johnson report were, upon the whole, the most reliable for that date. Still there can be found state documents for some states which, purporting to be for the same year, do not agree with the figures given in this report. It will be readily seen that to establish complete uniformity the William Cost Johnson report either had to be accepted as a whole or omitted altogether. Believing it to be substantially correct, it has been used, with some modifications in the way of foot-notes. Further, the dates at which reports are made for a given year may vary from January to December, so that varying statements for the same year may both be true.

From the above table it appears that in 1839 the total debt of these six states amounted to less than $5,000,000. In 1842 Maine, as we shall show in the detailed report on that state, had somewhat increased its liabilities, and so had Massachusetts; but up to that period New Hampshire, Vermont, Rhode Island, and Connecticut had contracted no debts. At the close of the third period Maine had paid a large portion of its debt. The debt of Massachusetts had increased about $1,000,000, and New Hampshire had a small debt of about $75,000. In short, there was but little fluctuation in the debts of the New England states from 1839 until the close of 1860, at which period there was but little change in the debt of Maine, New Hampshire, and Massachusetts. Vermont, owing to the burning of its state-house, had contracted a debt of nearly $200,000. Rhode Island and Connecticut still continued on the list of those states that were free from debt. Owing principally to the debts contracted for war purposes, and, in the case of Massachusetts, in part for public improvements, the debts of these New England states had increased sevenfold in the decade ending in 1870, and the census of that year gives the aggregate amount of bonded and floating debt at $50,348,550. While the debts of individual states have, since that period, undergone some fluctuation, they virtually remained at about $50,000,000, in the aggregate, at the close of the census year 1880.

NEW HAMPSHIRE.

The first loans of importance of New Hampshire were made for war purposes, and the following statement exhibits the fluctuation in the debt of this state, and also the annual reduction from June, 1867, to June, 1880:

Year ending June 1—	State debt.	Reduction of debt.	Year ending June 1—	State debt.	Reduction of debt.
1867	$3,747,776 95	$254,293 18	1874	$3,826,590 02	$305,570 45
1868	3,487,411 97	260,364 98	1875	3,741,330 45	85,259 57
1869	3,136,879 33	350,532 64	1876	3,629,538 49	111,791 96
1870	2,779,291 98	357,587 35	1877	3,576,390 87	53,147 62
1871	2,360,087 52	419,204 46	1878	3,530,190 07	46,200 80
1872	*4,138,124 26	427,658 70	1879	3,573,550 90	(†)
1873	4,132,160 44	5,963 82	1880	3,501,100 00	72,450 90

* Municipal war loan bonds, amounting to $2,205,695 44, distributed to towns to equalize bounties and added to state debt. Old debt reduced as stated.
† Increase of debt, $43,360 83. During year $94,704 40 disbursed on account new state prison (see note, p. 1 state treasurer's report, 1879).

The following is a statement of the bonded debt of this state on May 31, 1880, as reported by Hon. Solon A. Carter, state treasurer. It shows the purposes for which it was issued, the rate of interest it bears, and the date of issue and of maturity:

Bonded debt, May 31, 1880	$3,501,100
Issued for war purposes	2,809,100
Issued for refunding	552,000
Issued for public buildings	140,000
	3,501,100
At 6 per cent. interest	3,061,100
At 5 per cent. interest	440,000
	3,501,100

ISSUE.		MATURITY.	
1861	$3,000	1880	$255,000
1864	600,000	1881	14,000
1872	2,206,100	1882	14,000
1873	252,000	1883	14,000
1879	440,000	1884	464,000
		1885	.....
		1886	14,000
		1887	14,000
		1888	14,000
		1889	264,000
		1890	114,000
		1891	114,000
		1892	206,100
		1893	176,000
		1894	174,000
		1895	150,000
		1896	150,000
		1897	150,000
		1898	150,000
		1899	150,000
		1900	150,000
		After 1900	750,000
Total	3,501,100	Total	3,501,100

VERMONT.

The state of Vermont, as the tables show, had no debt, except it might have been a temporary one, until the winter of 1858–'59, when the state-house was burned, and the state authorized a loan with which in part to rebuild, and borrowed $148,000, on an issue of notes or bonds, all of which was paid in 1861, 1862, 1863, and 1864. In 1861 and 1862 a further issue of bonds was authorized to supply funds needed in consequence of the war, under which

authority Vermont issued bonds, amounting in all to $1,650,000, which bonds were paid when due. There now remains unpaid $4,000, due in 1876, and the amount of the agricultural college fund held by the state treasurer in trust, due in 1890, $135,500. The state has now funds on hand more than the total of all the state liabilities of all kinds.

RHODE ISLAND.

The debt of Rhode Island was also incurred for war purposes, and the following is a statement of its present condition:

Bonded debt	$2,534,500
Issued for war expenses, at 6 per cent. interest	2,534,500

ISSUE.		MATURITY.	
1861	$500	1881	$500
1862	965,000	1882	965,000
1863	831,000	1883	200,000
1864	738,000	1893	631,000
		1894	738,000
Total	2,534,500	Total	2,534,500

CONNECTICUT.

The bonds of Connecticut were all issued after 1860, and, excepting the last ones, were for war expenses. The bonds issued in 1877 were for the purpose of redeeming optional bonds due July 1, 1871, to 1881, and the bonds due October 1, 1874, to 1894, the amount of both issues then outstanding being about $1,078,000. The following statement from the state treasurer's report shows that the debt of the state was originally made for raising and equipping troops for the war, the amount being, at the close of the war, $10,000,000, but now reduced to less than half that amount.

Bonded debt, December 31, 1879	$4,967,600
Issued for war expenses	4,967,600
At 6 per cent. interest	3,936,600
At 5 per cent. interest	1,031,000
	4,967,600

ISSUE.		MATURITY.	
1863	$877,000	1883	$877,000
1864	1,318,500	1884	1,318,500
1865	1,741,100	1885	1,741,100
1867	1,031,000	1887	1,031,000
Total	4,967,600	Total	4,967,600

MAINE.

The foregoing statement embraces the four New England states that virtually had no debt until war times. The history of the debts of Maine and of Massachusetts is of more general interest. In 1820 Maine, formerly a part of Massachusetts, was admitted as a state. Like many others during the period between 1830 and 1840, the state was seized with a debt-creating mania, which severely taxed its resources at the time. The funded debt reached its maximum December, 1841, when it stood at $1,734,861 47. This debt was contracted partly for an insane hospital, partly for primary schools, and for expenses incurred under the border difficulties, and for other purposes, large sums being paid from its treasury, as bounty on the growth of wheat and corn, amounting to about 8 cents per bushel on the former and 4 cents on the latter, to farmers who raised over 50 bushels each. In one year the bounty paid was $87,352 30.

The present outstanding debt of this state, according to the state treasurer's report, December 31, 1879, was incurred for war purposes, and stood, at the close of December that year, as follows:

Bonded debt, December 31, 1879	$5,848,900
Issued for war purposes	5,848,900
Bearing 6 per cent. interest	5,848,900

ISSUE.		MATURITY.	
1863	$692,000	1880	$307,000
1864	2,330,000	1883	385,000
1869	2,826,900	1889	5,156,900
Total	5,848,900	Total	5,848,900

MASSACHUSETTS.

For many years prior to 1837 there had not been, in Massachusetts, any permanent loans. In that and in subsequent years, however, bonds or scrip were issued in aid of the construction of certain railroads, and to procure the means to establish certain charitable institutions. The bonds then issued by the state have been promptly paid as they respectively became due, except the $400,000 of bonds issued in aid of the construction of the Norwich and Worcester railroad, which matured in 1857, and at that date were renewed for twenty years, at 6 per cent. interest, and paid in 1877. There is also outstanding $1,000 in bonds of the issue of 1856, maturing in 1862, which has not been presented for redemption.*

In 1837 there was loaned to the Western Railroad Company (Worcester to Albany) $2,100,000. In 1839 a further loan of the credit of the state was made to that company of $1,200,000, and in 1841 the sum of $700,000, making a total of $4,000,000. The state issued her bonds for these several sums, payable thirty years after date, in London, with interest at the rate of 5 per cent. per annum. In 1837 the state also subscribed $1,000,000 to the capital stock of that company, and in payment therefor issued bonds payable in twenty years, with 5 per cent. interest. The railroad company executed mortgages to the state to secure these several loans. There was also loaned, under similar conditions, during the year 1837, to the Eastern railroad $500,000; Norwich and Worcester railroad, $400,000; Andover and Haverhill railroad, $100,000; and, in 1839, to the Boston and Portland railroad, $50,000. No further permanent loans were made by the state until 1849, when the construction of a reform school, of lunatic hospitals, almshouses, and other public buildings, was commenced, and in that and in subsequent years until 1858 a debt of $1,314,000 was created, which has since been paid.

In 1861 there was an accumulation of temporary loans aggregating $300,000, and scrip to that amount was issued, which has been paid. In 1861 and 1862 there were issued $3,000,000 of Union loan bonds bearing 6 per cent. interest, and $600,000 of similar bonds bearing 5 per cent. interest. These have been paid, as also $3,505,000 of war loan 6 per cent. currency bonds, issued in 1866 and 1867.

The following table shows the amount of *funded* debt on the dates mentioned. This table has been compiled from the governors' addresses for the respective years:

On January 1, 1860	$6,413,355	On January 1, 1871	$27,128,164
On January 1, 1861	6,817,127	On January I, 1872	29,630,364
On January 1, 1862	†5,002,047	On January 1, 1873	27,692,704
On January 1, 1863	†5,257,000	On January 1, 1874	28,477,804
On January 1, 1864	†6,338,000	On January 1, 1875	29,465,204
On January 1, 1865	14,372,935	On January 1, 1876	33,886,464
On January 1, 1866	19,131,435	On January 1, 1877	33,550,464
On January 1, 1867	24,399,224	On January 1, 1878	33,220,464
On January 1, 1868	22,943,760	On January 1, 1879	33,020,064
On January 1, 1869	26,807,420	On January 1, 1880	33,020,464
On January 1, 1870	29,737,259		

The funded debt outstanding January 1, 1880, is divided as follows:

Issued for war purposes	$10,468,188
Issued for railroad purposes	17,738,996
Issued for public buildings	4,113,280
Issued for improvement of rivers, harbors, &c	700,000
Total	33,020,464

It will thus be seen that more than one-half of the entire state debt was incurred to aid in the construction of railroads, and of this sum $14,139,972 was issued in aid and to secure the completion of the Troy and Greenfield railroad and the Hoosac tunnel. The building of this road and the tunneling of the Hoosac mountain was a private enterprise, undertaken by the Troy and Greenfield Railroad Company. Soon after the organization of the company, however, application was made for public aid, which was granted, and finally the state was obliged to take the control and management into its own hands, in order that the large amount already advanced and expended might not be lost and the enterprise fail.

* Paid since the date of this report.

† Exclusive of loans to railroad companies.

The first aid was granted to this company in 1854, when the legislature passed an act entitled "An act authorizing a loan of the state credit to enable the Troy and Greenfield Railroad Company to construct the Hoosac tunnel".*

This act authorized the treasurer of the commonwealth to issue scrip or certificates of indebtedness, in the name and on behalf of the commonwealth, for the sum of $2,000,000, payable at London in the currency of Great Britain, or at Boston in the currency of the United States (at the option of the directors of the Troy and Greenfield Railroad Company when they should apply for the issue of the scrip), redeemable in thirty years, with interest at the rate of 5 per cent. The scrip to be issued was to aid the company in constructing a tunnel and railroad under and through the Hoosac mountain. Certain conditions were imposed on the company before any scrip was to be issued. They were to satisfy the governor and council that they had obtained subscriptions to their corporate stock in the sum of $600,000, and that 20 per cent. of the amount had been actually paid in, and the scrip was to be issued in sums of $100,000 as the work progressed, the last $200,000 not to be issued until the railroad was opened for use through the Hoosac and a continuous railroad laid from Greenfield to the line of the state in Williamstown. Other conditions were also made regarding the paying of the subscriptions to the stock and the repayment of a portion of the amount derived from the sale of the scrip, for the purpose of creating a sinking fund. The railroad company executed a bond to secure the performance of the work and to save the state harmless from the payment of the principal and interest, and also executed a mortgage on the entire railroad, with its income and all its franchises and property. As a further security the company was required to make an assignment of all its interest in the Southern Vermont Railroad Company, which was executed.

The act also provided for the election of two directors by the legislature whenever $500,000 should have been advanced to the company. This act was modified in 1859,† but the amount was not changed. It provided a different mode of issuing the scrip, and gave the state the option of purchasing the scrip, and extended the time for the completion of the tunnel to December 31, 1865. Another change in the manner of issuing the scrip was made in 1860,‡ and the company was authorized and required to purchase the road, franchise, stock, bonds, and other property of the Southern Vermont Railroad Company, together with the income, benefits, and reversion of its lease to the Troy and Boston Railroad Company, and subject to its provisions, for the sum of $200,000; and to enable the company to make the purchase, and transfer the same to the commonwealth as security for the entire loan, a further issue of scrip in the amount of $200,000, payable in federal currency, and to be of the same description as that theretofore issued, was authorized, to be delivered upon the assignment to the state of the capital stock and lease of the Southern Vermont railroad. It was also provided that the railroad company should transmit the semi-annual interest to the state treasurer thirty days before maturity.

The railroad company abandoned the work in July, 1861, at which time the state had loaned its scrip to the amount of $725,388 88, and to October 1, 1861, had paid interest to the amount of $18,093 34 in addition to the $200,000 issued May 4, 1860, to the owners of the Southern Vermont railroad for the purchase of the road.§

In the following year‖ the legislature passed an act authorizing the governor, with the advice of the council, to appoint three commissioners to investigate the subject of finishing the Troy and Greenfield railroad and of tunneling the Hoosac mountain, and report the facts to the governor and council. The company was authorized to surrender the mortgaged property to the state, and it was provided that the right of redemption should not be barred until ten years should have elapsed after the completion of the road and tunnel and the same be open for use. The act directed the commissioners to take charge of the road and tunnel and to lease the completed portion of the road; to audit certain claims, not exceeding $175,000; and, with the consent of the governor and council, to continue the work and expedite the completion of the tunnel; all expenditures to be within the two million dollars. In 1863¶ further powers were granted to the commissioners, and the unexpended balance of the $2,000,000 was appropriated for the prosecution of the work, and certain contracts made between the commissioners and certain railroad companies were approved.

In 1865** the sum of $800,000 was appropriated for the further prosecution and completion of the road and tunnel and the payment of interest, and like scrip was to be issued therefor.

In 1866†† the further sum of $900,000 was appropriated, the amount to be raised by the issue and sale of thirty-year 5 per cent. scrip, and $600,000 in 1867‡‡, to be raised in a like manner. In the same year the legislature authorized the issue of the scrip to be made so as to be payable in not less than five nor more than twenty years, and to bear 6 per cent. interest. The entire loan was placed at 5 per cent. In 1868§§ an act was passed authorizing the funding of the unfunded debt created in the construction of the Troy and Greenfield railroad and the Hoosac tunnel, and the issue of $3,000,000 of scrip was authorized, the amount to be expressed in the currency of Great Britain and payable in London in not less than twenty nor more than thirty years (to be determined by the governor and council), with 5 per cent. interest per annum, payable in gold, or, at the option of the governor and council, to be payable in Boston in lawful money of the United States at the expiration of twenty years from date, and redeemable at any time after five years from date, with 6 per cent. interest, payable semi-annually in lawful money of the United States. The act also repealed all former acts authorizing the issue of scrip, for the purpose of constructing said railroad and tunnel, beyond the amount already issued.

* Laws 1854. ‡ Laws 1860, chapter 202. ‖ Laws 1862, chapter 156. ** Laws 1865, chapter 211. ‡‡ Laws 1867, chapter 253.
† Laws 1859, chapter 117. § Governor's address, 1862. ¶ Laws 1863, chapter 214. †† Laws 1866, chapter 293. §§ Laws 1868, chapter 51.

A few months later* the further sum of $600,000 was appropriated, $250,000 to apply to the completion of the work, and $350,000 to pay interest on the loans. The governor and council were authorized to contract for the completion of the work, and to dispose of the interest of the commonwealth in the Troy and Greenfield railroad, the Hoosac tunnel, and the Southern Vermont railroad. The further sum of $5,000,000 was appropriated if a contract should be entered into for the completion of the work, for which amount scrip was to be issued, bearing interest not to exceed 6 per cent., and to be paid in not less than twenty nor more than thirty years, and to be expressed in such currency as the governor and council might direct.

Under this act a contract was made December 24, 1868, by the governor and council, with Messrs. Walter and Francis Shanly for the completion of the work in March, 1874, for $4,594,268 in current funds (governor's address to the general court in 1869). By the same authority it appears that at that date the total amount expended by the commonwealth, including this contract and the purchase of the Southern Vermont railroad, was $9,262,694.† By a subsequent act‡ the governor and council were authorized to hypothecate the $600,000 above mentioned, and the scrip was to be made redeemable in not less than twenty nor more than thirty years. In the year 1870§ $101,500 was appropriated for changing curves, rebuilding bridges destroyed during a freshet, and making highways.

The act authorizing the governor and council to dispose of the state's interest in the railroad and tunnel was repealed on April 5, 1872.‖ On the 12th day of December, 1872, the Hoosac tunnel, from the eastern portal to the central shaft, was opened.¶ In 1873** an appropriation of $200,000 was made, and scrip was authorized to be issued therefor, to be expended in laying tracks and purchasing necessary lands.

On the 27th of November, 1873, a passage was opened through the mountain,†† and in June following $1,500,000 in scrip was authorized to be issued to complete the construction of the railroad west of Bardwell's Ferry, to be issued in like manner, and to be payable as provided for the five million dollar loan;‡‡ and the governor and council were directed to appoint a commission to take charge of the railroad upon completion of the tunnel.

Subsequently, and before the final completion of the work, the Messrs. Shanly surrendered their contract, the state deducting $36,547 for unfinished work and making an allowance for extra work.§§ In 1875‖‖ the governor and council were authorized to appoint a manager and make provision for laying track, arching the tunnel, and so on, and $1,300,000 was appropriated, for which like scrip was to be issued.¶¶

On the 31st day of December, 1875, there had been advanced in money and credit for the Troy and Greenfield railroad (including the tunnel) $11,920,334 67. The interest paid on loans to the same date amounted to $3,203,628 99, making a total of $15,123,963 66, leaving an unexpended balance of the legislative appropriations at that date of $1,414,162 82.***

In 1877 the governor, in his address to the general court (legislature), announced the completion of the tunnel, and in that year the further issue of scrip to the amount of $372,500 was authorized to pay certain claims and make repairs.††† These are all the appropriations made for the construction of the work. Whatever repairs and improvements are now made are paid out of the earnings. The road and tunnel are leased to several railroad corporations. During nine months of the year 1877 the net receipts from the railroad and tunnel were $63,966 47.‡‡‡

The following is a statement of the funded debt incurred for this enterprise on the 1st day of January, 1880, with the date of issue and maturity:

Date issued.	Amount in pounds sterling.*	Total amount in pounds sterling.	Amount in dollars.	Total amount in dollars.	Where payable.	Interest.	Will mature.

Thus, from the $2,000,000 credit of the state, first loaned to the Troy and Greenfield Railroad Company, which it was then thought would complete the work, the state has now a bonded debt of over $14,000,000, and is the owner of the tunnel and of the railroad.

The following table shows the date of issue and the amounts of the remaining funded debt, where payable, etc.:

Date issued.	Amount in pounds sterling. *	Total amount in pounds sterling.	Amount in dollars.	Total amount in dollars.	Where payable.	Interest.	Will mature.	For what purpose issued.
1868, July 1	60,000	743,600		3,599,024	London	5 per cent.	Jan. 1, 1900	Loaned to Boston, Hartford and Erie railroad.

Total	12,875,248 29
Balance unprovided for, January 1, 1880	20,145,215 71
Total	33,020,464 00

Early in 1862 an act passed the legislature of Massachusetts authorizing the banks to suspend specie payment. On the 22d of March, of the same year, an act was passed providing for the payment of interest and principal of all scrip and bonds theretofore issued, or thereafter to be issued, as the same severally became due, in gold or silver coin, and directed the treasurer to procure such coin when necessary. This early measure was taken to secure the credit of the state, and the policy has been adhered to throughout.

MIDDLE STATES.

Under the title "Middle States", New York, New Jersey, Pennsylvania, Delaware, and Maryland are included. Of these five states, New Jersey and Delaware have no debt excepting that incurred for war purposes. The former had in its constitution of 1844 a provision which prohibited the state from aiding or in any way loaning its credit to public improvements. New York, Pennsylvania, and Maryland were among the first states to aid in the construction of canals and railroads and in loaning their credit to state banks. As early as 1839 these three states were indebted to the extent of $54,984,389. In 1842 Pennsylvania and Maryland were obliged to suspend interest, and New York was on the verge of bankruptcy. At the present time, when we take into consideration the sinking funds and the resources of these states, their debts are hardly more than nominal.

New York	$7,536,732
New Jersey	646,300
Maryland	7,627,668
Pennsylvania	12,814,831
Delaware	880,750
Total net indebtedness	29,506,281

The following table shows the movement of state debts in the Middle states* since 1839:

Middle States.	1839.	1841.		1853.		1860.		1870.		1880.

NEW YORK.

The financial transactions of this state, now containing over 5,000,000 inhabitants, have been of great magnitude. The treasury accounts of New York are divided into six principal heads. First, the general fund, which represents the regular and direct finances of the government; second, the common school fund; third, the literature

*The debt of the District of Columbia appears in the table of municipal indebtedness.

fund; fourth, the canal fund; fifth, the bank fund, being the amount created by the contribution of the banks under the safety fund act of 1829; sixth, the United States deposit fund, being the amount of the three installments received in 1837 from the federal government under the act for distributing the surplus revenues. There are several other funds of minor importance of which the state is a trustee, and many of the complications in the finances of this state arise on account of transferring these securities from one fund to the other during important exigencies in the affairs of the treasury.

At the close of the revolutionary war New York found itself possessed of an immense extent of unimproved lands lying within its boundaries, which had been the "crown lands", owned by the mother country. There were also quit-rents, which had been reserved on extensive patents granted by the sovereign, which reverted to the state. Chiefly from this source and from the proceeds of the sale of the lands a general fund was made up, the annual revenues of which were intended to defray the expenses of the government and relieve the people from taxation. At this period it was actually a fund the proceeds of which discharged the state expenses.

From the lands above described the state appropriated liberal bounties to its soldiers, and with the proceeds of 500,000 acres constituted a school fund, which was, however, for a time diverted from that use and loaned to individuals and corporations. By failures resulting from these loans $161,000 was thrown upon the general fund, in accordance with an act passed in 1819 for that purpose. The school fund was in this year increased by the quit-rents transferred to it from the general fund, and in 1821 the new constitution transferred all the lands, amounting to 991,659 acres, from the general to the school fund. In 1827 a further transfer of $133,616 in stock was made, and in the following year the premium on a sale of state stock, amounting to $46,551 75, was added to the capital of the school fund, notwithstanding which appropriations a deficit of $81,853 in the amount required to make dividends was, up to 1830, supplied from the general fund.

The history of the school fund for the first forty years of its existence was, in brief, this: Its capital, after deducting losses from bad investments, was $2,031,059, and it had distributed to school districts in dividends extending over thirty years the sum of $2,780,560.

In the years 1786, 1792, and 1808 the state had contracted debts chargeable upon the general fund. In 1814, notwithstanding the operation of the school fund, the capital of the general fund amounted to $4,396,943 and the state debt to the sum of $1,503,681, leaving $2,893,259 as surplus, out of which the state paid the direct tax levied by the general government for war purposes. On the restoration of peace the state imposed a tax to replenish the general fund, which tax ceased in 1826.

In entering upon its system of internal improvements in 1817 a clear and well-defined policy was adopted. When the construction of the Erie canal was begun it was determined to constitute a fund which should, without possibility of failure, meet the interest on the loans which were required to construct it. To this end certain revenues were taken from the general fund and constituted a canal fund, under the charge of commissioners, whose duty it was to limit the loans to an amount the annual interest on which should fall within the sum of these revenues. Under their management the loan was disposed of at a premium of $663,623, realized on a total of $7,737,777, borrowed up to the date of the completion of the work, in 1826.

The constitution of 1821 set apart the tolls on the canal, together with the salt and the auction duties, as a sinking fund for the extinguishment of the canal debt. So well had the policy been observed of placing beyond contingency the payment of the canal debt that all of it which fell due in 1836 was paid, and a fund of $3,931,132 accumulated to meet the remainder, amounting to $3,762,256, due in 1845, for which the commissioners offered premiums of 9, 18, and even 24 per cent. without inducing the holders to surrender it. In 1836, the money to discharge the debt having been realized from the sinking fund, an amendment to the constitution restored to the general fund the salt and the auction duties which had been diverted from it, and also appropriated to it $200,000 annually from the canal revenues. The total yield of these duties to the canal fund from 1817 to 1836 had been $5,647,497, being $2,055,458 from salt and $3,592,039 from auction duties, which, with an amount of $73,500 derived from steamboat tax, had been expended upon the canal, and had reduced by that amount the debt which would otherwise have been contracted in its construction. These duties, aided by the canal revenues, finally discharged the debt.

In 1825 the construction of lateral canals was undertaken without specifically providing by taxation for the interest, reliance being placed solely upon the prospective revenues of the works to discharge the indebtedness incurred in their construction. In that year a bill was passed to borrow money for the construction of the Cayuga and Seneca canal, which loan was to constitute part of the canal debt, to be paid out of the canal fund.

Laws for the construction of other lateral canals followed, which works, proving to be profitless undertakings, threw an additional debt of nearly $10,000,000 on the canal fund without any provision being made to increase the means to meet it.

The enlargement of the Erie canal about the same time was advocated, and $721,441 from the surplus revenues of the canal fund was expended for that purpose prior to 1838, in which year a bill was passed authorizing a loan of $4,000,000 to carry out the work more speedily. The existing debt of the canal fund at that date was given at $10,801,839, and its increase to $21,000,000 was contemplated in adopting a policy of extensive construction, based upon prospective revenues to be derived from completed works. Under this policy the actual funded debt in 1841

amounted to $17,561,567, while the amount required to finish works in progress was $24,590,026, and at the same time works had been surveyed to complete which would require $26,648,111, making the debt, actual and prospective, at this date $68,799,704.

In accordance with the policy of loaning the state credit to companies, entered upon in 1827, stock to the amount of $5,228,700 was loaned to ten companies, chiefly railroads. Four of these subsequently failed, and the general fund became burdened with their indebtedness, amounting to $3,665,700, of which sum $3,000,000 became chargeable on the failure of the Erie railroad in 1842. This fund, already exhausted by the payment of $1,500,000 of old debt prior to 1825 and the transfer of its revenues to the school and canal funds, had also contracted debts which amounted, in 1842, to the sum of $1,948,000; so that when, in 1840, it was called upon to restore an amount borrowed from the bank safety fund it was found necessary to have recourse to a loan, and $348,000 in 5 per cent. stock was issued. The current revenues had been barely adequate to meet the annual expenses of the government and the interest on the stock issued to the defaulting railroads.

In this condition of affairs the solvency of the state was put in great jeopardy, and but one course was, by general consent, to be adopted. This was to stop all expenditures upon the public works, to issue stock in order to pay outstanding indebtedness to contractors and preserve the credit of the state, and to impose a tax to make good the deficiency for the support of the government and for interest on the state debt. This course was adopted by an act passed in 1842. At the date of its passage the canal debt amounted to $18,056,000, and, to pay arrearages to contractors, an additional sum of $3,175,000 was borrowed in a 7 per cent. bond. The act established a sinking fund, which was to extinguish the whole debt in about twenty-two years, requiring at that time to meet, in principal and interest, a sum of more than $40,000,000, or nearly $2,000,000 per annum over and above the state expenses. The stocks which had been issued by the state up to this year (1845) may be summed up as follows:

	Issued.	Redeemed.	Outstanding.
Erie and Champlain canal	$7,737,771	$7,737,771	.....
Other canal issues (profitless)	14,472,257	2,949,531	$11,522,726
Preserving the state credit	5,422,136	346,006	5,076,130
General fund	909,500	.....	909,500
Bankrupt companies	3,665,700	.....	3,665,700
Solvent companies	1,563,000	500,000	1,063,000
Total	33,770,364	11,533,308	22,237,056

Such was the condition of the state debt in 1845. A constitutional convention was held at Albany, and a new constitution adopted October 9, 1846.

The first section of the seventh article of the constitution which was then formed established the canal-debt sinking fund to be constituted of the sum of $1,300,000, taken annually from the revenues of the canal until 1855, and $1,700,000 annually after that period to pay the interest and redeem the principal of that part of the state debt called the canal debt, until the same should be wholly paid.

The second provision of this article authorized what was called the general-fund-debt sinking fund, consisting of the sum of $350,000, to be annually appropriated and set apart from the revenues of the canals, to pay the interest and redeem the principal of that part of the state debt called the general fund debt, including the debt for loans of the state credit to railroad companies which had failed to pay the interest thereon, and also the contingent debt on state stocks loaned to incorporated companies which had hitherto paid the interest thereon, whenever and so far as any part thereof might become a charge on the treasury or the general fund, until the same should be wholly paid. In case, however, the amount taken first to be added to the canal debt sinking fund should absorb too large a part of the canal revenues to enable this payment to be made, then the sum so deferred should be paid, with quarterly interest, to the general-fund-debt sinking fund as soon as it could be done consistently with the just rights of the creditors holding the canal debt. It was further provided that when the canal indebtedness should have been liquidated the amount to be paid annually into this sinking fund should be increased to $1,500,000. It was further provided that the sum of $200,000 should be paid out of the surplus canal revenues into the general fund for the purpose of defraying the current expenses of the state government, and that whatever amount might remain over should be applied by the legislature to the completion of the Erie canal enlargement and the completion of the Black River and Genesee Valley canals. After 1854 the sum of $350,000 was authorized to be thus paid into the general fund. These provisions amounted, practically, at the time to an entire suspension of the public works for an indefinite period. An attempt was made (in 1851) to correct this difficulty, and, after a remarkable contest in the senate, a bill was passed appropriating $9,000,000 for the completion of the canals, under provisions which were subsequently declared by the court of appeals to be unconstitutional. The result was a controversy, to reconcile which the constitution was so amended in 1854 as to authorize the creation of a new debt for the enlargement and completion of the canals, and of a sinking fund, to be constituted of a sum to be set apart annually "sufficient to pay the interest as it falls due and extinguish the principal in eighteen years". It was further provided that "the rates of toll on persons and property transported on the canals should not be reduced below those of the

year 1852, except by the canal-board, with the concurrence of the legislature". In case the sinking funds, or either of them, proved insufficient to enable the state to meet its obligations to its creditors, the legislature was required to levy equitable taxes, that it might so "increase the revenues of these funds as to make them, respectively, sufficient to preserve the public faith". The constitution also guards explicitly against the creation of further indebtedness, except in the matter of loans of less than $1,000,000 to meet casual deficits or failures in revenues, or for expenses not provided for, or debts which may be contracted to repel invasion, suppress insurrection, or defend the state in war. All propositions to create such indebtedness must be authorized by a law having a specific object, which law must impose and provide for the collection of a direct annual tax sufficient to pay the interest and liquidate the principal within the period of eighteen years. The bill must afterward be submitted to the people at a general election, or an election at which proposed amendments to the constitution shall have been submitted and receive a majority of votes in its favor.

Under this provision of the constitution the law creating the bounty state debt (chapter 325, laws of 1865) was enacted. It authorized the creation of a debt not exceeding $30,000,000, and levied a direct annual tax to pay the interest on the debt as it should fall due, and sufficient to pay the whole principal of the debt within the space of twelve years.

The debt of New York probably reached its maximum in 1865–'66, at which time the canal debt was about $19,500,000, the general-fund debt $6,000,000, and the bounty debt $27,644,000, making a total of $53,144,000. Since then it has gradually decreased. In 1870, according to the *Census Report*, it was $32,409,144. In 1880 the bonded debt of the state was $8,988,360. There is not in the history of state debts a more striking example of the beneficent effect of the aid of constitutional legislation in the liquidation of state debt. The general-fund state debt and the bounty debt are to-day all paid, and a large balance in the canal sinking fund leaves the amount of that debt unprovided for, September 30, 1879, only $7,536,732.

NEW JERSEY.

The constitution of 1844 of the state of New Jersey provides that the credit of the state shall not be, directly or indirectly, loaned in any case; that

> The legislature shall not in any manner create any debt or debts, liability or liabilities, of the state which shall, singly or in the aggregate, with any previous debts or liabilities, at any time exceed $100,000, except for purposes of war or to repel invasion, or to suppress insurrection, unless the same shall be authorized by a law for some single object or work to be distinctly specified therein, which law shall provide the ways and means, exclusive of loans, to pay the interest of each debt or liability as it falls due, and also to pay and discharge the principal of such debt or liability within thirty-five years from the time of the contracting thereof.

In view of this it is not surprising to find New Jersey without debt until 1860. It was not until May 10, 1861, that the legislature directed the governor and treasurer to borrow, for war purposes, on an issue of 6 per cent. bonds, exempt from taxation, none of which were to be made payable at a later date than January 1, 1885, a sum not exceeding $2,000,000. Under this act $1,798,900 in bonds were issued. By a supplementary act approved March 24, 1863, the same officials were authorized to borrow for like purposes, and on similar bonds, none of which were to be made payable later than January 1, 1896, an amount not exceeding $1,000,000. The issues under this act amounted to $1,002,900. By a further act approved April 14, 1864, the same officials were authorized to borrow, for like purposes, such sums of money as, with the money borrowed under preceding acts, should not exceed $4,000,000, and to issue bonds therefor at 6 per cent., none of which should have a longer time to run than to January 1, 1902. The bonds of this issue, however, were not exempted from taxation, and none of them were sold prior to the passage of an act approved April 4, 1866. This latter act recited in its preamble that $4,000,000 had been heretofore appropriated for paying the expenses incident to the suppression of the rebellion, but that not more than $3,000,000 had been borrowed, leaving authority to borrow $1,000,000 more, and since the state was indebted more than $600,000 for expenses incident to said suppression, this act provided that the governor and treasurer might borrow the sum of $1,000,000.

The act of 1861 provided that not more than $100,000 of the principal of the amount borrowed should be made payable in any one year. The same provision was found in the supplementary act of 1863, except that in the latter it is enacted that no part of the principal shall be paid before 1886, and the further supplement of 1864 declares that not more than $200,000 of the principal authorized by its provisions shall be made payable in any one year, and no part thereof before 1897. The payment of interest and principal as they become due is made the duty of the commissioners of the sinking fund, from the moneys of the funds furnished them by the treasurer, whose duty it is to pay over to them all moneys raised by law and received by him for the purpose of liquidating the principal and interest of this bonded debt.

The following statement of the bonded debt of the state (January 1, 1881) has been furnished by Hon. E. J. Anderson, comptroller:

Bonded debt January 1, 1881	$1,896,300
Issued for war purposes and bearing 6 per cent. interest:	
Issued in 1861	300,000
" 1863	1,002,900
" 1864	593,400
Total	1,896,300
Maturing in 1882	100,000
" 1883	100,000
" 1884	100,000
" 1886	100,000
" 1887	100,000
" 1888	100,000
" 1889	100,000
" 1890	100,000
" 1891	100,000
" 1892	62,600
" 1893	96,300
" 1894	100,000
" 1895	77,000
" 1896	67,000
" 1897	199,400
" 1898	200,000
" 1899	123,000
" 1902	71,000
Total	1,896,300

PENNSYLVANIA.

The necessity of internal improvements, by which the inland resources of Pennsylvania should be made available on her seaboard, became evident at an early date, and in the year 1789 the state commenced a series of works of various descriptions, which encountered difficulties and embarrassments that retarded some and produced the abandonment of others. The advantages of connecting the great lakes with the seaboard was perceived long before the extensive line connecting the Ohio river with Philadelphia was undertaken and finally entered upon. Between the years 1791 and 1828 there had been expended in Pennsylvania, for roads, bridges, and inland navigation, the sum of $22,000,000, and works were then in progress, to be completed by 1831, at an additional estimated expense of $12,000,000.

The expenditures for these objects at this time were upon the most liberal scale, and in the year 1829 a bill was passed authorizing an appropriation of over $3,500,000.

At this period the great work of the state was the canal and railroad connecting Pittsburgh with Philadelphia, the cost of which, prior to its completion in 1834, was $14,583,816. The lateral canals were also completed in the following year at a cost of $6,472,000. At this time the debt of the state amounted to $24,589,743, while a scheme of direct taxation to pay the interest on the state loans which had been introduced had the effect of making the people sensible of the inconvenience of a public debt.

At this juncture the charter of the United States Bank expired, and, Congress refusing to renew it, great efforts were made by that institution to procure a state charter. An offer to the state of nearly $10,000,000, most of which was to be expended on its works of internal improvement, aided the spirit of speculation then prevalent, and procured the passage of a bill in 1836 to charter the bank and to continue and extend the improvements of the state and to repeal the tax on real and personal property.

By the acceptance of the charter the Bank stipulated to pay the state of Pennsylvania a bonus of $4,500,000; to take the stock of the state to the amount of $6,000,000; and to loan the state or to subscribe to sundry roads in all a sum of $1,675,000—making a total amount of $12,175,000.

Under the impulse of this act a new series of improvements were begun, which involved the state in an expenditure of many millions of dollars on works which were afterward abandoned or passed into the hands of private companies. This expenditure constituted a portion of the public debt which afterward went in default. Soon after the United States Bank undertook these heavy payments the money market began to lower, and increasing stringency was followed by the universal suspension of 1837. The stock of the state held by the Bank then became its support in part and formed the basis of its credits abroad. When the Bank failed in 1839 the 5 per cent. stock of the state, which sold for $1 15 in 1833, would not sell at all, so greatly had the credit of the state declined under the policy of the Bank in using the state stocks which it held to relieve its embarrassments.

As the state had repealed her taxes and depended altogether upon borrowing to pay interest, the inability to borrow involved failure, and this became imminent in 1840, at which time the state endeavored to avoid it by recourse to a variety of expedients other than taxation, but was finally compelled to adopt measures to create revenue for the payment of interest and extinguishment of the public debt. This it did by the passage of an act, in 1840, which imposed taxes estimated to yield about $600,000. This sum, together with other resources of the state, was supposed sufficient to liquidate the interest account without further resort to loans. The act, however, failed to produce the amount anticipated, and a new plan was proposed and adopted by act of May 4, 1841, in accordance with which certain banks were authorized to subscribe to a loan to the state of a certain amount in proportion to their respective capitals, the amount of the loan to be placed in the treasury, for the use thereof, in notes of the said banks. By the terms of the law the loan was redeemable at any time within five years, and the notes were to be retired and the loan paid on or before the 4th of May, 1846. The banks were to receive these notes at par in payment of debts due them, and it was thought that by making the notes peremptorily redeemable at a definite time, and dependent upon the faith of the state as well as of the bank, a safe and reliable currency would be constituted and the state obtain a loan at 1 instead of 5 or 6 per cent. The amount of these notes so issued was originally $2,220,265. As these speedily became depreciated, and as they were the only medium in which the state received its revenue, the embarrassment of the treasury was complete. Without credit and with a depreciated currency bankruptcy was inevitable. The public works had been stopped, and it became necessary to provide for the payment of claims for amounts expended in their construction. To meet these obligations a law was passed to sell the bank stock owned by the state, which had cost the treasury $4,200,000, and in 1843 the sum of $1,395,400 was realized therefrom. The cancellation of the relief notes, above described, was directed by acts passed in 1843, under which $682,087 were to be destroyed, and a further cancellation to the amount of $200,000 per annum was ordered by an act passed in the following year.

In the meantime the revenues of the state were completely disordered, and the governor had recourse to the provision in the charter of the banks under which they were bound to loan to the state a sum not exceeding 5 per cent. of their capital. By these and other means the treasury had accumulated $859,000 to meet the interest due in February, 1842, which sum was placed on deposit in the Bank of Pennsylvania, the legal depository of the funds of the state and the agent for the payment of its interest. The credit of this institution having become impaired, the governor and state treasurer endeavored to induce it to pay the interest in advance. This was, however, not done; and, becoming convinced that the funds of the state were being paid out on other demands, the governor procured an injunction and recovered $500,000 of the amount deposited with the bank. The delay and loss thus occasioned deferred the interest due in February, while that due in August could not be paid at all.

A law was passed, however, authorizing the issue of 6 per cent. scrip to the interest-creditors, instead of money, and this was continued until resumption, which took place under the restored finances of the state in 1845. In that year a carefully defined scheme of taxation was adopted, and the expenditures of the state having been reduced, the application of a large amount to the reduction of the debt became practicable. The following table has been compiled from the most reliable original sources. As a general thing, the figures have been taken from the treasurer's reports, but when those documents for the respective years could not be obtained, or were not in the Congressional Library, the governor's reports, and, in two or three instances, the American Encyclopedia, have been referred to. It presents the total of the funded debt of Pennsylvania for each year, beginning in 1835, down to 1880:

Pennsylvania state debt.

1835	$24,589,743	1858	$39,354,285
1836	24,265,303	1859	38,638,961
1837	24,329,004	1860	37,969,847
1838	25,327,003	1861	40,580,666
1839	25,229,003	1862	40,448,213
1840	29,914,003	1863	39,496,596
1841	33,301,013	1864	39,374,431
1842*	37,319,395	1865	35,522,052
1843	40,491,708	1866	35,622,052
1844	39,290,461	1867	34,766,431
1845	40,803,866	1868	33,296,946
1846	40,896,393	1869	32,814,540
1847	40,789,577	1870	31,111,662
1848	40,628,949	1871	28,980,071
1849	40,474,736	1872	27,303,494
1850	40,775,485	1873	25,798,821
1851	40,116,258	1874	24,568,635
1852	41,474,595	1875	23,233,137
1853	40,272,235	1876	22,978,950
1854	41,698,595	1877	22,943,814
1855	40,196,194	1878	21,586,200
1856	40,117,835	1879	22,190,669
1857	39,734,592	1880	21,561,990

* Relief notes, interest certificates, and debts to domestic creditors included on and after this date.

The total of the debt, as here given, includes, of course, the relief notes, the interest certificates, and the domestic creditors' certificates. From this table it will be seen that in December, 1835, two months before the incorporation of the Bank of the United States, the state debt of Pennsylvania was $24,589,743. At the close of 1849 it stood, exclusive of the amount received as a deposit from the general government, $40,474,736, making an increase in the state debt during fourteen years of $15,884,993, notwithstanding the receipt in the meantime of $2,867,514 of surplus revenue from the United States and of $3,446,780 as premiums for bank charters. The debt seems to have reached its maximum in 1854. From that period to 1859 it was reduced $3,059,634. The state at this time held assets valued at $12,494,832, leaving the net indebtedness at this time (1859) $26,144,129. The debt was increased again by the military loan of May, 1861.

According to a report issued in 1866 by the Hon. J. F. Hartranft, then auditor-general, the indebtedness of the state was $35,622,052 16, described as follows:

Funded debt, 6 per cent. loans		$400,630 00
Funded debt, 5 per cent. loans		32,073,192 59
Funded debt, 4½ per cent. loans		213,200 00
		32,687,022 59
Unfunded debt, relief notes in circulation	$96,625 00	
Unfunded debt, interest certificates outstanding	13,086 52	
Unfunded debt, interest certificates unclaimed	4,448 38	
Unfunded debt, domestic creditors' certificates	119 67	
		114,279 57
Military loan, per act of May 15, 1861		2,820,750 00
Aggregate debt, December 1, 1866		35,622,052 16

The following statement shows the details of the funded debt:

SIX PER CENT. LOANS.

Stock loan, per act of April 2, 1832; due June 1, 1841	$630 00
Inclined-plane loan, per act of April 10, 1849; due April 10, 1879	400,000 00

FIVE PER CENT. LOANS.

Stock loan, per act of—	
March 24, 1828; due December 1, 1853	$1,339,671 99
December 18, 1828; due January 1, 1854	3,730 00
April 22, 1829; due December 1, 1854	1,580,078 86
December 7, 1829; bank charter loan	50,000 00
March 13, 1830; due March 4, 1858	3,348,877 01
March 21, 1831; due July 1, 1856	1,979,159 95
March 28, 1831; due March 28, 1861	300 00
March 30, 1832; due July 1, 1860	1,806,160 99
April 5, 1832; due July 1, 1860	249,978 76
February 16, 1833; due July 1, 1858	2,100,044 96
March 27, 1833; due July 1, 1858	379,975 12
April 5, 1834; due July 1, 1862	1,661,707 53
April 13, 1835; due July 1, 1865	797,964 08
January 26, 1839; due July 1, 1859	967,892 55
February 9, 1839; due July 1, 1867	1,032,979 22
March 16, 1839; due July 1, 1864	82,612 22
March 27, 1839; due July 1, 1868	456,020 53
June 7, 1839; due August 1, 1859	41,456 69
June 27, 1839; due June 27, 1864	913,246 26
July 19, 1839; due July 1, 1868	1,634,824 79
January 23, 1840; due January 1, 1865	636,436 48
April 3, 1840; due August 1, 1864	572,591 30
June 11, 1840; due July 1, 1870	1,659,228 29
May 5, 1841; bank charter loans	267,209 26
April 29, 1844; due March 1, 1849	129 02
April 16, 1845; due August 1, 1855	3,498,716 73
January 22, 1847; bank charter loans	19,200 00
Coupon loan, per act of—	
April 2, 1852; due July 1, 1882	538,000 00
May 4, 1852; due August 11, 1877	4,095,000 00
April 19, 1853; due August 11, 1878	360,000 00

FOUR AND A HALF PER CENT. LOANS.

Stock loan, per act of March 1, 1833; due April 10, 1863	$101,200 00
Coupon loan, per act of April 2, 1852; due July 1, 1882	112,000 00

At this time the only memento of the disastrous effects succeeding the great financial revulsion of 1837 remaining in Pennsylvania was the unfunded debt of $114,279 57. The relief notes, which, it will be remembered, were issued under authority of the act passed May 4, 1841, had virtually disappeared from the state finances, there being at the date of this report (1866) less than $41,000 unredeemed. These notes bear no interest, and were made due May 4, 1864. A few of the "interest certificates" had not been claimed, and on this account in 1866 some $17,535 were due. These were the certificates originally issued to the holders of the public loans for interest due in 1842, 1843, and 1844. Under acts passed April 29, 1844, and April 14, 1845, the certificates were afterward funded. There were no less than $4,502,824 of these certificates issued between August 1, 1842, and August 1, 1844. Of this amount there was funded $4,353,525, paid into the treasury $6,968, redeemed at the treasury $129,243, leaving but a few thousand dollars outstanding and unclaimed. Of the scrip certificates which were issued to domestic creditors, to the amount of $1,514,332, all have been redeemed.

The military loan of $3,000,000, issued under act of May 15, 1861, is a 6 per cent. loan. A special sinking fund of half a mill on the dollar on the taxable valuation was provided for its redemption.

It was estimated by Governor Hartranft that the total cost of the canals and railways constructed by the commonwealth of Pennsylvania was $35,099,083. Of this amount about $18,615,663 belonged to the cost of the main line of the public improvements from Philadelphia to Pittsburgh, which line was sold to the Pennsylvania railroad under the act of May 16, 1857, for the sum of $7,500,000, for which amount bonds of the said company have been deposited with the state treasurer. These pay 5 per cent., and are redeemable in annual installments. The original cost of the works sold to the Sunbury and Erie Railroad Company was about $10,985,569, which works were disposed of under act of April 21, 1858, for the sum of $3,500,000 5 per cent. bonds, which amount has been deposited in the sinking fund. These amounts constitute the capital of the sinking fund for the redemption of the funded debt of the commonwealth, and all payments, principal and interest, on account of the same form a part of the annual income thereof. Besides this, the sinking fund received certain taxes, licenses, and fees, which yield a considerable annual income. The liquidation of the debt has continued. During the year ending December 31, 1872, the state debt of Pennsylvania was reduced $2,500,000, leaving it, less assets on hand, only $16,521,039. During the next year the debt was reduced $1,504,672, and the total debt in 1873, as will be seen by the table, was $25,798,821. From this must be deducted the bonds of the Pennsylvania Railroad Company and those of the Alleghany Valley railroad in the sinking fund, amounting to $9,200,000, and the cash in the treasury, November 30, 1873, $1,825,151, leaving the balance of indebtedness unprovided for only $14,773,670. November 30, 1875, there remained in the sinking fund $934,028, and the governor of the state announced that there could be no further reduction of the public debt until August, 1877, as all state loans reimbursable prior to that date had been paid. In the meantime the sinking fund, in addition to the above amount, continued to accumulate. On the 1st of May, 1877, bids were opened by the sinking fund commissioners for a new loan of $8,000,000. These bonds netted the state a premium of $261,922. The loan was reimbursable in fifteen years, and payable absolutely in twenty-five years, at 5 per cent. interest. With this loan matured 6 per cent. bonds were to be redeemed. Of the 5 and 6 per cent. bonds falling due August, 1877, $8,324,900 were recalled.

The funded debt of the state, December 1, 1877, was $22,943,814. Deducting from this the assets set aside for the payment of the debt, amounting to $9,591,427, left the indebtedness unprovided for $13,352,387. The debt stood December 1, 1878, $21,586,200, showing a reduction of the debt $1,357,614 for that year.

In June, 1879, the commissioners of the sinking fund issued bonds to the amount of $2,000,000, the proceeds to be applied to the payment of part of the matured debt bearing 6 per cent. interest, these new bonds bearing interest at the rate of 5 per cent. Later in this same year (1879) the interest ceased on the 6 per cent. bonds, second series, and also on the inclined-plane loan, and the principal was redeemed. On the 30th of November, 1880, the bonded debt stood, according to the state auditor's report, as follows:

Bonded debt, November 30, 1880		$21,561,990
Issued for refunding old debt		20,427,462
Issued for canal		511,592

DELAWARE.

In January, 1880, the state of Delaware had a funded debt of less than $1,000,000, and at that date had safe investments and cash in the treasury to an amount in excess of her debt.

Prior to the civil war the state had no bonded debt, and the first bonds, amounting to $1,100,000, were issued January 1, 1875. This is known as the war loan, and of this amount $588,000 has been redeemed, leaving outstanding $512,000, which will become due January 1, 1885.

By an act of the general assembly, January, 1867, a further loan of $400,000 was negotiated, of which amount there had been redeemed in January, 1880, the sum of $170,000. The remainder of this loan, $230,000, will mature January 1, 1890.

On the 1st of January, 1874, a loan of $200,000 was made, of which $116,000 remained unpaid January 1, 1880.

These last two loans are called the internal improvement bonds, the bonds issued having been loaned to certain railroad companies within the state.

The state holds a first mortgage on the railroads, and the companies are promptly paying the interest.* The outstanding funded debt on January 20, 1880, was $918,000, and the floating debt (for school purposes) $22,000, making a total of $940,000. At that date the assets of the state consisted of the following:

Mortgage on Junction and Breakwater railroad	$400,000 00
Mortgage on Breakwater and Frankford railroad	200,000 00
Stock in Farmers' and Delaware Bank	73,050 00
Investments for use of free schools	448,099 00
Cash on hand	79,158 75
Total assets	1,200,307 75
Floating and funded debt*	940,000 00
Balance in favor of state	260,307 75

MARYLAND.

The two most reliable authorities on the history of the debt of Maryland are Judge Curtis, whose contribution to the subject has been frequently mentioned, and T. P. Kettell. The former gives an excellent summary of the financial condition of the state of Maryland soon after it had failed to meet the interest on its state debt in 1842, and Mr. Kettell does the same from the origin of the debt to 1849. Mr. Curtis' account was carefully revised by John H. B. Latrobe, esq., of Baltimore. From these two accounts it would seem that the whole of this debt, which in 1842 amounted to about $15,000,000 was, with the exception of $215,947, contracted for the purpose of internal improvements, partly by subscription to stock in canal and railroad companies on account of the state, and partly in the form of grants by loans to such companies, they being bound to pay interest on bonds, and ultimately to repay the principal, the works of the companies being mortgaged for the security of the respective debts. In making these large advances and entering into these engagements the legislature of the state relied upon the income of the works to meet the interest on the debt. In this expectation they were disappointed. At the time Mr. Curtis wrote, the Baltimore and Ohio railroad loan had made an adequate return for the expenditure. The sum of $1,022,000 invested in the stocks of this railroad had earned an income of 7 per cent. per annum. The sum of $2,232,000 invested in the bonds and stock of the Baltimore and Susquehanna railroad had made at that time some small return, and there was a prospect that the income from this source would slightly increase. On $1,000,000 loaned to the Susquehanna and Tide-Water canal no return had then been received, but it was confidently

*The entire state debt was refunded July 1, 1881, at which date there were issued $715,000 4 per cent. war bonds and $165,750 for school purposes, bearing 6 per cent. interest, and they will mature as follows:

In 1886	$300,000
In 1891	250,000
After 1900	330,750
	880,750

anticipated that this canal would shortly be able to pay the interest on the loan, amounting to $60,000 per annum. The largest investments had been made in the stocks and bonds of the Chesapeake and Ohio canal. This canal was unfinished, and required a further sum of $1,500,000 or $2,000,000 for its completion. No income was to be expected from it until the means could be found to raise that sum and extend the canal to the coal mines near Cumberland. Some smaller advances had also been made to other companies which were not expected to make any return. The annual income, therefore, which could be reasonably anticipated from the public works was limited to about $150,000. The residue of the interest, amounting to about $450,000, had to be met by taxation. A direct tax sufficient for this object was voted by the legislature, but in consequence of the severe embarrassments of the previous three years, and of the want of a proper system for the collection of direct taxes, a large proportion of the taxes for the years 1841, 1842, and 1843 was suffered to fall in arrear, and in consequence the means of the treasury were inadequate to the payment of the interest on the debt.

The embarrassments into which the state was drawn by this system of improvements resulted in such a deficit in revenue that when the foreign markets were no longer open to the sale of stock the payments of the interest on the debt became impossible, and, as no system of taxation had previously existed in Maryland, the same difficulties in levying and collecting a tax which had been experienced in Pennsylvania were encountered in that state. The revenue of the state would meet only its current expenditure, and it became necessary to raise the whole interest, nearly $600,000 per annum, by taxation.

The legislature passed a law March 23, 1841, which, with its supplement, enacted in the December following, imposed a tax for the first year of 20 cents, and for the next three years of 25 cents on the $100 of assessed value of real and personal property. These were estimated to yield $456,000 per annum. In aid of this tax other laws were passed, expected to realize $200,000; and taxes imposed upon incomes, silver plate, watches, and the like, which, with the interest expected from the Baltimore and Susquehanna Railroad and the Susquehanna and Tide-Water Canal companies, would, it was confidently hoped, add to the resources of the year $145,000. All these estimates proved fallacious, mostly from causes incident upon the commencement of a system of taxation. Thus, ship-owners contested the constitutionality of a tax on tonnage, and three years were required to confirm the right to tax. The banks also contended that they were exempt by their charters from taxes, and legal decisions against them required time. When it is recollected that prior to the act of March, 1841, the largest amount of direct taxation ever levied upon the people of Maryland in any one year was $60,818, and that even that imposition was continued but for a few years, it can be no matter of surprise that apprehension of the ability of the state to raise in this way upward of $600,000 should have been entertained. It was also the case that, under the impression that no serious attempt to pay the state interest would be made, the several companies that had received aid from the state held back in their payments. When the direct tax was levied, the property of the state was estimated at $300,000,000, but the assessed value was ascertained to be only $190,723,788, subsequently reduced to $177,139,645 by the action of the specially constituted appeal tax courts. This seemed to leave no alternative for those who intended to pay the interest on the public debt by taxation but to increase the rate of the levy from 20 to 30 cents on the $100. This, however, was not done, the legislature choosing to rely upon other sources of revenue. The anxiety to avoid an increase of taxation resulted in attempts to sell the state's interest in the public works, and in March, 1843, a law was passed to sell the following at the sums annexed: Chesapeake and Ohio canal, $5,000,000; Baltimore and Ohio railroad and Washington branch railroad, $4,200,000; Susquehanna railroad, $1,500,000; Tide-Water canal, $1,000,000—all to be payable in 5 per cent. state bonds. This act remained a dead-letter upon the statute-books, no offer being made which the state treasurer felt justified in accepting.

In the midst of this unfortunate condition of affairs business began to improve; and, as the country emerged from the disastrous condition caused by the great collapse of the credit system, it was evident that the sense of the people tended more toward the payment of the debt. The actual receipts from taxation gradually approximated the estimates, and the reduction in state expenditures enabled a larger amount to be appropriated to the interest. When the state could no longer pay the interest coupons as they fell due they had been received for taxes, by which means a considerable amount came annually into the treasury, diminishing by so much the accumulation of arrearage interest. This steady increase of receipts and taxation continued, until for the year ending December 1, 1846, the treasurer paid on account of interest no less than $732,289 99,* being $76,868 more than the accruing interest for the year.

It now became evident that the finances of Maryland had reached a position which would permit of resumption. At the session of 1847 a law was passed directing the state treasurer to resume payment of the current interest on the public debt on the 1st of January, 1848. This law was carried into effect, and resumption took place.

The debt of the state of Maryland, originating as has been briefly described, amounted in 1849 to the gross sum of $16,140,077 42, including small loans contracted for the university, the penitentiary, and the Baltimore tobacco warehouses. From this should be deducted the $3,200,000 not issued by the Baltimore and Ohio railroad. There was also $1,050,000 of stock in the Baltimore and Washington branch, the interest on which was more than met by the dividends and capitation tax on passengers. The interest on the $1,000,000 issued to the Susquehanna

* Paid in cash, $259,874 80; by coupons and certificates of interest, $472,415 19; total, $732,289 99.

canal was paid by that company. These items at that time made $5,348,000 fairly provided for, leaving $10,792,038, on which interest had to be paid by the state, of which, however, the state itself owned $1,780,000 as the sinking fund. The following are the details of the debt at that date:

Debt of the state of Maryland, January 1, 1849, *distinguishing the several loans of this state, the act of the general assembly authorizing them, the rate per cent. of each, the period when redeemable, and their respective amounts.*

On the 30th of September, 1866, the funded debt of Maryland amounted in gross to $13,549,796 53, but deducting amounts canceled and the amount on which the Baltimore and Ohio railroad was liable to pay current interest, the actual debt appeared to be only $7,514,413 43. At this date the state held property to the estimated value of $25,049,739 85, of which amount $6,932,097 18 was productive property.

The fluctuation of the net debt of Maryland since this period has mainly been due to the productiveness or unproductiveness of its assets. The funded debt of the state, September 30, 1880, according to the report of Hon. Thomas J. Keating, comptroller, is as follows:

Bonded debt	*$11,277,111
Funding floating debt	500,000
Public buildings	690,000
Railroads	5,720,996
Refunding old debt	1,039,364
War purposes	3,326,751
Total	11,277,111

Of the bonded debt, $6,445,510 draws 6 per cent. interest; $4,562,601 5 per cent. interest; and $269,000 3 per cent. interest. The date of issue and maturity of this debt is as follows:

ISSUE.		MATURITY.	
Previous to 1860	$8,519,392	1880	$24,000
1870	628,355	1883	3,326,752

		1893	500,000
Total	11,277,111	Total	11,277,111

The defense loan, which was negotiated for the payment of bounties, will fall due in January, 1884. By its terms it can be provided for and taken up at any time after the year 1883. The governor recommended, in his message of 1880, that provision be made to retire this loan by the issue of one for a smaller amount bearing 5 per cent. interest, payable in fifteen years, and the legislature of 1880 passed an act to create a loan of $3,000,000 to provide for the exchange or the redemption and payment of this debt—the interest on the new loan not to exceed 4½ per centum, and the loan to be redeemable in fourteen years from the date of its issue.

* As an offset to this debt, the state holds stocks and bonds upon which, according to the comptroller's report of 1880, interest is promptly paid, amounting to $3,649,443, leaving as the net debt upon which interest has to be provided $7,627,668.

In addition to these paying securities the state has unproductive assets in the shape of stocks, bonds, etc., amounting in the aggregate to $25,726,051, which, if converted into cash, would be more than sufficient to liquidate the remaining net indebtedness.

DISTRICT OF COLUMBIA.

The District of Columbia became the permanent seat of the government of the United States under the provisions of an act of Congress approved July 16, 1790, and the three commissioners authorized to be appointed by the President were directed "to provide suitable buildings for the accommodation of Congress and of the President, and for the public officers of the government", prior to the first Monday in December, 1800; but no appropriation was made for carrying on the work. Their only resources were derived from the sale of lots and grants of money, Virginia having contributed $120,000 and Maryland $72,000.

In 1796 Maryland made a loan of $100,000 to the commissioners of the District for the purpose of aiding in the completion of the public buildings, and in the following year another loan for a like amount. In 1799 a further sum of $50,000 was loaned by Maryland for the same purpose. The credit of the District at the time these loans were made was very low, and the state authorities obliged the commissioners to give their personal obligations for their reimbursement, notwithstanding the fact that their payment was guaranteed by the general government. Even under these circumstances the best terms that could be made were to receive these amounts in United States stocks and afterward dispose of them for cash. As a result the sum of $169,873 41 was realized from the first two loans, and but $40,488 96 for the latter loan of $50,000. Of this amount the sum of $25,000 93 was repaid by the United States in 1802, with $3,250 as interest.

By an act approved April 18, 1798, a loan of $100,000 was made by Congress for the purpose of completing the public works already commenced.

By the act of May 1, 1802, Congress authorized the payment of the money borrowed from Maryland in 1796 and 1797 in five annual installments of $40,000 each, and interest thereon, amounting in the aggregate, principal and interest, to $262,223 91.

From 1809 to 1835 no further loans from the general government appear to have been made, although appropriations were made from time to time for specific purposes in aid of public improvements.

On the 20th of May, 1836, Congress passed an act authorizing the Secretary of the Treasury to assume on behalf of the United States the debt of $1,500,000 incurred by the three corporate cities—Washington, Georgetown, and Alexandria—in their subscription for stock for this amount in the Chesapeake and Ohio Canal Company, provided the stock was transferred to the United States. The assumption of this debt, and the payment of the interest until finally liquidated in 1856, cost the general government $2,765,107 97.

An act of Congress approved June 28, 1834, authorized the payment of $70,000, in quarterly installments, for one year, to be applied, under the direction of the corporate authorities of the city of Washington, in extinguishing a like amount of the interest annually accruing on their public debt, and this sum was paid.

No further assistance in the way of loans appears to have been rendered by the general government prior to its organization as a territory, in 1871, although large appropriations were made for public improvements.

On the 26th of May, 1845, an official report was made to the board of common council of Washington, from which we gather the following data relative to the origin and history of the municipal funded debt:

Very soon after the site for the city was selected debts were incurred in the opening of streets and other improvements. In 1812 these debts amounted to $17,000; and by an act approved May 10, 1816, this sum was apportioned among the then existing wards. Beside this amount for ward improvements, other sums had been borrowed upon the credit of the corporation at various times for general purposes. These amounts had become so considerable in 1818 that it was determined to fund the whole debt of the city, and on the 11th of July of that year several ordinances were passed funding the city debt to the amount of $60,000, redeemable on and after January 1, 1830, and establishing a sinking fund, consisting of one-fourth of the taxes of each year, for the payment of interest and redemption of the principal. This debt was also made chargeable upon and distributed among the wards and the general fund in their several proportions, as follows: the sum of $33,994 was apportioned to the wards, then four in number, and $26,006 to the general fund. In 1820 the city was divided into six wards; and by an ordinance of April 21, 1821, at which time the ward debts amounted to $46,456 80, the apportionment was changed, and the sinking fund so modified that, instead of one-fourth, one-sixth of the taxes was set aside for the payment of interest and redemption of the principal. From 1821 to 1837 the wards had reduced the debts so apportioned to $32,117 54, but had in the meantime contracted many other debts, which were funded under an act approved July 9, 1832, and stock issued to the amount of $48,000, redeemable at pleasure after twelve years from January 1, 1832. From 1832 to 1837 the wards had incurred other debts, and on the 15th of April, 1837, an act was passed for funding these ward debts and consolidating them with those already funded under prior acts, the amount then found due amounting to $108,513 11. The same act repealed all previous acts so far as they related to a sinking fund, but made provision for payment by the several wards of an annual sum, to be applied, first, to the payment of the interest, and next, to the redemption of the principal. In 1845 this principal amounted to $93,185 09. Referring to the debt due from the general fund, the report says: On the 11th of December, 1824, an act was passed for the issue of stock to the amount of $12,000 for the payment of debts due certain city banks. On the 1st of August, 1826, stock to the amount of $3,000 was ordered to be issued, to raise funds to be used in the

extension of the Centre Market-house, and on the 20th of July, 1827, a further issue of stock, amounting to $4,000, to be used in the improvement of the Anacostia river. The corporation, under authority granted to it by one of the charters of the city, undertook to raise money by lotteries, and thereby became so involved as to render it necessary to raise considerable sums of money by the issue of stock, which accordingly was issued under several different ordinances.

The total amount of this lottery 5 per cent. stock, issued under these several acts, amounted to about $197,181 84, all of which, with the vast sum paid as interest thereon, and the enormous judicial expenses attending the controversy (there had been a long litigation about the payment of the prizes in the lotteries), has been a total loss to this city; the aggregate of which, up to the present time, cannot be less than $375,000.

Under the provisions of an act approved January 3, 1831, stock amounting to $50,000 was issued for the purchase of the Washington canal, and there was also issued, under this act and subsequent acts, for the purpose of enlarging and completing the canal, $137,050. Stock was also issued at various times, under several different acts, in order to raise the necessary funds to pay the interest due from the city on the Holland loan, negotiated for the purpose of paying the city's subscription of $1,000,000 of the capital stock of the Chesapeake and Ohio canal, afterward assumed by the United States. The amount of stock outstanding on this account in May, 1845, was $242,430. It appears from the report of the committee that at that date, May 26, 1845, the debt of the city of Washington amounted to $740,243.

By an act approved May 28, 1847, the sum of $58,000 was set apart, pledged, and appropriated from the general fund for each year, to constitute a sinking fund for the payment of the interest and redemption of the principal of the funded debt, and the mayor of the city, the chairman of the committee on finance in the board of aldermen, and the chairman of the committee of ways and means in the board of common council, for the time being, were constituted commissioners of the sinking fund, and this act continued in force until the repeal of the city charter by an act of Congress approved February 21, 1871.

In the message of the mayor to the common council, dated October 30, 1854, the amount of the debt is stated at $793,250, and the same in his message of March 3, 1856. Mayor Wallach, in his messages of June 26, 1865, and July 16, 1866, states the amount of the debt to be $793,000. It will thus be seen that the funded debt of the city changed but very little from 1845 to 1866*.

Under an act of Congress "to provide a government for the District of Columbia", approved February 21, 1871 (16 Statutes, 419), the city charters of Washington and Georgetown were repealed on and after June 1, 1871, and a territorial form of government provided, with a governor, legislative assembly, and delegate in Congress. The act also provided for a board of public works, under whose authority vast improvements were made in the streets and avenues of the two cities. These improvements necessitated a corresponding expenditure of large sums of money, which could only be provided for by increased taxation and the issue of bonds. An act of Congress approved June 20, 1874, abolished this territorial form of government, and substituted therefor the present system. The various loan transactions during this period are embraced in the following synopsis of the acts of Congress and the District legislative assembly, so far as they relate to bonds outstanding at the date of closing this report:

Permanent-improvement six per cent. bonds.—By acts of the legislative assembly, approved July 10, 1871, and December 16, 1871, in order to enable the board of public works to proceed with certain improvements, the governor was authorized to issue, or cause to be issued, registered or coupon bonds to an amount not exceeding $4,000,000, in denominations of $50, $100, $500, and $1,000, payable within twenty years from date of issue, and to bear interest, payable semi-annually, at the rate of 6 per cent. in gold or 7 per cent. in currency.

Section 7 of the act of July 10 provides for the payment of the interest and gradual redemption of the bonds by authorizing a sum sufficient for the purpose to be annually levied and collected upon the assessed value of property, respectively, in the cities of Washington and Georgetown and the county of Washington, in proportion to the improvements which shall have been made therein.

The bonds issued were coupon bonds, bearing date December 20, 1871, payable in twenty years. The interest is payable on the first days of January and July in each year.

Section 8 makes it a misdemeanor for any officer, fiduciary agent, or employé of the District government to appropriate or apply, or in any manner consent, aid, or assist in appropriating and applying, any portion of any money provided for the redemption of the bonds aforesaid, or for the payment of the interest thereon, or to direct or use any money belonging to the improvement fund for any other purposes than those for which the fund was created.

This act was ratified and confirmed by an act of Congress approved May 8, 1872. The amount outstanding, June 30, 1880, was $3,995,000.

Water-stock bonds.—By act of the legislative assembly approved July 20, 1871, the governor was authorized, in order to provide means to defray the expense of laying a new thirty-six-inch water-main, to issue, or cause to be issued, registered or coupon bonds, designated on their face as "water-stock", to an amount not exceeding $450,000; said bonds to bear interest not exceeding 7 per cent. per annum, payable on the first days of January and July

* Webb's Digest of the Laws of the Corporation, pp. 165–168.

in each and every year in current money of the United States. There is set apart, pledged, and appropriated, out of the water-fund, such sum as may be necessary to pay the interest on said bonds until redeemed, and not less than $15,000 is to be set apart annually for their gradual redemption, which money is to be applied every year to their purchase, in open market or by advertisement.

The bonds issued were coupon bonds, in denominations of $1,000, and bear date October 1, 1871, and are payable in thirty years from date of issue.

Section 2 solemnly pledged the faith of the government of the District of Columbia for the punctual payment of the interest and gradual redemption of the principal. The amount outstanding, June 30, 1880, was $397,000.

Market-stock bonds.—By acts of the legislative assembly approved August 23, 1871, and June 19, 1872, the governor was directed, in order to provide means to purchase sites and erect market-houses in the northern and western sections of the city, to issue, or cause to be issued, registered or coupon bonds, designated on their face "market stock", to an amount not exceeding $300,000, payable twenty years from date of issue, and bearing interest at a rate not exceeding 7 per cent. per annum. There is set apart, pledged, and appropriated, out of the funds arising from the markets in the city of Washington, such sum as may be necessary to pay the interest on said bonds until redeemed, and not less than $15,000 is to be annually set apart for their gradual redemption, the commissioners of the sinking fund to make the purchase in open market or otherwise, as they may think best.

One hundred thousand dollars of the amount issued were registered, the balance were coupon bonds, in denominations of $50, $100, $500, and $1,000, and bear date July 26, 1872, with interest at the rate of 7 per cent. per annum. The amount outstanding, June 30, 1880, was $150,000.

Twenty-year funding bonds.—By an act of Congress approved May 8, 1872, the commissioners of the sinking fund were authorized to fund the liabilities of the city of Washington, consisting of floating debts and trust funds, found to be due June 1, 1871, not exceeding $1,150,000, and to issue registered or coupon bonds, in denominations of $50 or any multiple of that sum, not to exceed the amount of said liabilities, bearing interest not to exceed 6 per cent. per annum, payable semi-annually in gold, and having a period to run of not more than thirty nor less than fifteen years; said bonds to be sold at a rate of discount not to exceed 3 per cent. on their par value. Section 2 authorized the legislature of the District to cause to be levied and collected annually, from all taxable property of the city of Washington within its limits, a tax sufficient to pay the interest on and create a sinking fund for the redemption of said bonds at maturity.

The bonds are coupon bonds, in denominations of $50, $500, and $1,000, bear date July 1, 1872, and payable to J. & W. Seligman & Co., or bearer, July 1, 1892. The interest is payable semi-annually, on the first days of January and July in each year. The amount outstanding, June 30, 1880, was $1,150,000.

Thirty-year funding bonds.—An act of the legislative assembly, approved June 20, 1872, authorized the commissioners of the sinking fund to settle, after examination and approval by them and the auditor and comptroller of the District, such contracts and obligations of the city of Washington, including the 7 3-10 certificates of indebtedness, as were not included in the report of the auditing commission or provided for by the act of Congress approved May 8, 1872, and to issue registered or coupon bonds, in the name of the city of Washington, in denominations of $50 or any multiple of that sum, not to exceed the amount of said liabilities, bearing interest not to exceed 6 per cent. per annum, payable semi-annually in gold, and having a period to run of not more than thirty nor less than twenty years. Section 2 provided that a tax should be levied annually on all of the taxable property of the city of Washington sufficient to pay the interest on said bonds and to create a sinking fund for their redemption at maturity. The collector was directed to turn over all funds collected for the purposes named to the sinking-fund commissioners, out of which they should pay the interest on said bonds, and invest the balance as a sinking fund. There were prepared for issue $1,650,000 of these bonds, but only $662,300 were actually issued. The balance, after being used at various times as collateral for temporary loans, was destroyed. The bonds issued were coupon bonds, in denominations of $100, $500, and $1,000, dated November 1, 1872, and are payable in thirty years from date. Interest is payable on the first days of May and November in each year. The amount outstanding, June 30, 1880, was $660,000.

First issue of seven per cent. permanent-improvement bonds.—By an act of the legislative assembly approved June 23, 1873, the governor was authorized to issue bonds, not to exceed in amount $260,000, of the character described in the act of July 10, 1871, authorizing the issue of $4,000,000 permanent-improvement bonds, said bonds to supply the deficiency occasioned by the sale of the $4,000,000 of permanent-improvement bonds at a discount.

The bonds issued were coupon bonds, bearing date July 1, 1873, in denominations of $1,000, payable to J. & W. Seligman & Co., or bearer, July 1, 1891, with 7 per cent., currency, interest, payable on the first days of January and July in each year. The amount outstanding June 30, 1880, was $224,000.

Second issue of seven per cent. permanent-improvement bonds.—By an act of the legislative assembly approved June 25, 1873, in order to enable the governor to pay certain appropriations specified, he was authorized to issue bonds of the District of Columbia, not to exceed in amount $530,000, bearing interest at the rate of 7 per cent. per annum.

The bonds issued were coupon bonds, dated July 1, 1873, in denominations of $100 and $1,000, and are payable

to J. & W. Seligman & Co., or bearer. The interest is payable on the first days of January and July in each year. The amount outstanding, June 30, 1880, was $446,000.

Water-stock bonds.—By an act of the legislative assembly approved June 26, 1873, to provide means to pay a deficiency in the appropriation for laying the thirty-six-inch and other principal water-mains, as required by the act of July 20, 1871, the governor was authorized to cause a further issue of water-bonds, to an amount not exceeding $35,000, under the same conditions and restrictions as provided for in the act of July 20, 1871.

The bonds issued were coupon bonds, in denominations of $1,000, having thirty years to run from July 1, 1873, with interest at 7 per cent. per annum, payable on the first days of January and July in each year. Amount outstanding, June 30, 1880, $26,000.

Three-sixty-five bonds.—By an act of Congress approved June 20, 1874, as amended by an act approved February 20, 1875, the commissioners of the sinking fund of the District of Columbia were authorized to issue bonds of the District of Columbia, in denominations of $50 and $500, bearing date August 1, 1874, and payable fifty years after date, bearing interest at the rate of 3.65 per cent. per annum; said bonds to be exempt from taxation by federal, state, or municipal authority. The faith of the United States was pledged to provide for the payment of the interest and to create a sinking fund sufficient for the payment of the principal of said bonds at maturity, by proper proportional appropriations, and by causing to be levied upon the property within said District such taxes as would do so.

By act of March 3, 1875, the registered bonds were authorized to be issued in denominations of $1,000 and $5,000.

By act of June 16, 1880, the United States treasurer, as *ex officio* sinking fund commissioner of the District of Columbia, was directed to issue bonds of this loan in payments of judgments of the Court of Claims and of outstanding certificates of the late board of audit of the District of Columbia, provided that the gross amount of the bonds issued and to be issued should not exceed $15,000,000. The amount outstanding, June 30, 1880, was $13,504,900.

Twenty-year funding bonds.—By act of Congress approved June 10, 1879, the commissioners of the District of Columbia were authorized to prepare, execute, and deposit with the Secretary of the Treasury bonds of the District of Columbia, bearing interest not exceeding 5 per cent. per annum and payable twenty years after date, to the amount of not more than $1,200,000, the proceeds to be used only for the redemption of the funded indebtedness of the District of Columbia, or of the late corporations of Washington and Georgetown, which became due January 1 and March 1, 1879, or those payable at pleasure; said bonds to be in such form as the Secretary of the Treasury should approve, to be sold by him to the highest bidder.

The bonds issued were coupon and registered bonds, in denominations of $100 and $1,000 for coupons and $1,000 for registered. They bear date July 1, 1879, with interest payable semi-annually, on the first days of January and July in each year. The amount outstanding, June 30, 1880, was $1,092,300.

By an act of the legislative assembly of August 19, 1871, the sinking-fund commission was revived, and the principal duties of the commissioners prescribed as follows:

> They shall have entire charge and control of the management of the funded and bonded debt now due by the cities of Washington and Georgetown, the county of Washington, or which may hereafter be created by the District of Columbia.
>
> They shall disburse upon their warrants all moneys collected and received by them on account of interest, or of the sinking fund, bonds, stocks, certificates of indebtedness, or loans due by said cities and county, or which may hereafter become due by the District of Columbia. When an amount equal to ten thousand dollars shall have accumulated in their hands on account of the sinking fund, the said commissioners shall advertise and receive proposals for the purchase of the bonds, stocks, and certificates of indebtedness of the said cities, county, and District, and shall purchase them upon terms most advantageous to the public interest, and thereupon cancel the same, inscribing the amounts of said canceled bonds upon the books of the commissioners. It shall be their duty to collect regularly all interest accruing upon the amount so inscribed, and to apply the same toward the purchase and cancellation, as aforesaid, of the principal of the bonds authorized to be issued.

The act of Congress of June 20, 1874, expressly continued the sinking-fund commissioners, and left undisturbed the above powers.

The act of June 11, 1878, providing a permanent form of government for the District, abolished the offices of sinking-fund commissioners, and provided that "all duties and powers possessed by said commissioners should be transferred to, and exercised by, the treasurer of the United States, who shall perform the same in accordance with existing laws". Under this authority the United States treasurer has entire charge and control of the management of the funded and bonded debt of the District, and the disbursement of all moneys connected with the payment of the interest and redemption of the principal of the debt.

In his first annual report to Congress, dated November 30, 1878, United States Treasurer Gilfillan, as commissioner of the sinking fund, thus refers to the funded debt of the District on the preceding 30th of June:

> The funded debt of the District of Columbia, including the late corporations of Washington and Georgetown, is represented by bonds of sixteen different loans, bearing interest at various rates, from 3.65 to 8 per cent., and redeemable, five at the pleasure of the District and eleven at various dates from 1879 to 1924, as follows: At the pleasure of the District, $993,800; in 1879, $281,500; in 1881, $20,000; in 1884 or before, $20,000; in 1891, $4,665,000; in 1892, $1,300,000; in 1901, $397,000; in 1902, $660,000; in 1903, $26,000; and in 1924, $13,743,250. The above does not, of course, include any of the floating indebtedness, nor the outstanding 8 per cent. certificates of indebtedness.

Very little of the funded debt matures before 1891, by which time, with proper management of the finances of the District, and with adequate provision for the sinking fund, a large portion of the debt will be paid and the credit of the District be upon such a footing that any part of the debt maturing at that time, which it is desirable to continue, can be placed at a very advantageous rate. The average rate of interest now borne by the debt is more than 6½ per cent. per annum, not including the three-sixty-fives.

Since June 11, 1878, when the offices of the sinking-fund commissioners were abolished and their powers and duties transferred to the United States treasurer, the bonded debt of the District has been reduced, by operation of the sinking fund, $418,326 67, and the annual interest charge has been reduced $30,154 11, while the credit of the District has so appreciated that the 6 per cent. bonds, which in 1878 could be bought at 5 per cent. below par, are now at 10½ per cent. premium, and the 3.65 per cent. bonds, which could be bought in 1879 at 82¾, are now at from 2 to 4 per cent. premium.

Alexandria was retroceded to the state of Virginia by an act of Congress approved July 9, 1846, the closing section of the act providing that Congress would in no event assume and pay the debt, or any part thereof, then due by the corporation of that city. No reliable data is at hand as to the amount due at that period.

The city authorities of Georgetown have never made any attempt at adopting an extensive system of public improvements, and the loan transactions of this city have been quite limited, the bonded indebtedness on the 30th of June, 1880, amounting to but $21,300, of which sum $1,300 had already ceased to bear interest. The amount still bearing interest was issued under an ordinance of the corporation of Georgetown approved May 12, 1871, and is in certificates acknowledging the indebtedness of the corporation for a specified amount to the party named therein, payable on the 1st day of July, 1881, bearing interest at 8 per cent. per annum, payable quarter-yearly, on the 1st days of January, April, July, and October, in currency.

The following is a statement of the funded debt of the District of Columbia and late corporations of Washington and Georgetown, June 30, 1880:

The debt shown for that year is inclusive of bonds held by the educational and internal improvement funds to the amount of $307,045, and for 1880 it is inclusive of bonds held by the educational and sinking funds to the amount of $603,600. *k* The authority is the Ninth Census. The floating debt shown is inclusive of the sum owed to the educational and surplus revenue funds, amounting to $2,795,210. *l* American Almanack, Sen. Doc. No. 42, 33d Cong., 1st sess. *m* The authority is the Ninth Census. The floating debt shown is inclusive of the sum owed to the educational fund, amounting to $1,138,494. It is possible that indebtedness of this character enters into the exhibits for earlier periods. *n* Cashier Canal and Banking Company, Sen. Doc. No. 42, 33d Cong., 1st sess. See also foot-note "*o*". *o* In the exhibit for 1860 the debts due on account of "property banks", municipalities, and trust funds are not included; in the exhibits for 1839, 1841, 1853, and 1870 they are included; in that for 1880, as reported, only the trust-fund debt appears to be included. By reference to pp. 597–599 the amounts of these species of debt, at different periods, may be seen. The authority for 1870 is the Ninth Census. The amount shown for 1880 is the old debt of 1874. There had been funded of this in new consolidated bonds, January 1, 1880, $18,034,800. *p* The authority for 1870 is the Ninth Census. The amount shown for that year is an estimate by the state comptroller. It does not include liabilities for railroad aid, the amount due the United States on account of the "direct tax", nor the amount (reported then as of uncertain validity) due the common-school fund. The amount shown for 1880 is inclusive of $537,008 owed to the school funds. *q* The authority for 1870 is the Ninth Census. The amount shown for that date does not include bonds amounting to $2,150,000 issued in aid of railroads, nor bonds amounting to $2,391,072 issued in aid of banks. The amount shown for 1880 does not include the railroad aid debt, but does include a portion of the bank debt. *r* The authority for 1870 is the Ninth Census. The amount shown for that year is not inclusive of railroad aid bonds, indorsed by the state, amounting to $2,172,000, but is inclusive of other railroad aid bonds. *s* The authority for 1853 is the state auditor; for 1860, the secretary of state; for 1870, the Ninth Census. The amounts shown for 1853, 1860, 1870, and 1880 are inclusive of sums owed to the educational fund. The amount of bonds held by this fund in 1853 and 1860 is not exactly known, but in 1870 it was $1,652,087, and in 1880, $1,677,614. This is an irreducible debt on which the state pays interest semi-annually.

VIRGINIA.

Like many of her sister states Virginia emerged from the Revolutionary war incumbered with a heavy debt for unredeemed paper money. By means of the system of funding established about 1790, the state slowly became relieved of her embarrassment. The steady increase of Virginia's population, from 691,737 in 1790, to 1,015,260 in 1840, and the constantly growing commercial interests of the state demanded the establishment of comprehensive permanent public improvements. In their development the obligations of the state grew as the years went on until, in 1845, her public debt had reached the sum of $7,384,794. On the 1st day of January, 1852, the debt had grown to $11,971,838, and from that time up to, and including a part of, the year 1861, this sum was gradually increased by the annual creation of debt authorized under act of the general assembly passed March 25, 1851.

This act, providing for the issuance of coupon bonds, authorized the board of public works to borrow from time to time, on the credit of the state of Virginia, such sums of money as might be needed to redeem the engagements of the state under laws then in force, and, for the money so borrowed, to issue certificates with coupons attached. On the 26th of March, 1853, an act was passed by the general assembly, establishing a sinking fund to provide for the payment of interest and the redemption of the public debt.

It was enacted that "there shall be appropriated annually from the public treasury, commencing with the year 1853, out of the accruing revenues of the commonwealth, the sum of $838,028 66, this amount being 7 per cent. on $11,971,838, the debt of the state January 1, 1852". It was also enacted that whenever, after January 1, 1852, a debt shall be contracted by the commonwealth, there shall be set apart in like manner annually, for thirty-four years, a sum exceeding by 1 per cent. the aggregate amount of annual interest agreed to be paid thereon at the time of its contracting, which sum shall be a part of the sinking fund. The following statement shows the amounts of debt incurred in each of the years from 1852 to 1861, inclusive, under authority of the act of the general assembly passed March 25, 1851, and referred to above:

In 1852, $2,979,087; 1853, $4,605,917; 1854, $4,112,184; 1855, $1,504,403; 1856, $2,653,570; 1857, $630,260; 1858, $1,866,800; 1859, $1,454,600; 1860, $3,621,825; 1861, $1,110,070; total, $24,538.716.

Of the debt as it stood on the 1st day of January, 1852 ($11,971,838), there was redeemed, up to 1861, the sum of $1,700,730, which, with the amount converted into the sinking fund, left the debt of the state, October 1, 1861, as follows:

Debt of the state, January 1, 1852	$11,971,838 00
Amounts issued from 1852 to 1861, inclusive	24,538,716 00
Total	36,510,554 00
Amount redeemed from 1852 to 1861	1,700,730 00
Amount in sinking fund	1,729,315 00
Amount of debt, less sinking fund, October 1, 1861	33,080,509 00

This debt was composed of the following classes of bonds:

Registered six per cents:		
Amount of six per cent. registered debt outstanding July 1, 1861		$19,988,074 00
Amount of loans obtained since		117,100 00
Guaranteed bonds of James River and Kanawha Company, changed since		150 00
Coupon bonds payable in New York, converted since		1,008,000 00
Coupon bonds payable in Richmond, converted since		17,000 00
Whole amount of six per cent registered debt, October 1, 1861		21,130,324 00
Amount of coupon bonds payable in New York on October 1, 1861	$11,497,500 00	
Amount supposed to have been lost at sea, in steamer Arctic	145,000 00	
Amount of coupons payable in Richmond October 1, 1861	64,000 00	
		11,706,500 00
Amount of registered and coupon bonds bearing six per cent. interest		32,836,824 00
Five per cents:		
Amount of five per cent. sterling coupon bonds (£365,000) held in England, valued at	$1,865,000 00	
Registered five per cent. bonds	108,000 00	
		1,973,000 00
Public debt October 1, 1861		34,809,824 00
Less the debt owned by the sinking fund		1,729,315 00
Total debt held by others than the commonwealth		33,080,509 00

This debt was incurred principally for works of public improvement, including railroads, canals, turnpikes, bridges, and so on. In the following table will be shown the amounts expended for the various purposes above named:

Alexandria, Loudoun and Hampshire railroad	$50,862 00
Blue Ridge railroad	1,744,723 00
Chesapeake and Ohio railroad	2,484,134 00
Norfolk and Petersburg railroad	1,341,341 00
Orange and Alexandria railroad	1,151,207 00
Richmond and Danville railroad	1,847,585 00
Richmond and Petersburg railroad	385,600 00
Richmond and York River railroad	490,999 00
South Side railroad	1,883,500 00
Virginia and Kentucky railroad	103,348 00
Virginia and Tennessee railroad	3,755,000 00
Marietta and Cincinnati railroad	202,611 00
James river and Kanawha canal	10,400,000 00
Other navigation companies	1,192,616 00
Plank-roads, turnpikes, and bridges	4,710,983 00
Chesapeake and Ohio canal	900,000 00
Selden, Withers & Co	436,000 00
Total	33,080,509 00

Thus it will be seen that the public debt of Virginia, October 1, 1861, according to the biennial report of the auditor for the years 1860 and 1861, amounted to $33,080,509.

During the period of the civil war the principal of the debt, of course, remained unchanged, while the interest thereon was constantly accumulating. On the 11th of June, 1861, a convention was held by the people of the western part of the state to take action looking to the formation of a new state, to be composed of the counties represented by delegates in the said convention and to be known as the state of West Virginia. The result of this action was that in 1863 a constitution was adopted, and a new state immediately organized. The organization of

the new state was the basis of the claim made by Virginia that West Virginia should become liable for a portion of the public indebtedness of Virginia as it stood on the 1st of January, 1861, in proportion as the population and area represented by the new state was a part of that possessed by the former state of Virginia. The adjustment of the debt of the state was first considered by the general assembly of 1866 and 1867, which convened under the Alexandria constitution. February 28, 1867, a joint resolution was passed by the assembly authorizing the appointment of three commissioners "to treat for the restoration of Virginia to its ancient jurisdiction and boundaries and to treat upon the subject of the proper adjustment of the debt".

The general assembly which convened in 1866, several months after the close of the war, found it impossible, in the impoverished condition of the state, to provide for the payment of the interest then matured on the public debt, and therefore passed an act, on the 2d of March, 1866, entitled "An act to provide for funding the interest of the public debt".

This act provides that the holders of registered bonds of the state issued prior to April 17, 1861, might invest the interest due on such bonds in registered bonds, bearing the same rate of interest as the principal of the bond bears, and payable at such time as the holder might elect, not less than ten nor more than thirty-four years from date; the bonds to bear date January 1, 1866; to be issued in sums of $100 or multiples thereof; the interest on such bonds not to be payable, however, until July 1, 1867.

It further provides that the holders of coupon bonds issued prior to said April 17, 1861, might invest the interest due, either in coupons or registered bonds bearing the same rate of interest as the principal of the bond bears. These bonds are to be dated and payable as the bonds first above-mentioned, and, if coupon bonds, to be issued in sums of $500 or multiples thereof, and, if registered, in sums of $100 or multiples thereof. The first interest on these bonds also was to be paid July 1, 1867.

For fractional parts of $100, in either of the cases above-mentioned, certificates of indebtedness were to be issued, payable in one, two, three, and four years, with the same interest as is provided for in the issue of bonds.

The act further provides for the funding of the interest due on any bonds issued prior to said April 17, 1861, as well as of such as were issued since the creation of the state of West Virginia not funded under the above provisions (sections 1 and 2 of the act) after January 1, 1867, in the same manner as above stated.

Under this act a large proportion of this matured interest was funded.

The public debt on the 1st day of January, 1867, amounted to $43,383,679. At this time there was in the sinking and literary funds the amount of $2,377,681, leaving the interest-bearing debt at $41,005,998. An act was passed by the general assembly, March 21, 1867, that provided for the payment, on July 1, 1867, and January 1, 1868, of 2 per cent. of interest upon the principal of the public debt of the state, "that being the interest which this state feels obliged to pay until there is a settlement of accounts between this state and West Virginia." Not long after the passage of this act, Virginia passed under military control, by virtue of congressional enactments, and from that time until the state was reorganized under a new constitution and restored to her representation in Congress, by act of January 25, 1870, the affairs of the state were administered by military authority. The interest on the principal of the public debt, the payment of which was provided for by the act of March 21, 1867, above referred to, was paid at the dates indicated in said act. Other laws of the general assembly, passed during the session of 1877, made provision for the further payment of interest, but various circumstances beyond the control of the officials of the state, incident to the occupation of the state and the administration of her affairs by military authority, prevented such payment. There was paid, however, 2 per cent. interest on the sterling bonds, due January 1, 1869, and 1 per cent. interest on the dollar bonds, due in August, 1869. These two payments, together with those of July, 1867, and January, 1868, comprise all the interest paid between the close of the war and January 1, 1870, at which date the public debt stood as follows:

Old funded debt	$32,779,263
New funded debt	7,884,974
Interest due and unpaid	4,996,111
James River and Kanawha bonds	212,430
Total	45,872,778

The new constitution, under which Virginia was reorganized in January, 1870, contained the following proviso: "The general assembly shall provide by law for adjusting with the state of West Virginia the proportion of the public debt of Virginia proper to be borne by the states of Virginia and West Virginia, and shall provide that such sum as shall be received from West Virginia shall be applied to the payment of the public debt of the state."

FUNDING ACT, 1871.

On March 30, 1871, an act was passed entitled "An act to provide for the funding and payment of the public debt".*

The preamble to the act recites that in the formation of the state of West Virginia there were included within its

* Laws 1870–'71, p. 378.

boundaries about one-third of the territory and of the population of the state of Virginia; that in the ordinance authorizing the organization of the former state it was provided that said state should take upon itself a just proportion of the public debt of Virginia prior to the 1st day of January, 1861, which provision had not yet been fulfilled, although repeated and earnest efforts had been made in that behalf by the state of Virginia; that the people of the latter state were anxious for the prompt liquidation of her portion of said debt, which was estimated at two-thirds of the same; that it had been suggested that the state of West Virginia might prefer to pay that state's portion of the debt to the holders thereof, and not to the state of Virginia, and that this act was passed for the purpose of enabling her to do so, and that the credit of the state of Virginia might be promptly restored.

Section 1 of this act provides that after the passage thereof no bond, certificate, or other evidence of indebtedness should be issued for any portion of the debt of the state, nor should any interest be paid upon any portion of said debt except as provided by the act.

The act then provides that the owners of any of the bonds, stocks, or interest certificates theretofore issued by the state which are recognized by the constitution and laws as legal, except the 5 per cent. dollar bonds and the sterling bonds, but including the stock of the old James River Company, and the bonds of the James River and Kanawha Company, guaranteed by the state, might fund two-thirds of the amount thereof and two-thirds of the interest due or to become due thereon to the 1st day of July, 1871, in 6 per cent. coupon or registered bonds of the denominations of one hundred [dollars] and multiples thereof, dated that day, to become due and payable in thirty-four years after date, but redeemable at the pleasure of the state after ten years, the interest to be payable semi-annually, on the 1st days of January and July; the coupon and registered bonds to be interconvertible, the coupons to be receivable at and after maturity for all taxes, debts, dues, and demands due to the state, which was to be expressed on their face; and that the bonds should bear on their face a declaration to the effect that the redemption thereof is secured by a sinking fund provided by the law under which they were issued. The 5 per cent. dollar bonds might be funded in a similar manner, but they were to bear only 5 per cent. interest. For all sums less than $100 certificates were to be issued, bearing the same date, rate of interest, and payable at the same time as the bonds mentioned, such certificates, in sums of $100 or any multiple thereof, to be exchangeable for bonds, and that upon the surrender of the old and issue of the new bonds for two-thirds of the amount due a certificate should be issued to the holder for the other one-third, bearing the same date as the new bond, reciting the amount of the bond which is not funded, and that payment of said amount, with interest thereon at the rate prescribed in the surrendered bond, will be provided for in accordance with such settlement as should thereafter be made between the states of Virginia and West Virginia. It was further provided that until such final settlement there should be paid on what are known as the sterling bonds two-thirds of the interest accruing on the principal of said bonds after July 1, 1871, and that for the interest accrued to said date certificates dated on that day should be issued, drawing the same rate of interest as the bonds, two-thirds of which should be paid as provided to be paid on the bonds, the remaining one-third of the unpaid interest both on bonds and certificates to be payable in money, and the principal of said certificates in new sterling bonds of the same character as the old, in accordance with such final settlement as might be made with West Virginia.

The act provides for the manner of executing and issuing the bonds and certificates, and for registry thereof. For the purpose of creating a sinking fund it was enacted that the sum realized from the claims of the state against Selden, Withers & Co., and the Chesapeake and Ohio Canal Company, and from the sale or disposition of the stocks and bonds and debts owned by the state against any and all railway and other improvement companies, and all sums realized from claims of the state against the United States, and from any sales of real estate then owned by the state, should be paid into the state treasury to the credit of such sinking fund, and that in the year 1880, and annually thereafter until all the bonds issued under this act are paid, there should be levied and collected a tax of two cents on the $100 of assessed valuation of all property in the state, personal, real, and mixed, and paid into the treasury for the like purpose, and the treasurer, auditor of public accounts, and second auditor were appointed commissioners of the sinking fund, to have the control and management thereof, and annually, or oftener, to apply such money in the treasury as might be to the credit of the sinking fund to the purchase and redemption of bonds issued by authority of this act.

The provision that the coupons should be receivable for taxes was, as above stated, made a part of the contract, but in the following year an act was passed declaring that in the collection of taxes or other demands of the state by the officers charged therewith it should not be lawful for them to receive in payment anything else than gold or silver coin, United States treasury-notes, or notes of the national banks of the United States, and repealed all laws in conflict therewith.* This act repeals so much of the funding act as is in conflict with it, but of course does not affect the taxpaying quality of coupons already issued.

The passage of the funding bill of 1871 aroused considerable hostility among a portion of the people of the state, while it was acceptable to the creditors. Up to the 1st day of December, 1871, there had been funded $21,610,691 under this act, which recognized the debt to be funded at $47,090,867, which amount had been reduced during the year 1870 by the sale of the stocks held by the state in the Richmond and Danville and the Richmond

* Laws 1871–72, p. 141.

and Petersburg railroads, from which the sum of $1,610,324 was realized and applied to the redemption of the debt. Thus the actual amount to be funded was $45,480,543 (one-third of which amount the state claimed should be paid by West Virginia), as follows:

Old debt	$31,143,224
Interest thereon	6,221,806
Debt created under act of March 2, 1866	6,576,914
Interest thereon	2,703,284
James River and Kanawha Company debt, and interest thereon	445,639
	47,090,867
Less amount realized from sale of Richmond and Danville and Richmond and Petersburg railroad stock.	1,610,324
Total	45,480,543

The amount funded under this act up to December, 1871 ($21,610,691), was known as the "consol" debt. A portion of the remaining amount was thereafter funded and called the "peeler" debt, while that part left unfunded was known as the "unfunded" debt.

The public debt of the state, as exhibited by the auditor's report, September 30, 1872, amounted at that date to $45,718,112, and remained substantially unchanged without calling forth special legislation until the year 1878, on the 1st day of October of which year the debt was placed, by the report of the auditor of the state, at $29,367,959, exclusive of the one-third "recognized by Virginia as the proportion of the debt to be settled by West Virginia, and for which, in funding, certificates have been or will be issued".

On the 22d day of February of this year (1878) the general assembly passed a bill (commonly known as the Barbour bill) which, while providing more especially for the levying and apportionment of taxes, recited that the people of the state were unable to bear heavier financial burdens than those already existing, and declaring the inadequacy of the income of the state to pay, in addition to the general expenses of the government and for the support of schools, the interest on the public debt and the principal claimed under the funding bill of 1871. This bill was vetoed by the governor February 27, 1878.

On the 14th day of March following an act was passed to provide for the consolidation of the public debt and the payment of a uniform rate of interest thereon. The act authorizes the issue of three per cent. interest-bearing bonds to mature in thirty-two years, in lieu of certain other outstanding bonds. No action was taken under this act, however, and it was repealed by the act of March 28, 1879. This act (legalizing what was known as the McCulloch bill) entitled "An act to provide a plan of settlement of the public debt", recited in its preamble that it was believed by the general assembly that the rate of interest heretofore agreed to be paid by the state on the public debt was greater than could be borne without destroying the industrial interests of the state, and that the foreign bondholders and the funding association of the United States had, in view of this fact, expressed their willingness jointly to endeavor to obtain the consent of the creditors to an abatement in the rate of interest. It was therefore enacted "that, to provide for funding the debt of the state, the governor of the state is hereby authorized to create bonds of the state, registered and coupon, dated the first day of January, eighteen hundred and seventy-nine—the principal payable forty years thereafter", bearing interest at the rate of three per cent. for ten years, four per cent. for twenty years, and five per cent. for ten years. Section 3 of this act states:

> The outstanding indebtedness of the state shall be funded in the new bonds, to be issued under this act, as follows: Bonds shall be presented for exchange with all coupons attached maturing after date of presentation, and shall be exchanged at the face value of said bonds, dollar for dollar, for the new bonds, with all coupons attached maturing after the date of presentation.

In section 4 it is provided that all due and unpaid interest may be funded under the provisions of this act at the rate of fifty cents on the dollar, and shall be funded at that rate under the third section of this act and taken under the provisions of said section in lieu of bonds of class II, *i. e.*, all bonds funded under the act of March 30, 1871, as amended by act of March 7, 1872, and two-thirds, with two-thirds of unpaid accrued interest up to the 1st day of July, 1871, on all unfunded bonds, including the sterling bonds.

The first section of this act provided that the coupons attached to the new bonds should be tax-receivable, and that the principal and interest should be forever exempt from taxation within the state.

The terms of this act were to become a contract, if on or before the 1st day of May, 1879, the council of foreign bondholders and the funding association aforesaid should file with the governor their assent to and acceptance of the terms of this act, and the governor was authorized in this case forthwith to provide for the preparation of the bonds provided for by the act.

> The said corporations may present for funding * * * at least eight millions of dollars of the outstanding obligations of the state prior to the first day of January, eighteen hundred and eighty, and during each period of six months from and after the thirty-first day of December, eighteen hundred and seventy-nine, they may present an additional amount of at least five million dollars, until the whole debt is funded. * * * But if the said corporations shall fail to file with the governor their assent and agreement as aforesaid, by the first day of May, eighteen hundred and seventy-nine, or shall fail to present for funding the outstanding bonds in the proportion and amounts and during the periods hereinbefore specified, then the governor may, in his discretion, make a like contract with responsible parties for the funding of the debt of the state under this act.

With reference to the West Virginia indebtedness this act specifies that—

The owners of all classes of bonds mentioned in this act, who shall exchange their securities for the bonds created under this act, and who shall not have yet received certificates representing the remaining one-third of their principal and interest due and payable by the state of West Virginia, shall receive certificates of a like character to those issued under the act of March thirty, eighteen hundred and seventy-one, when they make such exchange; and the state of Virginia will negotiate, or aid the creditors holding all of such certificates issued under this act or previous acts in negotiating, with the state of West Virginia for an amicable settlement of the claims of such creditors against the state of West Virginia. The acceptance of the said certificates for West Virginia's one-third, issued under this act, shall be taken and held as a full and absolute release of the state of Virginia from all liability on account of the said certificates.

In the twelfth section of the act there is a further provision that if there should be no money in treasury to pay the interest on these bonds at the semi-annual periods at which it would fall due, then it should be borrowed and certificates issued therefor in sums of one dollar and its multiples, receivable for all taxes and to be hypothecated or sold at not less than seventy-five cents on the dollar.

Under this act there was issued, to October 1, 1879, in registered and coupon bonds and certificates, the sum of $8,049,450, of which amount $105,135 was purchased by the commissioners of the sinking fund. At this date the amount of the public debt, exclusive of the proportion which West Virginia was expected to pay, was $29,667,305, as will be seen by the subjoined table:

Debt under act of March 30, 1871, known as "consol" debt, Class I	$14,604,948
Debt under act of March 30, 1871, as amended by act of March 7, 1872, known as "peeler" debt, Class II, and the unfunded debt of same class	7,118,042
Amount funded under act of March 28, 1879, less amount purchased by sinking fund	7,944,315
Total	29,667,305
Amount recognized by Virginia as West Virginia's proportion for which certificates have been or will be issued	15,239,371

On the 1st day of March, 1880, the general assembly passed an act "to re-establish the public credit". This act (known as the Riddleberger bill), before its passage, was amended by striking out its thirteenth section and inserting in place thereof the following:

The treasurer of the commonwealth is authorized and directed to pay the interest on the bonds issued under this act, as the same shall become due and payable, out of any money in the treasury not otherwise appropriated.

The twelfth section of the bill was also stricken out, and the following inserted in lieu thereof:

Executors, administrators, and others acting as fiduciaries may exchange any state bonds held by them for bonds issued under this act when so authorized by the court having jurisdiction in the premises; and the same when so made shall be considered a lawful investment.

The fourteenth section was slightly amended, and the eighteenth section stricken out.

Below will be found the bill as originally presented for the consideration of the general assembly:

A BILL to re-establish the public credit.

Whereas the people of Virginia have renounced the basis and principles of the proposed settlement of the public debt which are comprehended in the act of assembly approved March 28, 1879; and

Whereas it is confidently believed that the people of this state will never acquiesce in any settlement which shall obligate them and their posterity to pay any part of the interest upon the public debt which accrued during the war and the period of reconstruction; and

Whereas the principal of the debt recognized by the act approved March 30, 1871, computed to the 1st of July following, and taken as the debt of the state before the creation of West Virginia at $45,718,112 23, embraced $15,025,604 of capitalized interest which had accrued during the period of war and reconstruction; and

Whereas every consideration of equity and the circumstances of war, the immense loss of property by the people of Virginia, aggregating five hundred millions of dollars, and the shrinkage in assessed values from $723,000,000 to $336,000,000, reducing the revenues from over four millions to two and a half millions, further justify the elimination of such capitalized interest from any computation of the debt; and

Whereas the amount of such capitalized interest constitutes, as near as may be, one-third of said indebtedness so computed to July 1, 1871; and

Whereas legislation assigning two-thirds of said indebtedness to Virginia and one-third to West Virginia has been generally acquiesced in, and the principal of the indebtedness thus wrongfully apportioned to Virginia under the computation of the act approved March 30, 1871, is, as of January 1, 1880, $31,102,571, whereof $22,909,447 is evidenced by bonds or other obligations issued under acts of March 30, 1871, and March 28, 1879, and hereinafter denominated as Class A, and the remainder by bonds and other evidence of debt, designated as Class II by the act approved March 28, 1879, aggregating, as of January 1, 1880, the sum of $8,193,124; and

Whereas the holders of said obligations of Class A (except as to $2,500,000 of Class II, funded under the said act of March 28, 1879) have for nine years, including July 1, 1880, received interest, nominally at 6 per cent., upon a principal one-third too large, by the wrongful capitalization of interest, as aforesaid, which, reckoned at 4½ per cent., amounts to over $3,000,000, and ought not in equity to have been paid, therefore the principal of said indebtedness, as it now stands, amounting to $22,909,447, ought to be reduced by the amount of interest so wrongfully capitalized and the interest upon interest thus wrongfully paid to the holders of such bonds; and therefore the principal of this class of the state indebtedness should in equity be reduced to $12,142,006, or at the rate of $53 for every $100 of the face of such indebtedness as is now outstanding; and

Whereas the principal of that part of the debt known as Class II in the act of March 18, 1879, amounting, as of January 1, 1880, to $8,193,124, is one-third too large by the wrongful capitalization as aforesaid, the same should be reduced to $5,462,083, or at the rate of $66 66⅔ for every $100 of the face of such indebtedness as is now outstanding; and

Whereas interest for nine years to 1st July, 1880, has been allowed upon the principal of the debt embraced in Class II aforesaid, which principal is too large by one-third of the amount thereof because of the capitalization of interest aforesaid, and there is now past due and unpaid of such interest $3,435,145, therefore it is equitable that the same should be reduced by the sum of $1,474,762 (that being interest upon the one-third of principal so wrongfully capitalized) or funded in the bonds authorized to be issued under this act at the rate of $60 for every $100 of such past due and unpaid interest aforesaid; and

Whereas the equitable adjustment of the public debt of the state, as determined by the application of the facts and principles aforesaid, fixes the aggregate thereof at $19,665,176; and

Whereas there are now outstanding $783,241 50 of past-due tax-receivable coupons and balances due to the schools, asylums, and on other accounts, amounting to some $1,800,000, for the payment of which it is of paramount importance that provision be made in the apportionment of the current net revenues of the state; and

Whereas the net revenues of the state cannot be safely relied on for more than $2,165,000 after the reassessment required to be made in 1880, owing to the reduction in taxable values estimated to be consequent thereupon and certain necessary reforms in the system of assessment of property and licenses; and

Whereas the existing rate of taxation is recognized to be the highest that can be endured under the circumstances of the long distress and heavy burdens of this people, and the search for new subjects of taxation has been exhausted; and

Whereas the necessary expenses of conducting the government, after adopting and applying every practicable measure of reform and economy, cannot safely be estimated below the sum of $900,000, and the proportion of such estimated revenue due to the public schools will be $431,700, the balance remaining for the liquidation of the public debts aforesaid, and for the payment of interest upon the bonds created by this act, cannot exceed $833,300; and

Whereas the means of prompt and regular payment should be apparent, and the people's approbation of this settlement should be expressed at the polls, in order to give assurance of the good faith and performance thereof: Therefore,

1. *Be it enacted by the general assembly of Virginia*, That the board of commissioners of the sinking fund of the state be, and they are hereby, empowered and directed to create bonds, registered and coupon, to such an extent as may be necessary to comply with the provisions of this act.

2. Said bonds shall be dated July 1, 1880, and be payable at the office of the treasurer of the state on the 1st day of July, 1920: *Provided*, That the state may at any time, and from time to time after July 1, 1890, redeem any part of the same principal and interest at par. In case of such redemption before maturity the bonds to be paid shall be determined by lot by said board of commissioners, and notice of the bonds so selected to be paid shall be given in a newspaper published at Richmond, New York, and London, England, when interest from and after ninety days from the date of such publication in London shall cease upon the bonds so designated to be paid.

3. The form of the bond shall be as follows, to wit:

The commonwealth of Virginia acknowledges herself indebted to ——— (in the case of a coupon bond to bearer, and in the case of a registered bond inserting the name of the person or corporation) in the sum of $———, which she promises to pay in lawful money of the United States, at the office of the treasurer of the state, Richmond, Virginia, on the 1st day of January, 1920, with the option of payment at par, principal and interest, before maturity, at any time after July 1, 1890; and interest at the office of the treasurer of the state in such lawful money on the 1st days of January and July, at the rate of three per centum per annum, until paid (according to the tenor of the annexed coupons, in the case of coupon bonds).

In testimony whereof, witness the signature of the treasurer and the countersignature of the second auditor, hereunto affixed, according to law.

4. The form of coupon for coupon bonds shall be as follows, to wit:

No. —— (of bond).

The commonwealth of Virginia will pay to bearer ——— dollars, in lawful money of the United States, at the office of the treasurer, Richmond, Virginia, on the 1st day of January and July alternately, the first coupon to be payable January 1, 1880.

$———. ——— ———,

Treasurer.

Each coupon to be impressed on the back with its number, in the order of maturity, from 1 forward.

5. The said board of commissioners are authorized to issue such bonds, in denominations of one hundred, five hundred, and one thousand dollars, as may be necessary to carry out the provisions of this act, each denomination to be of different tint: *Provided*, That registered bonds may be issued of any denomination multiple of one hundred, and all registered bonds to be of the same tint; and they are authorized to issue such bonds, registered or coupon, in exchange for the outstanding obligations of the state hereinbefore enumerated, including the bonds held by the literary fund, as follows, that is to say:

(*a*) For the principal of all bonds or other evidence of debt embraced in Class A, at the rate of 53 per cent.; that is to say, $53 of the bonds authorized under this act (principal and accrued interest from the preceding period of maturity to the date of exchange at par) are to be given for every $100, face (principal and accrued interest from the preceding semi-annual period of maturity to the date of exchange of such indebtedness), and for any interest which may be past due and unpaid upon such indebtedness funded bonds, issued under this act, may be given, dollar for dollar.

(*b*) For the principal of all bonds or other evidences of debt embraced in Class II, at the rate of 66⅔ per cent.; that is to say, $66 66⅔ of the bonds authorized by this act (principal and accrued interest from the preceding period of maturity to the date of exchange at par) are to be given for every $100, face, of the principal of such indebtedness.

(*c*) For two-thirds of the interest past due and unpaid upon the unfunded debt, including the sterling bonds since July 1, 1871, and for all other past due and unpaid interest upon other bonds and evidences of debt embraced in Class II, to the date of exchange, at the rate of 60.1 per cent.; that is to say, for every $100 of such interest, so computed, $60 of the bonds issued under this act (principal and accrued interest from the preceding period of maturity to the date of exchange at par) are to be given.

6. For the one-third of the unfunded debt, including the sterling bonds, computed as of the 1st of July, 1871, the said board of sinking-fund commissioners shall issue a certificate as follows:

No. ——.

The commonwealth of Virginia has this day discharged her accepted share of the (registered or coupon, as the case may be) bonds for ——— dollars, held by ——— ———, dated the —— day of ———, and numbered ——, leaving a balance of ——— dollars, with interest from the 1st day of July, 1871, to be accounted for by the state of West Virginia, without recourse upon this commonwealth.

Done at the capital of the state of Virginia this —— day of ———, 18——.

——— ———,

Treasurer.

——— ———,

Second Auditor.

7. The said board of commissioners are empowered to issue for any fractional part of one hundred dollars of the indebtedness funded under this act the following certificate:

Register No. ——.] FRACTIONAL CERTIFICATE. [Transaction No. ——.

This certificate entitles the holder hereof to the sum of $———, fundable at its face in the bonds of the commonwealth of Virginia, authorized by an act approved the —— day of ———, 1880, when presented, with certificates of like tenor, or in conjunction with other evidences of debt fundable under said act, in amounts of $100 and multiples thereof.

Done at the capital of Virginia this —— day of ———, 188—.

———— ————,
Treasurer.

———— ————,
Second Auditor.

The certificates so issued shall be registered by the second auditor in a register kept for that specific purpose, giving the date and number of the transaction to which it relates, the amount of the same, and the name of the person or corporation to whom it was issued; and as such certificates are refunded the same shall be canceled and preserved, as herein provided in respect to other obligations refunded.

8. All the bonds and certificates of debt and evidences of past due and unpaid interest taken in under the provisions of this act shall be canceled by the treasurer in the presence of the board of commissioners of the sinking fund as the same are acquired by the treasurer, and the same shall be carefully preserved until such time as the general assembly may otherwise direct. A schedule of the bonds, certificates, and other evidences of debt so canceled from time to time shall be certified by said board and filed with the treasurer for preservation.

9. All the coupons and registered bonds and fractional certificates issued under this act shall be separately registered by the second auditor in books kept for the specific purpose, in each case giving the date, number, and amount of the obligations issued, and the name of the person or corporation to whom issued, and the date, number, and amount and description of the bond, bonds, or indebtedness surrendered.

10. The plates from which the bonds and fractional certificates authorized by this act are printed shall be the property of the commonwealth, and shall remain in the keeping of the said board of commissioners of the sinking fund.

11. In the year 1890, and annually thereafter until all the bonds issued under and by authority of this act are paid, there shall be separately levied and collected, as other taxes are collected, a tax of two cents on the $100 of the assessed value of all property in the state subject to taxation for other purposes, which shall be paid into the treasury to the credit of the sinking fund; and the commissioners of the said sinking fund shall annually, or oftener, apply the same to the redemption or purchase (at a rate not above par) of the bonds issued under this act, and the bonds so redeemed shall be canceled by the said board, and the same registered by the second auditor, in a book to be kept for the purpose, giving the number, the date of issue, the character, the amount, and the owner at the time of purchase of the bonds so redeemed and canceled.

12. Executors, administrators, and others acting as fiduciaries, may invest in the bonds issued under this act when so authorized by the county, corporation, or circuit court, to which such executor, administrator, or other fiduciary is accountable for the trust-subject, and the same, when so made, shall be considered a lawful investment.

13. That the semi-annual interest, as it may become due and payable upon the bonds issued under this act, may be promptly and regularly met, one-third of the net revenue collected from the levy on all property (personal, real, and income), and one-half of the net revenue collected from licenses, shall be separately collected and paid into the treasury to the credit of the public debt, and the same applied to the payment of the interest thereon: *Provided*, That the legislature may, at the end of every succeeding two years from the 1st of January, 1882, pass to the credit of the sinking fund such balance as may then stand to the credit of that account over and above any interest which may then remain due and unpaid upon the bonds issued under this act, such balance, so transferred, to be employed by the said commissioners of the sinking fund in the redemption of the said bonds, as provided in the eleventh section of this act.

14. The several tax collectors of this commonwealth shall receive in discharge of the taxes, license taxes, and other dues, gold, silver, United States treasury notes, national bank currency, and the temporary-loan certificates, as hereinafter provided, and nothing else: *Provided*, That in all cases in which an officer charged by law with the collection of revenue due the state shall take any step for the collection of the same, claimed to be due from any citizen or tax-payer, such person against whom such step is taken, if he concedes the same to be unjust or illegal, or against any statute, or to be unconstitutional, may pay the same under protest, and upon such payment the officer collecting the same shall pay such revenue into the state treasury, giving notice at the time of such payment to the treasurer that the same was paid under protest. The person so paying such revenue may, at any time within thirty days after making such payment, and not longer thereafter, sue the said officer so collecting such revenue in the county or corporation court in which said revenue was assessed, and if it be determined that the same was wrongfully collected, for any reason going to the merits of the same, then the court trying the case may certify of record that the same was wrongfully paid and ought to be refunded; and thereupon the auditor of public accounts shall issue his proper warrant for the same, which shall be paid in preference to other claims on the treasury. There shall be no other remedy in any case of the collection of revenue or the attempt to collect revenue illegally, or the attempt to collect revenue in funds only receivable by said officers under this law, the same being other and different funds than the tax-payer may tender or claim the right to pay, than such as are herein provided, and no writ for the prevention of any revenue claim, or to hinder or delay the collection of the same, shall in any wise issue, either injunction, supersedeas, mandamus, prohibition, or any other writ or process whatever; but in all cases where for any reason any person shall claim that the revenue so collected of him was wrongfully or illegally collected the remedy for such person shall be as above provided, and in no other manner. In all such cases, if the courts shall certify of record that the officer defendant acted in good faith and diligently defended the action, the necessary cost incurred by him shall be taxed to and paid by the state as in criminal cases. The commonwealth's attorney of the county or corporation in which suit is brought shall appear and represent the defense. In every case where judgment is rendered for the defendant a fee of ten dollars shall be taxed in favor of said attorney and against the plaintiff, and whenever the court shall refuse to certify the good faith and diligence of the officer defending the case a like fee of ten dollars shall be taxed against the said officer. Any officer charged with the collection of revenue, who shall receive payment thereof in anything other than that hereinbefore provided, shall be deemed guilty of a misdemeanor and fined not less than $100 nor more than $500, in the discretion of the court, but nothing herein contained shall be construed to subject any officer of the state to any suit other than as hereinbefore provided for any refusal on his part to accept in payment of revenue due the state any kind or description of funds, security, or paper not authorized by this act.

15. The auditor of the state shall prepare and furnish to the clerks of the county and corporation courts of the commonwealth, on or before the 15th day of July, 1881, a book known as "Temporary-Loan Book", which shall consist of printed forms of certificates and stubs, as follows:

STUB.	CERTIFICATE.
No. ——.	No. —, County (or city) of ——, — day of ——, 188—.
[Name of lender.]	The commonwealth of Virginia owes —— ——, of —— county (or city), Virginia, in consideration of money loaned her to meet a casual deficit in the revenue and to redeem previous liabilities of the state, under act of —— day of ——, 1880, —— dollars, payable on demand, without interest, at the office of the treasurer of Virginia on presentation of this certificate by said —— —— in person, at the rate of one for two, or receivable at par by all collectors of taxes for any and all taxes on real or personal property assessed against the above-named lender, for which he is not delinquent if presented within six months from this date, and not otherwise. Not transferable.
[Date of issue.]	
[Amount of certificate.]	
[Amount of cash received.]	—— ——, *Auditor.*

Said stubs and checks shall be signed by the auditor in person or by stencil and numbered serially, beginning with No. 1 for each county (or city), and the number of such for each county (or city) shall be at least equal to the number of land owners and property holders therein. On or before the 1st day of July the several clerks of the county or corporation courts of this commonwealth shall execute and forward to the auditor of the state a bond in the penalty of $10,000, with security approved by the judge of the county or corporation court of which they are respectively clerks, conditioned faithfully to perform the duties imposed upon such clerk by the provisions of this act, and to account for and pay over to the treasurers of their respective counties on the first of every month, beginning August 1, 1881, all moneys received under this act.

Accompanying said temporary-loan books the auditor shall furnish to said clerks printed advertisements, at least five for every election precinct in their respective counties or cities, as follows:

To all good citizens of the county (or city) of ——, state of Virginia:

The commonwealth of Virginia, in order to meet a casual deficit in the revenue, and in order to redeem existing liabilities of the state, desires to borrow from her citizens a sum sufficient to meet said casual deficit and redeem said liabilities, and solicits from the citizens of this county (or city) subscriptions to a temporary loan. Every citizen of this county (or city) is invited to subscribe to said loan. Subscriptions to any amount not exceeding in any instance the amount of taxes annually assessed against the land and personal property of the subscriber for which he is not delinquent are solicited from the citizens of this county (or city). Any person subscribing to said loan will apply to the clerk of the county (or corporation) court of this county (or city), and upon the payment, in cash, of his subscription to said clerk will receive a certificate of indebtedness, dated upon the day of such subscription, acknowledging the liability of the state to him for an amount twice as large as his subscription, payable on presentation of said certificate by him in person at the treasury at the rate of one for two, or receivable at par by all collectors of taxes for any or all taxes on real or personal property assessed against him for which he is not delinquent if presented within six months from its date, and not otherwise. Not transferable.

—— ——, *Auditor.*

Upon receipt of said advertisements said clerks shall immediately post the same at the court-house door of their respective courts, and in at least three public places in each voting precinct of their respective counties (or cities). A similar advertisement shall be inserted by the auditor in some paper published in each of the cities having a corporation court, and in every county in which a paper is published, beginning July 1, 1881, at least once a week for eight weeks, and inviting subscriptions to said loan.

And any person or corporation so desiring may apply directly to the treasurer of the state to subscribe to said loan, and upon the payment, in cash, of his or their subscription shall receive from the auditor a certificate such as hereinbefore described, provided the same shall not exceed the amount of taxes on real and personal property assessed against him on and after the 1st of February, 1881. The clerk receiving such book shall receipt for the same and state in said receipt the number of certificates therein. Upon application of any subscriber and payment in cash of his subscription, the clerk of the court to whom such payment is made shall fill up the first blank certificate upon his book with the date of payment, the name and residence of the subscriber, and an amount double the subscription.

On the stub he shall enter the same and the actual amount of cash received. If in making out any certificate he damages the same so that it becomes useless, he shall leave it untorn from the book, obliterating the signature and indorsing the stub, and take the next serial number. If any certificates be lost or stolen from said book, he shall forthwith notify the treasurer of his county (or corporation) of the missing numbers and warn him not to receive the same, and shall likewise notify the auditor of the facts concerning said loss or theft, and on the stub of the lost or stolen certificates shall indorse the facts. Upon affidavit of the facts satisfactory to him, any clerk may issue a duplicate for a certificate which has been lost or destroyed to the person entitled thereto, and across the face and on the stub of such he shall indorse duplicate of number. The treasurer of the county (or city) shall, on the 1st day of August, 1881, and upon the 1st of each succeeding month, so long as the temporary loan-books remain in the hands of the clerk, call upon him for his books. The treasurer shall, upon blanks to be furnished him by the auditor, make up a tabulated statement as follows:

Clerk of the county (or city) of ——, in account with the commonwealth of Virginia for subscriptions to temporary loan of 188— *for the month of ——.*

Number of certificate.	Name of subscriber.	Date of issue.	Amount of certificate.	Amount of cash received.	Redeemed.	Not redeemed.

For the amount of cash received by said clerk he shall write his receipt at the foot of said tabular statement, and shall forward a duplicate of such statement and receipt to the auditor. The clerk shall immediately pay over the sum so received by him to the treasurer upon his tendering said receipt. If he fails so to do, it shall be the duty of the treasurer to move against him and his securities forthwith upon his bond in the court having cognizance of such motions, and to notify the auditor of his default. It shall be the duty of the clerks of the courts to whom said temporary-loan books are transmitted by the auditor, on the 1st of July next following their receipt, to return the same to the auditor, together with the receipts of the treasurer, for verification. The amount of subscriptions to said loan received in

any county (or city) shall in no case exceed the aggregate of revenue from taxes on land and personal property due the commonwealth for the current fiscal year by more than 10 per cent., and preference shall be given to the land and property owners of each county and city in receiving subscriptions to said loan. Any clerk who shall falsely and fraudulently issue any temporary-loan certificate authorized by this act, without receiving the cash therefor at the time it issues, shall be deemed guilty of a felony, and, upon conviction thereof, shall be confined in the penitentiary not less than one nor more than five years. The county and city treasurers of this state shall receive at par, in payment of taxes on land and personal property assessed in their counties or cities which are not delinquent, the certificates aforesaid, issued by the clerk of their county or corporation, when the same are presented by the person to whom they were issued, or his agent, in payment of his taxes on real or personal property. Said treasurer shall arrange all such certificates redeemed by him according to their serial numbers, and return the same, with his accounts, to the treasurer of the state. The treasurer of the state shall receive at par, in payment of any taxes assessed on or after February 1, 1881, due to the commonwealth, which are payable to him directly by law, whether such taxes be delinquent or not, temporary-loan certificates issued by the auditor, as hereinabove provided: *Provided, however,* That the aggregate of temporary-loan certificates issued directly from the office of the auditor for subscriptions to the treasurer of the state under this act shall not exceed $1,000,000. Any treasurer who shall fail to move in the proper court against any clerk who is delinquent for ten days in paying over on the first of the month the amount of temporary loan subscribed for the previous month shall be deemed guilty of a misdemeanor, and, on conviction thereof, shall be fined not less than $100 nor more than $500, and he and his securities upon his official bond shall be liable for the amount due by said clerk; and the county and city treasurers of this state and their securities shall forthwith appear before the court which took their bonds and so alter the same as to make them embrace their liability under this act, and they shall forward to the auditor a certificate of the clerk that said bonds have been so altered. The clerk receiving said subscriptions shall be entitled to a commission of —— per cent. on all subscriptions received by him under this act, and may deduct the same from such receipts in accounting with the treasurer.

16. All necessary expenses incurred in the execution of this act shall be paid out of moneys in the treasury not otherwise appropriated, on the warrants of the auditor of public accounts, drawn upon the treasurer, on the order of the board of sinking-fund commissioners.

17. It shall be the duty of the officers conducting the election at the several places for holding elections in the state, as provided by law, on the Tuesday after the first Monday in November next, to prepare a separate ballot-box, in which shall be deposited the ballots of the qualified voters of the state who shall desire to vote upon this act. Ballots shall be, respectively, as follows: "For the act;" "Against the act." The ballots so cast shall be deemed and taken as a vote for or against this act. All persons entitled to vote for members of the general assembly shall have the right to vote "for" or "against" the act.

The manner of receiving and canvassing the ballots cast at such election on the question of the adoption or rejection of this act, and making returns and abstracts of the results thereof, shall conform in all respects to the regulations prescribed by the general election laws of this state, except that the certificates of the judges in this respect shall be as follows:

We hereby certify that at the election held on the —— day of November, 1880, ——— votes were cast "for the act" and ——— were cast "against the act".

Signed by the judges:

——— ———.

——— ———.

And provided further, That the commissioners of election shall make on a separate sheet an abstract of said votes for and against the act, which abstract shall be duly signed by said commissioners and certified to the secretary of the commonwealth.

And if from such returns and abstract of votes it shall appear that a majority of those voting at said election have voted in favor of said act, then it shall be the duty of the secretary of the commonwealth to certify the same to the governor, who shall immediately make proclamation thereof, by publication in one or more newspapers published in the city of Richmond having the largest circulation in the country, and from and after the date of such proclamation all the foregoing provisions of this act shall be in full force and virtue.

18. All acts and parts of acts in conflict or inconsistent with this act are hereby repealed.

19. This act shall be in force from its passage.

This act, as amended and passed, was vetoed by the governor March 5, 1880.

WEST VIRGINIA.

The state of West Virginia has no recognized state indebtedness. The constitution of the state forbids the creation of any liability in the nature of a public debt, excepting so much thereof as is contained in the provision regarding the assumption of "an equitable portion of the public debt of the commonwealth of Virginia prior to January 1, 1861, after such portion shall have been ascertained by the legislature of West Virginia". Such portion has as yet not been agreed upon by West Virginia and Virginia.

The first convention held for the purpose of forming a new state, and which assembled at Wheeling on the 11th day of June, 1861, in their ordinance passed August 20, 1861, embodied the following provision (see section 9) as to how the legislature of the proposed new state was to proceed in ascertaining West Virginia's equitable proportion of the debt of the commonwealth:

The new state shall take upon itself a just proportion of the public debt of the commonwealth of Virginia prior to the first day of January, eighteen hundred sixty-one, to be ascertained by charging to it all state expenditures within the limits thereof, and the just proportion of the ordinary expenses of the state government since any part of said debt was contracted, and deducting therefrom the moneys paid into the treasury of the commonwealth from the counties included within the said new state during the same period.

The constitution for the new state of West Virginia (and schedule thereto annexed), proposed by the convention which assembled at Wheeling November 26, 1861, and which had been consented to by the restored and recognized (by the United States) government of Virginia, contains the following provision in regard to the debt of the commonwealth:

An equitable portion of the public debt of the commonwealth of Virginia prior to the first day of January, eighteen hundred and sixty-one, shall be assumed by this state, and the legislature shall ascertain the same as soon as may be practicable and provide for the liquidation thereof by a sinking fund sufficient to pay the accruing interest, and redeem the principal within thirty-four years.

The adjustment of the debt question was first considered by the general assembly of Virginia in the year 1866–'67, it being the first legislature elected after the war. This assembly, acting under the so-called "Alexandria constitution", which instrument provides that—

> The general assembly shall provide by law for adjusting with the state of West Virginia the proportion of the public debt of Virginia proper to be borne by the states of Virginia and West Virginia, respectively, and may authorize, in conjunction with the state of West Virginia, the sale of all lands and property of every description, including all stocks and other interest owned and held by the state of Virginia in banks, works of internal improvements, and other companies at the time of the formation of the state of West Virginia, and no ordinance passed by the convention which assembled at Wheeling on the eleventh of June, eighteen hundred sixty-one, adjusting the public debt between Virginia and West Virginia, shall be binding upon this state (see section 27 of article 4),

authorized by joint resolution of February 28, 1867, the appointment of three commissioners, with the power to treat, first, for the "restoration of Virginia to its ancient jurisdiction and boundaries", and, second, upon the subject of the proper adjustment of the debt.

The legislature of West Virginia, at its session February 28, 1867, passed a joint resolution declining to treat for her reunion with Virginia, but authorizing the appointment of commissioners, to treat with the commissioners appointed by Virginia for the adjustment of the public debt, as soon as the suit of Virginia (instituted March, 1866) against West Virginia, pending in the Supreme Court of the United States, to recover jurisdiction over the counties of Berkeley and Jefferson should be finally determined, as no proper adjustment of the debt could be made until it should have been determined which state held jurisdiction over said counties.

In January, 1870, the state government of Virginia was reorganized under its new constitution, and was recognized and restored to representation in Congress by act of January 25, 1870. This constitution contains the following in regard to the debt:

> The general assembly shall provide by law for adjusting with the state of West Virginia the proportion of the public debt of Virginia proper to be borne by the states of Virginia and West Virginia, and shall provide that such sum as shall be received from West Virginia shall be applied to the payment of the public debt of the state (see section 19, article 10).

On the 18th of February, 1870, the legislature of Virginia passed a joint resolution authorizing the appointment of commissioners to treat with West Virginia, and under this resolution commissioners were appointed, who visited the legislature of West Virginia, then in session; that body passed a joint resolution authorizing the appointment of a joint committee of both houses to confer with the commissioners of Virginia, which joint committee was so appointed. This resolution was superseded in a few days by a joint resolution, passed on the last day of the session, authorizing the appointment of commissioners to treat with the authorities of Virginia direct; but as no provisions had been made to defray the expenses of such commissioners, action was postponed till the next session of the legislature. In 1871 the new legislature passed a resolution (February 15) to reappoint such commissioners, which was acted upon by the governor; but as the general assembly of Virginia, on the 11th of February, 1871, had adopted a resolution tendering to the state of West Virginia an arbitration of all matters touching the apportionment of the debt, thereby changing the manner of negotiations then authorized, which tender having been declined by West Virginia, the legislature, by resolution adopted February 24, 1871, requested the state of Virginia to permit negotiations to proceed through the commissioners already authorized by the two states.

On the 30th of March, 1871, the legislature of Virginia passed the funding bill, by which it agreed to fund two-thirds of the debt by issuing new bonds therefor, and to issue certificates for the other third, payable in accordance with such settlement as should thereafter be had between the two states.

The certificates so issued for that part of the debt which West Virginia is expected to pay are dated Richmond, Virginia, July 1, 1871, and are generally called "West Virginia deferred certificates", "West Virginia bonds," or "West Virginia sixes", and are worded as follows:

> TREASURER'S OFFICE, *Richmond, Virginia, July* 1, 1871.
>
> This is to certify that there is due unto —— heirs, executors, administrators, or assigns —— dollars, being one-third of bond surrendered under the provisions of an act approved March 30, 1871, entitled "An act to provide for the funding and payment of the public debt" (viz, bond No. ——, with interest amounting to —— dollars). Payment of said one-third, with interest thereon at the rate of six per cent. per annum, will be provided for in accordance with such settlement as shall hereafter be had between the states of Virginia and West Virginia in regard to the public debt of the state of Virginia existing at the time of its dismemberment, and the state of Virginia holds said bonds so far as unfunded in trust for the holder hereof or his assigns.
>
> In testimony whereof, this certificate has been signed by the treasurer and countersigned by the second auditor, as provided by law.
>
> —— ——,
> *Treasurer Commonwealth of Virginia.*
>
> —— ——, *Second Auditor.*

West Virginia has never issued any such papers as "West Virginia certificates" and "West Virginia bonds". The claims of the holders of these certificates and bonds issued by Virginia, although having been repeatedly presented to the state authorities of West Virginia, have not been recognized; and no proposals for a settlement on the part of these holders to the state authorities have found any legislative discussion (see letter of Governor Jackson, dated May 16, 1881, in reply to George K. Kearston, esq., London, England, regarding such claims).

The funding bill of Virginia recognizes an amount of from $45,000,000 to $46,000,000 as the debt of Virginia before the creation of West Virginia (which amount is computed up to the 1st of July, 1871), and apportions one-

third of that amount to West Virginia as her proportion of the public debt, on the ground that West Virginia contained one-third of the territory and population formerly belonging to Virginia.

The debt commissioners of West Virginia, acting under joint resolutions of the legislature (February 15 and 24, 1871), after failing in their effort to treat with the authorities of Virginia, in their report to the governor, dated August 9, 1871, state the amount of debt due Virginia to be $953,360 23, which amount they compute as follows:

Dr.	For amounts expended and invested in her territory up to January 1, 1861		$3,343,929 29
Cr.	By one-fourth of the estimated value of public buildings and other assets	$968,750 00	
	By three-thirteenths of the United States surplus fund	446,032 92	
	By three-sevenths of the literary fund	647,079 92	
	By the amount collected in West Virginia after January 1, 1861	328,706 22	
			2,390,569 06
	Balance due Virginia		953,360 23

The commissioners say that:

All, or nearly all, of the whole funded debt of Virginia existing on the 1st day of January, 1861, amounting to $31,779,067 32 (after all deductions), was incurred for and actually expended in works of public improvement, such as canals, railroads, turnpikes, plank-roads, and bridges; that thereof the sum of $28,994,738 03 was expended for improvements in the present state of Virginia, and only $2,784,329 29 for public improvements in the present state of West Virginia. This sum, increased by $559,600 (the stock of Virginia in West Virginia banks and the value of the Lewisburg law library), will give the total expenditures for all purposes made in West Virginia, viz, $3,343,929 29.

Further, that the present state of Virginia contains 41,352 square miles, and West Virginia 20,000, or less than one-third of the area of the commonwealth.

Further, that the counties composing what is now Virginia contained, according to the census of 1860, a population of 1,220,829, and those composing West Virginia 374,985, or less than one-third the entire population of the state.

Further, that $328,706 22 were collected from counties in West Virginia after January 1, 1861.

In their report they claim to have charged West Virginia with all that they found expended within her limits, viz, the amount of the funded debt created for improvements within her territory, the amount invested in her banks, and the amount expended on asylum and library.

They also credit West Virginia with a share of the estimated value of the public property and assets of Virginia other than the property represented in the bonded indebtedness, claiming that Virginia has that property and owes the debt which it represents.

They estimate the value of public buildings, institutions, and other assets of the two states paid for out of the general revenue at $3,875,000, and credit West Virginia with one-fourth thereof, on basis of population.

The surplus revenue of the United States deposited with the state of Virginia under act of Congress, June 23, 1836, was $2,937,237 34, of which they claim Virginia had received $1,932,809 33. This act assigned to each state its share of deposits on the basis of its representation in Congress. Virginia, in 1860, having thirteen representatives, three of whom were from West Virginia, they therefore claim that three-thirteenths of the surplus fund belonged to West Virginia.

The literary fund of the two states prior to 1861 amounted to $1,509,853 16, and, as this was apportioned throughout the state on the basis of the white population, they follow this rule and assign to West Virginia three-sevenths thereof, that being the fraction for the white population of West Virginia in 1860.

The debt commissioners also state that subsequent inquiries may change the general result of their labors, and give it as their opinion that the principle upon which the debt should be adjusted is the first and most important point to settle.

The legislature of West Virginia did not give its assent to the conclusions of the debt commissioners. Their report having been referred to the finance committee of the senate, that committee, in their report of December 22, 1873, state that they do not concur with the conclusions drawn by the debt commissioners, believing that the controlling question had not been discussed by these commissioners, by reason of embarrassments surrounding their action.

The finance committee express their opinion that, if the conditions precedent to the admission of West Virginia as a state are to be accepted as the basis of adjustment and final settlement, Virginia's claim for expenditures could very properly be offset by West Virginia's contributions; that upon this basis this subject would be one of easy solution, containing no other items than that of creditor and debtor, with balances to be struck upon agreed principles.

Virginia's legislative history establishing the fact that the first act of assembly to create a debt or issue a bond was passed in 1821, and the executive records showing that the first bond had been issued in 1822, the finance committee date West Virginia's liability from these years, and proceed as follows:

1st. How much of the bonded debt of Virginia existing January, 1861, had been expended within the limits of West Virginia?

2d. How much had been contributed by the counties forming the same during that period?

The report of the debt commissioners shows that all state expenditures within the limits of West Virginia prior to January, 1861, amounted to $3,343,929 29, and the finance committee accept this amount as importing an obligation upon the people of West Virginia to return every dollar which had been so contributed to the development of the territory of their state.

They omit to calculate interest, for the reason that there would be as much interest upon West Virginia's contributions as upon receipts from Virginia.

Against the above amount of expenditures they set the moneys paid into the treasury of Virginia from the counties included in the state of West Virginia during the same period, which, by a somewhat peculiar mode of computation, they make to be $3,892,000; in excess of West Virginia's proportion of the ordinary expenses of the government during that period. This sum set against this amount ($3,343,929 29) admitted to have been expended within the state of West Virginia, would leave Virginia in debt to the new state in the amount of $548,070 71.

The finance committee conclude that West Virginia is not indebted, and declare in their report: "West Virginia owes no debt, has no bonds for sale, and asks no credit."

On the 28th of March, 1879, the legislature of Virginia passed the act already cited entitled "An act to provide a plan of settlement of the public debt", etc., which contains the following provision regarding the amount claimed from West Virginia:

> The owners of all classes of bonds mentioned in this act, who shall exchange their securities for the bonds created under this act, and who shall not have yet received certificates representing the remaining one-third of their principal and interest due and payable by the state of West Virginia, shall receive certificates of a like character as those issued under the act of March thirty, eighteen hundred and seventy-one, when they make such exchange; and the state of Virginia will negotiate or aid the creditors holding all of such certificates issued under this act or previous acts in negotiating with the state of West Virginia for an amicable settlement of the claims of such creditors against the state of West Virginia. The acceptance of the said certificates for West Virginia's one-third, issued under this act, shall be taken and held as a full and absolute release of the state of Virginia from all liability on account of the said certificates.

This act of March 28, 1879, as an amendment to the funding bill, explains why the authorities of West Virginia have been repeatedly approached by the holders of such certificates and bonds, demanding a settlement between themselves and West Virginia direct, as before stated.

The above statement, prepared by Mr. A. E. Shuman, of West Virginia, who obtained the facts from the state authorities at Wheeling and from documents of Virginia filed in the Congressional Library at the capitol at Washington, embodies all negotiations regarding the public debt had between these two states. The acts, bills, and resolutions by Virginia are herein referred to for the purpose of exhibiting this debt question in a more comprehensive manner. It is as yet an open question, subject to future settlement between these states. By reviewing the last actions had by either state—the funding bill of Virginia of March 30, 1871, and act of March 28, 1879, and West Virginia's senate finance committee report of December 23, 1873—it is shown that Virginia claims an amount of over $15,000,000 from West Virginia, while that state disclaims any and all such obligations.

Summary of bills, acts, and resolutions of Virginia and West Virginia legislatures, herein referred to.

VIRGINIA.	WEST VIRGINIA.
Alexandria constitution, section 27, article 4.	Ordinance Wheeling convention, August 20, 1861.
Joint resolution general assembly, February 28, 1866.	Constitution of West Virginia, adopted 1863.
New constitution (recognized by act of Congress, January 25, 1870), section 19, article 10.	Joint resolution legislature, February 28, 1867.
	Joint resolution legislature, February, 1870.
Joint resolution of legislature, February 18, 1870.	Joint resolution legislature, February 15, 1871.
Joint resolution of legislature, February 11, 1871.	Joint resolution legislature, February 24, 1871.
Funding bill, March 30, 1871.	Report debt commissioners, August 9, 1871.
Act March 28, 1879.	Report senate finance committee, December 23, 1873.

NORTH CAROLINA.

This state was comparatively free from debt until the year 1849. It had, previous to that time, indorsed or assumed bonds amounting to a few hundred thousand dollars, issued by one or two of its early railroads.

The general assembly, at its sessions of 1848–'49 and 1850–'51, authorized the issue of $490,000 of bonds of the registered class (without coupons), which were the first state bonds proper.

At the same session, 1848–'49, the first coupon bonds were authorized, which were for the construction of the North Carolina railroad from Goldsborough to Charlotte. The first of these bonds bear date January 1, 1853.

The following statement gives the bonded debt in detail, as contracted from time to time, and the authority for the issue:

For what purpose.	Authority.	Date.	Time to run.	Amount.
			Years.	
To pay debt of state	Acts of 1848-'49-'50-'51	1849-'52	10	$370,000
Fayetteville and Weston plank-road	Act of 1849	1849-'52	20	120,000
Gaston and Weston railroad and Neuse and Tar rivers	Act of 1849	July 1, 1854; January 1, 1855 / July 1, 1855	10	152,000
North Carolina railroad	Act of 1849	July 1, 1853, to January 1, 1855	30	2,000,000
Do	Act of 1855	April 1, 1855	30	1,000,000
Fayetteville and Centre plank-road	Acts of 1854 and 1855	April 1, 1855 / July 1, 1858	20	50,000
Fayetteville and Warsaw plank-road	Acts of 1854 and 1855	July 1, 1855; July 1, 1857	20	20,000
Tar river	Acts of 1854 and 1855	January 1, 1856	30	15,000
Insane asylum	Acts of 1854-'55-'56-'57	January 1, 1858	10	115,000
Do	Acts of 1858-'59	July 1, 1859	30	10,000
Atlantic and North Carolina railroad	Acts of 1854-'55-'56-'57	January 1, 1856, to October 1, 1857	30	1,466,500
Albemarle and Chesapeake canal	Acts of 1856-'57	April 1, 1857; April 1, 1859	30	350,000
Western railroad from Fayetteville	Acts of 1858-'59-'60-'61	Sundry dates	30	600,000
Western North Carolina railroad	Acts of 1854-'55	do	30	4,000,000
Wilmington, Charlotte and Rutherford railroad	Acts of 1858-'59 and 1860-'61	do	30	2,000,000
Certain purposes	Acts of 1858-'59	do	30	1,193,000
Do	Acts of 1858-'59	do	10	167,000
Cape Fear and Deep river, North Carolina	Acts of 1854-1858	do	10 and 30	400,000
Funding debt	Act of March 10, 1866	January 1, 1866	34	2,417,400
Do	Act of August 20, 1860	October 1, 1868	30	1,721,400
Total				18,167,300

Under acts of the general assembly, by which various classes of bonds were retired, this debt was largely reduced. The general assembly of 1879 passed "an act to compromise, commute, and settle the state debt". The act provided that the bonds therein provided for should be taken in exchange for the principal of outstanding bonds; some at 40 per cent., which were old or ante-war bonds; some at 25 per cent., which were bonds issued for certain railroads since the war; and some at 15 per cent., which were the bonds issued under what are known as the funding acts of March 10, 1866, and August 20, 1868.

The bonds issued for the North Carolina railroad are specially provided for. Of the amount stated in the foregoing table there had been retired, at the date when the act of 1879 was passed, $2,484,255. This act authorized the exchange of bonds to the amount of $12,727,045, classified as follows:

$5,577,400, at 40 per cent., in new bonds	$2,230,960
3,261,045, at 25 per cent., in new bonds	815,261
3,888,600, at 15 per cent., in new bonds	583,290
12,727,045 bonds to be exchanged for	3,629,511

Under the operations of the "compromise act," the bonds exchanged down to the 17th of June, 1880, amount to $6,461,445, for which new four per cent. bonds to the amount of $1,901,496 25 were issued. In another transaction, where stock was exchanged for old bonds of the state, an additional amount of $100,000 of the bonded debt was retired.

The bonds outstanding on the 17th of June, 1880, exchangeable under the "compromise act", are as follows:

Fayetteville and Western plank-road	$4,800
Gaston and Weldon railroad and Neuse and Tar rivers	22,000
Fayetteville and Center plank-road	20,000
Fayetteville and Warsaw plank-road	6,000
Improvement of Tar river	8,000
Insane asylum	47,000
Atlantic and North Carolina railroad	634,000
Albemarle and Chesapeake canal	146,000
Western railroad from Fayetteville	198,000
Western North Carolina railroad	1,680,500
Wilmington, Charlotte and Rutherford railroad	666,000
For certain purposes	418,300
Cape Fear and Deep River Navigation Company	81,500
Funding act of March 10, 1866	1,441,000
Funding act of August 20, 1868	792,500
Total	6,165,600

The following are issues outstanding not provided for in the "compromise act" of 1879. Those marked (*) are of the special tax issues. These bonds ($12,805,000) are not recognized by the legislature as a part of the lawful debt of the state:

For what purpose issued.	Authority.	Date.	Time to run.	Amount.
			Years.	
Chatham railroad	Ordinance 1862	Jan. 1, 1863	20	$215,000
Do	Ordinance 1868	Apr. 1, 1868	30	1,030,000
Williamston and Tarboro' railroad	do	Oct. 1, 1869	30	150,000
*Do	Act 1868-'69	do	30	800,000
*Western railroad	do	Apr. 1, 1869	30	1,320,000
*Western North Carolina railroad	Act 1868	Oct. 1, 1868	30	4,000,000
*Do	Act 1868-'69	Apr. 1, 1869	30	2,640,000
*Wilmington, Charlotte and Rutherford railroad	do	do	30	3,000,000
*Atlantic, Tennessee and Ohio railroad	do	do	30	106,000
Penitentiary	Act 1868	Oct. 1, 1868	30	44,000
Total				12,805,000

The bonds authorized under the act of 1879 bear 4 per cent. interest for thirty years, and are exempt from taxation. Their coupons are receivable in payment of all state taxes. They are of the denominations of $1,000, $500, $100, and $50.

The original issue of bonds for the construction of the North Carolina railroad was $3,000,000. The state has retired $205,000, leaving outstanding $2,795,000. The stock of the state in this company is pledged for the redemption of the principal of these bonds, and the dividends accruing thereon are applied to the payment of the interest. The general assembly of 1879 provided for the appointment by the governor of a commission to compromise and settle this part of the state debt by issuing new bonds in redemption of the old. The exchange has not been effected, and the old bonds yet constitute a part of the state debt.

Recognized public debt of North Carolina, December 31, 1880	$5,006,616
Issued for railroads	2,795,000
Consolidated debt	2,211,616

SOUTH CAROLINA.

The history of the debt of South Carolina, from the organization of the state up to 1861, reveals nothing of any special interest when compared with its subsequent history.

The state aided private enterprises liberally, guaranteed the bonds of railroads to a large amount, and established the Bank of the State in 1812, the state being the only stockholder.* The bank was incorporated by the name and style of "The President and Directors of the Bank of the State of South Carolina", and it emitted bills for the redemption of which the faith and credit of the state were pledged.

Until the beginning of the civil war the credit of the state was good, and the bonded debt, as reported by the comptroller-general in November, 1860, was $4,046,540 16. These bonds were issued for various purposes, viz, the Charleston fire loan; to aid the Blue Ridge railroad; and for the new state-house.

The assets of the state were ample, however, to meet all liabilities. On December 22, 1860, the issue of 4,000 certificates of $100 each, to bear six per cent. interest, was authorized; 1,000 certificates to mature on June 1, 1862, 1863, 1864, 1865, respectively, and the proceeds to be devoted to the military defense of the state. The act provided that the certificates should be receivable for taxes.

* In 1827 an act was passed to admit and incorporate private stockholders in the Bank of the State of South Carolina, but it was repealed by act of December, 1828.

On January 22, 1861,* an act was passed authorizing the loan of $400,000 for the purpose of continuing the construction of the state-house, to evidence which stocks or bonds were to be issued to bear six per cent. interest, payable semi-annually; $200,000 to be redeemable on July 1, 1882, and the remainder on July 1, 1886.

On December 21, 1861, an act authorizing a loan to pay the Confederate war tax was passed; it provided that the treasurer of the lower division and the president of the Bank of the State should borrow a sum equal to the net amount of the tax to be raised, and the faith and funds of the state were pledged for the repayment of the money and the interest. On the same day a loan of $1,800,000 for the military defense of the state was authorized, the stock to be issued therefor to bear seven per cent. interest, payable semi-annually; $100,000 of the principal to mature on July 1, 1867, and a like amount on the same day of each succeeding year until the whole amount was redeemed.

The following statement shows the condition of the public debt on September 30, 1865, as taken from the comptroller's report:

CREDITORS:

Bank of the State for current funds	$1,178,789 60
Three per cent. state stock	38,836 60
Six per cent. stock and five per cent. bonds, fire loan	802,603 86
Six per cent. bonds, Blue Ridge railroad	1,310,000 00
Six per cent. bonds and stock, new state-house	2,275,000 00
Six per cent. bonds, military defense act, 1860	239,200 00
Seven per cent. bonds and stock, military defense acts of January and December, 1861	2,002,640 00
New state-house, Columbia	13,916 60
Blair tuition fund	8,258 08
Balance due to free schools and public officers	144,392 23
Total	8,013,636 97

The report shows assets amounting to the nominal sum of $8,306,772 63, among which there is a cash item of $3,508 08 belonging to the Blair tuition fund. By an act passed on December 20, 1837, the state had guaranteed the bonds of the Louisville, Cincinnati and Charleston Railroad Company in the sum of $2,000,000 on certain conditions (which act was amended December 19, 1838). To aid the South Carolina railroad, which succeeded the former, an act was passed on December 21, 1865, which was amended on September 19, 1866, authorizing the treasurer to indorse the bonds of the latter company to the extent of the canceled guaranteed bonds of the former. The act provides that the conditions attaching to the first guarantee should remain, viz, a mortgage upon the estate, property, and funds of the company.

An act to provide for the funding of the following debt of the state was passed on September 21, 1866,† which was supplemented by an act of December 20, 1866,‡ viz: $3,705 46 issued under the act of June, 1838, which was then past due, to bear interest from January 1, 1867; the past due interest on $314,453 89 of stock issued under the same act; $310,000 bonds past due issued under act of the legislature passed in December, 1859, and the interest thereon; the interest on $1,000,000 bonds issued under act passed in 1854; the interest on $250,000 issued under act of December, 1853; the interest on $250,000, issued under the act of 1855; likewise the interest on $1,775,000 of six per cent. stock issued for building the new state-house, under acts of 1856, 1857, 1858, 1859, 1861, and 1863, and the interest on the three per cent. stock of the state. For this purpose bonds in the denominations of $100, $500, and $1,000, or (at the option of the holders) certificates of stock were to be issued, one half to be payable January 1, 1887, and the other in 1897, and to bear interest from July 1, 1867, at the rate of six per cent. per annum, payable semi-annually.§

Under the reconstruction acts of Congress a new constitution was adopted, by a convention which completed its labors on March 17, 1868; it was ratified on April 14, 15, and 16, 1868, and contains the following provisions:

ARTICLE IX. SEC. 7. For the purpose of defraying extraordinary expenditures, the state may contract public debts; but such debts shall be authorized by law for some single object to be distinctly specified therein; and no such law shall take effect until it shall have been passed by the vote of two-thirds of the members of each branch of the general assembly, to be recorded by yeas and nays on the journals of each house respectively; and every such law shall levy a tax annually sufficient to pay the annual interest of such debt.

SEC. 10. No scrip, certificate, or other evidence of state indebtedness shall be issued, except for the redemption of stock, bonds, or other evidences of indebtedness previously issued, or for such debts as are expressly authorized in this constitution.

On December 21, 1865, and September, 1866, acts were passed authorizing the issue of bills receivable to the amount of $500,000, and to redeem these, as well as for the payment of bonds or other obligations of the state (except those created for the military defense of the state during the civil war), the faith and credit of the state were pledged by an ordinance adopted by the constitutional convention on January 29, 1868.

---

* Erroneously stated as 1860 in the certificate to the act. † Acts 1866, special session, p. 366. ‡ Acts 1866, p. 390.

§ From the report of the comptroller-general, it appears that the outstanding bonds and stocks on October 1, 1867, were as follows:

Total principal of bonds and stocks (including the issues for the military defense of the state)	$7,101,558 33
Balance debt not yet funded under acts of September and December, 1866	547,496 90
Interest due October 1, 1867	729,200 41
Total	8,378.255 64

On August 8, 1868, at the first session of the legislature subsequent to the reconstruction of the state, the governor was authorized to borrow $125,000 to meet the current expenses, and to pledge, as collateral, such bills receivable, or other securities of the state owned by the state, as might be necessary to effect the loan.

Two acts were passed on August 26, 1868: one authorizing the loan of $500,000 to redeem, within twelve months, the outstanding bills receivable of the state; the other authorizing a loan of $1,000,000, or so much thereof as might be necessary (within twelve months), to pay interest on the public debt, the bonds to be issued for said loan to bear six per cent. interest, payable semi-annually, and to be redeemable in twenty years.

These acts provide for the levy of a tax, in addition to all other taxes, to pay the interest on the loan.

On September 15, 1868, an act was passed to close the operations of the Bank of the State of South Carolina. It provides for the funding of the bills of the bank issued prior to December 20, 1860, and accumulated interest, into bonds to be issued, dated January 1, 1869, payable in twenty years, with six per cent. interest payable semi-annually. The act repeals so much of the law as provided that the bills of the corporation should be receivable for taxes. The faith and credit of the state to redeem the bonds and pay interest were again solemnly pledged. On the same day an act authorizing additional aid to the Blue Ridge Railroad Company was passed. This company, which was to connect with the Georgia and East Tennessee railroad, had been granted aid in 1854 to the amount of $1,000,000, upon certain conditions, which, as appears by the act of 1868, were not complied with. This act authorized the guarantee by the state of $1,000,000 of the bonds of the company, and the further guarantee of $3,000,000, from time to time, as the company made contracts for the completion of the road. The act provides that as soon as any bonds of the road were indorsed by the comptroller, then the estate, property, and funds of the road in South Carolina, North Carolina, Georgia, and Tennessee should stand pledged to the state for the prompt payment of the bonds and interest. This condition was subsequently repealed, and the state had no security.

An act entitled "An act to authorize a loan for the relief of the treasury" was passed on February 17, 1869. It provides that $1,000,000 might be borrowed upon coupon bonds (within twelve months from the date of the act), to bear seven per cent. interest from January 1, 1869, principal redeemable at any time, at the option of the state, within twenty years from date of the bonds.

As will appear hereafter, the bonds issued under this act were declared void. At the same session the comptroller was directed to indorse the bonds of the Greenville and Columbia railroad to the amount of $50,000. An act to provide for the "conversion of state securities" was passed March 23, 1869. It authorized the treasurer, on application of any person holding stock of the state, to take the same, and issue, in lieu thereof, coupon bonds in sums of $100, $500, and $1,000, bearing six per cent. interest, interest to be paid semi-annually, and principal within twenty years. The act also provides for the conversion of bonds into stock in sums of $100, $500, and $1,000, the new issue of stocks to bear the same interest as the bonds for which they were exchangeable. This act is known as the "conversion act", and will be referred to by that name hereinafter. By an act passed March 26, 1869, the time fixed for borrowing $500,000 to redeem bills receivable by act of August 26, 1868, was extended to twenty-four months, and the financial agent of the state in New York was authorized to pledge the bonds of the state which he then had or which might thereafter come into his possession. On December 18, 1869, an act was passed which provided for the payment, in gold or silver coin, of all interest due on bonds and stocks of the state, except those issued during the period from December 1, 1860, to April 19, 1865, with the further provision that the interest on the new state-house bonds should also be paid in coin. The treasurer was authorized to make the necessary exchanges, through the financial agency at New York, to effect the purpose of the act.

The following is a statement of the public debt at the close of the fiscal year ending October 31, 1870, as appears from the comptroller's report:

Class of securities.	Issued under acts of—	When redeemable.	Principal.	Rate of interest.
State of South Carolina stock	1794	At pleasure.	$38,836 60	3
Fire loan stock	1838	1870	303,343 89	6
State capitol stock	1856	1877	189,690 80	6
Do	1857	1888	127,441 37	6
Do	1858	1883-'85	304,370 00	6
Do	1859	1887-'89	215,476 24	6
Do	1861	1882-'86	130,315 00	6
Do	1863	1890	1,740 00	6
Conversion stock	1868	1888	64,000 00	6
Fire loan bonds*	1838		484,444 51	5
Blue Ridge railroad bonds	1854	1875-'76-'77-'78-'79	970,000 00	6
State capitol bonds	1853-'55	1871-'81	499,000 00	6
Do	1866	1885	11,600 00	6
Funded debt	1866	1887-'97	1,131,700 57	6
Bonds of 1868-'69	1868-'69	1888-'89	3,193,950 00	6
			7,665,908 98	

*These bonds are held in Europe. The assets of the Bank of the State are liable and fully sufficient to meet the payment.

Another funding act was passed on March 7, 1871. It is known as the "Sterling funded debt".* It provides for the issue of bonds amounting to $1,200,000, to bear six per cent. interest. This loan was never placed on the market, and it is therefore unimportant to give the details of the act, although it was frequently claimed that these bonds had been disposed of, and that the funds arising therefrom had been misappropriated. There being no money in the treasury to pay the members of the legislature, an act was passed authorizing the speaker of the house and the president of the senate to issue certificates of pay.† A large amount were issued, but the exact amount could not be ascertained from the records.

Charges of monstrous fraud in the issue of the bonds of the state of South Carolina having been freely circulated throughout the state and published widely over the country, the governor, in his annual message, deemed it necessary to say, in a preface to the debt statement: "It shows the present debt of the state in its entirety, suppressing nothing."

Following is the statement of the bonded debt on October 31, 1871, as taken from that document:

Statement of total amount of bonds and stocks printed by the American Bank Note Company, and accounted for.

500 bonds, redemption bills receivable, at $1,000	$500,000
2,000 bonds, payment interest public debt, at $1,000	2,000,000
1,000 bonds, relief of the treasury, at $1,000	1,000,000
700 bonds, land commission, at $1,000	700,000
800 bonds, redemption bills Bank of State, at $1,000	800,000
1,500 bonds, redemption bills Bank of State, at $500	750,000
800 bonds, redemption bills Bank of State, at $50	40,000
3,500 bonds, conversion state securities, at $1,000	3,500,000
4,000 bonds, conversion state securities, at $1,000	4,000,000
1,200 bonds, conversion state securities, at $500	600,000
1,000 bonds, conversion state securities, at $100	100,000
Sterling loan	6,000,000
Certificates conversion stock	2,550,000
Total	22,540,000

Accounted for as follows:

On hand in state treasury:	
Bonds for the conversion of state securities, not signed	$473,500
Bonds for the relief of treasury (7 per cent.)	101,000
Bonds for the payment of interest public debt	50,000
Bonds for the redemption of bills of Bank of the State	331,000
Stock for the conversion of state securities	2,117,300
	3,072,800
Deposited for safe-keeping with American Bank Note Company, sterling loan	6,000,000
	9,072,800

The following bonds were canceled and destroyed:

500 bonds for the payment of interest on public debt, burned in state-house	$500,000
500 bonds for the conversion of state securities, erroneously printed, returned and canceled by American Bank Note Company	500,000
Conversion bonds issued in effecting conversion at state treasury	1,260,500
Conversion bond No. 520, canceled and destroyed at state treasury	1,000
Bonds for the redemption of the bills of the Bank of the State, issued at state treasury	1,259,000
Conversion stock issued, canceled, and transferred at state treasury	432,700
	13,026,000
Leaving balance	9,514,000

Statement of debt.

Old debt	‡$6,665,908 98
Less old bonds paid July 1, 1871	212,000 00
	6,453,908 98
New bonds	9,514,000 00
Less in hands of financial agent to the credit of sinking fund commission	200,000 00
	9,314,000 00

* Repealed by act of March 13, 1872.

† See report of the joint investigating committee, 1877–'78.

‡ It will be noticed that this amount is $1,000,000 less than is shown by the report of the comptroller for the preceding year, the reason for which does not clearly appear.

New bonds in hands of financial agent, now in use as collateral security for loans	$3,773,000 00
Amount of new bonds sold	5,541,000 00
Old debt as above	6,453,908 98
Total	11,994,908 98

The legislature was not satisfied with these statements, and appointed a committee to investigate the financial condition of the state, who submitted an elaborate report covering several hundred pages, and from that report it appears that the state was virtually bankrupt and unable to meet its large debt, for the existence of which no adequate reason could be given to the people.

In their report to the legislature at the session of 1871–'72, the financial investigating committee, after setting forth the testimony of the financial agent, governor, and others, say:

* * * Here the examination of the financial agent, and the books of his office, virtually ended. Not content, however, with the information obtained with the question: "How many bonds have been issued or put upon the market?" still unanswered, the committee, about the last of October, obtained a tabular statement from the books of the American Bank Note Company.

From this statement, which will be appended, it will be seen that there has been printed by this company since September 19, 1868, and delivered into the hands of the governor, state treasurer, and comptroller-general bonds amounting to $17,490,000, and registered stock amounting to $2,550,000, making an aggregate of $20,040,000. Beside this the company have printed, and in their possession, ready for signature, and subject to the order of the proper authorities, the balance of the sterling loan bonds, viz, $2,500,000, which makes the entire total of bonds and stocks, ordered, printed, and delivered, on account of the state of South Carolina, $22,540,000.

Of this amount there has been sent by the American Bank Note Company to the governor, $2,350,000; to the treasurer, $17,490,000; to the comptroller-general, $200,000, and there remains in the hands of the Bank Note Company, subject to order, $2,500,000.

What was the object of printing these bonds, has been asked, if it was not the intention to use them? If there is no informality in the transaction, why let the credit of the state be hazarded by withholding the actual amount of these bonds now upon the market? Why need such a sum be in the hands of the state authorities? What object have they in possessing more than the laws authorizing the respective loans have called for? Is there any statute authorizing an indefinite printing of bonds, "*to be in the possession of the state authorities,*" to be used at will? Can the acts of the legislature to pay the indebtedness of the state, or for the conversion of its securities, be construed into such a wholesale prerogative?

Is there a necessity to provide more bonds then there are needs for them? Plainly must we declare we cannot believe other than the fearful truth that stares us in the face, that the bonds and stocks printed by the American Bank Note Company represent the liabilities of the state, for which the faith and credit of the state, however unlawfully presented, have been pledged for the payment. That, instead of the debt of the state of South Carolina being, as the comptroller-general, in his report for the fiscal year ending October 31, 1871, says, $7,065,708 98; or, as Mr. Trenholm, of the taxpayer's convention, gives it, viz, $9,869,108; or, as the governor, in his statement to the congressional committee makes it, viz, $9,528,964 10; or, as the present committee for the investigation of erroneous accounts have, in the previous pages, shown, viz, $9,865,908 98; it is, allowing all the deductions to be made that in October last, while in New York, were claimed should not be less than $14,040,000, without the addition of the present contingent liabilities of the state, viz, $6,787,608 20, which would represent a debt of $20,827,608 20.

The committee made a very extended report, exceedingly severe upon the officials through whom the state had been brought into such a condition.

It is said the sterling loan bonds should be deducted, as they had been returned by the treasurer to the American Bank Note Company, viz	$3,500,000
Also, bonds for the conversion of state securities, printed by mistake of the Bank Note Company, with green backs instead of blue (the uniform color), to the amount of $500,000	500,000
Also, the first issue of the bonds for the payment of the interest on the public debt, which, having those words printed on their face, would, the financial agent thought, if issued, injure the credit of the state; therefore, by his recommendation, an equal amount, with the words "Authorized by act approved August 26, 1868", upon their face, were printed: this deduction claimed is	1,000,000
Also, the conversion bonds delivered the treasurer, October 4 and 11, 1871, which the governor refused to sign, viz	1,000,000
Also, the balance of sterling loan bonds waiting signature and orders for delivery, already printed and in the hands of the American Bank Note Company, viz	2,500,000
Total of deduction claimed	8,500,000
The deduction ($8,500,000) taken from the $22,540,000 already given, reduces the bonds and stocks for which the authors say the state is accountable, and the governor, while in New York, intimated might be correct, to	14,040,000

To the estimated amount of $20,827,608 20 set forth above, the committee submitted that the conversion bonds, etc., referred to in their report (page 262), and also the bonds in the hands of the financial agent, purchased from the proceeds of the sale of 180,000 acres of college-land scrip, say $200,000, should be added, making an aggregate of $22,190,000. "This," said the committee, "is the debt of the state as represented by all its actual bonds and stocks, *old and new*, printed, subject to issue, conversion, or hypothecation, by the present administration, to which must be added the railroad bonded debt, viz, $6,787,608 20, and we find ourselves facing the total of $28,977,608 20. This astounding sum, so far as is known, represents the present actual and contingent liabilities of the state, as the committee find them."

The indebtedness of the already overburdened state was largely increased by the creation of the land commission. This commission was a creature of the constitutional convention, and was designed to assist those who were desirous or were compelled to sell all or a portion of their lands, and at the same time furnish homes on easy payments to actual settlers, and thus promote immigration. By an ordinance of convention adopted March 7, 1868, it was made the duty of the general assembly to provide for the establishment of a "board of commissioners of public lands"; the comptroller-general was to be a member thereof, and the duties and powers of the board were to be defined by law.

The ordinance provided that the commissioners should have authority, under regulations to be prescribed by law, to purchase, at public sale or otherwise, improved and unimproved real estate within the state, which, in their judgment, was suitable for cultivation, such purchases not to exceed in the aggregate in any fiscal year the par value of the public stock of the state created and appropriated by the general assembly for that purpose during such period, and that the rate at which the purchase was to be made should not exceed seventy-five per cent. of the appraised value of the land. It provided for the sale of the lands, and the lands so purchased and the proceeds of sale thereof were pledged for the payment of the principal and interest of the bonds or stocks to be issued to the commission.

The general assembly was also directed to provide by law for the security of the funds in the hands of the commissioners, for the accountability of such officers, and to require bonds to be given therefor.

In pursuance of this ordinance an act was passed in March, 1869, and amended in 1870, creating the office of land commissioner, and providing that the governor, comptroller-general, state treasurer, secretary of state, and attorney-general should be an advisory board, and that such advisory board should appoint the commissioner, whose duty it was made to act under the instructions and advice of the board. It was made the duty of the commissioner to purchase, or cause to be purchased, any lands in any portion of the state, improved or unimproved, at such price as the said advisory board might determine, not to exceed, in the aggregate amount in any one fiscal year, the par value of the bonds of the state created by the general assembly for that purpose. The land so purchased was to be paid for out of funds to be raised by selling the stocks and bonds of the state, and the land was to be sold on specified conditions as to cultivation and payment.

The moneys derived from the sale of lands and the interest on deferred payments were to be deposited with the state treasurer, and the commissioner was to be required to give bond in the sum of $20,000.

By these two acts (1869 and 1870) $700,000 in bonds were authorized to be issued. The bonds were disposed of by the financial agent at New York at the best figures they would bring; land, which had been offered to the state, was from time to time purchased from third parties at a rate largely in excess of the market value, and the provision in the act of March, 1870, that no lands should be purchased unless the commissioner had knowledge that he would be able to dispose of them without delay, was totally disregarded.

The financial investigating committee, in their report in 1872, to which reference has heretofore been made, in speaking of the land commission, characterize it as a "*gigantic folly*, about which there has been more said and less known than any other branch of the state government", and as managed for private benefit.

It appears from this report, that an examination of the books in the treasurer's and comptroller's offices showed the total amount expended on account of the land commission for the fiscal year ending October 31, 1870, was less than $90,000; but from a subsequent examination of the books of the financial agent and other sources of information, it appears that the total expenditure for and on account of the land commission to the period mentioned, was $746,724 07, which was largely in excess of the appropriations made for that purpose.

Some of the bonds issued to the land commission were sold as low as sixty cents on the dollar. The committee conclude their report upon this branch of the investigation by denouncing the work of the commission.

The act creating the office of land commissioner was subsequently repealed, and the secretary of state was charged with the duties of that office.

Mention has been made of the loaning of the credit of the state to the Blue Ridge railroad in the sum of $4,000,000. These bonds were delivered to the company, and by an act subsequently passed, the financial agent of the state was authorized to advance money, from time to time, on these bonds, which he did.

It soon became apparent that the company would not be able to pay interest or principal, and that the state would become liable, and thereupon an act was passed directing the financial agent (with the consent of the company) to transfer the bonds guaranteed by the state in his hands, as collateral for the advances made to the state treasurer, for cancellation, and that thereupon the company should be discharged from all liability to the state on account of the advances made, and that whenever the said company should surrender the remainder of the $4,000,000 bonds, then the treasurer was to issue to them $1,800,000 in revenue scrip, or to give them a *pro rata* amount of this scrip for such of the bonds as might from time to time be surrendered. This scrip was receivable for all state taxes, except taxes for interest on the public debt. There is no official statement as to the amount of scrip issued in place of the surrendered bonds, and the validity of the transaction is yet undetermined.

Doubts having been entertained as to the validity of some of the bonds and obligations of the state, an act was passed on the 13th of March, 1872, known as the validating act. It declares as valid the bonds and obligations

referred to, viz, the bills receivable issued under the act of August 26, 1868, and the bonds and stocks issued under the following acts, viz:

"An act to authorize a loan to pay interest on the public debt," August 26, 1868.

"An act to provide for the appointment of a land commissioner," March 29, 1869.

"An act to amend the last-named act," March 1, 1870.

"An act to authorize a loan for the relief of the treasury," February 17, 1869.

"An act to provide for the conversion of the state securities," March 23, 1869; and also declared the act passed March 26, 1869, to authorize the financial agent to pledge the state securities, as valid.

The act provides that all the bonds mentioned in the treasurer's report of October 31, 1871, set out above* are valid, but that none should be included in this act unless they are registered. (The supreme court has decided, however, that registry is not necessary to validity.)

The credit of the state was now entirely destroyed. It was with the greatest difficulty that the officers of the state insane asylum could purchase $4,000 worth of provisions on credit, although appropriations had been made, to be payable out of the revenues which were then about to become due.

In deciding a case, the supreme court of the state say that out of sheer desperation the people had adopted the following amendment to the constitution, which was ratified in 1873:

ARTICLE XIV. To the end that the public debt of South Carolina may not hereafter be increased without the due consideration and free consent of the people of the state, the general assembly is hereby forbidden to create any further debt or obligation, either by the loan of the credit of the state, by guaranty, endorsement or otherwise, except for the ordinary and current business of the state, without first submitting the question as to the creation of any such new debt, guaranty, endorsement, or loan of its credit, to the people of this state at a general state election, and unless two-thirds of the qualified voters of this state, voting on the question, shall be in favor of a further debt, guaranty, endorsement, or loan of its credit, none such shall be created or made.

Official statement of the public debt of the state of South Carolina, at the close of the fiscal year ending October 31, 1873.†

It appears from the same report that the appropriations for the year 1872-'73 were $2,418,872, while the receipts from all sources was $1,719,728.

On December 22, 1873, an act was passed‡ authorizing and requiring the state treasurer to receive from the holders willing to surrender the same, all the certificates of stock issued under act of 1794 and redeemable at

* The report is identical with the one set out in the governor's message.

† Senate journal, 1873-'74, p. 103, message of Governor Moses.

‡ Act to reduce the volume of the public debt and to provide for the payment of the same.

pleasure, amounting to $38,836 60; the certificates of stock issued under act of June 1, 1838, redeemable in 1870, amounting to $303,343 89; the certificates of stock issued under act December 20, 1856, redeemable in 1877, amounting to $189,385 80; the certificates of stock issued under act of December 21, 1857, and redeemable in 1888, amounting to $121,051 37; the certificates of stock issued under act of December 21, 1858, $156,720 of which redeemable in 1883, and $145,990 in 1885; the certificates of stock issued under act of December 22, 1859, $75,746 24 of which redeemable in 1887, and $139,430 in 1889; the certificates of stock issued under act of January 22, 1861, $57,890 of which redeemable in 1882, and $65,415 in 1886; the certificates of stock issued under act of February, 1863, redeemable in 1890, amounting to $1,560; the certificates of stock issued under act of September and December, 1866, redeemable in 1887, amounting to $79,413 94; the certificates of stock issued under act of March 23, 1869, redeemable in 1888, amounting to $64,000; the bonds of the state issued under act of June 1, 1838, redeemable in 1868, amounting to $481,944 51; the bonds of the state issued under act of December, 1853, redeemable in 1871, amounting to $38,000; the bonds of the state issued under act of December, 1855, redeemable in 1881, amounting to $249,000; the bonds of the state issued under act of December, 1854, $200,000 of which redeemable in 1875, $196,000 in 1876, $200,000 in 1877, $200,000 in 1878, and $170,000 in 1879; the bonds of the state issued under act of December, 1866, redeemable in 1885, amounting to $11,600; the bonds issued under the acts of September and December, 1866, $465,400 of which redeemable in 1887, and $464,800 in 1897; the bonds of the state issued under the act of August 26, 1868, redeemable in 1888, amounting to $1,197,000; the bonds issued under the act of August 26, 1868, redeemable in 1888, amounting to $484,000; the bonds issued under the act of September 15, 1868, redeemable in 1888, amounting to $1,189,600; the bonds issued under act of February 17, 1869, redeemable in 1888, amounting to $856,000; the bonds issued under act of March 27, 1869, redeemable in 1888, amounting to $124,000; the bonds issued under act of March 1, 1870, redeemable in 1889, amounting to $343,000; the bonds issued under act of March 23, 1869, redeemable in 1888, for the purpose of exchange of any of the certificates of stock or bonds above enumerated, said fact being ascertainable from the treasurer's registry of bonds and stocks converted, amounting to $1,577,500; and that he should thereupon, in exchange for and in lieu of said bonds and stocks so surrendered, issue to said holders other coupon bonds or certificates of stock as they may desire, equal in amount to fifty per centum of the face value of the bonds or certificates of stock so surrendered.

The act also declared certain of the bonds known as the conversion bonds, amounting to $5,965,000, and which were put upon the market without any authority of law, to be absolutely null and void.

The bonds and certificates of stock to be issued under this act were to be known as, and to bear upon their face the words "Consolidation bonds, certificates of stock". They were also to bear upon their face the declaration that the payment of the interest and the redemption of the principal is secured by the levy of an annual tax of two mills on the dollar upon the entire taxable property of the state, which declaration was to be considered a contract entered into between the state and every holder of said bonds and stocks.

The act declares further, however, that no tax shall ever be levied to pay the interest or principal on any of the class of bonds or certificates of stock above-mentioned, as long as such bonds or certificates should remain outstanding in their present form.

These bonds and stocks were, by the terms of the act, to bear interest at the rate of six per cent. per annum, payable semi-annually, the principal to be payable within twenty years from the date of the passage of the act, and to be dated January 1, 1874. The stocks and bonds were to be interconvertible upon application to the state treasurer.

This act is known as the consolidation act, and will be mentioned as such hereinafter.

Soon after the consolidation act was in force it was reported by a legislative committee * that coupons which had been clipped from bonds before the sale thereof, and which should have been canceled, were transferred to third parties, and funded under the act of 1873.

From the comptroller's report, dated November 23, 1875,† and submitted to the legislature at the session of 1875–'76, it appears that there had been funded under the act of 1873, during the year 1874–'75, bonds and stocks amounting to $5,233,343 60; the total amount funded up to October 31, 1875, being $7,220,512 65. The comptroller, in commenting upon the report of the committee, hereinbefore referred to, says:

> The result of the investigation by a committee of the general assembly at its last session, having shown that a very large amount of coupons maturing between July, 1867, and October 1, 1871, had been funded, although the records of the treasury prove that they had been previously paid, and that probably many more of such coupons were illegally outstanding, I have deemed it my official duty to decline to countersign any consolidation bonds or stock to be used in funding any coupons maturing prior to October 1, 1871, unless such coupons were attached to the bonds on which they were originally issued; and none such have been funded since I have been placed in charge of this office, although frequently presented.

---

Shares, Keowee and Tuckaseegee Turnpike Company	6,000
Total	$980,700

By joint resolution adopted June 8, 1877, a commission was appointed to investigate the indebtedness of the state, and also to ascertain "whether there is in the state treasurer's office, on file, as vouchers, canceled bonds, coupons, and certificates of stocks of the issues described" in the act of 1873, which were issued in accordance with law, and to report whether any stocks, bonds, or coupons had been unlawfully or otherwise improperly issued under said act, together with the evidence upon which the illegality or nonconformity to law rests.

Under this authority the commission (who were in session from August 1, 1877, until February 7, 1878) made their report, setting forth that $5,184,062 of vouchers‡ had been issued according to law and authorized to be consolidated under the act of 1873, and that there were in the treasury vouchers amounting to $3,608,707,§ which were *not* issued in accordance with law and authorized to be funded by the act of 1873.

* Reports and resolutions, 1877-'78, pp. 63, 64.

† From comptroller-general's report, November 26, 1877.

‡ Representing $2,592,031 of consols.

§ Representing $1,804,358 50 of consols.

The commission also reported the evidence taken, as well as their conclusions of the law relating to these bonds and stocks.

As a further example of the manner in which the financial affairs of the state had been conducted, we cite substantially from the "report of the commission to investigate the indebtedness of the state", made to the general assembly on February 7, 1878 (see house journal of 1877–'78, p. 341).

The act to authorize a state loan for the payment of interest on the public debt, approved August 26, 1868, empowered the governor of the state to borrow, on the credit of the state, on coupon bonds, within twelve months from the passage of the act, a sum not exceeding $1,000,000, or as much thereof as he might deem necessary for the purpose contemplated by the act.

The testimony of the governor who signed these bonds and of the state treasurer, supported by the evidence developed in the examination of the vouchers for conversion and consolidation bonds, and by other evidence, leave no room for doubt that $2,000,000 bonds were issued, or $1,000,000 in excess of the amount authorized by the act.

The "first issue" of $1,000,000 was printed in September, 1868, the bonds of this issue being designated and indorsed as "*loans to pay interest on the public debt*"; the bonds of the "second issue" of $1,000,000, printed in August and November, 1869, were designated and indorsed as "*issued under act approved August* 26, 1868".

The report says:

> The commission are of the opinion that the whole of the second issue was fraudulently issued and placed upon the market without authority of law, and were null and void *ab initio*. Nor can there be any pretense that the second issue was in any wise necessary for the purposes of the act.

As a result of this investigation, the legislature created a court, known as "the court of claims", by a joint resolution passed March 22, 1878.

This court was established with jurisdiction to hear and determine any case or cases, to test the validity of any of the consolidated bonds, coupons, and certificates of stock, or any of the various classes of them mentioned in the report of the bond commission as resting on vouchers not issued in accordance with law.

A number of cases were brought before this court, involving constitutional questions, as well as questions of fact, and upon the latter the proof was convincing as to the illegal funding of certain coupons. The cases were determined in that court, and upon appeal to the supreme court (12 S. C. reports, pages 202, 313) the cases were consolidated and there determined, and the following decision was rendered by the said court:*

> 1. That all the bonds issued under an act entitled "an act to reduce the volume of the public debt and provide for the payment of the same", are valid obligations of the state of South Carolina, except as follows: 1. Such as were issued in exchange for bonds issued under the act entitled "an act to authorize a loan for the relief of the treasury"† or for the coupons of said bonds. 2. Such as were issued in exchange for the *second issue* of bonds under an act entitled "an act to authorize a state loan to pay interest on the public debt",‡ or the coupons of such bonds. 3. Such as were issued in exchange for those conversion bonds which were issued in exchange for either of the two classes of bonds last mentioned, viz, bonds for the relief of the treasury, and the second issue of bonds to pay interest on the public debt, or in exchange for the coupons of *such* conversion bonds.

The supreme court decided that the class of bonds issued under the act for the relief of the treasury (February 17, 1869) were not valid obligations of the state, because the act is in conflict with section 7 of article IX of the constitution.§

The court say:

> This act (act February 17, 1869) we regard as liable to two constitutional objections:
> 1. It purports to create a debt which was not "for the purpose of defraying extraordinary expenditures"; and,
> 2. The debt therein sought to be created is not "for some *single* object", and such object is not "distinctly specified therein".
> * * * * * * * * * *
> Money borrowed for the relief of the treasury might and would be applied to as many different objects as there were demands upon the treasury. We think, therefore, that this act clearly violates both the clauses of the constitution above referred to, and * * * every bond, together with its coupons, issued under the authority of this act is absolutely void, even in the hands of a *bona fide* holder, because issued without any authority whatever, and hence every consolidation bond resting upon such bonds or coupons, is, to the extent that it does rest upon such bonds or coupons, not a valid debt of the state of South Carolina.

In determining the question as to the validity of the second issue of bonds under the act of August 26, 1868,‖ the supreme court say:

> In the case of the second issue of bonds for the payment of the interest upon the public debt * * * there does not seem to have been the shadow of authority of any kind, and which, therefore, are absolutely void, no matter in whose hands they may be; for, if the act be construed as giving authority for a second issue, there is no conceivable reason why a third or fourth or an indefinite number of issues could not have been made upon the same construction; and certainly a construction leading to such a result cannot be a correct one.

The court further decide that—

> If any consolidation bond rests wholly upon any of the three objectionable classes of bonds or coupons * * * mentioned, then it is wholly void; but if it rests only in part upon such objectionable bonds or coupons, then it is only void to the extent which it does rest upon such objectionable bonds or coupons, and for the balance it is a valid obligation of the state.

---

* Opinion delivered September 29, 1879.
† Act of February 17, 1869.
‡ Act of August 26, 1868.
§ See page 313, *ante*.
‖ See extract from report of bond commission, *ante*, p. 316.

In these cases the court adjudged the validity of all consolidated bonds which rest upon the following obligations that had been in question: For funding bills of the bank of the state; for payment of interest on the public debt (first issue); for redemption of bills receivable, conversion bonds (act March 23, 1869), except such conversion bonds as were issued for the relief of the treasury, and for the second issue of bonds to pay interest on the public debt; land commission bonds, 1869, and land commission bonds, 1870.

The acts creating this indebtedness were all assailed by the state, but the result has been as above stated.

At the next session of the legislature an act was passed creating the office of special commissioner, whose duty it was to ascertain and establish the validity, or the percentage and amount of invalidity, of each and every consolidated bond and stock certificate, and of the interest thereon, under the decision of the supreme court above referred to. This act was approved December 23, 1879,* and in pursuance thereof the commissioner, on November 26, 1880, made a report from which the following extracts are taken:

All the consolidated bonds and certificates of stock issued by the state up to February 12, 1880, have been examined and reported to the state treasurer.

The total number of $1,000 bonds issued were	4,394
The total number of $500 bonds issued were	1,477
The total number of certificates issued were	2,082
Total number of pieces	7,953

Of these there had been exchanged sixty-seven bonds of $1,000 each; twenty-nine bonds of $500 each, and a vast number of certificates of stock. Eighteen bonds of $1,000 each, and thirty-six bonds of $500 each, were purchased by the sinking-fund commission, so that we have—

Amount of $1,000 bonds issued to February 12, 1880		$4,394,000 00
Less sixty-seven bonds exchanged	$67,000 00	
Less eighteen bonds purchased	18,000 00	
		85,000 00
Leaving total outstanding February 12, 1880		4,309,000 00
Amount of $500 bonds issued to February 12, 1880		734,500 00
Less exchanged	$14,500 00	
Less purchased	18,000 00	
		32,500 00
Total, $500 bonds outstanding February 12, 1880		706,000 00
Total bonds		5,015,000 00
Total stock		590,811 04
Total bonds and stock		5,605,811 04
Invalidity in $1,000 bonds issued		1,052,613 60
Invalidity in $500 bonds issued		77,008 75
Invalidity in stock outstanding February 12, 1880		8,916 05
Total invalidity		1,138,538 40
Deduct invalidity in bonds exchanged	$11,766 41	
Deduct invalidity in bonds purchased	9 00	
And we have		11,775 41
Total invalidity in bonds and stocks outstanding February 12, 1880		1,126,762 99

This amount represents the invalidity in the principal, and does not include the invalidity which attaches to the coupons or interest past due or fundable.

Deduct this amount from the total amount of bonds and stock (face value) outstanding February 12, 1880, and we have the total valid consolidated debt February 12, 1880, in accordance with the decision of the supreme court, face value of bonds and stock, $4,479,048 05.

This principal only includes the consolidated debt, under the act of December, 1873, and has no reference to other valid outstanding bonds which had not been converted into consols under said act.

The special commissioner also reports the examination of valid bills of the Bank of the State amounting to $710,136 45.

* "Act to provide for the settlement of the consolidated debt of the state in accordance with the decision of the supreme court of South Carolina," and act amending same, approved February 19, 1880.

This examination of these bills, with a view to the funding of same, was done under the act of December 24, 1879.

The *final adjustment* of the consolidated debt is now in progress, under the authority of the act of December 23, 1879 (amended February 19, 1880), entitled "An act to provide for the settlement of the consolidated debt of the state in accordance with the decision of the supreme court of South Carolina", which act also appointed the "special commissioner" to ascertain and establish the validity on the percentage and amount of invalidity of the consol bonds and stock in conformity with the principles laid down by the supreme court.

This act as amended provides that every holder of any consol bond or certificate of stock, or of the unpaid interest thereon to July 1, 1878, reported by the special commissioner as wholly valid, or as partially invalid, shall have the right to surrender the same for cancellation, and to receive from the state treasurer a new consol bond or certificate of stock bearing interest at six per cent. for the exact amount of the valid portion of such bond, or certificate, or coupon, or interest; that the same privilege of exchanging or refunding shall be extended to embrace *detached coupons* and interest *orders* due on or before July 1, 1878; that the interest due and unpaid to July 1, 1878, on the valid portion of the consols reported by the commissioner partially invalid, and on the consols so reported wholly valid, shall be "*funded*" in new consols bearing interest from July 1, 1878; and that the new consols issued in exchange for those surrendered as above, and *all* consolidated bonds and certificates of this state, that may at any time hereafter be issued (viz, after February 19, 1880) shall be distinguished by their *color* from the consols formerly issued,* but shall be in other respects (except as above provided) of the same class and character, mature at the same date (1893), bear the same rate of interest, and have the same rights and privileges as do the bonds and stocks authorized to be issued under the original consolidation act of December 22, 1873.

The report of the comptroller-general for the fiscal year ending October 31, 1881, shows the present condition of the consolidated debt under the operation of this act.

SETTLEMENT OF THE FLOATING OR UNFUNDED DEBT.

An act "to provide for the settlement of the unfunded debt of the state incurred before the first of November, 1876", approved March 22, 1878, and amended December 24, 1878, established a "court of claims", to be held by a commissioner, for the purpose of ascertaining all legal and just claims which had not been funded in bonds or stocks, and which were in existence on November 1, 1876. This court had jurisdiction to adjudicate upon all claims of this character (other than for bonds, or stocks, or coupons, or interest thereon), and including the bills of the Bank of the State, and so much of the funded debt as is known as the "Little Bonanza", the warrants drawn by the comptroller in pursuance of act December 24, 1875, providing for the settlement and payment of "certain claims against the state", and the liability of the state by guarantee of the Spartanburg and Union railroad bonds, the balance due thereon by judgment of the court after applying the proceeds of the sale of said road.†

The act required that all claims provided for therein should be duly sued or brought for adjudication before the said court prior to April 1, 1879.

This act also authorized the issue of bonds and stock certificates, to be known as "*deficiency*" bonds and certificates, in the settlement of a portion of such claims as were adjudicated by this court; the other portion of claims so adjudicated was authorized to be *paid* out of appropriations made or to be made for that purpose.

"*Deficiency*" coupon bonds (in denominations of $1,000, $500, and $100), and deficiency stock, are redeemable in ten years, and bear 6 per cent. interest, payable semi-annually and accruing as follows, viz: From July 1, 1878, in cases brought before the commissioner court of claims prior to November 1, 1878, and from July 1, 1879, in cases brought before said commissioner from November 1, 1878, to April 1, 1879.

The amount of "deficiency" bonds and stock outstanding on October 1, 1881, after deducting amount retired by purchase of commissioners of the sinking fund, was, $562,577 50.

The time fixed by previous acts for funding in consols the *unquestionable debt* of the state having expired, the act of December 24, 1880, removes the limitation as to the time of funding, and authorizes the continued issue of consols (brown‡) with interest at 6 per cent., payable semi-annually, in exchange for the following bonds and stocks, including unpaid interest on same to January 1, 1880, at fifty percentum of the principal and said interest, as fixed by the consolidation act of December 22, 1873, the consols to carry interest from January 1, 1880, viz:

1st. Issues prior to January 1, 1866.

Stock: Revolutionary war claims, redeemable at pleasure of the state. Act 1794.
Bonds and stock: Rebuilding city of Charleston, redeemable 1868 and 1870. Act 1838.
Bonds: Aid Blue Ridge railroad, redeemable 1875, 1876, 1877, 1878, 1879. Act 1854.
Bonds: Construction new state capitol, redeemable 1871 and 1881. Acts 1853 and 1855.
Stock: Construction new state capitol, redeemable 1877. Act 1856.
redeemable 1888. Act 1857.

---

*The color of the new consols is *brown*, but they are engraved from the same plates as the *green* consols issued under prior acts.
†Amounting to $474,600. ‡See act February 19, 1880.

Stock: redeemable 1883 and 1885. Act 1858.
redeemable 1887 and 1889. Act 1859.
redeemable 1882 and 1886. Act 1861.
redeemable 1890 and ——. Act 1863.
These are exchangeable at the state treasury on surrender thereat, with further reference.

2d. Issues since January 1, 1866.

Bonds and stocks: "Funding," redeemable in 1887 and 1897. Acts September and December, 1866.
Bonds: "Redemption bills receivable," redeemable 1888. Act August, 1868.
Bonds: Payment interest public debt, redeemable 1888. Act August, 1868 (first issue).
Bonds: "Funding bills Bank of State," redeemable 1888. Act September, 1868.
Bonds and stock: "Conversion state securities," redeemable 1888. Act March, 1869.
Bonds: "Land commission," redeemable 1888. Act March, 1869.
Bonds: "Land commission," redeemable 1889. Act March, 1870.

These bonds and stocks (issued since January 1, 1866), with the unpaid coupons and interest to January 1, 1880, are exchangeable upon surrender thereof at the state treasury, *after the* same have first been examined by the comptroller-general of the state, and in accordance with his official report setting forth the validity or the amount of invalidity of same, as established by the decision of the supreme court rendered September, 1879, in the consol cases already referred to. The coupons of bonds of these issues, however, which matured *prior* to July 1, 1872, and which have been *detached* from the bonds to which they belong, are not included in the privileges of this act (December 24, 1880*).

The following is an extract from the report of the comptroller-general for the fiscal year ending October 31, 1880:

Consol bonds and stocks (green and brown).

Funded to November 1, 1880		$6,368,556 82
Less retired by sinking fund commission	$31,000 00	
Less invalidity in green bonds exchanged for brown	350,949 89	
Invalidity in green bonds and stocks not yet exchanged	775,813 11	
		1,157,763 00
Total consols		5,210,793 82
Deficiency bonds and stocks		564,855 98
State scrip, Agricultural College		191,800 00
Total funded debt		5,967,449 80
Ante-bellum bonds and stocks	$276,860 44	
Post-bellum bonds and stocks	451,306 00	
The former amount is all valid, and in being funded is allowed interest to July, 1879. Estimating seven years as average period for which interest is allowed, it would increase the ante-bellum amount by $116,281 38, making $393,141 82 to be funded, and equal in consols to		196,570 91
Of the post-bellum securities unfunded $186,306 is wholly valid, and would give in consols.	$93,153 00	
The balance, $265,000, is only partially valid, being "interest on public debt" and "conversions". Estimating for these the same ratio of invalidity as has been found in the securities of these classes already funded, and it amounts to about 7½ per cent., say $19,875, leaving to be funded $245,125, equal to consols	122,562 50	
But these post-bellum bonds have interest allowed from 1872 to 1880, say an average of seven years, which interest is required also to be funded. This would give seven years' interest on $431,431, equal to $181,201, or consols	90,600 50	
		306,316 00
There is also fundable interest (past due to 1878) to be consolidated	181,097 61	
This also has more or less invalidity, which, estimated at same ratio as that already funded, amounts to	34,408 54	
Leaving to be consolidated		146,689 07
The whole amount of bills of the Bank of the State passed upon by special commissioner, and authorized to be funded, is, say	$730,000 00	
There has been funded	685,710 00	
Leaving	44,290 00	
Which, at 50 per cent., gives consols		22,145 00

*See report of the bond commission appointed by joint resolution of June 8, 1877.

RECAPITULATION.

Total consols	$5,210,793 82
Total deficiencies	564,855 98
State scrip, Agricultural College	191,800 00
To be funded for ante-bellum principal and interest, say	196,570 91
To be funded for post-bellum principal and interest, say	306,316 00
To be funded for fundable interest, say	146,689 07
To be funded for bills, Bank of State, say	22,145 00
Total bonded debt of state, say	6,639,170 78

GEORGIA.

In the early history of Georgia, so far as relates to the public debt, nothing occurred worthy of detail. Internal improvements received early attention. The University of Georgia was established in 1785; the Central Bank of Georgia, a state institution, was chartered and established in 1828. The public debt of the state amounted to $725,000 in 1837, and to liquidate this the Central Bank was authorized to borrow the money, payable within twelve months out of the capital stock of the bank.

The issue of $1,000,000 of 8 per cent. interest-bearing bonds was authorized by an act passed December 23, 1840, in denominations of $5 and upward, to mature in five years, for the payment of which the faith and credit of the state and the assets of the bank were pledged. These bonds were to be used exclusively for the purpose of redeeming the outstanding bills of the Central Bank.

An act was passed December 29, 1847, authorizing new bonds to be issued to redeem the bonds above mentioned, the new bonds to be in the denomination of not less than $500, to be payable at such times as might be agreed on, but not more than $75,000 should fall due in one year, and that the bonds should bear 7 per cent. interest.

The state was a stockholder in the Bank of Augusta, the Planters' Bank of the State of Georgia, the Bank of the State of Georgia, and in the Bank of Darien. These shares of stock constituted, in part, the capital stock of the Central Bank, and some of them were sold in 1841. The remainder, yet held by the state, are deemed worthless.

In 1836 an act was passed providing for the construction of a railroad from some point on the Tennessee river, near Rossville, to some point on the southeastern bank of the Chattahoochee river, as a state work, to be known as the Western and Atlantic Railroad of the State of Georgia. The road was completed and is now the property of the state, and various bonds, stock, and scrip were issued upon it. The Atlantic and Gulf railroad was incorporated by an act approved February 27, 1856, in which the state invested $1,000,000. To provide for the payment of the stock the governor was authorized to issue bonds (if there were no unappropriated money in the treasury) as the subscription became due, to run twenty years, and to bear 6 per cent. interest per annum. Some of the bonds issued for that purpose are yet outstanding, as will appear by the official statement of the public debt.

On March 3, 1874, it was enacted that by reason of the disastrous consequences of the civil war to said company, and for the purpose of insuring the completion of the road connecting the "Atlantic with the Gulf of Mexico, through the state, as originally contemplated", three-fourths of the stock owned by the state should be assigned to said company on certain conditions and pledges. It is to be presumed that these conditions had not been complied with up to October 1, 1880, inasmuch as the state was the owner of the stock at that date.

On December 11, 1858, an act was passed directing the governor to issue new bonds, bearing the same rate of interest as those then in the hands of holders, to be arranged upon such schedule, and payable at such period, as that, by providing annually a sinking fund, the whole principal of the public debt should be paid when the last bonds became due; the sinking fund to be created out of the earnings of the Western and Atlantic railroad. The act further provided that on payment of any portion of the public debt the governor should execute bonds, in the sum of $1,000 each, equal to the amount so paid, payable to the treasurer of the educational fund, with interest at 6 per cent. per annum, so that as the public debt was decreased the educational fund should be increased. This provision was repealed, however, after the reconstruction of the state.

No debts were incurred during the period of the war which the state is authorized to pay.

The constitutional convention, which met in 1865, directed the issue of $500,000 in bonds to meet the wants of the treasury then pressing, there not being a dollar therein, but only $30,000 were placed on the market. These were subsequently converted into other bonds.

During the period of reconstruction, which terminated in 1868, several acts were passed authorizing the issue of bonds, among which was one authorizing the loan of $200,000 for the purchase of corn to relieve the suffering poor.

On the 12th day of March, 1866, an act was passed authorizing the issue of the following bonds:

First. To meet appropriations and to better equip the Western and Atlantic railroad, $1,500,000, with interest not exceeding 7 per cent. per annum, payable semi-annually, to run thirty years, or, at the option of the governor, to be redeemable after five and payable in twenty years. A sinking fund was created out of the income of the Western and Atlantic railroad sufficient to pay the interest and 3 per cent. annually of the principal.

Second. For the purpose of renewing bonds then due, $830,550, to be issued on like terms and upon like security as the above bonds.

Third. Six hundred thousand dollars, for the purpose of paying the land tax, assessed against the people of Georgia by the United States, amounting to $584,367 33, with not exceeding 7 per cent. interest, and to be payable at such time as the governor might see fit. The provision relating to the sinking fund does not apply to these bonds. These bonds ($600,000) were prepared but not issued, and the legislature, by an act passed December 13, 1866, directed the governor to issue them in exchange for, or in redemption of, such bonds as might become due in 1868, 1869, and 1870.

By an act approved December 3, 1866, the governor was instructed to indorse the bonds of the Macon and Brunswick railroad to the amount of $10,000 per mile.

The debt on November 1, 1866, was as follows:

Bonds issued prior to 1861, not yet due	$2,676,500
Bonds issued under the act of March 12, 1866, including loan for purchase of corn	3,030,000
Bonds issued to the Atlantic and Gulf Railroad Company in 1866, under act of 1856	134,500
Total	5,841,000

The superintendent of the Western and Atlantic railroad purchased of the United States government railroad property amounting to $472,944 66. To secure the payment of this sum the superintendent of the road and the state treasurer executed a penal bond to the United States, in the sum of $982,310 72, conditioned that the state of Georgia would pay for the property within two years from date of purchase, and interest at the rate of 7.30 per cent., payable quarterly. By an act approved December 18, 1866, the faith of the state was pledged for the payment of debt and interest. The amount was paid, but it was afterward claimed that more than its value had been paid for the rolling stock, and an effort was made to reopen the negotiation, which at last proved successful, and in 1877 the sum of $199,038 58 was allowed by the United States Court of Claims and paid to the state.

The following provision is contained in the constitution of 1868:

[Article III, section 6, paragraph 5.]

The general assembly shall pass no law making the state a stockholder in any corporate company; nor shall the credit of the state be granted or loaned to aid any company without a provision that the whole property of the company shall be bound for the security of the state, prior to any other debt or lien, except to laborers; nor to any company in which there is not already an equal amount invested by private persons; nor for any other object than a work of public improvement.

Under this provision of the constitution state aid to a large amount was granted to railroad companies. The several acts authorizing such grants will be mentioned hereinafter, but the total amount of the contingent liability originally assumed cannot be ascertained, because the published records contain only the amount guaranteed per mile, and the length of the respective roads is not given. As will appear hereinafter, a number of these indorsements were declared null, void, and unconstitutional.

The following aid was granted in 1868:

	Per mile.
To the Macon and Augusta railroad	$10,000
To the Georgia air-line	12,000
To the South Georgia and Florida and Georgia railroad	8,000

On October 10, 1868, the issue of bonds sufficient to pay the interest due and unpaid and to become due up to February 1, 1869, was authorized by an act which does not provide when the bonds to be issued should mature nor what interest they shall bear.

On the 18th day of March, 1869, an act was passed granting aid to the Brunswick and Albany railroad, originally the Brunswick and Florida railroad, recognizing a claim against the state in favor of said company, since a portion of the rails and material had been used on the Western and Atlantic railroad, the property of the state. The state was to indorse the bonds of the company to the amount of $15,000 per mile.

Aid was also granted to the following companies at the same session, to wit:

	Per mile.
Alabama and Chattanooga	$8,000
Cartersville and Van Wert	12,000
Dalton and Morgantown	12,000

The several acts provide for a first lien to the state, and that the bonds should not be sold at less than 90 cents.

An act was adopted, August 27, 1870, authorizing a loan of a sufficient amount to pay the expenses of the general assembly, to be paid out of the first funds coming into the treasurer's hands, amended October 5, 1870, by providing for interest, if the loan be effected by bonds, at a rate not exceeding 7 per cent., and the principal, when due; that an amount should be borrowed sufficient to pay the officers of the civil establishment and other expenses of the state, but restricting the authority to these purposes.*

Under the authority of these acts currency bonds amounting to $2,000,000 were issued. It is claimed that it was not intended to put these bonds on the market or in circulation, but that they were from time to time hypothecated

* This is the act authorizing the quarterly gold bonds, *post*.

for loans made and replaced by the gold quarterly bonds, which were then being engraved. The entire issue was afterward declared void, because the bonds were not all returned. The act of voidance makes no exception as to the status of the holder.

An act was passed on September 15, 1870, authorizing the governor to issue bonds to run twenty years, with seven per cent. annual interest, payable quarterly, interest and principal payable in gold, sufficient in amount to meet all outstanding bonds and coupons then due or to become due, until otherwise directed. Three million dollars in bonds were issued under this act.

During this year state aid was granted to the following railroads, in the respective sums mentioned, by indorsing the bonds of the companies:

	Per mile.
Albany and Columbus	$12,000
Albany, Mobile and New Orleans	12,000
Americus and Isabella	12,000
Americus and Florence	12,000
Americus and Hawkinsville	12,000
Atlanta and Blue Ridge	15,000
Athens and Clayton	15,000
Atlanta and Lookout $1,875 per mile for first 8 miles, and $3,000 for each further mile.	
Augusta and Hartwell	15,000
Camilla and Cuthbert	12,000
Chattahoochee	12,000
Columbus and Atlanta Air-Line	12,000
Dalton and Morganton	15,000
Georgia Seaboard and Northwestern	12,000
Grand Trunk	12,000
Great Southern	12,000
Griffin, Monticello and Madison	15,000
Lookout Mountain	15,000
Marietta, Canton and Ellijay	15,000
McDonough Western	12,000
Memphis Branch	15,000
Newnan and Americus	12,000
Northwestern	15,000
North and South	12,000
North Georgia and North Carolina	12,000
Ocmulgee River	15,000
Polk's State Quarry	15,000
St. Mary's and Western	15,000
Savannah, Griffin and North Alabama	12,000

The aid to the Macon and Brunswick railroad was increased to $13,000 per mile on the entire road, and on the South Georgia and Florida to $12,000 per mile on the unfinished portion.

An act was passed at the same session directing the governor to lease the Western and Atlantic railroad at $25,000 per month, which was accordingly leased to the Western and Atlantic Railroad Company.

It appears that an act was passed on October 17, 1870, granting aid to the Brunswick and Albany railroad, although the act itself does not appear among the published acts of that session. It is referred to in governor's message, reports of committees, subsequent acts, and in the constitutional amendments. From these sources it seems that the act authorized the issue of the bonds of the state to said company at the rate of $8,000 per mile, amounting, in the aggregate, to $1,880,000, in exchange for the entire issue of second-mortgage bonds of the company, amounting to $2,350,000. The bonds to be issued were to be of the denomination of $1,000, to be payable in twenty-five years, with seven per cent. interest payable semi-annually, interest and principal payable in gold. Bonds of $1,000 each, 1,800 in number, were issued to the company, but the entire issue was subsequently declared void.

On December 9, 1871, an act was passed over the governor's veto entitled "An act to protect the people of the state of Georgia against the illegal and fraudulent issue of bonds and securities, and for other purposes connected with the same". A preamble to the act recites that divers bonds purporting to be bonds of the state of Georgia, and divers bonds bearing the indorsement of the state, had been issued by the late governor of the state, and that divers bonds issued prior to his administration had been negotiated by him, and that it was believed that a large portion of such bonds had been illegally and fraudulently issued and negotiated, the extent and amount of which was unknown to the general assembly. The act provides for the appointment of a committee of investigation for the purpose of ascertaining all facts connected with the history of the bonds. It was enacted that all persons holding bonds of the state, or bearing indorsements thereof, should report the same for registration before April 1, 1872, and that failure so to report was to be deemed *prima facie* evidence that they were illegally or fraudulently issued. Until the further orders of the general assembly the treasurer of state was forbidden to pay any interest on bonds issued or negotiated since July 4, 1868.

This committee made an elaborate report pointing out the objections to the several issues of bonds claimed to be void and unconstitutional. At the same session, resolutions were adopted* appointing four different committees of investigation, to wit:

1st. A committee to investigate the official conduct of the late governor, including his management of the finances of the state.

2d. To investigate the management of the Western and Atlantic railroad.

3d. To investigate the fairness or unfairness of the contract made between the late governor and the lessees of the Western and Atlantic railroad, known as the Western and Atlantic Railroad Company.

4th. To investigate as to whether any claims had been wrongfully allowed by certain commissioners theretofore appointed to audit claims against the Western and Atlantic railroad.

These several committees made reports, and a resolution was adopted, that the lease of the railroad was deemed to be advantageous to the state. Acts were passed, declaring certain bonds unlawfully and unconstitutionally issued, and the action of the legislature was sustained by the people, in adopting certain constitutional amendments.

An act approved January 18, 1872, authorized the issue of bonds to the amount of $700,000 for the purpose of funding, exchanging, or redeeming the state bonds maturing in 1872, these bonds to bear not exceeding seven per cent. interest, and to run twenty years. By the same act a temporary loan of $300,000 was authorized for the purpose of paying the interest due upon bonds issued prior to June 1, 1868, the amount to be repaid out of the taxes of 1872.

By several acts adopted at the session in August, 1872,† the indorsement of the state's guaranty upon the bonds of the Bainbridge, Cuthbert, and Columbus Railroad Company, the Cartersville and Van Wert Railroad Company, the Cherokee Railroad Company, and the Brunswick and Albany Railroad Company, was declared null and void, and the payment thereof forbidden, and the issue of state gold bonds in aid of the Brunswick and Albany railroad, under the act of August 16, 1872, was declared null, void, and unconstitutional. Certain gold bonds held by a New York banking firm, 112 in number, were declared void, and of no binding force against the state; one of the bonds was afterward (February 22, 1877) declared legal, it appearing that a mistake had been made. A resolution was adopted at the same time declaring the validity and binding force of the state's indorsement of the bonds of the Macon and Brunswick Railroad Company.

A further loan was authorized February 19, 1873, providing for the issue of bonds to the amount of $1,200,000, to bear interest not exceeding eight per cent. per annum, payable semi-annually, $100,000 to be redeemed annually. The bonds were issued for the purpose of obtaining means to redeem the past-due bonds and interest. They were to be exchanged for such other bonds and coupons as might fall due during the then ensuing next three years, or to be sold from time to time to the number necessary to raise the required amount to meet the payment of falling-due bonds. To secure the prompt payment of these bonds the governor was instructed to increase the percentage of taxes, so as to produce the sum of $100,000 annually, to be applied to the extinguishment of this debt until all should be paid, and the faith of the state was pledged that this provision should not be repealed. The bonds issued under this act are, by the terms thereof, exempt from state, county, and municipal taxation; and it is also provided that upon the sale of these bonds all unnegotiated bonds and coupons issued under the act of January 18, 1872, shall be withdrawn from the market and canceled. Another act was passed on the same day appropriating one-half of the income of the Western and Atlantic railroad to the extinguishment of the public debt. It provides that as often as there should be $25,000 in the treasury belonging to the fund thereby created, bonds of the state should be purchased at the lowest market rate.

On the 17th day of February, 1873, it was enacted that if railroads should be sold on account of non-payment of interest accruing on bonds indorsed by the state, the governor might purchase such roads, rolling stock, and equipments for the state, and make disposition of the same, subject to the approval of the next general assembly.

The Macon and Brunswick Railroad Company failed to pay the interest on the bonds indorsed by the state which fell due on July 1, 1873, and on the 2d day of July the governer seized the road and its property. The amount of the outstanding bonds was $2,550,000, and the amount of net earnings was estimated at $60,000. There were also outstanding about $70,000 of what were known as pass-bills issued by the company, and it was deemed advisable to redeem these, and the net earnings during the years 1873 and 1874 were applied to this object.

Although the state had by resolution declared the validity of the indorsement of these bonds, yet the governor claimed in his message delivered in 1875, that a portion of the bonds indorsed were invalid. Under the act of 1866 there had been indorsed $1,950,000, and under the act of 1870, $600,000. A resolution was adopted at the then session of the legislature declaring the indorsement on the former valid, and on the latter unconstitutional and void, except as to a few bonds which were specially excepted. All of the earnings of the road up to January 1, 1875, had been used to pay the "change" bills, of which there were yet outstanding on that date, $16,750.‡

Better to protect the interest of the state where its indorsement has been obtained upon railroad bonds, it was enacted on March 5, 1875, that in an event of the sale of any of the railroads, by reason of the non-compliance with or non-performance of the conditions imposed by the several acts authorizing the guaranty by the state, the governor might bid for and buy such railroad under certain limitations.

---

* November 28, 1871. December 1, 1871. † Laws 1872, pages 5, 6, and 7. ‡ Estimated.

On the following day a resolution was passed directing the governor to sell the Macon and Brunswick railroad. In accordance with which the road was sold in June of that year, the state becoming the purchaser for $1,000,000. The road was again sold by Governor Colquitt, under acts of September 3 and October 14, 1879, for $1,125,000.

The Cartersville and Van Wert or Cherokee railroad also failed to pay interest due in December, 1871, but before the same could be seized it had been sold on execution to pay laborers and employés.

The North and South railroad, upon whose bonds to the amount of $240,000 the indorsement of the state had been placed, also failed to meet the interest, and the state became liable for the principal and interest. The road was seized on April 23, 1874, and was operated by the state until September 5, 1877, when it was sold for the sum of $40,500, to be paid January 1, 1884, with seven per cent. interest semi-annually in advance.

The bonds of the Memphis branch railroad to the amount of $34,000 were indorsed in May, 1874. This company also failed to meet the payments, was seized, and the property of the company, except its franchise, road-bed, and a bridge across the Oostanaula river, was sold in August, 1877, for the sum of $9,000, payable January 1, 1881, with seven per cent. interest.

In consequence of these several losses and additional burdens, and in accordance with the governor's recommendation, the provisions in the charters of the several railroad companies heretofore incorporated, by which the indorsement of the state was authorized to be placed upon the bonds of such railroad companies, no matter upon what terms aid was to be granted, were repealed by an act approved February 25, 1874. This, however, did not affect vested rights, and the act provides for the adjudication of any claim of such right by the courts.

By a resolution adopted the Northeastern railroad was specially excepted from the operation of this act.

No further bonds were indorsed after this date, except—

1st. The bonds of the Memphis branch railroad in the sum of $34,000, to which the company was entitled, the road having been partially constructed before the passage of the act.

2d. The bonds of the Northeastern railroad were indorsed in 1878 to the amount of $260,000.

The public debt (actual) on January 1, 1874, was $8,343,000, and on January 1, 1875, $8,105,500. The interest on the debt was promptly paid as the same became due. The amount of the outstanding bonds of the railroads which had defaulted, and the validity of which was admitted by the state, is not included in the above amount.

On February 27, 1875, an act was passed to void the state's indorsement on the bonds of the Alabama and Chattanooga Railroad Company; the act recites that the bonds thus indorsed by the governor, under the authority of the act of March 20, 1869, are second-mortgage bonds, and upon their face expressly recognize the existence of a prior and first mortgage and lien upon the property, and were issued, therefore, in conflict with paragraph 5, section 6, of article III of the constitution.

An act passed on March 2, 1875, recited that divers bonds of the state, which matured prior to the 1st day of January, 1872, were then in circulation, and that it was believed that they had all been paid and that they had been illegally and fraudulently reissued and negotiated, in an amount unknown to the general assembly. It provided for the registration of such bonds by the treasurer, and that non-registry on or before August 1, 1875, should be deemed *prima facie* evidence of the payment and illegal issue of the same.

The following amendment and additional clause to section 6, article 3 of the constitution was adopted by the legislature of 1875* and 1877,† and was ratified by the people in May, 1877:

> Neither the general assembly nor any other authority or officer of this state shall ever have power to pay or recognize as legal, or in any sense valid or binding upon the state, any direct bonds, gold bonds or currency bonds, or the state's alleged guaranty or indorsement of any railroad bonds, or any other bonds, guarantees, or indorsements heretofore declared to be illegal, fraudulent, or void by act or resolution of the legislature of the state, or that may be declared illegal, fraudulent, or void by act or resolution of the legislature originating this amendment,‡ viz, the state gold bonds issued under the act of October 17, 1870, in aid of the Brunswick and Albany Railroad Company; the currency bonds issued under the act of August 27, 1870; the quarterly gold bonds issued under the act of September 15, 1870, which are enumerated in the act of August 23, 1872; the indorsement of the state upon the bonds of the Brunswick and Albany Railroad Company, made under the act of March 18, 1869; the indorsement of the state upon the bonds of the Cartersville and Van Wert Railroad Company, and of the Cherokee Railroad Company; the indorsement of the state upon the bonds of the Bainbridge, Cuthbert and Columbus Railroad Company, and all other bonds, guarantees, or indorsements declared illegal, fraudulent, or void as herein provided.

It absolutely forbade all future recognition of these claims, by legislature, in courts, or by citizens.

Under the various acts (declaring the invalidity of the indorsements) and in pursuance of this amendment, the state admitted their liability only on the following:

Macon and Brunswick railroad	$1,950,000
North and South railroad	240,000
Memphis branch railroad	34,000
South and Georgia and Florida railroad	464,000

This latter company was paying the interest on its debt.

By an act approved February 17, 1854, the issue of $375,000 in six per cent. bonds, for the purpose of exchanging outstanding bonds of the Central Bank, was authorized. The old bonds were bearing seven per cent. interest, and the change to six per cent. raised questions with the holders, and the new bonds, though executed,

---

* Acts 1875, p. 27. † Acts 1877, p. 24. ‡ Legislature of 1875.

were not issued. They were taken from the treasury vault in 1864, by unauthorized persons, as it is stated in an act passed on February 23, 1876, by which act the issue of February 17, 1854, was declared null and void. For the purpose of paying the interest past due and becoming due upon the recognized bonds of the Macon and Brunswick railroad, and upon the bonds of the North and South railroad, both of which were indorsed by the state, an act approved February 25, 1876, authorized the issue of a sufficient amount of bonds to be dated July 1, 1876, to mature in 20 years, and to bear seven per cent. interest, payable semi-annually, and to be of the denomination of $1,000 each. Under this act bonds to the amount of $542,000 were issued and are yet outstanding.

On January 1, 1877, the debt (exclusive of admitted railroad-bond liabilities) was $8,447,500.

On the 19th day of February, 1877, an act was passed authorizing the issue of bonds to the amount of $2,298,397, for the purpose of retiring, by exchange or paying off the recognized bonds of the Macon and Brunswick railroad to the amount of $1,950,000; of the North and South railroad, indorsed by the state, to the amount of $240,000; also bonds of the Memphis branch railroad, indorsed by the state, to the amount of $34,000, with accrued interest on all of said issues to January 1, 1877, amounting to $74,397. The act provides that the bonds shall be sold at not less than par, and the proceeds to be applied to the retirement at par of the above-described bonds, or that the new bonds may be exchanged at par: the new bonds to be of the denomination of $1,000 each, to be dated January 1, 1877, maturing in twelve years, and to bear interest from said date at six per cent. per annum payable semi-annually.

By an act approved February 26, 1877, the treasurer was authorized and directed to pay ten cents on the dollar for all "change bills" issued by the Western and Atlantic railroad during the war, which might be presented. Of these bills, $200,000 had been issued by this company by virtue of an act passed in 1863.

A constitutional convention was held in 1877, and several provisions relating to the debt question were adopted. The constitution was ratified by the people on the 5th day of December, 1877.

These provisions are as follows:

ARTICLE VII, SECTION 3. No debt shall be contracted by or on behalf of the state, except to supply casual deficiencies of revenue, to repel invasion, suppress insurrection, and defend the state in time of war, or to pay the existing public debt; but the debt created to supply deficiencies in revenue shall not exceed in the aggregate two hundred thousand dollars.

SEC. 4. All laws authorizing the borrowing of money by or on behalf of the state shall specify the purpose for which the money is to be used, and the money so obtained shall be used for the purpose specified, and no other.

SEC. 5. The credit of the state shall not be pledged or loaned to any individual, company, corporation, or association, and the state shall not become a joint owner or stockholder in any company, association, or corporation.

SEC. 8. The state shall not assume the debt, nor any part thereof, of any county, municipal corporation, or political division of the state, unless such debt shall be contracted to enable the state to repel invasion, suppress insurrection, or defend itself in time of war.

SEC. 9. The general assembly shall have no authority to appropriate money, either directly or indirectly, to pay the whole or any part of the principal or interest of the bonds or other obligations which have been pronounced illegal, null, and void by the general assembly, and the constitutional amendments ratified by a vote of the people on the first day of May, eighteen hundred and seventy-seven, nor shall the general assembly have authority to pay any of the obligations created by the state under laws passed during the late war between the states, nor any of the bonds, notes, or obligations made and entered into during the existence of said war, the time for the payment of which was fixed after the ratification of a treaty of peace between the United States and the Confederate States; nor shall the general assembly pass any law, or the governor or other state official enter into any contract or agreement, whereby the state shall be made a party to any suit in any court of this state, or of the United States, instituted to test the validity of any such bonds or obligations.

* * * * * * * * *

SEC. 12. The bonded debt of the state shall never be increased, except to repel invasion, suppress insurrection, or defend the state in time of war.

Section 13 provides for the application of the money received from the sale of railroads and any other property owned by the state toward extinguishment of the bonded debt. The new constitution also provides for a biennial session of the legislature instead of an annual.

The recognized public debt on January 1, 1878, was $10,644,500, which was all for which the state admitted its liability, except the contingent liability on the bonds of the South Georgia and Florida railroad.

An issue of bonds to the amount of $500,000 was authorized by an act approved December 14, 1878, for the purpose of redeeming the instalments of bonds issued under the act of February 27, 1856, which fall due in 1879, 1880, and 1881; the new bonds were to run six years and bear interest at the rate of four per cent. per annum; to be issued in sums not less than $5 nor more than $100; and to be sold at not less than par value. Under this authority $400,000 were issued, but of these $293,000 have been redeemed, having been paid in as part purchase-money of the Macon and Brunswick railroad.

The recognized debt on October 1, 1879, was $10,344,500, which, during the subsequent year, was reduced to $9,951,500, as appears by the official report of the comptroller of October 1, 1880. The interest on the debt falling due in 1881 is $672,415.

The following is an analysis of the debt, showing the date of issue, amount, date of maturity, and rate of interest, as taken from that document:

Year of issue.	Original amount of issue.	Amount outstanding.	Authority for issue.	Purpose for which issued.	Date of maturity.	Rate, per cent., of interest.
1861	$100,000	$100,000	Act February 27, 1856	In aid of the Atlantic and Gulf railroad	Feb., 1881	6
1866	100,000	100,000	.....do	.....do	Feb., 1886	6

To redeem $1,950,000 of the bonds of the Macon and Brunswick railroad indorsed by the state, $240,000 of the bonds of the North and South railroad indorsed by the state, $34,000 of the bonds of the Memphis branch railroad indorsed by the state, and $74,397 to pay interest to January 1, 1877.	May, 1889	6
1880	400,000	107,000	Act December 14, 1878.....	To pay outstanding bonds due in 1879–'80 and 1881 issued under the act of February 27, 1856.	Jan., 1886	4

* Gold quarterly bonds.

FLORIDA.

Florida was ceded by Spain to the United States in 1819, and an act establishing a territorial government therein was passed by Congress March 30, 1822.

Several banks were chartered in 1833, and the territory issued her bonds in aid of the enterprises in the sum of about $4,000,000.

The banks were under the control of the territory, and made flattering reports from time to time to the legislature. In the general crisis of 1837, however, they suspended specie payment, and it was soon thereafter ascertained that they were hopelessly insolvent. The funds of the banks were loaned to the stockholders, and the only security given to the banks was the land to purchase and pay for which the money was borrowed.

There was issued to the Union Bank alone $3,000,000.

In 1840 the judiciary committee of the council made an elaborate report on the liability of the territory to pay these bonds, and concluded with the following resolutions, which were adopted:

1. *Resolved*, That the power of the governor and legislative council of the territory of Florida delegated by Congress over all rightful subjects of legislation under that clause in the constitution which invests Congress with authority "to make all needful rules and regulations respecting the territory and other property belonging to the United States", does not extend to the creation of banks with exclusive privileges and franchises, nor to the issuing of bonds and guaranties in aid of such institutions, pledging the faith and credit of the people of Florida.

2. *Resolved*, That such pledge of the faith and credit of the people of Florida is null and void.

The other branch of the legislative council (senate) did not coincide in the views thus expressed, but in strong terms protested against them.

From this report it appears that at times the banks had already procured bonds "purporting to be guaranteed by the territory" to the amount of $3,900,000; that they claimed a further issue under the same authority amounting to $5,600,000 more.

The population of Florida was estimated at 50,000 souls, which would make the per capita debt about $200. The interest on this debt the committee claimed could not be raised by taxation, but only by an absolute surrender of the property of the citizens.

The bank and debt question was the subject of investigation by numerous committees of the council. The

constitution adopted by the people of Florida prior to her admission as a state in 1845, provides that the faith and credit of the state shall not be pledged in aid of any corporation. At that date the total debt of Florida was $4,850,000, the revenue $98,000, the expenditures $100,000. Soon after 1845 the state officials began to agitate schemes of internal improvement. The governor in 1852 called attention to the fact that the constitution declared that a liberal system of internal improvements was essential to the development of the resources of the country and made it "the duty of the general assembly as soon as practicable to ascertain by law proper objects of improvement in relation to roads, canals, and navigable streams, and to provide for a suitable application of such funds as may be appropriated for such improvements". In commenting on this, the governor said to the legislature:

> How little this provision of the constitution has been practically regarded, your recent journeys from your respective homes in every part of the state must have painfully reminded you. It is a melancholy reflection, that while the spirit of improvement is pervading every other state—opening new sources of wealth and comfort, and stimulating human industry in all its varied departments—Florida alone, like the slothful servant who buried his talents, seems well-nigh content with inaction and repose on this vital subject.

The subject of improvements being once thoroughly agitated, the legislature of Florida, January 10, 1855, passed an act to provide for and encourage a liberal system of internal improvements in that state, and issued bonds to the extent of $10,000 per mile to certain railroad companies, the interest whereon was duly guaranteed by the trustees of the internal-improvement fund created by the act. Such bonds became a first lien or mortgage on the roads, their equipments, and the franchises of the companies. The system of roads to be aided, under this provision, by a guarantee from the internal-improvement fund, to the extent of ten thousand dollars per mile for iron and equipment, embraced as the terminal points the bays of Pensacola and St. Andrew's in the western district, St. Mark's or Crooked river in the middle district, Fernandina and Jacksonville in the eastern district, and Tampa and Cedar Key in the southern district, making in the aggregate little less than 700 miles of road.

At this time, if we may judge from the message of the governor, the finances of the state were not in the most flourishing condition. The state had not depended on resources from taxation, but had relied too much upon loans to supply deficiencies. This may be seen by reference to the following table:

Years.	Revenue collected.	Warrants issued.
For the fiscal year ending October 31, 1846	$27,597 28	$56,909 57
For the fiscal year ending October 31, 1847	45,357 60	52,787 46
For the fiscal year ending October 31, 1848	56,832 72	54,913 81
For the fiscal year ending October 31, 1849	58,638 11	55,807 79
For the fiscal year ending October 31, 1850	46,079 84	38,559 33
For the fiscal year ending October 31, 1851	57,141 10	67,187 73
For the fiscal year ending October 31, 1852	56,619 63	55,234 49
For the fiscal year ending October 31, 1853	57,278 36	108,607 88
For the fiscal year ending October 31, 1854	62,801 51	53,417 13
For the fiscal year ending October 31, 1855	68,365 19	85,365 19
Total	535,711 34	627,890 38

This shows a deficiency of revenue for the ten years of $92,179 04, equal to an average deficiency of over $9,000 per annum. To supply this, loans were resorted to by special acts, under the law authorizing the comptroller to invest the school, seminary, and internal-improvement funds in the stocks of Florida and other states. The total debt of the state in 1855 was $181,872 92, the greater part of which had been contracted for the protection of the frontier inhabitants against Indian depredations. About $160,000 of this amount was bearing interest, which added annually to the debt nearly $10,000. The act granting $10,000 per mile to certain railroads was subsequently amended by the legislature, and the governor was authorized to loan the companies bonds of the state to an amount equal to $16,000 per mile in exchange for an equal amount of first-mortgage bonds of the company; and in order to secure the principal and interest on the mortgage bonds, it was declared:

> That the state of Florida shall by this act have a statutory lien, which shall be valid to all intents and purposes as a first mortgage duly registered on the part of the road for which said bonds were delivered, and on all the property of the company, real and personal, appertaining to that part of the line which it may now have, or may hereafter acquire, together with all the rights, franchises, and powers thereto belonging; and in case of failure by the company to pay either principal or interest of its bonds, or any part thereof, for twelve months after the same shall become due, it shall be lawful for the governor to enter upon and take possession of said property and franchises, and sell the same at public auction.

Under this power state bonds to the amount of $4,000,000 were delivered to the companies in exchange for $3,000,000 of the companies' bonds and $1,000,000 of the bonds of the Florida Central Railroad Company, and were in whole or part disposed of.

But little material has been found for constructing the history of the state debt of Florida since the civil war.

According to the report of the comptroller, submitted to the legislature in January, 1874, the bonded debt of the state was then as follows:

Debt and interest, to be exchanged for the bonds of 1873	$490,937 75
Bonds of 1871	350,000 00
Bonds of 1873 sold and delivered	265,000 00
Bonds of 1873 sold, but not delivered, and held to obtain funds to pay for twenty-one hypothecated bonds of 1868	15,000 00
Bonds of 1873 exchanged for eighteen bonds of 1868, with accumulated interest	20,000 00
Bonded debt due school fund	190,752 63
Bonded debt due seminary fund	71,292 45
	1,402,982 83
Deduct amount of bonds in sinking fund for payment of bonds of 1871	8,700 00
	1,394,282 83
Add interest due January 1, 1874, to school and seminary funds	9,960 01
Add interest due January 1, 1874, upon the bonds of 1871	29,575 00
Add interest due January 1, 1874, upon the bonds of 1873	12,660 00
Total bonded debt and interest due thereon to January 1, 1874	1,446,477 84
Less money in treasury applicable to payment of interest of 1871 and 1873 bonds	16,254 36
Total bonded debt and interest, less cash in treasury applicable in payment of interest	1,430,223 48

In this statement are not included the bonds, amounting to $4,000,000, issued to the Jacksonville, Pensacola, and Mobile Railroad Company, which, by a recent decision of the supreme court of Florida, have been decided illegal and void.

The bonded and floating debt of Florida, January 1, 1880, was $1,371,803 55, viz:

BONDED DEBT.

Seven per cent. bonds of 1871	$350,000 00
Six per cent. bonds of 1873	925,000 00
Eight per cent. convention bonds of 1868	1,500 00
Seven per cent. bonds of 1857	4,000 00
Total	1,280,500 00

FLOATING DEBT.

Comptroller's warrants and juror and witness certificates outstanding January 1, 1880	$86,823 55
Interest on bonded debt	4,480 00
Total	91,303 55

SINKING FUND.

Bonds of 1871	$50,100 00
Bonds of 1873	100,000 00
Total	150,100 00

The bonded indebtedness of Florida is held as follows:

Sinking fund	$150,100 00
State school fund	246,900 00
State seminary fund	85,600 00
Agricultural College fund	121,600 00
Private parties	676,900 00
Total	1,280,500 00

ALABAMA.

The territory of Mississippi was divided by act of Congress March 1, 1817, and on the 3d of March following the territory of Alabama was created. On March 2, 1819, Congress passed an act enabling the people of the territory to form a state government, and, in pursuance of that authority, a constitution was framed and adopted by a convention which met at Huntsville, Alabama, on July 5, 1819, and completed its labors on August 2, 1819.

The constitution thus adopted provided that one state bank might be established, with such number of branches as the legislature might deem proper, provided two-thirds of the members consented thereto, and not more than one branch bank should be established at the same session of the legislature. These banks were to be established subject to the following rules:

1. At least two-fifths of the capital stock should be reserved for the state.
2. A proportion of power in the direction of the bank should be likewise reserved, equal at least to the state's proportion of stock.
3. The state and the individual stockholders should be liable, respectively, for the debts of the bank, in proportion to the stock held.
4. That there should be reciprocal remedy for collecting debts for and against the bank.
5. That no bank should commence operations until half of the capital stock subscribed for be actually paid in gold or silver, which amount should in no case be less than $100,000.

Remedies were also provided in case of suspension of payment by the bank or branches.

Several banks had been chartered under the territorial government of Mississippi and Alabama as follows: at Huntsville, in 1816; at St. Stephens, in 1818; and at Mobile in 1819.

The constitution provided that these several banks might be created branches of the State Bank.

The State Bank was authorized to be established on December 21, 1820, and to be located at Cahawba, which became the seat of government in that year, with a capital stock of $2,000,000, divided into 20,000 shares of $100 each, one-half of which was reserved to the state, the remainder to be subscribed throughout the state. The act also reserved the right to the state to purchase all the remaining stock, at the market rate, after the lapse of ten years. It was provided that there should be thirteen directors, six of whom, together with the president, were to be elected by the general assembly.

On June 18, 1821, an amendment was passed authorizing the several incorporated banks to become branches of the State Bank. At about this time there was a great deal of financial distress, owing to the fact that the public lands had been sold at extravagant prices at the sales at St. Stephens and Huntsville, in 1818 and 1819. Prices ranged as high as $60 and $70 per acre for unimproved lands, most of which was sold for one-fourth cash, and the remainder in three annual installments. About $12,000,000 were due from these purchasers to the United States, which could not be paid. The legislature memorialized Congress, and that body granted relief by enacting that the purchaser might relinquish any portion of the land, and that the amount paid should be applied to the extinguishment of the debt on the unrelinquished portion. Temporary loans were made by the state from time to time from the several banks other than the State Bank above-mentioned, which, though authorized, had not been established. On December 20, 1823, another act was passed to establish the Bank of the State of Alabama, "for the benefit of the state," and the faith and credit of the state were pledged for its support, and to supply any deficiency in the funds specifically pledged. The capital stock of the bank was to consist in part of the moneys received from the sale or rent of land granted to the state by the United States for educational purposes, not to exceed $100,000, and for any money thus invested state stock or certificates, bearing 6 per cent. interest, payable semi-annually, were to be issued to the trustees of the University of Alabama, the interest to be forever applied to the use of the seminary.

The capital stock of the bank was to consist, also, of the 3 per cent. fund granted by Congress out of the net proceeds of lands sold in Alabama after September 1, 1819; of the proceeds of lands donated for a seat of government; of escheats in the state; and of all other public funds.

The governor and five commissioners were authorized to issue state stock to the amount of $100,000, to be redeemed after a term of years not exceeding 10, or, at the pleasure of the state, bearing 6 per cent. interest, payable semi-annually, the proceeds of the stock to constitute part of the capital stock of the bank. The bonds were issued, redeemable in 10 years. The bank was removed to Tuscaloosa in 1826. By an act passed January 13, 1827, the trustees of the state university were directed and required to invest the money belonging to the seminary fund then in the treasury in state stock in the same manner as "heretofore"—the money to be used as part of the capital stock of the bank. By an act of January 12, 1828, the further issue of $100,000 state stock was authorized, to be redeemable in 20 years, and to bear 6 per cent. interest, payable semi-annually. The construction of a new state-house was begun in 1827, and that of a canal in 1830, the funds necessary to be used therefor to be supplied from the proceeds of canal lands granted by Congress. Stock to the amount of $300,000, bearing 5 per cent. interest and to mature in 20 years, was authorized by an act passed January 21, 1832.

On the 16th day of November an act was passed establishing a branch of the State Bank in the Tennessee valley, and the governor and commissioners were authorized to issue state stock in the sum of $1,000,000, to mature in 30 years and to bear 5 per cent. interest, payable semi-annually. A similar branch was established at Mobile on the 4th of December following, and similar stock to the amount of $2,000,000 was authorized to be issued, the proceeds to constitute its capital stock.

On the 12th day of the same month the capital stock of the branch bank at Montgomery was authorized to be increased, and the issue of $500,000 in state stocks was authorized, upon the same terms as those issued for the aid of the Mobile and Tennessee valley branch. At this time the construction of railroads began, and this, together with the other public improvements, produced prosperity for the time being.

The stock authorized to be issued by the act of 1823 was redeemed in 1834 by the State Bank, out of its capital stock, by direction of the legislature.*

An act passed January 10, 1835, authorized the issue of $1,000,000 state stock, the proceeds of one-half of which was to constitute the capital stock of a branch bank to be established at Huntsville, and the other half for the purpose of increasing the capital stock of the branch at Decatur; it was to be redeemable in not less than 30 years, and to bear 5 per cent. interest, payable semi-annually.

On the same day another act was passed authorizing the subscription, by the governor, to the capital stock of the Bank of Mobile, in the sum of $740,000, for which state stock was issued, bearing 5 per cent. interest and maturing on January 4, 1859, in the sum of $600,000.†

The capital stock of the parent bank was increased $400,000; that of the branch at Huntsville, $500,000; that of Montgomery, $500,000; and that of Mobile, $1,000,000, by an act passed January 9, 1836. For these several sums state stocks, maturing in 30 years and bearing 5 per cent. interest (payable semi-annually), were issued. Direct taxation was abolished (except on a few articles and on certain occupations) by an act passed on the same day, and $100,000 of the earnings of the State Bank and its branches was appropriated to defray the expenses of government annually, to be paid by the respective banks in proportion to their capital.

Bank issues being thus plenty, times were necessarily "flush". Credit was easily obtained, and large investments continued to be made until the financial convulsion of 1837, when business became stagnant. Confidence in bank issues was almost entirely destroyed; a "run" was made on the banks, and in May of that year all of them suspended specie payment, and the people were greatly distressed in consequence.

An extra session of the legislature was called, and several acts were passed to afford relief. The surplus revenue fund received from the United States was deposited in the State Bank and its branches; the suspension of specie payments was legalized; the bills were made receivable for dues to the state; and purchasers of the public lands were granted an extension of time. Persons indebted to the State Bank or its branches were also granted extensions, the deferred payments to be made in three annual installments, with 8 per cent. interest. Other measures of relief were adopted, among which was an act authorizing the issue of $5,000,000 in bonds, to bear 6 per cent. interest, redeemable at the pleasure of the state at any time after two, four, and six years, in equal proportions. These bonds were to be deposited as follows: $1,000,000 each in the State Bank at Tuscaloosa, and in the branches at Huntsville, Decatur, Mobile, and Montgomery. The act required the sale of the bonds at not less than par for specie, or funds equal to specie, and that the money should be loaned at 7 per cent. interest.

The suspension of specie payments by the Bank of Mobile and by the Planters and Merchants' Bank of Mobile was also legalized, and all the banks were required to procure specie before January 1, 1839, equal to one-eighth of the amount of their capital stock, and deposit the same in their respective vaults, to be increased so as to have one-fifth on January 1, 1840, and one-fourth on January 1, 1841, and from time to time to keep such amounts on hand as nearly as possible.

At the regular session in December, 1837, the branch at Mobile was authorized to increase its circulation for the purpose of aiding cotton shippers, the increase to be withdrawn in August following. Sterling bonds to the amount of $2,500,000 were authorized to be issued by an act approved December 23, 1837. The bonds were to mature in 20 years, and bear 5 per cent. interest, payable semi-annually, and the proceeds in gold and silver were to be placed in the State Bank and branches in the following proportions: $500,000 in the parent bank, and a like sum in each of the branches at Mobile, Montgomery, Decatur, and Huntsville. The revenue fund was increased $40,000, to be paid by the banks in like proportion as the sum theretofore appropriated, by an act passed on the same day, and the banks were also required to pay the interest on the state debt. A number of railroad companies were incorporated, and work begun in 1838 and 1839. The act abolishing taxes remained in force until February 13, 1842, when an act was passed to provide state revenue. In the same year the branches of the State Bank at Mobile, Montgomery, Huntsville, and Decatur were placed in liquidation, which measure was supplemented in the following year by making a similar disposition of the parent bank. For 20 years the state had thus furnished the capital for her citizens, yet the measure met with little dissent. The state was liable for the redemption of the bills. Many losses had occurred, and the state was on the verge of financial ruin, and repudiation was favored by a considerable minority. The charter of the Planters and Merchants' Bank of Mobile was declared forfeited by an act of the assembly approved February 13, 1843, and that institution was also placed in liquidation. The interest on the state

*Acts 1833–'34, page 40. † See acts 1836, p. 23.

debt was promptly met, though with difficulty; taxation was increased, and the funds of the bank were used for the purpose. A portion of the debt, amounting to $1,013,000, was refunded under the provisions of an act passed December 26, 1843. The next permanent loan was made under an act approved January 16, 1850, which authorized the issue of bonds to extend those issued in 1843 and maturing in June, 1850. The new bonds were to mature in April and June, 1870, and bear 6 per cent. interest. Under this authority bonds to the amount of $700,000 were issued.

By an act passed February 9, 1852, an issue of bonds to extend those maturing in that year was authorized, the new bonds to mature in 20 years, and under this authority $190,000 were issued. From this time no debt was made, except that incurred during the civil war. As this does not now constitute a valid liability of the state, details are omitted.

The debt of the state before the war was $3,445,000, and by the state convention held in September, 1865, this was declared the only valid debt. Of this amount $2,109,000 was payable in New York, and $1,336,000 in London.

No interest was paid on the debt payable in New York during the war, the last redemption of coupons having been made in November, 1861; the London interest was paid regularly up to January, 1865. A proposition was made by the creditors in London, in 1865, to take bonds for the unpaid interest; the state authorities made a similar proposition to the New York creditors, and it was cheerfully accepted. The unpaid interest on the London bonds up to January 1, 1867, amounted to $160,740, and the unpaid interest on the New York bonds to November, 1866, was $527,250.

By an act passed December 15, 1865, the governor was authorized to issue bonds in the sum of $1,500,000, to mature in 20 years, to bear 8 per cent. per annum for such as may be dollar bonds and 6 per cent. for such as may be sterling bonds, for the purpose of meeting appropriations made and to be made by the general assembly.

On January 18, 1866, an act was passed authorizing the issue of bonds in lieu of those which matured in 1863 and 1865, to mature May 1, 1883. On February 23 of the same year the governor was authorized to issue and sell bonds in the sum of $500,000, the proceeds to be used for the relief and aid of indigent and needy people; they were to bear 6 per cent. interest, payable semi-annually, and to be redeemable at the pleasure of the state; but the governor was unable to dispose of them, and in consequence the state was unable to extend all the needed relief, and the suffering was great. The general government, however, furnished 3,789,788 rations during the eleven months ending September 1, 1866.

By an act passed February 6, 1869, bonds were authorized to be issued and substituted for those which became due in London in July, 1866; they bear 5 per cent. interest, payable semi-annually, and mature in 1886. Provision was also made for the payment of interest on the public debt. A temporary loan to the amount of $500,000 was authorized to be made by an act passed August 11, 1868. On the next day the governor was authorized to issue bonds to that amount and sell or hypothecate them. On February 19, 1867, an act was passed granting aid to all railroad companies which should thereafter construct and finish 20 miles of road, by indorsing the bonds of the company in the sum of $12,000 per mile for each section of 20 miles until the whole road was completed, the length of the road, however, to be not less than 30 miles. This act was amended on August 7, 1868, to the effect that, after the first 20 miles were completed, the indorsement should be at the rate of $12,000 per mile, and at a like rate for each 5 miles subsequently finished. On September 22, 1868, the amount was increased to $16,000 per mile.

By an act passed February 11, 1870, the governor was directed to issue to the Alabama and Chattanooga Railroad Company state bonds to the amount of $2,000,000, to bear 8 per cent. interest and payable in not less than 15 nor more than 30 years, in exchange for the first mortgage bonds of the company, to be properly secured upon the company's property.

The following shows the debt of Alabama in November, 1866, as appears from the governor's message at that date:*

Original bonded debt partly extended	$3,445,000 00
Amount of funded interest on the 5 and 6 per cent. bonds	687,990 00
Eight per cent. bonds sold for supplies and transportation	48,500 00
Eight per cent. bonds advanced to insane hospital	5,000 00
Total bonded debt	4,186,490 00
Amount of loan due Winslow, Lanier & Co., including interest and commission	363,572 22
Total	4,550,062 22

The revenues at this time were insufficient to pay the expenses of the state government, but the laws were so amended that it was believed the amount needed could be supplied. The expectation was not realized, however, the expenses for the year ending September 30, 1869, being $1,032,404 42, while the receipts were only $686,451 02, and it was again necessary to resort to a loan.

The bonded indebtedness on November 16, 1869, was $5,270,400, and the annual interest was $307,354.

* Senate Journal, 1866-'67, p. 10.

The amount of bonds indorsed by the state in aid of railroads under the act of February 19, 1867, and September 22, 1868, up to November 15, 1869, was as follows:

Alabama and Chattanooga railroad	$1,800,000
Montgomery and Eufaula railroad	480,000
Selma, Marion, and Memphis railroad	320,000
Total	2,600,000

The governor, in his message to the legislature in 1869, strongly recommended the repeal of the law authorizing such indorsement, and an act was passed limiting the right. These several statements of the debt are taken from the governor's messages; there seems to be quite a discrepancy, however, between the governor's figures and those furnished by the auditor. On November 21, 1871, the former stated the debt to be $5,442,300, while the latter stated it to be $8,761,917 37. The discrepancy arises from the fact that the auditor included the proceeds of the university land, which by the terms of the grant made by the general government were to constitute the permanent school fund, while the governor claimed that that fund constituted no part of the public debt, and that the state was only liable for the interest, inasmuch as by the terms of the grant the interest only was appropriated for educational purposes and the fund itself could not be paid to the beneficiary.

From the auditor's report, dated September 30, 1871, it appears that the contingent liability of the state, upon bonds indorsed for railroad companies, was $13,120,000, and that state bonds had been issued for railroad purposes aggregating $2,300,000, making a total of $15,420,000. This amount was increased during the next two years, and on September 30, 1873, the total amount indorsed was $19,006,000, of which, however, $3,632,000 had been taken up by the railroad company for which they were indorsed.

From the auditor's report of the same date it appears that—

The total bonded debt was	$6,543,800 00
Educational fund indebtedness	2,802,697 59
Outstanding state certificates	258,650 00
Outstanding auditor's warrants	353,688 48
Aggregate direct indebtedness	9,958,836 07

Loans were made from time to time for the purpose of extending maturing bonds. There was no obstacle to prevent the extension, inasmuch as the right to do so was reserved to the state by the terms of nearly all the bonds theretofore issued.

An act entitled "An act to maintain the credit of Alabama" was passed December 21, 1872.* The preamble to this act declares that "the vast natural wealth of Alabama puts beyond doubt the ability of the state to satisfy every outstanding liability contracted by the state", and that it was "the unalterable purpose of the state to satisfy every such liability at the earliest practicable period". The act authorized the governor to issue and dispose of bonds of the state for an aggregate sum not exceeding $2,000,000, to mature not more than 20 years from date, with interest not exceeding 8 per cent. per annum, payable semi-annually, and out of the proceeds to satisfy every liability of the state which had then matured, or would mature thereafter.

On the 25th day of February, 1873, another act was passed bearing a similar title. It authorized the issue of $1,500,000 of bonds bearing 8 per cent. interest, payable semi-annually, the principal to be paid in not less than 20 nor more than 30 years from date. The proceeds of these bonds were to be applied to the liquidation of the state's indebtedness. The act further provided that no bonds should be thereafter issued other than those thereby authorized, and those yet unsold of the issue authorized by the act of December 25, 1871, unless ordered by subsequent legislation. The indorsement by the state of the bonds of the railroad companies having gradually increased to the large sum above stated, the people became alarmed, and measures were taken to check this growing evil.

On the 21st of April, 1873, an act was approved providing for the substitution of state bonds to the amount of $4,000 per mile, instead of the state's indorsement of $16,000 per mile under the act of 1870. These bonds were to bear interest at the rate of 7 per cent. per annum, in gold coin, payable semi-annually, and to mature in 30 years. The act provided for the exchange of these bonds upon the surrender of the indorsed bonds and the issue to railroad companies for roads thereafter constructed. For the purpose of securing the state it was provided that for the first 5 years after the issue of such bonds the company to whom the same were issued should pay into the state treasury three-fourths of 1 per cent. of the gross receipts of the road, and that thereafter they should pay annually 5 per cent. of the gross earnings until the bonds issued under the act should be extinguished by such payments; the bonds were not to be sold at less than 90 cents of their par value. The companies had acquired vested rights under the act of 1870, and it was of course optional with them to accept or reject the proposition, but many availed themselves of it. During that year the state settled with many of the railroad companies who had become delinquent. The

*Acts 1872-'73, p. 43.

state credit suffered severely by reason of the non-payment, at maturity, of the interest on these indorsed bonds. Governor Lewis, in his message to the legislature of 1873–'74, says:

> The embarrassment surrounding our pecuniary engagements, and the means of complying with them, though serious before, are of course enhanced by the crisis in money circles. We are still suffering the crisis, commencing over two years since, in our experiment of constructing important lines of railroads, mainly by state credit. The theory that a railroad, while in progress of construction, could pay the interest on the bonds issued to build it, has been shown to be false; and this failure of the railroads to pay interest on the bonds, indorsed by the state, devolves on the state a debt the means for paying which have not been provided for in her assessment of taxes. The state has been in default in the payment of interest on some of these indorsed bonds since January, 1870. The immediate effect, to the injury of the state, of this failure to pay the interest on these indorsed bonds was to impair the market value of all her securities, to render loans impracticable except at great sacrifice, and eventually to render her bonds unsalable at rates that could be entertained. It was hoped by this department that the prompt payment of the interest on the bonds of the state, negotiated for its own loans, would keep that line of securities on a footing of recognized value, and afford the means of paying the past-due coupons on the indorsed bonds until a better day would dawn on the railroads themselves, and thus tide over our difficulties. But Wall street refused to recognize a compliance by the state with her financial obligations as long as any coupon of an indorsed bond of the state was not provided for on maturity. The whole of the last issue of state bonds could have been sold for eighty-five cents on the dollar to parties interested in the indorsed bonds of the railroads, provided all past-due coupons were paid. But the state did not have a sufficiency of funds to discharge all these coupons and pay the interest on the direct bonds of the state. If the act of the legislature entitled "An act to maintain the credit of Alabama", approved February 25, 1873, had authorized the issue of two millions of bonds, there would have been a sufficiency of funds at the command of this department to have paid off all the interest past due and accruing on both the direct and indorsed bonds of the state during the financial year just closed. But the legislature having authorized the issue of an amount inadequate to meet all the interest debt of the state, no sale could be made of the bonds authorized to be issued. This department has been unable to sell for money any of the state bonds during the present administration, being forced to follow in the footsteps of its predecessor in raising money by the hypothecation of the securities of the state as it best could.

On December 19, 1873, an act was passed authorizing the issue of "obligations" of the state to the amount of $1,000,000 in denominations of $10, $20, $50, and $100, for the purpose of funding the domestic or floating debt, to bear 8 per cent. interest, payable semi-annually, redeemable in 10 years, and to be exempt from taxation.

An act approved December 17, 1874, provided for the appointment of commissioners to liquidate and adjust all claims against the state arising from bonds issued or indorsed in the name of the state. The commissioners were appointed, and they made an elaborate report to the governor, who communicated the same to the legislature on January 24, 1876. In the meanwhile a constitutional convention was held, and a new constitution was adopted and ratified (in 1875), which, among other provisions, declared that the state should not engage in works of internal improvement nor lend money or its credit in aid of them, nor be interested in any private or corporate enterprise, or lend money or credit to any individual, association, or corporation; it further provided that the legislature should have no power to authorize any county, city, or town, or any other subdivision of the state, to loan its credit or grant public money to any individual, association, or corporation, or to become a stockholder in any corporation, association, or company. The report of the commissioners above-mentioned contained a scheme or plan of settlement of the state debt; it was approved by the legislature, which, on February 23, 1876, passed the "funding act". The governor was authorized to issue bonds, to be designated as "Class A", not exceeding, in the aggregate, $7,000,000, to be dated July 1, 1876, to be payable 30 years after date in the city of New York, and to bear interest as follows: 2 per cent. per annum for the first 5 years; 3 per cent. per annum for the second 5 years; 4 per cent. per annum for the next succeeding 10 years, and thereafter 5 per cent. per annum until their maturity, all payable semi-annually. The bonds were to be renewable at the pleasure of the state, with interest at the rate of 5 per cent. per annum. Bonds of this class were to be issued in exchange for the bonds issued under the following acts: February 9, 1852; December 15, 1865; January 18, 1866; February 13, 1866; February 6, 1867; August 12, 1868; February 17, 1870; December 15, 1871; February 19, 1872, and February 25, 1873; but the exchange and substitution was to be made in such manner that the new bonds should be given only for the principal of the bonds issued under the several acts mentioned, without allowing any interest. By a subsequent act (February 7, 1877) the exchange of $11,000 in bonds issued in May, 1833, was authorized upon the same terms.

The bonds were to be used further in exchange for one hundred and thirty bonds of $1,000 each, issued under the act of March 8, 1871; for twenty-eight bonds of $1,000 each of the issue 1873; for one hundred and forty-three bonds of like denomination, used in payment for the Alabama and Chattanooga railroad, under a decree of court; for a balance due the New York Guarantee and Indemnity Company (about $67,000); Duncan, Sherman & Co. (about $33,000), and the balance due the assignee in bankruptcy of the Alabama and Chattanooga Railroad Company; to Henry Clews & Co., not to exceed $310,000, upon the surrender of hypothecated bonds to the amount $650,000.

The second class of bonds, designated as "Class B", amounting in the aggregate to $596,000, bear 5 per cent. interest, but in all other respects are like "Class A"; they were to be used in substitution of and exchange for the bonds issued under the act of April 21, 1873, which authorized the issue of bonds in the sum of $4,000 per mile in lieu of the $16,000 per mile theretofore authorized to be indorsed for railroad companies, at the rate of 50 cents on the dollar upon the principal of such bonds, and no allowance to be made for interest, but as a set-off to such interest unpaid taxes due by railroad companies prior to October 1, 1875, were to be discharged and satisfied.

One thousand bonds of $1,000 each, to be dated January 1, 1876, were also authorized to be issued and

designated as "Class C", and bear interest for the first 5 years at the rate of 2 per cent. per annum, and thereafter 4 per cent. per annum, payable semi-annually, to be payable in 30 years, and, at the pleasure of the state, to be extended 30 years at 5 per cent. interest per annum, to be used only in retirement and exchange of the first-mortgage indorsed bonds of the Alabama and Chattanooga Railroad Company, dated 1869, and to be in full discharge of such bonds.

As a full discharge of the state's liability on account of the $2,000,000 in bonds issued under the act of February 11, 1870, in aid of the Alabama and Chattanooga Railroad Company, and of all interest due thereon, the state released to the bondholders all the lien and right of the state upon all the property of that company, the release to take effect and become operative only upon return of bonds and coupons, but the liability of the state by virtue of the bonds to cease upon the execution of the deed of conveyance for the property mentioned and certain other property mentioned in the act.

This funding scheme went into effect, and the compromise offered was accepted by nearly all the holders of the bonds during that and the subsequent year. In his report to the governor for the fiscal year ending September 30, 1877, the auditor estimated that when the entire debt was funded it would not exceed $9,668,423, and that debt could never be augmented beyond the sum of $100,000 (that being the limit fixed by the constitution of 1875) so long as the then existing organic and statutory laws remained in force, because the act of February 23, 1876, does not provide for the recognition of any other claims against the state. From the same document it appears that under the adjustment above-mentioned the state lost the sum of $1,542,500 by aiding the railroads. The annual interest on the state debt was about $265,000.

A further issue of bonds, to the amount of $1,000,000, was authorized by an act passed February 13, 1879, the proceeds to be applied to the redemption of the "obligations" of the state issued under the act of December 19, 1873,* to be payable in 20 years, or, at the pleasure of the state, after 10 years, with 6 per cent. interest, payable semi-annually, the coupons being receivable for taxes. Another act was passed on the same day authorizing the issue of "registered" bonds in exchange for the "coupon" bonds issued under the funding act of 1876.† The holders of the "obligations" above-mentioned did not hasten to surrender them, as they were considered a good investment, and during the years 1878 and 1879 but few were in circulation for that reason.

From the auditor's report for the fiscal year ending September 30, 1879, it appears that the adjusted and funded debt at that date was as follows:

Two per cent. bonds, "Class A" and "Class C"	$7,265,000
Five per cent. bonds, "Class B"	538,000
Eight per cent. "obligations"	1,000,000
Certificates not bearing interest	24,690
Total	8,827,690

This does not include the educational-fund indebtedness, which was assumed by the state and constitutes a part of the public debt, and which at that date amounted to $2,517,555 72, bearing an annual interest of $137,671 90. The total public debt, therefore, at that date was $11,345,245 72. The interest paid on the funded debt during the year 1878–'79 was $255,019.

From Governor Cobb's message to the legislature in November, 1880, it appears that the adjustment of the state debt under the act of February 23, 1876, was at that time progressing satisfactorily; that the entire interest-bearing bonded debt of the state at that time was $9,008,000,‡ with interest for the year 1880–'81 of $244,040, and for 1881–'82 of $319,130, owing to the increased rate on the bonds of classes "A" and "C." The governor also reported the sale of $960,000 in 6 per cent. bonds issued under the act of February 13, 1879, at a net premium of 1½ per cent., and the redemption with the proceeds of $960,000 of the 8 per cent. obligations.

MISSISSIPPI.

The ninth section of the seventh article of the original constitution of Mississippi provides that—

> No laws shall ever be passed to raise a state loan for the payment of any debt unless agreed to by a majority of the members of each house and published three months previous to the next regular election in three newspapers of the state, and unless a majority of each branch of the legislature so elected, after such publication, shall agree to pass such law.

On the 5th of February, 1838, the legislature passed an act, passed by a former legislature and duly published, to incorporate the subscribers to the Mississippi Union Bank. To furnish funds for the bank so incorporated the act

---

* These were the $10, $20, $50, and $100 8 per cent. non-taxable obligations.

† Act February 23, 1876.

‡ Evidently exclusive of the educational-fund debt.

provided for a loan of $15,500,000, indorsed by the state. The governor was required to issue 7,500 bonds upon the following conditions:

1. Books of subscription for the sum of $15,500,000 were to be opened.
2. The owners of real estate situated in the state of Mississippi should be the only persons entitled to subscribe.
3. Subscribers to give due mortgage security.
4. Stockholders to pay, in cash, the sum of $10 at call each.
5. When 5,000 shares should be subscribed, the governor to appoint provisionally thirteen directors.
6. When $500,000 had been subscribed, said bank to go into operation.
7. The governor of the state, on organization, to execute to the said bank, from time to time, bonds in amount proportionate to the amount subscribed.

The foregoing, with their minor details, were conditions-precedent to the issuance of any state bonds as provided. The same legislature passed a supplementary act, the first section of which provides:

> On opening of the books for stock in the Mississippi Union Bank the governor shall subscribe in behalf of the state for fifty thousand shares of the stock, the same to be paid for out of the state bonds to be executed to the said bank, the profits to be for the benefit of internal improvement and the promotion of education.

Regarding the transactions based on these laws, the select committee of 1842, in their report, declare that the passage of the supplementary act invalidated the original act.

The original act authorizing a loan for the benefit of the Mississippi Union Bank, as has been shown, required a number of precedent conditions to be complied with before the governor was allowed to issue a single bond. The main question to be decided, and which at the time occasioned great discussion and engendered not a little bitter feeling, was: Were these conditions complied with? The committee appointed to investigate the matter declared that not one was complied with, except the opening of the books and the election of the managers. And they furthermore said that not a dollar had been obtained by virtue of the law to which the people assented except in direct violation of that law; that the five-million loan was not obtained by the original charter, but "pursuant to the provisions of the supplemental charter", and as that, to all intents and purposes, was a distinct form of law from the original act of incorporation, obtaining a loan upon the credit of the state upon different principles and involving a different liability of the people, and without their consent or the action of a second legislature, as required by the constitution, those provisions of the supplemental act were palpably unconstitutional, and therefore null and void.

> If [the committee said] in this conclusion we are correct, then all the acts carrying those unconstitutional provisions into effect are equally unconstitutional and without authority, from which the conclusion is irresistible that the state was not bound to pay the bonds sold to Mr. Nicholas Biddle.

The committee further observed that the supplemental act was passed in direct violation of a rule of parliamentary law, the obligations of which were imperative, that a law passed at any session of the legislature shall not be repealed at the same session; and yet, in the face of that rule, by the passage of the supplement, they repealed important detailed provisions.

In a letter to Messrs. Hope & Co., of Amsterdam, Holland, dated July 4, 1842, Governor A. G. McNutt claims that $1,084,781 30 was lost on the sale of these bonds by selling them on a credit and changing them from dollars, the currency of the United States, to pounds sterling of Great Britain; and he further claimed that they were to be sold at their par value.

The following resolution exhibits the conclusion at which the committee arrived:

> *Resolved, therefore, by the legislature of the state of Mississippi,* That for the reasons set forth in the foregoing report this legislature denies that the state of Mississippi is under any legal or moral obligation to redeem the five millions of bonds sold by the commissioners of the Mississippi Union Bank to Nicholas Biddle on the 18th day of August, 1838.

The legislature invited the holders of these bonds to pursue the remedy afforded by the laws against the Mississippi Union Bank, and against all persons who, by connection with said institution, had rendered themselves liable for the debts of said bank.

In commenting on the position taken by the state of Mississippi in regard to the Union Bank bonds in 1844 Judge Curtis thinks that the strongest position in favor of the state was the selling of the bonds below par, when the act authorizing their issuance plainly stated that this could not be done. On the 18th of August, 1838, the commissioners sold all the bonds to Mr. Biddle for the sum of $5,000,000. The money was punctually paid to the bank, which went into operation, and before January, 1841, lost all its capital. If this matter had rested here, the state of Mississippi would not be legally bound to pay this debt. The commissioners certainly did not conform to their authority in making the sale. They were, in terms, prohibited from selling the bonds under their par value. The par value of a bond is the amount due upon it, and this includes interest as well as principal. They made such a sale as not to receive in cash an amount equal to the liability of the state on the bonds, and therefore they exceeded their authority. At that time the state had the legal right to insist on this want of authority, even against the subsequent purchasers of these bonds, because any one who takes a title through an agent is bound by law to look

to the authority delegated to him and to see that he acts or has acted within its scope in making the title. But, on the other hand, Judge Curtis claimed that the state made a mistake when its legislature met in 1839, for the first time after the sale of the bonds; that at the commencement of this session only one quarter of the purchase-money had been paid over to the bank, and the legislature, knowing the fact, resolved:

> That the sale of the bonds was highly advantageous to the state and the bank, and, in accordance with the injunctions of the charter, * * * bringing timely aid to an embarrassed community.

The next legislature (1840) appointed a committee on the bank, but uttered nothing respecting the sale of the bonds. The state was wrong in waiting until 1842, when the Union Bank had failed, before it discovered the illegal acts of its agents, which acts had been virtually ratified by two successive legislatures.

The state also issued to the Planters' Bank, by acts passed December 16, 1830, and February 5, 1833, the sum of $2,000,000. The laws issuing these amounts were passed according to the forms prescribed in the constitution, and no more objections seem to have been urged against their issuance. The railroad which was security for them utterly failed, and the Planters' Bank went into bankruptcy. The bonds went into default, and though not formally repudiated, as in the case of the Union Bank, were never received.

In a message from Governor Stone, read in the senate of Mississippi on the 9th of February, 1880, he says that shortly after the adjournment of the last legislature he received a communication from Edward Haslewood, esq., representing the holders of the Mississippi repudiated bonds in England, inclosing copies of a memorial addressed to the governor, the senators, and the representatives of the state of Mississippi, submitting a compromise proposition on behalf of said bondholders, embracing the following points:

1. Waiving all claim for the unpaid interest from the year 1840 to the last day of this year, say over $13,000,000.
2. The state to issue new bonds of $7,000,000, the original issue.
3. The new issue of bonds to bear graduated interest at 3 per cent. for the first year and upward for later years.
4. If deemed advantageous to the state, the said new issue of bonds to be received for any unoccupied land or lands belonging to the state at a certain rate.

A resolution was adopted in the senate providing for a joint committee, and containing the declaration that—

> By the provisions of the present constitution the state is prohibited from ever legalizing these bonds, the clause, which was adopted in 1875 reading: "Nor shall the state assume, redeem, secure, or pay any indebted ness claimed to be due by the state of Mississippi to any person, association, or corporation whatsoever, claiming the same as owners, holders, or assignees of any bond or bonds known as the Union Bank bonds or Planters' Bank bonds."

The debt of Mississippi in 1880, exclusive of the Chickasaw school fund, amounting to $815,229 11, upon which the state pays 8 per cent. interest, and of the repudiated bonds, amounted to $379,485.

LOUISIANA.

There is little information obtainable of the early financial history of Louisiana. On the 11th day of March, 1861, the finance committee of the house of representatives of Louisiana submitted a report to that body, presenting a tabular statement of the public debt of the state for nearly every year from 1840 to 1861, inclusive. An analysis of these liabilities shows that the debt consisted of two classes: the debt proper, incurred for the uses of the state, and the debt due by the "property banks", the municipalities of New Orleans, and other objects of a similar character. The state executed her bonds in aid of the corporations mentioned in the latter class of debt, and thus became liable for the payment thereof. The state debt proper consisted of bonds issued for railroad companies, trust funds, and various loans to the state.

The following is the statement referred to. It will be noticed that the debt was decreased from $23,309,246 in 1840 to $10,099,074 in 1861:

1840	$23,309,246 43
1844	21,433,523 03
1845	18,940,046 76
1846	16,669,022 70
1847	15,287,013 87
1848	14,874,021 49
1851	11,593,699 12
1852	11,766,407 44
1853*	9,841,937 41
1854	12,459,349 93
1855	12,768,736 35
1856	10,703,142 05
1857	10,600,779 93
1858	10,701,641 75
1859	10,023,903 58
1861	10,099,074 32

* The cause of the slight difference between the amount here shown and that exhibited on page 554 is not known.

The debt of the state in 1861 ($10,099,074 32) was composed of the following items:

Liabilities for property banks	$5,398,533 33
Liabilities for municipality No. 2	198,240 00
Debts proper, in bonds	3,978,000 00
Amount due on bonds issued to the Clinton and Port Hudson Railroad Company	9,000 00
Debts proper, in trust funds, payable on demand	515,300 99
Total	10,099,074 32

The report of the auditor of public accounts for the year ending December 31, 1865, shows a slight increase of the public debt during the interval from 1861 to 1866, mainly in the "debt proper", which at the above date stood at $5,526,604. The other liabilities of the state amounted to $5,655,773, making the total public debt $11,182,377, as follows:

Liabilities for property banks	$5,398,533 33
Liabilities for municipality No. 2	198,240 00
Amount due on bonds issued to Clinton and Port Hudson Railroad Company	9,000 00
Amount due Louisiana state bank	50,000 00
Debts proper in trust funds, payable on demand	1,495,603 81
Debts proper in bonds maturing between the years 1867 and 1901	4,031,000 00
Total	11,182,377 14

In 1866 the legislature authorized the issuance of bonds to defray the expense of constructing levees, and for this purpose bonds were executed to the amount of $1,000,000. By an act of this legislature there were also issued bonds aggregating $997,300 for the purpose of paying certain bonds and coupons past due. In 1867 there were issued bonds in the sum of $4,000,000 for the further construction of levees, and in 1870 $6,000,000 more were issued for this purpose. In 1869 there were issued $500,000 in bonds for the state penitentiary and $474,000 in aid of the Mississippi and Mexican Gulf ship-canal. The debt of the state on the 1st day of January, 1871, stood as follows:

Liabilities for property banks	$4,838,933
Debts proper, in trust funds	868,195
Debts proper, in bonds	16,848,685
Certificates of indebtedness	33,815
Total debt	22,589,628

During the year 1871 the debt proper was still further increased by the execution of bonds to the amount of $2,500,000, issued in aid of New Orleans, Mobile and Texas Railroad Company, and on the 1st day of January, 1872, according to the report of the auditor of public accounts, the total debt proper of the state amounted to $20,188,800. In addition to this amount the state was liable for the payment of the bonds loaned to the various banks, which aggregated $6,579,683. The miscellaneous debts of the state amounted to $3,476,269, which, together with the amount of bonds issued under authority of acts of the general assembly prior to 1871 ($11,489,000), made the total liabilities of the state $41,733,752.

On the 25th of May, 1872, the general assembly passed an act providing for the registration and payment of state warrants and certificates of indebtedness, and creating a fund for the payment of the same; also abolishing the "redemption of the state-debt fund" and the free-school fund, and making provisions for the state to meet its obligations to the last-named fund abolished.

This act provides that there shall be registered in the office of the state treasurer all unpaid warrants and certificates of indebtedness issued by the auditor of public accounts in accordance with law, and which are payable out of the general fund, that were issued prior to the 1st day of January, 1872, or that may be issued at any subsequent date.

It is further enacted in section 2 of this act that the fund in the state treasury known as the "redemption of the state-debt fund" be abolished, and that all moneys, bonds, and other assets belonging to said fund at the time this act goes into effect shall be transferred by the state treasurer to the credit of a fund hereby created, and to be known as a fund for the redemption of the floating debt of the state due or created on or before December 31, 1871. Section 9 of this act provides that all warrants and certificates of indebtedness registered under this act and in accordance with its provisions, except such as may be exchanged for bonds, as provided elsewhere in the act, shall bear interest at the rate of 6 per cent. per annum from the date of their registry until paid.

The bonded debt proper of the state, January 1, 1873, amounted to $21,801,800, classified as follows:

Bonds bearing 8 per cent. interest	$8,720,000
Bonds bearing 7 3/10 per cent. interest	480,000
Bonds bearing 7 per cent. interest	500,000
Bonds bearing 6 per cent. interest	12,062,800
Bonds bearing 5 per cent. interest	39,000
Total	21,801,800

The above amount was increased during the year 1873 by the issue of $701,000 in bonds, under authority of acts of the general assembly passed in 1869 and 1870. Bonds to the amount of $72,000 were redeemed during the year, leaving the bonded debt proper, January 1, 1874, at $22,430,800.

On the 24th day of January, 1874, an act was passed to provide for funding the obligations of the state by exchange for bonds, to provide for the principal and interest of said bonds, and to limit the indebtedness of the state. Section 1 of this act recited that for the purpose of consolidating and reducing the bonded and floating debt of the state the governor, lieutenant-governor, auditor, treasurer, secretary of state, and speaker of the house of representatives were authorized to issue bonds, known as the "consolidated bonds of the state of Louisiana", to the amount of $15,000,000, or as much thereof as may be necessary, all payable 40 years from January 1, 1874, to bear interest at the rate of 7 per cent. When these bonds were all prepared and regularly signed, they were to be exchanged by the board of liquidation, composed of the persons above-mentioned, for all valid outstanding bonds of the state, and all valid warrants drawn previous to the passage of the act, at the rate of sixty cents in consolidated bonds for one dollar in outstanding bonds and all valid warrants. The act imposed a penalty upon any one using these consolidated bonds for any other purpose than that of exchange, as herein provided. The act also provided that the bonds and valid warrants outstanding at the time of passage of the act should, as fast as they were received in exchange for consolidated bonds, be canceled and destroyed by the board of liquidation.

In section 13 it is enacted that, prior to the year 1914, the entire state debt shall never be increased, directly or indirectly, beyond the sum of $15,000,000, authorized to be issued under this act, it being the object and intent of this act to reduce and restrict the whole indebtedness of the state to a sum not exceeding $15,000,000, and to agree with the holders of the consolidated bonds to be issued under this act that said indebtedness shall not be increased beyond said sum.

On this date (January 24, 1874) another act was passed proposing constitutional amendments, one of which was in relation to the consolidated bonds to be issued under the act above, declaring said bonds to be a valid contract between the state and the holder of the bonds. It also provides that the state debt shall never be increased beyond $15,000,000.

There were old bonds funded in 1874 amounting to $1,403,700, for which there were issued new consolidated bonds, under the funding bill, to the amount of $842,220. New bonds were also issued, amounting to $109,635, for $182,725 of old warrants. The bonded debt, old and new, January 1, 1875, was $21,978,955, which amount was reduced during the succeeding year to $18,472,444 by the exchange of old bonds, for the new consolidated bonds, under the act of January 24, 1874.

The following table exhibits the amount and classes of bonds outstanding January 1, 1874, previous to the passage of the funding bill:

Relief of state treasury	$750,000
New Orleans, Jackson and Great Northern Railroad Company	884,000
New Orleans and Nashville Railroad Company	441,000
New Orleans, Opelousas and Great Western Railroad Company	650,000
Vicksburg, Shreveport and Texas Railroad Company	298,000
Baton Rouge, Grosse Tête and Opelousas Railroad Company	160,000
Expenses of building levees	1,000,000
Expenses of building levees	4,000,000
Work on levees (special levee bonds)	2,960,000
Purpose of paying certain debts	978,800
Purpose of paying certain debts	
Purpose of paying certain debts	
Free school fund	529,000
Seminary fund	136,000
Mississippi and Gulf Ship-Canal Company	480,000
Louisiana state penitentiary	500,000
North Louisiana and Texas Railroad Company	1,122,000
Relief of P. J. Kennedy	134,000
Floating debt	2,950,000
Boeuf and Crocodile Navigation Company	80,000
New Orleans, Mobile and Chattanooga Railroad Company	750,000
New Orleans, Mobile and Texas Railroad Company, act of 1869	875,000
New Orleans, Mobile and Texas Railroad Company, act of 1871	2,500,000
Mexican Gulf Railroad Company (past due)	3,000
Redemption of certificates of indebtedness	250,000
Total	22,430,800

In addition to the above bonded debt, there were outstanding warrants at that date to the amount of $1,006,840. Of the bonded debt ($22,430,800) there had been funded in new consolidated bonds, up to January 1, 1880, $18,034,800.

The new constitution, adopted in convention at New Orleans July 23, 1879, contains the following ordinance relating to the state debt:

ARTICLE 1. *Be it ordained by the people of the state of Louisiana in convention assembled*, That the interest to be paid on the consolidated bonds of the state of Louisiana be, and is hereby, fixed at 2 per cent. per annum for five years from the first of January, eighteen hundred and eighty, 3 per cent. per annum for fifteen years, and 4 per cent. per annum thereafter, payable semi-annually; and there shall be levied an annual tax sufficient for the full payment of said interest, not exceeding three mills, the limit of all state tax being hereby fixed at six mills: *Provided*, The holders of consolidated bonds may, at their option, demand in exchange for the bonds held by them bonds of the denomination of five dollars, one hundred dollars, five hundred dollars, one thousand dollars, to be issued at the rate of seventy-five cents on the dollar of bonds held and to be surrendered by such holders, the said new issue to bear interest at the rate of 4 per cent. per annum, payable semi-annually.

ART. 2. The holders of the consolidated bonds may at any time present their bonds to the treasurer of the state or to an agent to be appointed by the governor—one in the city of New York and the other in the city of London—and the said treasurer or agent, as the case may be, shall indorse or stamp thereon the words "interest reduced to 2 per cent. per annum for five years from January first, eighteen hundred and eighty, 3 per cent. per annum for fifteen years, and 4 per cent. per annum thereafter": *Provided*, The holder or holders of said bonds may apply to the treasurer for an exchange of bonds, as provided in the preceding article.

ART. 3. *Be it further ordained*, That the coupon of said consolidated bonds falling due the first of January, eighteen hundred and eighty, be, and the same is hereby, remitted, and any interest taxes collected to meet said coupon are hereby transferred to defray the expenses of the state government.

Be it further ordained, and it is hereby ordained by this constitutional convention, That the foregoing provisions and articles relative to the consolidated debt shall not form a part of this constitution, except as hereinafter provided, as follows:

At the election held for the ratification or rejection of this constitution it shall be lawful for each voter to have written or printed on his ballot the words, "For ordinance relative to state debt," or the words, "Against ordinance relative to state debt;" and in the event that a majority of the ballots so cast have indorsed on them the words, "For ordinance relative to state debt," then the said foregoing provisions and articles of this ordinance shall form a part of the constitution submitted if the same is ratified, and if a majority of the votes so cast shall have indorsed on them the words, "Against ordinance relative to state debt," then said provisions and articles shall form no part of this constitution.

This ordinance was submitted to the people with the new constitution, and was ratified by a large majority.

TEXAS.

It is difficult to obtain a correct history of the debt of the republic and the state of Texas. In April, 1837, according to the report of Henry Smith, secretary of the treasury, the debt of the republic of Texas was $570,163 44. In November, 1837, it had increased to $1,090,986 45; September 30, 1838, to $1,187,525 32. In 1839 it had reached $3,102,083 35; in 1840, $5,485,502 28; in 1841, $7,704,328 17. Though a thorough search has been made, no other statement can be found from which to form a table of the public debt of a later date than September, 1841, until the report of the auditor of 1850–'51. Gouge, in his *Fiscal History of Texas*, says:

Probably both government and people had become tired of thinking about what they could not pay. Very little appears to have been added to the capital of the debt after 1841, for the very good reason that the credit of Texas was by that time so exhausted that she could borrow no more.

The increase between that time and the final settlement, in 1851, was chiefly owing to increments of interest, and to the bringing in of old claims not before presented. On the 20th of March, 1848, an act was passed by the legislature, entitled "An act to provide for ascertaining the debt of the late republic of Texas". The result of this inquiry divided the debt of the republic into three classes. In the auditor's report each of these classes of claims was carefully examined, and after the value received in each case by the state had been taken into consideration the value, or what the state would pay on them, was estimated. The ostensible value of the first class of liabilities, including interest, up to 1850, was $8,587,132 92; the value assigned them, $3,817,321 64. The ostensible amount of the claims of the second class was $962,445 12; the value assigned them, $892,767 63. The ostensible value of the third class of claims was $97,675 10, for which the full amount was allowed. The following is a recapitulation of the ostensible amounts of the three classes of Texas securities and the value assigned to each:

Class.	Ostensible amount.	Value assigned.
Amount of first class	$8, 587, 132 92	$3, 817, 321 64
Amount of second class	962, 445 12	892, 767 63
Amount of third class	97, 675 10	97, 675 10
Total	9, 647, 253 14	4, 807, 764 37

From the foregoing statement it will be perceived that the entire amount of claims filed, including interest on all liabilities stipulated to bear interest, amounted to $9,647,253 14, to which was assigned the value of $4,807,764 37. The state authorities justified this reduction on the ground that the state had not received full value for its securities. For example, to the engraved interest-notes there was assigned an average value of 40 cents on the dollar. These notes were issued under the provisions of the same act as the printed bills, and took their place. About the time of the first issue of these notes (the spring of 1838) this species of the government paper commenced depreciating, so that when the act of 19th of January, 1839, prohibiting their further issue, went into operation they were worth

but about 40 cents on the dollar. To the treasury notes not bearing interest, generally known as "red-backs", was assigned an average value of 25 cents on the dollar. These notes superseded the engraved interest-notes above referred to, and the first issue of them was made during the spring of 1839, when they were worth about 37½ cents on the dollar. They continued depreciating, so that in 1841 the government was compelled to pay them out at from 12 to 15 cents on the dollar. The value assigned them was claimed to be equitable, as an average, both to the government and the holders. In this way the various funds and stocks were examined and adjusted.

When Texas became a state of the Union the United States possessed itself of a portion of the resources [customs] which had been pledged to give a credit to the securities of the republic of Texas, and hence it became necessary for the government of the United States to make equitable compensation for the diversion of these resources from the purposes to which they were so pledged. This view seems to have been taken by Congress in the passage of the Texas "boundary bill". It was provided in that bill that, in consideration of certain concessions of Texas, the United States—

Shall pay to the state of Texas ten millions of dollars in a stock bearing 5 per cent. interest, and redeemable at the end of fourteen years, the interest payable half yearly at the treasury of the United States.

But it also provided that—

No more than five millions of said stock shall be issued until the creditors of the state holding bonds and other certificates of stock of Texas, for which duties on imports were specially pledged, shall first file at the treasury of the United States releases of all claims against the United States for or on account of said bonds or certificates, in such form as shall be prescribed by the Secretary of the Treasury and approved by the President of the United States.

By the report of the comptroller, made on the 29th of August, 1850, it appears that the ostensible or face value of the whole amount of the public debt, principal and interest, was $12,322,443 04; the assigned value, $6,818,798 40. This left to the state of the $10,000,000 to be received from the United States, after paying the entire debt, upward of $3,000,000. That portion of the debt for which the revenue and customs were specially pledged amounted only to $868,000 ostensible value, or $611,784 50 assigned value. At the close of 1851 the whole amount of the principal of the debt of Texas was $8,700,305 11; unpaid interest, $3,735,677 37; total, $12,435,982 48. This debt was estimated by Texas in specie as follows:

Principal	$4,965,394 15
Interest	1,881,928 08
Total	6,847,322 23

At the close of 1856 the comptroller of the state of Texas, in a report, gives the following picture of the finances of that state. He says:

The state is out of debt, with a surplus of over a million of dollars in the treasury, a permanent 5 per cent. school fund of two millions of dollars, an unappropriated public domain estimated at 100,000,000 of acres, which, if judiciously used, would subserve all the purposes of internal improvements required by the state, and a tax lighter than is imposed on any other people, and which is adequate to all the wants of the government. The aggregate amount of taxable property is very nearly $150,000,000, being an increase of $22,500,000 over the previous year.

According to the auditor's statement for April 15, 1872, the total of the debt of Texas was then $2,288,482. At the close of the next year, according to the governor's message, the total indebtedness of Texas was $1,662,998 78—an amount which the governor said could be paid off by a tax for a single year at less than a half of 1 per cent. on the taxable value of the property in the state.

From Governor Coke's message to the legislature, dated February 10, 1874, inclosing a report from the comptroller, it appears that the audited state debt at that time was $1,668,131, of which $486,800 was floating debt, $174,000 in bonds held for the Agricultural and Mechanical College, and $327,074 due in New York, for which bonds of the state had been deposited as collateral. In addition to this, the school fund of the state held $537,008 in the bonds of the state. There was further an unadjusted railroad claim for subsidy, not exceeding $3,000,000.

To the constitutional convention the comptroller reported that the state had loaned $1,816,500 to various railroad companies, and that the interest on the loans which had accrued up to May 1, 1870, was funded. On the whole amount the companies were paying 6 per cent. interest and 1 per cent. for a sinking fund. The amounts loaned, and those then owing, were as follows:

Railroads.	Original loan.	Now owing.
Houston and Texas Central	$450,000	$594,472 38
Washington County	66,000	93,910 98
Galveston, Harrisburg and San Antonio	420,000	588,625 47
Houston Tap and Brazoria*	300,000	.....
Texas and New Orleans	430,500	588,871 47
Southern Pacific	150,000	200,885 90
Total	1,816,500	2,066,766 20

* This road defaulted in its payments and was sold by the state.

The land grants to various roads had been as follows:

	Acres.
San Antonio and Mexican Gulf	238,720
Houston and Texas Central	4,769,280
Houston Tap and Brazoria	512,000
Washington County	245,120
Texas and New Orleans	1,228,800
East Texas	287,720
Memphis, El Paso and Pacific	321,280
Southern Pacific	368,640
Texas and Pacific	1,763,840
Galveston, Houston and Henderson	611,840
Houston and Great Northern	2,311,040
International	2,572,800
Waco and Northwestern	481,280
Galveston, Harrisburg and San Antonio; Buffalo Bayou, Brazos and Colorado	1,760,840
Indianola	179,840
Rusk	79,360
Columbus Tap	49,280
Gulf, Western Texas and Pacific	302,720
Total	18,084,400

This statement includes all the land for which certificates have been issued from the state land office. In 1876 the new constitution of Texas was adopted, and in it important provisions were inserted respecting the future financial policy of Texas. Section 49 of article 3 of the new constitution provides as follows:

No debt shall be created by or on behalf of the state, except to supply casual deficiencies in the revenue, repel invasion, suppress insurrection, defend the state in war, or pay existing debt; and the debt created to supply deficiencies in the revenue shall never exceed in the aggregate, at any one time, two hundred thousand dollars.

The constitution also precludes the state from loaning or giving its credit to any corporation or individual. Sections 50 and 51 provide:

The legislature shall have no power to give or to lend, or to authorize the giving or lending of the credit of the state in aid of or to any person, association, or corporation, whether municipal or other, or to pledge the credit of the state in any manner whatsoever for the payment of the liabilities, present or prospective, of any individual, association of individuals, municipal or other corporation whatsoever.

SEC. 51. The legislature shall have no power to make any grant, or authorize the making of any grant of public money to any individual, association of individuals, municipal or other corporation whatsoever: *Provided*, That this shall not be so construed as to prevent the grant of aid in case of public calamity.

The bonded debt of the state, August 31, 1875, was $4,644,596; August 31, 1876, $5,412,382; August 31, 1878, $5,571,117.

The assessed value of property has increased from $208,000,000 in 1872 to $318,000,000 in 1880.

The small debt of the state, and the promptness with which her annual interest is paid, have placed Texas bonds in the front rank of state securities.

Bonded debt of Texas, August 31, 1880		$5,566,928
Purposes:		
Refunding old debt		2,843,920
Funding floating debt		994,000
Schools (bonds issued to university and school funds)		537,008
Miscellaneous:		
Frontier defense bonds	$692,000	
Revenue deficiency bonds	500,000	
		1,192,000
Total		5,566,928

Rates of interest: 4 per cent., $4,620; 5 per cent., $1,333,941; 6 per cent., $2,042,367; 7 per cent., $2,186,000.

ISSUE.		MATURITY.	
1864	$320,367	1891	$575,000

1879	1,121,920		
Total	5,566,928	Total	5,566,928

* These bonds matured January 1, 1879, but have not yet been paid and canceled by the state.

ARKANSAS.

Arkansas was admitted as a state into the Union in 1836. Though her territory was large, her population was small and generally in indigent circumstances. There were but little over 50,000 inhabitants, possessing an aggregate wealth of not more than $15,000,000. In common with the other states, the land excitement had seized upon the inhabitants of Arkansas, and, in addition to this, the most valuable portion of the lands fell into the hands of non-resident speculators, precluding the purchase by actual settlers and retarding the development of the country. Almost immediately after the admission into the Union as a state two banks were chartered by the legislature, the Bank of the State of Arkansas and the Real Estate Bank. In order to procure a capital fund on which to base their operations bonds of the state to the amount of $2,827,000 were sold, for the redemption of which the faith of the state was pledged. Thus a heavy debt, with accumulating interest, was fastened upon the state during the first year of its existence. The management of these institutions was unfortunate, and a few years afterward the banks were placed in liquidation by an act of the legislature. The surplus revenue which had been distributed to Arkansas by the United States was used as a portion of the capital fund of the State Bank, and subsequently to defray the ordinary expenses of the state government. The seminary fund, together with the proceeds of 500,000 acres of land, given to the state for internal improvement purposes, was divided among the counties.

The total amount of unredeemed state bonds, with interest due thereon, October 1, 1852, was as follows:

Amount issued to Bank of the State of Arkansas	$1,558,620 00
Real Estate Bank bonds, and accruing interest	2,381,750 00
This institution also owed on 500 hypothecated bonds in the hands of James Holford	122,389 77
And accrued interest, amounting to	88,610 23
Total	4,151,370 00

From this time on, until the beginning of the war, but little can be said in relation to the state debt. Railroads were constructed, and the state aided them by subscriptions to a small amount. On October 1, 1868, the amount of unredeemed bonds issued to the State Bank and the Real Estate Bank, including interest, was $4,993,503 19; and on April 6, 1869, an act funding the state debt was passed by the legislature, by the terms of which new bonds were to be issued, one-half to be dated July 1, 1869, and the other half January 1, 1870, payable 30 years after date, with interest at 6 per cent. per annum. In passing this act the bonds hypothecated by the Real Estate Bank were included in the adjustment.

The history of this part of the debt is as follows:

On September 7, 1840, the Real Estate Bank pledged $500,000 in bonds to the New York Trust and Banking Company, expecting to receive thereon $250,000, but obtaining in reality only the sum of $121,336 59. This bank, being at the time deeply indebted and in failing circumstances, transferred the bonds to one Holford, who received them in payment of a debt of $350,000. It was contended on behalf of the state that inasmuch as the law provided that these bonds should not be put upon the market at less than their par value, although they were in the hands of an innocent third party, the state was not bound to pay them.

In the same year acts were passed loaning the credit of the state to the Little Rock and Fort Smith Railroad Company and to the Arkansas Central Railroad Company. The legislature also provided for the building of levees, and to pay for the construction thereof issued bonds. Some of the bonds which were issued to the Real Estate and State Banks were held by the United States government in trust for the Smithsonian Institution and for the Chickasaw Indians, and when the banks of the state failed to pay the interest due thereon the government retained the 5 per cent. due the state on account of the land sales and applied it to the payment of interest.

The following statement of the state indebtedness is taken from the message of Governor Hadley, delivered January 6, 1873:

Amount of funded debt 6 per cent. bonds	$3,050,000
Amount of old debt not funded	2,365,748
Amount of levee bonds, swamp-land scrip, etc., outstanding	2,146,649
Amount of auditor's warrants and treasurer's certificates outstanding, about	1,100,000
Total	8,662,397
Bonds issued to railroads	4,950,000

On the 30th of September, 1878, the undisputed bonded debt for which the state was directly liable was $3,193,500, and the accumulated interest $2,264,050, making a total of $5,457,550.

The amount of bonds issued in aid of railroads, including interest, was $7,135,298 76; levee bonds, including interest, $2,855,488 98; and the 6 per cent. funding bonds of 1870, known as the Holford bonds, including interest, $1,787,120. The railroad aid bonds and the levee bonds were, by the supreme court of the state, decided to have

been illegally issued, and therefore void. The decision was based upon a technicality. The constitution of the state provides that every act which creates liability or makes an appropriation shall be passed by a majority of two-thirds of each house of the legislature, and the vote thereon shall be taken by yeas and nays and entered upon the journal. This formality seems to have been omitted, and upon that, and that alone, the decision was rendered. The equities of the bondholders were not taken into consideration. An amendment to the constitution was proposed and submitted to the people on the 6th day of September, 1880, which, in effect, would have been a repudiation of these bonds. The amendment is as follows:

ARTICLE XX. The general assembly shall have no power to levy any tax or make any appropriations to pay either the principal or interest, or any part thereof, of any of the following bonds of the state, to wit: Bonds issued under an act of the general assembly of the state of Arkansas, entitled "An act to provide for the funding of the public debt of the state", approved April 6, A. D. 1869, and numbered from four hundred and ninety-one to eighteen hundred and sixty, inclusive, being the "funding bonds" delivered to F. W. Caper, and sometimes called "Holford bonds", or bonds known as railroad aid bonds, issued under an act of the general assembly of the state of Arkansas, entitled "An act to aid in the construction of railroads", approved July 21, A. D. 1868, or bonds called "levee bonds", being bonds issued under an act of the general assembly of the state of Arkansas, entitled "An act providing for the building and repairing the public levees of the state, and for other purposes", approved March 16, A. D. 1869, and the act entitled "An act to amend an act entitled 'An act providing for the building and repairing of the public levees of this state'", approved March 23, A. D. 1871; and any law providing for any such tax or appropriation shall be null and void.

The amendment failed to become a law, as it did not receive a majority of all the votes cast at the election.

The outstanding bonded debt of the state, September 30, 1880, exclusive of railroad aid debt, was $2,813,500, as follows:

Six per cent. bonds of 1838, issued to the State Bank	$108,000
Five per cent. bonds of 1837, issued to the State Bank	22,000
Six per cent. bonds of 1838, lettered "a", issued to the Real Estate Bank	530,000
Six per cent. bonds of 1838, lettered "c", issued to the Real Estate Bank	45,000
Six per cent. funding bonds of 1869	810,000
Six per cent. funding bonds of 1870 (exclusive of Holford bonds)	625,000
Ten per cent. ten-year bonds of 1874 (principal and interest)	261,500
Six per cent. bonds of 1874 (Loughborough bonds, principal and interest)	412,000
Total	2,813,500

TENNESSEE.

There is little to be said in regard to the debt of Tennessee prior to October, 1832, when the state subscribed $500,000 to the capital stock of the Union bank, and issued bonds therefor.

The Bank of the State of Tennessee was chartered in 1838, and under a provision of that charter $2,500,000 in bonds were issued to form part of the capital stock of the bank. The bank was a state institution, having no private stockholders. The state also, at different times, issued bonds to railroad and turnpike companies in aid of the construction thereof, and for the purpose of securing the prompt payment of interest and the extinguishment of the debt first mortgages were executed to the state.

The state steadily pursued this policy, and the interest on the bonds was promptly paid until the war of the Rebellion was in progress.

The total amount of bonds outstanding in 1861 was about $18,000,000. In that year the state also issued $3,000,000 of 8 per cent. bonds for the "defense of the state", which debt was declared void, as having been contracted in aid of the Rebellion.

Governor Brownlow, in his message to the legislature in April, 1865, stated the debt of Tennessee, exclusive of $3,000,000 in 8 per cent. bonds for the defense of the state, at $3,894,666 66, bearing an annual interest of $212,388 25. He further stated that in addition to this the state had issued bonds for the purpose of internal improvements, and had largely indorsed the bonds of railroad companies, thus incurring an additional indebtedness of something more than $16,000,000, and that in order to preserve the credit of the state unimpaired it was believed that these bonds and the annual interest of $1,185,048 25 must be provided for. A portion of the state debt proper was already due, $66,666 66 having matured in 1861; $61,250, in 1862; $177,750, in 1863; and $58,500, in 1864.

The following statement is taken from the comptroller's report made in October, 1865:

State bonds loaned to railroad companies	$14,006,000
Interest due on same	3,769,507
City of Memphis and railroad company's bonds indorsed by state	2,207,000
Interest due on same	550,680
State debt proper	3,894,666
Interest due on same	849,553
Total state liability, actual and contingent	25,277,406

The item of $2,207,000 is for bonds issued by the city of Memphis in aid of the Memphis and Little Rock Railroad Company, indorsed by the company and then by the state.

The revenues of the state at this time (1865) were small and insufficient to pay current expenses and the interest on the debt. A great portion of the railroad companies to whom bonds were issued did not pay the interest, and the state credit consequently suffered.

These delinquent roads were from time to time sold, and the proceeds applied to the payment of the bonds.

An act was passed November 23, 1865, providing for the issue of 6 per cent. bonds, to be dated January 1, 1866, and to mature on January 1, 1892, for the purpose of paying off all past-due bonds and interest, as well as those to become and fall due January 1, 1866, and those to become due in the year 1867, issued or indorsed by the state prior to the so-called act of secession, passed May 6, 1861.

On February 16, 1866, an act was passed to wind up and settle the business of the Bank of Tennessee, and it was put in liquidation. The act provides for the collection of debts, and that the directors should studiously refuse to receive and exclude all issues of said bank made after May 6, 1861; also, all issues signed by G. C. Torbett. The act declares all such issues void. The officers of the bank had taken all the assets of the institution during the rebellion; but they were recaptured, and the specie was invested in 7-30 bonds, amounting to $618,250, and this amount was placed in the hands of the treasurer of the state, in trust for the school fund. The act above referred to provides that, out of the assets of the bank, the sum of $1,500,000 belonging to the school fund should be first paid, and the remaining assets should be divided *pro rata*.

On January 18, 1866, bonds to the amount of $3,408,000 were authorized to be issued to railroad companies, as follows:

Memphis and Ohio Railroad Company	$300,000
Memphis, Clarksville and Louisville Railroad Company	400,000
Edgefield and Kentucky Railroad Company	115,000
Manchester and McMinnville Railroad Company	346,000
Nashville and Northwestern Railroad Company	300,000
Mississippi and Tennessee Railroad Company	50,000
East Tennessee and Virginia Railroad Company	300,000
Knoxville and Kentucky Railroad Company	250,000
Winchester and Alabama Railroad Company	372,000
East Tennessee and Georgia Railroad Company	250,000
Mississippi Central Railroad Company	200,000
Memphis and Charleston Railroad Company	300,000
Rogersville and Jefferson Railroad Company	100,000
Nashville and Chattanooga Railroad Company	125,000
Total	3,408,000

The bonds were to bear date January 1, 1866, and be payable January 1, 1892, and the roads were to pay the interest and deposit with the state 4 per cent. annually as a sinking fund. Under similar provisions, the further sum of $2,550,000 was loaned to several other companies by an act passed December 10, 1866.

For the purpose of providing for the payment of interest and bonds due, and to become due within three years from the passage of the act, an act passed on March 13, 1868, authorized the board of finance (governor, secretary of state, comptroller, treasurer, and president of the state bank) to borrow money, at a rate of interest not to exceed 9 per cent., by the sale or pledge of state bonds, the sale of bonds to be at not less than par. Two members of the board refused to act (secretary of the state and comptroller). Governor Brownlow, in his message to an extra session of the legislature held on July 27, 1868, stated that the want of harmony in the councils of the board, and certain charges made by the retiring members, had caused a failure in negotiating the loan to meet the July interest, and had injured the credit of the state. The first act passed at that session was entitled "An act to regulate the state finances".* The act is prefaced by a long preamble, setting forth the causes of the debt and failure to pay, deprecating the failure to negotiate the loan to meet the July interest, and providing for the issuing of coupon bonds, falling due on January 1, 1900, in payment of all bonds of the state falling due in 1868, 1869, and 1870.† The comptroller was authorized to borrow money at 6 per cent. to pay the interest now or hereafter to become due, and, if necessary, to pledge the bonds of the state. The faith and credit of the state was pledged for the repayment of money thus borrowed.‡

In 1869 (July 1) the total amount of bonds issued and loaned to railroad companies or indorsed by the state, interest funded and interest due, was $34,127,524 07, and in addition to this the state assumed the claims of the United States against the Edgefield and Kentucky railroad for $130,804 58, and against the Memphis, Clarksville, and Louisville railroad for $380,756 24. The state debt proper was $3,473,159 66, and the unpaid interest thereon was $1,100,000; making a total of $4,573,159 66. The amount loaned to turnpike and other companies, including interest, was $647,060, and $37,200 to the agricultural bureau, making the total $39,896,504 55.

* Acts special session, 1868, p. 15. † The act is silent as to interest. ‡ The act of March 13, 1868, was repealed.

An act was passed in 1869, and amended in 1870, providing that railroad companies to whom bonds of the state had been loaned might cancel their obligation to the state with bonds of any series or number, except the bonds issued to the "Mineral Home Railroad Company" and to "the insurance company of the valley of Virginia". The state thus, as stated by Governor Brown, in his message in 1871, made "an unmistakable declaration to the world that all other bonds issued under the semblance of law are regarded as obligatory upon the state". Under this act over $8,000,000 of bonds were retired and canceled.

The governor estimated that after exhausting all other sources the balance of the bonded debt, including interest to January 1, 1872, was about $19,493,173 66. The floating debt at this time was $1,668,417 27, and the current expenses of the state government about $600,000.

This estimate was based upon the following figures:

Entire indebtedness of the state, including the floating debt and interest on the bonded debt, to January 1, 1872, after deducting the amount of indorsed bonds which are solvent, together with bonds and coupons paid in, is		$32,152,156 19
Deduct the indebtedness of solvent roads that pay interest, with interest added to January 1, 1872		5,776,533 76
Leaving a balance of		26,375,622 43
Deduct from this the balance due from purchasers of delinquent roads	$4,714,032	
And estimated value of unsold delinquent roads	500,000	
Making in all		5,214,032 00
Leaving balance of debt		21,161,590 43
Deduct floating debt		1,668,417 27
Total		19,493,173 16

There had been issued up to that time in aid of twenty-six turnpike roads bonds amounting to $1,317,356 60. Only six of these roads were paying any dividend, and the other twenty, which had cost the state $864,062 60, were yielding no revenue.

The comptroller's report of the same year estimated the net debt on the 1st of January, 1872, to be $19,961,590 93.

On March 17, 1873, an act was passed funding the state debt. It provided for the funding of all outstanding legally issued bonds of the state of Tennessee due or to become due before January 1, 1874, as well as all past-due coupons and those maturing on said day, by the issue of 6 per cent. coupon bonds, to be styled the "new series of funding bonds", redeemable, at the option of the state, after July 1, 1884, and due and payable on the 1st day of July, 1914, bearing 6 per cent. interest, payable semi-annually in New York or in Nashville, at the option of the owners of the bonds to be funded.

The act further provided that no coupons of bonds now due should be paid other than those falling due on and after July 1, 1874, except coupons of bonds held by educational institutions of the state. The faith, honor, and credit of the state were pledged for the redemption of the bonds, for providing a sinking fund for that purpose, and for the prompt payment of interest. The act expressly prohibits the funding of any debt created between May 6, 1861, and April 3, 1865, or of any bonds known to have been stolen; it also provided that, at the option of the state, bonds maturing between July 1, 1874, and July 1, 1884, shall be fundable in like manner. It further provided for the issue of a certificate of indebtedness to the school fund in the sum of $2,512,500, bearing 6 per cent. interest, payable semi-annually. The act made it the duty of the treasurer to set apart so much of the revenues as might be required to pay interest on the bonds, and to be used exclusively for that purpose; but this provision was repealed by an act passed February 5, 1875.*

On January 15, 1877, the following joint resolution was adopted by the legislature and approved on February 12, 1877:

Resolved, &c., That the comptroller and treasurer of state are hereby instructed to suspend all further payments of interest on state bonds until otherwise ordered (except that they will continue to pay as heretofore the interest on so many of said bonds as are at this time owned by the educational institutions within the state).†

On January 16, 1879, a joint resolution was adopted, which provides that no compromise or adjustment of the state debt shall be made which provides that coupons be made receivable for taxes.

Under these several acts a considerable portion of the debt of the state was funded from time to time.

On December 19, 1876, the debt of the state was as follows:

Funded and registered bonds	$22,812,400
Amount of bonds belonging to East Tennessee University	396,000
Liabilities of the state as indorser	1,347,000
Floating debt, including interest due and to become due January 1, 1877	2,217,816
	26,773,216
The assets and resources were	5,263,772
	21,509,444

* Acts 1875, chap. 1. † Acts 187, p. 240.

No interest had been paid since July 1, 1875. The governor, in his message in 1877, stated that the revenues being insufficient, and the state being unable to borrow, except upon very harsh terms, the interest demanded being so exorbitant, it was determined by the executive officers to let the payment go by default, relying upon the future revenues of the state. No money had been borrowed since June, 1875. In December, 1876, a proposition was made by some of the bondholders to appoint a commission for the purpose of adjusting the debt "on a basis honorable to the state and equitable to the creditors". The commission was appointed, but no results were reached. The amendment of the constitution adopted in 1866, as well as several acts of the legislature since that time, provided that the issue of the Bank of Tennessee made since May 6, 1861, was unconstitutional and void. The Supreme Court of the United States, however (in 1878), in the case of Keith *vs.* Clark (97 U. S. S. C. reports, 454), decided otherwise unless it could be shown that they were issued for the purpose of aiding the Rebellion. This of course increased the debt and materially reduced the revenue, as the "new issue", or Torbett bills, were made receivable for taxes.

On December 19, 1878, the total amount of outstanding bonds was		$20,221,300
The amount of bonds indorsed by the state		1,308,000
Interest past due and becoming due January 1, 1879		4,056,802
		25,586,102
Outstanding warrants		99,720
		25,685,822
The assets and resources of the state were:		
Due by purchasers of delinquent roads	$164,150	
Uncollected taxes 1878	209,926	
Cash on hand	478,346	
		852,422
Total debt, actual and contingent		24,833,400

The funding act of 1873 was repealed on March 26, 1879. At that session of the legislature an act was passed proposing that the following-described bonds, purporting to be the bonds of the state of Tennessee, with the accumulated interest thereon, be settled and funded in the coupon bonds of the state at the rate of 50 cents on the dollar upon their face value, bearing interest at the rate of 4 per cent. per annum until paid; said bonds to be in denominations as follows: One-third at from $5 to $100, one-third at from $100 to $500, one-third at $1,000, falling due at the end of 30 years, but redeemable and renewable at the pleasure of the state, the interest on said bonds being due and payable on the 1st day of January of each and every year at the capitol of the state, at Nashville, in the treasurer's office, the bonds referred to being known and designated as follows:

Capitol bonds	$493,000
Hermitage bonds	35,000
Agricultural bonds	16,000
Union Bank bonds	125,000
Bank of Tennessee bonds	214,000
Bonds issued to the various turnpike companies	741,000
Hiawassee railroad	280,000
East Tennessee and Georgia Railroad Company	144,000
Memphis and Lagrange Railroad Company	68,000
Ante-war railroad bonds	8,583,000
Post-war railroad bonds	2,638,000
Funded under act of 1866	2,246,000
Funded under act of 1868	569,000
Funded under act of 1873	4,867,000

The act further provided how effect should be given to the same, but as the proposition was never consummated it is deemed unnecessary to give the details. During the last session of the legislature an act* was passed providing

*AN ACT to compromise and settle the bonded indebtedness of the state of Tennessee. Passed April 5, 1881. Approved April 6, 1881.

SECTION 1. *Be it enacted by the general assembly of the state of Tennessee*, That all the legally issued bonds of the state of Tennessee, except the bonds issued for the permanent school fund, and except the bonds held by the University of Tennessee and by educational and charitable institutions in this state, evidence of the ownership of which was on file in the comptroller's office on the 1st day of January, 1880, and all outstanding coupons thereon up to and including those falling due on the 1st day of July, 1881, be capitalized and funded into coupon bonds of the state, to be styled "the compromise bonds of the state of Tennessee".

SEC. 2. *Be it further enacted*, That for each and every legally issued bond of the state of Tennessee, or coupons, presented to the funding board hereinafter provided for under the provisions of this act, there shall be issued a bond or bonds for an amount equal to the principal of said bond so presented, together with the past-due interest thereon. Said bonds authorized to be issued under the provisions of this act shall be dated on the first day of July, eighteen hundred and eighty-one, and shall be payable ninety-nine years after their date, but the same shall be redeemable by the state at any time after the expiration of five years from their date, at the pleasure of the state; shall bear interest at the rate of three per cent. per annum, payable semi-annually, on the first days of January and July, in the city of New York; shall have coupons of interest attached to each of said bonds; and for the punctual payment of the principal and interest of said bonds the faith, credit, and honor of the state is hereby solemnly pledged.

SEC. 3. *Be it further enacted*, That the coupons on said compromise bonds, on and after their maturity, shall be receivable in payment

for the settlement, dollar for dollar, of the bonds and unpaid interest in new 3 per cents, with tax-receivable coupons, redeemable after five years and payable in 1899. The following is a statement of the debt of Tennessee on January 3, 1881:

Bonded debt of state	$20,991,700
Issued for railroads	$12,808,700
Issued for turnpikes	225,000
Issued for banks	148,000
Issued for Hermitage	35,000
Issued for agricultural bureau	11,000
Issued for Capitol	94,000
Issued for funding floating debt	7,101,000
Unspecified	569,000
Total	20,991,700
Bearing 6 per cent	20,330,700
Bearing 5½ per cent	17,000
Bearing 5 per cent	644,000
Total	20,991,700

ISSUE.		MATURITY	
Previous to 1860	$8,271,700	Overdue	$684,000
1860	1,501,000	1892	9,567,700
1861	582,000	1898	3,991,000
1866	3,605,000	1900	1,463,000
1867	756,000	Subsequent to 1900	4,880,000
1868	1,269,000	Unspecified	94,000
1869	110,000	1890	312,000
1870	17,000		
1873	4,880,000		
Total	20,991,700	Total	20,991,700

Floating debt of state	6,448,731
Indorsed railroad bonds	1,137,000

for all taxes and debts due the state, except for taxes for the support of the common schools and for the payment of the interest upon the common school fund, and said coupons shall show upon their face that they are so receivable.

SEC. 4. *Be it further enacted*, That said bonds shall be in denominations of fifty dollars, one hundred dollars, five hundred dollars, and one thousand dollars. That is, there shall not be less than five per cent. of the whole amount in bonds of the denominations of fifty dollars; five per cent. of the denomination of one hundred dollars; and ten per cent. of the denomination of five hundred dollars; the remainder to be of the denomination of one thousand dollars (to be pro-rated by the funding board hereinafter provided), as to said board may seem just and equitable between those who may present their bonds and coupons to be funded under this act. But the funding board may issue bonds of the smaller denominations aforesaid, to any amount in excess of the amounts hereinbefore stated, if the holders of the bonds and coupons who present them to be funded so desire.

SEC. 5. *Be it further enacted*, That the secretary of state, comptroller, and state treasurer shall constitute a board to be designated a funding board, any two of which shall constitute a quorum for the transaction of any and all business for which said board was created. Said board may sit or hold meetings for the transaction of the business created by this act, at such times and places as they may deem wise and proper, to enable holders of Tennessee bonds and coupons to fund the same under the provisions of this act.

SEC. 6. *Be it further enacted*, That when any of the legally issued bonds of the state, or coupons outstanding and unpaid, are presented to said funding board for funding under the provisions of this act, they shall examine and audit the same, and, if found to be genuine, shall prepare a compromise bond or bonds, as may be necessary for the purpose, and when said bond or bonds have been signed by the governor and countersigned by the secretary of state, and the great seal of the state of Tennessee is affixed thereto, and the original bond or bonds have been registered in the comptroller's office and a full memorandum of the same made by the comptroller, and the same signed by the party receiving the compromise bond or bonds, said board shall deliver said compromise bonds to the party entitled to receive them, taking full and ample receipts therefor from the party so receiving. But in funding under the provisions of this act the state shall not receive or account for any portion of a bond or coupon in excess of the bond demanded, and if the amount of the bond or coupons presented to be funded be less by a fractional part of a coupon the party applying may pay the same in currency.

SEC. 7. *Be it further enacted*, That as soon as practicable after the passage of this act there shall be prepared, under the direction of the governor and the funding board, a sufficient number of well engraved bonds to take up and fund all the unpaid bonds and coupons of the state, and upon each coupon of the bonds so prepared the signatures of the treasurer and comptroller shall be engraved, and the said coupons shall be numbered with the number of the bond to which they are attached, and shall state on their face when they fall due and the amount of interest due on each. The cost of engraving and preparing said bonds and coupons shall be paid out of the treasury upon the warrant of the comptroller, based upon the certificate of the governor.

SEC. 8. *Be it further enacted*, That the funding board is authorized to demand and receive as compensation for their services in carrying out the provisions of this act the sum of two dollars for each bond of the denomination of one thousand dollars, one dollar and fifty cents for each bond of the denomination of five hundred dollars, and one dollar for each of all other denominations, to be paid by those receiving the compromise bonds, as provided by this act.

KENTUCKY.

At the close of 1845 the state debt of Kentucky was as follows:

Five per cent. bonds, payable 35 years after date	$165,000
Five per cent. bonds, payable 30 years after date	450,000
Six per cent. bonds, payable 30 years after date	3,579,000
Six per cent. bonds, payable 6 years after date	100,000
Six per cent. bonds, payable	84,000
Money borrowed from the Bank of Louisville	30,000
Total	4,408,000

Kentucky owned at this time $1,270,000 of the stocks of the several banks of the state.

The interest on the state debt was paid regularly in the city of New York, and the receipts of the sinking fund progressed in a satisfactory manner. The chief sources of revenue were turnpike tolls and the Kentucky river, the former in 1845 yielding nearly $25,000, and the latter $17,244.

The debt seems to have changed but little in the next few years.

At the close of 1851 the total debt was $5,724,370 82; or, exclusive of the unredeemable bonds held by the board of education, $3,811,092 81. Much the larger portion of this unredeemable school-fund debt bore 5 per cent. interest, only $67,500 being at 6 per cent. To pay the debt the state had the following resources, if they could be applied to that purpose:

Stock of the Bank of Kentucky	$939,000 00
Stock of Northern Bank of Kentucky	290,000 00
Stock of the Bank of Louisville	40,600 00
Stock of the Southern Bank of Kentucky	150,000 00
Stock of the Lexington and Frankfort railroad	150,000 00
Bonds of the Louisville and Frankfort Railroad Company	76,420 25
Making in all	1,646,020 25

The state had, in addition, $2,694,239 93 stock in turnpike roads, supposed to be worth 25 or 30 cents on the dollar, besides her investments in rivers, etc.

By 1853 the debt had been changed only slightly. At the close of 1859, according to Governor Magoffin's message to the legislature, Kentucky was in a highly prosperous condition. Its taxable property was $493,409,363, an increase over the previous year of $28,480,550. The balance in the treasury in October was $136,463, nearly all of which belonged to the sinking fund. This fund, devoted to the payment of the principal and interest of the state debt, amounted to $758,283. The debt itself at this date was $5,479,244, including the bonds held by the board of education. To offset this the stocks in various works of internal improvement, and in banks owned by the state, together with the balance in the treasury belonging to the sinking fund, were estimated at $7,751,577. The banks of the state, the governor said, were well managed, and he deemed it a matter of just pride that in the revulsion of 1857 none of them suspended specie payments.

In October, 1863, the debt, including a military loan of $1,130,000, was $5,815,234. Of this $3,303,402 was due to individuals, $1,381,832 to the board of education, and $1,130,000 to the board of Kentucky.

The following table shows the changes in the amount of the debt, by issues and redemptions yearly, from October 10, 1859, to October 10, 1865:

Amount outstanding October 10, 1859			$5,479,244
Six per cent. military loan certificates, 1861		$1,795,000	
Six per cent. military loan certificates (act February 18, 1864)		417,000	
Six per cent. loans from school fund, being unexpended county distributions		219,113	
			2,431,113
			7,910,357
Redeemed prior to October 10, 1861		750,010	
Redeemed in 1861, military loan	$310,000		
Redeemed in 1861, original debt	9,000		
		319,000	
Redeemed in 1863, military loan	355,000		
Redeemed in 1863, original debt	35,000		
		390,000	
Redeemed in 1864, military loan		1,130,000	
Redeemed in 1865, original debt		67,000	
			2,656,010
Total outstanding October 10, 1865			5,254,347

The public debt of Kentucky at the close of the fiscal year 1864–'65 amounted to $5,254,347, and is thus accounted for:

Acts authorizing the several issues.	Parties and institutions to which issued.	Date of— Issue.	Date of— Maturity.	Rate per annum.	Amount— Issued.	Amount— Outstanding.
Various	Six years' bonds and interest improved railroad scrip, $609,500.	Various	Due	6	.....	$402
February 28, 1835	Bank of Kentucky*	May 25, 1835	1865	5	$100,000	14,000
February 28, 1835	Prime, Ward & King	August 1, 1835	1865	5	100,000	85,000
February 29, 1836	Northern Bank of Kentucky*	April 25, 1836	1866	5	100,000	95,000
February 29, 1836	Bank of Kentucky	June 1, 1836	1866	5	50,000	9,000
February 23, 1837	War Department	April 1, 1837	1867	5	165,000	165,000
March 8, 1843	John Tilden, agent to sell	September 2, 1843	1873	5	100,000	79,000
February 16, 1838	American Life Insurance and Trust Company	July 1, 1838	1868	6	1,250,000	999,000
February 22, 1839	Contractors on public works	April 22, 1840, to February 19, 1841	1870–'71	6	33,000	27,000
February 21, 1840	Northern Bank of Kentucky	November 4, 1840	1870	6	235,000	188,000
February 21, 1840	Bank of Kentucky	November 4, 1840	1870	6	180,000	151,000
February 21, 1840 February, 1841 March 3, 1842 March 11, 1843 March 2, 1844	Contractors, and in exchange for six years' bonds	April 3, 1841, to April 1, 1842	1871–'72	6	1,741,000	1,422,000
March 1, 1844	Holders of Lexington and Ohio railroad bonds	January 1, 1865.	1880	6	150,000	.....
February 22, 1846	Holders of six years' bonds and others	October 7, 1846, to June 15, 1848	1861–'68	6	70,000	.....
	Total amount held by the public and by institutions				4,274,000	3,234,402
*Held by board of education		August 9, 1840	1870	6	24,000	24,000
		January 6, 1840	1870	6	21,500	21,500
		January 1, 1840	1870	6	22,000	22,000
		January 18, 1840	1875	5	500,000	500,000
		January 22, 1840	1875	5	170,000	170,000
		January 22, 1840	1875	5	180,000	180,000
		December 28, 1848	At pleasure	5	308,268	308,268
Balance due for interest on state bonds January 30, 1864,		July 5, 1850	do	5	101,002	101,002
*For unexpended county distribution, and held by board of education		July 1, 1863	do	6	276,175	276,175
Total amount held by board of education					1,602,945	1,602,945
Military law					1,795,000	.....
Bonds issued under act of February 18, 1864					417,000	417,000
Aggregate public debt					8,088,945	5,254,347
The annual interest on the above debt is						299,198

Marked thus (*) indicates that the principal and interest are payable in Kentucky; all others are payable in New York.

Against the above debt the state owns property of various descriptions and other assets valued in the aggregate at $7,638,494. These are described as follows:

Stock in internal improvements	$4,830,475
Stock in banks and railroads	1,562,820
Loan to revenue debt, $100,000, and interest, $9,000	109,000
Surplus in treasury October 10, 1865	435,697
Five per cent. legal-tender notes on deposit in New York	100,000
Loan to military fund	200,000
Deposit to credit of sinking fund October 10, 1865	400,502
Total property and assets owned by the state	7,638,494

The above assets constituted the sinking fund—a fund provided for the payment of interest on the state debt as it fell due and of the principal at maturity. The resources of this fund were as follows: (1) tax on bank stock, etc.; (2) dividends on bank stock owned by the state; (3) dividends on state stocks in turnpike roads, and profits on works of internal improvement; (4) lease of penitentiary; (5) fifteen cents revenue tax; (6) tax on brokers' and insurance offices; (7) interest on loan to keeper of penitentiary; (8) proceeds of the Commonwealth Bank and stock in old Bank of Kentucky; (9) redemption of forfeited lands and escheats; (10) interest on ($74,579 50) L. & F. railroad bonds; (11) dividends on 2,178 shares L. & F. railroad stocks; (12) excess in treasury over $10,000; (13) tax on playing-cards; (14) tax on billiard tables; (15) tax on railroad stocks; (16) taxes on railroad and express

ompanies; (17) tax of 6 per cent. per annum upon dividends of turnpike roads; (18) tax on insurance companies ncorporated by the state; and (19) tax on oil companies, etc., $100.

The total receipts by the sinking fund in 1864-'65 were	$867,300
Add balance in treasury October 10, 1864	20,490
Total resources	887,790
Warrants paid from October 11, 1864, to October 10, 1865	557,123
Balance in treasury October 10, 1865	330,667

The warrants drawn in 1864-'65 were for the following purposes: Bank of America (for coupons), in New York, $240,000; contingent expenses, $1,516; interest on school bonds, $81,465; interest on (home) state debt, $30,142; loan to military fund, $200,000, and reduction of state debt, $4,000; total, $557,123.

The following abstract from the report of the auditor for the fiscal year ending October 10, 1869, shows the extremely healthy financial condition of this state:

The public debt of the commonwealth on the 10th of October, 1868, amounted to	$3,626,221
Add increase of school bonds, being amount of surplus school money, July 1, 1869	8,956
Making	3,635,177
During the fiscal year ending October 10, 1869, there were redeemed by the commissioners of the sinking fund state bonds amounting to	328,000
Amount of state debt October 10, 1869	3,307,177
Deduct the amount of bonds dedicated to the school fund and not redeemable	1,648,283
Leaving the amount of the redeemable state debt, upon the 10th of October, 1869	1,658,894

This consists of—

Six per cent. bonds which have matured and are outstanding	$35,394
Five per cent. bonds due and outstanding	10,000
Six per cent. bonds maturing in 1870 and 1872	1,137,500
Military bonds maturing in 1895	316,000
Five per cent. bonds maturing between 1871 and 1873	160,000
Total	1,658,894

If, therefore, the loan made by the commissioners of the sinking fund to the revenue proper of $840,849 55 was returned, the balance in the treasury, of cash on hand, upon the 10th of October, 1869, would be $1,259,335 50, which sum, if applied to the extinguishment of the outstanding indebtedness of the commonwealth, would reduce the state debt, exclusive of the school bonds not redeemable, to $399,558 50.

To meet this indebtedness the commissioners of the sinking fund hold resources	$1,287,853 46
Deducting redeemable state debt	399,558 50
Excess of resources of sinking fund over the redeemable state debt	888,294 96

The following table presents an analysis of the bonded debt of the state as it stood October 10, 1880:

Bonded debt of state	$1,858,008
Issued for railroad	394
Issued to Bank of Kentucky	5,000
Issued for war purposes	174,000
Issued for refunding	1,000
Issued for schools (held by board of education)	1,677,614
Total	1,858,008
Five per cent	5,000
Six per cent	1,853,008
Total	1,858,008

ISSUE.		MATURITY.	
Previous to 1860	$6,394	Overdue	$6,394
1864	174,000	1894	174,000
1879	1,677,614	Payable at pleasure of legislature	1,327,000
		Unspecified (bonds issued in 1879). (See section 9, article 1, chapter 18 of general statutes)	350,614
Total	1,858,008	Total	1,858,008

The school bonds, as has been stated heretofore, are unredeemable; the fund is inviolate; and the 6 per cent. semi-annual interest due the school fund is provided for out of the revenue placed to the credit of the sinking fund annually.

The resources of the sinking fund are as follows:

Balance in the treasury October 10, 1880	$87,526 22
Four hundred and six shares of stock in Bank of Louisville, worth, as per quotation	39,788 00
Stock in turnpike roads, estimated worth	500,000 00
Total estimated resources	627,314 22

WESTERN STATES.

The following table presents the fluctuations of state debt in the western states from 1839 to 1880. The figures for 1839 were taken from an official document appended to the Congressional Globe of the Twenty-sixth Congress, first session. Those for 1841 are from the Cost Johnson report, heretofore mentioned, and give the bonded and floating debt, though it will be observed that the western states had no floating debt at that period. The column for 1853 is mostly made up from the reports of state auditors and governors; that of 1860 is taken from various state documents, and the figures for 1870 and 1880 represent, respectively, the census figures for those years. When the fact of the increase of population and the general progress of these states is taken into consideration, it will be seen that the state debts of this section of the country bear very lightly compared with what they did forty years ago:

Western states.	1839.	1841.		1853.		1860.		1870.		1880.	
		Funded.	Other.	Funded.	Other.	Funded.	Other.	Funded.	Other.	Funded.	Other.
Ohio	*a* $6,101,000	*b* $10,924,123		*c* $15,218,129		*d* $16,927,834		*e* $9,732,078		$6,476,805

Total	37,431,000	43,855,676		46,245,048	269,812	69,950,792	249,326	45,290,606	2,906,609	37,082,718	2,627,735

a App. Cong. Globe, 26th Cong., 1st sess., page 90. *b* House Rep. No. 296, 27th Cong., 3d sess. *c* Report of state auditor. *d* Governor. *e* Ninth Census. *f* Ninth Census; inclusive of bonds to the amount of $3,734,268 held by educational funds. *g* Inclusive of bonds to the amount of $3,904,733 held by educational funds. *h* October 1, 1880, the bonded debt of Illinois was $281,059. In 1881 this was all paid except $23,600 not presented. *i* This amount is estimated, as the exact amount could not, at that time, be determined by the local officials. *j* In 1870 $2,183,800, and in 1880 $2,241,000 of the floating debt were owed to trust funds. *k* Secretary of state. *l* In 1860 $122,296, in 1870 $234,498, and in 1880 $245,435 were owed to trust funds. The amount of the war and defense loan shown in the report of the state auditor for October 1, 1879, is $300,000, but the amount here included as authorized by letter from the auditor is only $125,000. *m* The authority for 1860 is the governor; for 1870, the Ninth Census. In the years immediately preceding 1860 bonds were issued in aid of railroads to the amount of $2,275,000. Recognition of this indebtedness was refused by the state until 1881. The debt shown for 1860 and for 1870 is not inclusive of this sum, but that shown for 1880 is inclusive. *n* The authority for 1860 is the governor; for 1870, the Ninth Census. The amounts shown for 1860, 1870, and 1880 are not inclusive of the Hannibal and Saint Joseph railroad debt, amounting to $3,000,000, but are inclusive of $900,000 owed to the school fund, which is held in trust by the state. *o* The authority for 1870 is the Ninth Census and the state auditor. Inclusive of state bonds held by the sinking and educational funds, amounting in 1870 to $468,375, and in 1880 to about $700,000. *p* Ninth Census; the entire funded debt in 1870 was held by the school fund. *q* Ninth Census; the funded debt is inclusive of bonds to the amount of $58,000 held by the "irreducible school fund". *r* State comptroller. *s* The authority for 1870 is the Ninth Census. How much, if any, of the bonded debt in 1853 and 1860 was held by the several school funds is unknown, but in 1870 $1,191,000, and in 1880 $2,690,000 was so held.

OHIO.

The construction of public works in Ohio commenced in 1825, in which year, on the 4th of July, the ceremony of breaking ground for the National road west of the Ohio took place at Saint Clairsville. On the same day ground was broken at Licking Summit for the Ohio canal by Governor Clinton, of New York, and Governor Morrow, of Ohio. The face of the country, abounding as it did in lakes and extensive marshes, was well calculated to afford an ample supply of water, and was highly favorable to the construction of canals. The Ohio canal was projected to connect the Ohio river at Portsmouth with lake Erie, at a spot on which the city of Cleveland has grown up. This canal was finished in 1832, at an expense of $4,244,539. The Miami canal commences on Main street, Cincinnati, and runs 65 miles to Dayton, on Mad river. This canal was begun in 1820, and opened 44 miles to the Miami river in 1827, at a cost of $457,669. The remaining portion, to Dayton, was then put under contract, and finished in 1829. At the session of 1828 Congress granted 500,000 acres of land in aid of the Ohio canals on the condition that they should be completed in seven years, and, in addition, an amount equal to one-half of five sections in width on each side of the Miami canal for the benefit of the Miami extension to lake Erie. These two grants were equal to nearly 800,000 acres. This was on condition that the canal should be begun in five years and completed in twenty years; otherwise, the state should be bound to pay the United States the price of the land. This condition was subsequently removed, and the state sold the land.

Having thus early started internal improvements, it was not surprising that the state of Ohio, at the close of the year 1835, found itself in debt $4,500,000. It was fortunate, however, at this time in having two canals, which had cost over $5,500,000, in operation. The debt continued to increase, until in July, 1849, it had reached nearly $19,000,000. The total number of miles of the Ohio canal and branches was 334, and of the Miami branch 66 miles. These canals were well constructed, and up to this period, when the debt seems to have reached its maximum, had been of vast service to the state, although they had never yielded a net revenue equal to 6 per cent. of the cost. At the session of 1832 no less than thirteen railroads were incorporated by this state, of which the chief was the Mad River railroad, to commence at Dayton and reach to Sandusky, on lake Erie—a distance of 170 miles. The connection from Cincinnati to Sandusky had been completed and was in operation. The others were the Pennsylvania and Ohio, the Milan and Newark, the Milan and Columbus, the Chillicothe and Lebanon, the Cincinnati and Indianapolis, the Indianapolis and Saint Louis, the Columbus and Sandusky, the Erie and Ohio, the Franklin and Wilmington, the Port Clinton and Lower Sandusky, and the Richmond and Miami.

In the summer of 1849 the following works were completed or in progress:

COMPLETED.	Miles.	Capital.
Little Miami	84.0	$1,350,000
Mad River and Lake Erie	134.0	2,000,000
Mansfield	56.0	850,000
Total	274.0	4,200,000
IN PROGRESS.		
Xenia and Columbus	35.0	650,000
Cleveland and Cincinnati	134.5	2,250,000
Mansfield and Newark	60.0	800,000
Hancock and Findlay	13.0	200,000
Iron railroad	26.0	200,000
Dayton and Springfield	24.0	350,000
Greenville and Dayton	40.0	600,000
Total	337.5	5,050,000

The creation of these charters in 1832, with many others, stimulated the desire for government aid, and in the years of speculation, 1836–'37, the legislature passed a law to prosecute other undertakings; also to the effect that when one-half the stock of a turnpike or two-thirds of a canal or railroad should be taken by individuals, and the object of the work should be approved by the board of public works, the governor should be authorized, in the name of the state, to subscribe for the remainder. Under this law the state subscribed for the following works:

Statement of stocks held by the state and by individuals in turnpike companies, and the stocks held by the state in railroad and canal companies, and the dividends paid to the state during the year ending on the 15th November, 1848.

Name of company.	Stock held by the state.	Stock held by individuals.	Total amount of stock.	Dividends paid the state.

The financial condition of Ohio at this time is thus presented by a writer in *Hunt's Merchants' Magazine*,* who says:

When Ohio, in the year 1825, commenced her system of improvements, she established a co-ordinate and coextensive system of taxation. The fifth section of the act of 1825 pledged for the payment of the interest and final redemption of the sums of money authorized to be borrowed by the act the net proceeds of the tolls collected on all the canals; second, the rents and profits of all works and privileges connected with or appertaining to the canals; also $40,000 out of money then in the treasury and $30,000 out of the revenues to be raised for 1825, and also the proceeds of a tax to be levied upon the assessed property of the state sufficient to meet the deficit, if any, between the amount of the funds mentioned and the aggregate of the interest for the years 1826–'27, and that for the year 1828 the tax should be sufficient to meet the interest and $10,000 in addition; for 1829, $20,000 in addition; for 1830, $30,000 in addition; for 1831, $40,000 in addition; for the year 1832, and each succeeding year until three years after the completion of the canals, the tax should yield $40,000 annually above the sum of the interest, and for each year thereafter $25,000 per annum excess over the interest, until the fund formed by these additional sums should be sufficient to redeem the principal of the loans created as they matured. It was made the duty of the state auditor to ascertain and levy each year the amount of tax necessary to produce the required sums. These provisions were extended to all subsequent loans, and the taxing power of the auditor repeatedly confirmed and prolonged.

Under this law Ohio went on in high credit, constructing her canals and obtaining premiums for her stocks, until the completion of the Ohio and Miami canals, in 1836. The extended system of improvement then undertaken involved large expenditures, with very little prospect of immediate returns. When, in the years 1839 and 1840, the suspension of the banks and difficulties in the general money market manifested themselves, Ohio, as well as many other states, including New York, were in the prosecution of schemes involving vast expenditures, while their stocks were sinking in credit under the increasing urgency for money. Ohio had expended large sums on her canals, loaned her credit to turnpike and other companies, as well as subscribed for stocks in them, under the law of 1836–'37, and she

* Vol. 21, p. 398.

owed large sums to contractors, while her ability to borrow was daily lessening. To abandon the works would involve great loss, and to disregard the claims of companies and the just demands of contractors was seemingly impossible.

By an act of March, 1841, the legislature appropriated $2,301,625, the commissioners of the canal fund to borrow the money. Of this, $981,000, to pay contractors and for the prosecution of the Wabash canal, was to be borrowed at any rate of interest; the remainder, for canals and subscriptions to stock, in a 6 per cent. stock, redeemable after 1860.

The commissioners found it impossible to borrow in New York, and equally so in London. In Ohio, however, were two banks, the Chillicothe Bank and the Franklin Bank of Columbus, whose charters were to expire January, 1843. These institutions naturally wished to avail themselves of the exigencies of the state to procure a renewal or extension of their charters, and they agreed to lend the state the first $581,000, the sum due the contractors, and the $500,000 wanted for the Wabash canal. The banks were to pay these loans in their own paper, and to receive payment back in cash in New York, in installments secured by Ohio 6 per cent. stock, at a margin of 20 per cent., with power to sell it on the best terms, at the risk of the state, to reimburse themselves. In case, however, the charters of the banks should not be renewed or extended, all the installments then unpaid were to be discharged December, 1842. There was also borrowed of the Bank of Wooster $129,355 70 on pledge of stock, and further temporary loans were made to the extent of $275,000 in New York, and of Baring Brothers $133,200.

In March, 1842, a law was passed with a view to meet these difficulties. The first section authorized the commissioners to sell in New York as much 6 per cent. foreign stock as would realize $500,000, to meet temporary loans, and pledged the faith of the state that no more foreign stock should be sold. The second section authorized the issue of $1,300,000 in 6 per cent. domestic stock of not less than par, but that of this $300,000 should be receivable for Wabash and Erie canal lands and $200,000 for Miami extension lands—these bonds to be issued in payment to contractors, at their option. Of the Miami land bonds $122,857 were issued, and of the Wabash land bonds $83,026, and of the "faith" bonds, so called, created by the same law, $145,188 were issued to contractors, making $351,071. None of the 6 per cent. domestic stock was, however, sold, and at an extra session of the legislature it was proposed to raise the interest to 10 per cent., and also to go again into the foreign market on the best practicable terms. This provision lost votes in the senate, as it was considered by many a violation of the state's faith pledged in the first section of the law of March, 1842. Under this provision the state sustained a great sacrifice, the amount of stock sold in New York amounting to $1,546,800, for which the state received $1,026,735. It was ascertained at the session of 1843 that to complete the public works and discharge the claims of contractors, as well as those of the turnpike and other companies, would require still $1,500,000.

A law was therefore passed in March, 1843, authorizing the issue of a 7 per cent. stock for that amount, redeemable in 1851, not to be issued under par. For the redemption of this stock was pledged the surplus revenue received from the United States under the act of 1836, and also all canal lands not otherwise provided. The same law closed up all means of increasing the state debt. The liability of the state to make indefinite loans of credit to railroads in 6 per cent. stock was compromised by releasing the state liens upon the roads and converting the sums already loaned into stock. The subscriptions to turnpike companies were closed by a payment in domestic bonds of an amount equal to individual subscriptions actually made and to the actual expenditures upon the works.

All these payments were comprehended in the amount for which the new 7 per cent. stock was offered. That stock was taken in Wall street by parties largely interested in the Ohio stocks.

The following table shows the canals constructed, date of construction, and points connected:

Ohio canal and feeders	1825–1835	Cleveland—Portsmouth.
Walhonding branch	1843	Rochester—Roscoe.
Hocking canal	1843	Carroll—Nelsonville.
Miami and Erie canal, branch and feeders	1825–1835	Cincinnati—Toledo.
Muskingum improvement	1840	Zanesville—Marietta.

The recapitulation of the debt of Ohio, as it stood in 1849, is as follows:

Date of issue.	Interest, per cent.	Redeemable.	Amount.	Annual interest.
1825	5	After 1850 ..	$400,000 00	$20,000 00
1837	5	After 1856 ..	150,000 00	7,500 00
1826 to 1832	6	After 1850 ..	4,018,658 76	241,119 53
1836 to 1840	6	After 1856 ..	3,365,779 24	201,946 75
1838 to 1843	6	After 1860 ..	6,862,781 00	411,766 86
1842 to 1843	6	After 1870 ..	667,063 50	40,023 81
1843	7	In 1850	1,500,000 00	105,000 00
Total			16,964,282 50	1,027,356 95
Less 6 per cent. stock canceled			83,300 00	4,998 00
Net amount of debt			16,880,982 50	1,022,358 95

The funds set apart in Ohio for the payment of the interest on this debt were the net revenues of the canals, the proceeds of the school lands, the dividends on turnpike and other stock held by the state, and the tax on assessed property of the state, which the auditor was by law authorized and required to levy sufficiently high to meet the deficit between the sum of the other revenues mentioned and the amount of interest payable. The proceeds of the several sources of revenue proving inadequate, a continually increased rate of taxation was resorted to.

In addition to the sums of money borrowed for the construction of public works, the sinking fund of nearly $2,000,000, created by the law of 1825, appears to have been absorbed, as well as the proceeds of lands granted by Congress, sold for cash, and also in redemption of lands, to the extent of $2,000,000; also the school fund, $1,566,930, and a considerable sum realized for premium on loans. The canals, with the exception of the great Ohio

canal, continued to increase in tolls, as will be seen by the following table, which shows the tolls on each canal from 1833 to 1848:

Years.	Ohio.	Miami.	Miami extension.	Wabash and Erie.	Muskingum.	Walhonding.	Hocking.	Total.
1833	$136,555 70	$50,471 00						$187,026 70
1834	164,488 98	50,041 00						214,529 98
1835	185,684 48	51,917 00						237,601 48
1836	211,823 32	51,110 00						262,933 32
1837	293,428 79	62,933 00						356,361 79
1838	382,135 96	77,863 00						459,998 96
1839	423,599 84	78,601 00	$2,195 00					504,395 84
1840	452,122 03	72,612 00	8,471 36		$4,215 50		$1,898 14	584,319 03
1841	416,202 63	70,718 00	4,024 35	$637 97	7,683 50		3,593 51	502,859 96
1842	387,442 22	58,460 34	4,043 03	5,866 13	15,355 27	$587 55	3,712 27	475,466 81
1843	322,754 82	68,640 09	8,291 42	35,928 36	23,167 01	610 17	4,756 63	464,142 50
1844	343,719 99	77,844 25	12,723 22	48,589 20	29,384 64	1,976 78	5,286 44	519,515 52
1845	260,369 33	77,243 78	32,681 71	76,114 89	30,551 34	1,282 95	5,502 41	483,746 41
1846	336,339 69	93,057 58	20,812 90	113,414 04	35,104 69	1,190 71	5,383 54	605,303 15
1847	452,530 76	114,796 52	67,693 66	109 546 92	50,832 96	2,328 77	7,290 14	805,019 73
1848	418,230 87	130,380 51	120,678 99	140,912 27	29,948 37	1,949 11	8,778 44	850,878 06

The following table shows the original cost of each canal and the date of its completion:

Name of canal.	Year finished.	Cost.
Ohio	1835	$4,695,202
Miami	1835	1,020,000
Miami Extension	1847	3,168,965
Wabash and Erie	1843	2,955,269
Muskingum	1840	1,628,023
Walhonding	1843	607,369
Hocking	1843	947,670
Total cost		15,022,503

On the 1st of January, 1852, we find that the redeemable debt of Ohio (exclusive of school and other trust funds), the rates of interest, and the dates of maturity of the several issues, were as follows:

Character of stock.	Amount.	Interest.
Five per cents due 1857	$150,000 00	$7,500 00
Five per cents due 1856	1,025,000 00	51,250 00
Six per cents due 1857	3,365,779 24	201,946 75
Six per cents due 1861	6,812,481 00	408,748 86
Six per cents due 1871	2,183,531 93	131,011 92
Six per cents due 1876	1,600,000 00	96,000 00
Total foreign debts	15,136,792 17	896,457 53
Domestic debts	448,101 71	26,886 10
Total	15,584,893 88	923,343 63

On the 1st of January, 1854, the redeemable and irreducible debt stood as follows:

Foreign debt	$14,917,000 70
Domestic debt	301,128 70
Irreducible debt, school and other trust funds	1,947,299 00
Total	17,165,428 40

The constitution of Ohio fixes the minimum amount by which the principal of the state debt must be reduced annually.

The following is an extract from the state constitution showing the condition of the state debt January 1, 1859:

SEC. 8. The following schedule, a statement of the funded debt of the state, exhibiting the amounts and the times when the various portions thereof come payable by the state, to wit:

Of the foreign debt, the principal and interest of which is payable in the city of New York:

1st. Six millions four hundred thirteen thousand three hundred twenty-five dollars, twenty-seven cents, bearing interest at the rate of 6 per cent. per annum, coming payable, at the pleasure of the state, after the 31st day of December, 1860	$6,413,325 27
2d. One million and twenty-five thousand dollars, bearing interest at the rate of 5 per cent. per annum, coming payable, at the pleasure of the state, after the 31st day of December, 1865	1,025,000 00
3d. Two millions one hundred eighty-three thousand five hundred thirty-one dollars and ninety-three cents, bearing interest at the rate of 6 per cent. per annum, coming payable, at the pleasure of the state, after the 31st day of December, 1870	2,183,531 93
4th. One million six hundred thousand dollars, bearing interest at the rate of 6 per cent. per annum, coming payable, at the pleasure of the state, after the 31st day of December, 1875	1,600,000 00
5th. Two million four hundred thousand dollars, bearing interest at the rate of 6 per cent. per annum, coming payable, at the pleasure of the state, after the 31st day of December, 1886	2,400,000 00
Amount of the foreign debt	13,621,857 20
6th. Two hundred seventy-five thousand three hundred and eighty-five dollars, being the amount of the domestic debt, the principal and interest of which is payable at the seat of government	275,385 00
Total amount of the foreign and domestic funded debt of the state on the 1st day of January, 1859, thirteen millions eight hundred ninety-seven thousand two hundred forty-two dollars and twenty cents	13,897,242 20

is hereby made a guide and a direction obligatory upon the commissioners of the sinking fund, for the time being, in the discharge of their official duties, and is also hereby made a part of this act, as explanatory thereof.

On the 8th of April, 1856, a new loan was authorized for the payment of the state debt of $2,423,349 79, payable, at the pleasure of the state, after January 15, 1857. Proposals for this new loan, fixed by the commissioners at $2,400,000, were invited by advertisement in the leading journals of Europe and America, and on October 1, 1856, it was awarded to the highest bidder for the whole amount at a premium of 3½ per cent. In referring to the debt of $6,413,325, which was not payable until after 1860, the governor, in his message of 1857, said:

To raise the whole amount by taxation during the four years which will intervene before it can be paid would impose too serious burdens upon the people. I recommend, therefore, the sale of such stocks and other property of the state as can be disposed of for its real value, and the appropriation of the proceeds of the sales, together with the proceeds of such a rate upon the grand list as will produce the needed sum, to the payment of at least one-half the debt, distributing the remainder over so many of the following years as will bring its payment within the reach of moderate taxation. As every bond is payable at the pleasure of the state after 1860, the right to do this seems unquestionable.

From the report of the auditor of state, Francis M. Wright, we derive the facts in the following account of the condition of the foreign and domestic debt of Ohio on January 1, 1857. The foreign debt was payable in New York, consisting of the following issues:

Character of stock.	Payable at pleasure of state after—	Amount of principal.	Total.	Annual interest.	Total.
Five per cent	1856	$85,350 00		$4,267 50	
Five per cent	1865	1,025,000 00	$1,110,350 00	51,250 00	$55,517 50
Six per cent	1856	2,423,359 79		145,401 59	
Six per cent	1860	6,413,325 27		384,799 52	
Six per cent	1870	2,183,531 93		131,011 91	
Six per cent	1875	1,600,000 00		96,000 00	
			12,620,216 99		757,213 02
Total			13,730,566 99		812,730 52

The domestic debt, payable at Columbus, amounted to $277,707 48, consisting mainly of two items, viz, faith and credit bonds, $204,800, and Miami extension land bonds, $70,585, both payable after 1863. Total amount of reducible foreign and domestic state debt, January 1, 1857, $14,008,274 47.

The message of Governor Chase at the close of 1859 showed that the entire debt of Ohio was thus constituted:

The foreign debt was	$13,621,857 20
The domestic debt was	275,385 00
Making the whole reducible debt	13,897,242 20
The irreducible debt	2,534,076 95
And the temporary loan	700,000 00
Making a total of	17,131,319 15

On the subject of the state debt and of the operations of the sinking fund provided by the constitution, which have been fully described above, Governor Chase said that this plan, if persistently adhered to, would certainly extinguish the whole reducible debt, but that the operation would require thirty-one years, and many circumstances might occur to suspend or frustrate its results.

At the close of the fiscal year ending November 15, 1862, the funded debt of the state amounted to $14,141,562 61. The amount redeemed during the year ending 1863 was $676,752 68, leaving outstanding of foreign and domestic debt $13,464,809 93.

The debt of Ohio was steadily reduced during the next eight years. December 1, 1874, Governor Allen called attention to the fact that it was necessary for the general assembly at once to make provision for the return of the transferred funds ($601,000) to the sinking fund, and to make further provision for the payment of the interest on and the principal of the state debt, which fell due in January and July, 1875, and in January, 1876. On the 1st of January, 1876, $1,494,865 of the state debt was due, which, with the sum due in January and July, made a total of $2,694,865 of principal and interest. Proper provision for the payment of this amount was made.

At the close of the fiscal year 1875 the debt was still further reduced, and stood at $7,081,689. During the year 1875 $1,465,414 was redeemed, and there was outstanding, November 15, 1876, $6,484,505. During the next two years the redemptions were not so large, leaving a balance outstanding, November 15, 1877 of $6,479,505, and November, 1878, of $6,476,805.

The following is an exhibit of the outstanding debt of the state, October 1, 1880:*

Bonded debt	$6,476,805
Loan payable July 1, 1868, not bearing interest (not yet presented for payment)	2,500
Loan payable after June 30, 1881, bearing 6 per cent. interest	4,072,640
Loan payable after December 31, 1886, bearing 6 per cent. interest	2,400,000
Canal loan, not bearing interest	1,665
Total	6,476,805

Of the loan payable in 1881 the sum of $1,272,640 was paid when due, and the balance, $2,800,000, was refunded at 4 per cent. in bonds payable in 1888.

INDIANA.

Soon after her admission into the Union (December 11, 1816) Indiana inaugurated an extensive system of internal improvements.

In 1806 the general government had passed a law to construct a national road from Cumberland, Maryland, westward, and some forty successive acts prolonged the road from Cumberland, through Pennsylvania, part of Virginia, Ohio, Indiana, and across Illinois, to Alton, on the Mississippi river. The expenditures in Indiana commenced in 1829 and continued annually to 1838, up to which time there had been expended within the state the sum of $1,135,000. The 5 per cent. of the amount of sales of public lands to be paid to the state, under act of Congress, amounted to $959,246 25 in 1848. Three per cent., amounting to $575,547 75, had been paid to the state, and 2 per cent., amounting to $383,698 50, was expended under the direction of Congress, and formed part of the amount expended on the National road. In addition to the original grants of lands for schools, seminaries, and seats of government, Congress had, from time to time, made grants of land in aid of internal improvements.

Until the construction of the Erie canal, of New York, in 1827, there was no market for the products of Indiana outside the state itself, and for twenty years there was but little variation in the annual sales of lands. At a later date, however, the outlet for produce from the tidewater to the lakes afforded by the completion of the Erie canal, the construction of the National road in Indiana, and the expenditure of large sums of money by the general government within the state, combined to stimulate immigration. Under the general influence of speculation, which then pervaded the Union to an unusual degree, there was a gradual increase of the sales of land until 1836, when the maximum was reached, 3,016,960 acres being sold in that year. The sales diminished from that time, not because of a failure of demand, but by reason of a change of policy by the general government, inaugurated for the purpose of reserving the lands for actual settlers.

In common with the other states, Indiana was seized with the passion for internal improvements. The first work projected was the construction of the Wabash and Erie canal, to connect the waters of the lake with the Ohio river by running from the Ohio state line, in the valley of the Miami, to Lafayette, Indiana, and from thence to Terre Haute, a total distance of 228 miles. Forming a part of the same scheme was the removal of all obstructions to navigation from the Wabash river. The cost of the entire work was estimated at $2,000,000, which amount had been expended up to the time when the state suspended its payments, in 1841. In 1824 Congress had authorized the state to construct a canal through the public lands, to connect the waters of the Wabash and the Miami, and for that purpose granted 90 feet on each side of the canal to be constructed to aid in its construction, and in 1827 made a further grant of one and one-half sections in width on each side of the canal, reserving to the United States each alternate section. To make these donations available, the legislature in 1832 passed a law authorizing the appointment of a commission to borrow money on the credit of the state and to prosecute the contemplated work, and in the following year a portion of the work was put under contract. From that time until the failure of the state's credit loans were occasionally made, and the total amount of bonds issued for that purpose was $1,727,000, which realized to the state $1,767,560, all those issued being sold at par or a premium, except the last loan of $400,000, which realized $396,000.

In 1832 the legislature incorporated eight joint stock companies for the purpose of constructing railroads from the Ohio river to Indianapolis and to several places on the Wabash, with a capital aggregating $4,000,000. These several enterprises and speculations were deemed to require a bank. The constitution of the state contained a

*Report of Hon. John F. Oglevee, auditor.

provision that there should be no institution for the issue of bills of credit or notes payable to bearer or order; provided, that this should not be construed to prevent the legislature from establishing a state bank, with not more than one branch to three counties.

In 1834 the State Bank of Indiana was incorporated, and it went into operation in November of that year with these branches, to wit: in Indianapolis, Evansville, Terre Haute, Lafayette, New Albany, Vincennes, Richmond, Madison, Lawrenceburgh, and Bedford. In 1835 one was located at Fort Wayne, one at South Bend in 1838, and one at Michigan City in 1839, making thirteen in all.

Each of the branches issued and redeemed its own notes and discounted by its own board of directors, three of whom were appointed by the parent board, which controlled the branches and could suspend either of them. In the event of failure, the stock owned by the state was to be paid in full before individuals were paid. The state subscribed to the capital stock of the bank by issuing bonds and by turning over to that institution the fourth installment of the surplus revenue to be paid to the state by the general government, which, however, was never paid, though the state anticipated the same by the issue and sale of bonds. The total amount of bonds issued on account of this bank by the state up to April, 1839, was $2,412,000. Of this amount $1,000,000 was sold by the bank to the Morris canal at a time when the latter was largely indebted to the state of Michigan, much embarrassed, and its stock selling at 56 per cent. The bonds were sold for $980,000, or 2 per cent. discount, and were to be paid for in ten equal payments. Only $20,000 was realized. Although, as above stated, $2,412,000 of state bonds were thus issued to the bank, the latter acknowledged and paid interest only on $1,390,000; the difference, $1,022,000, lost by the bank, was by some means turned over to the internal improvement fund. The writers of 1849 alleged that the bank was clearly responsible for the loss, and claimed that it should have been held accountable therefor, instead of burdening the state.

The large expenditure of money for the several internal improvements undertaken, the establishment of the bank, and the distribution of the surplus revenue fund to the several counties, naturally produced the desire for additional operations, and in 1836 the legislature authorized the borrowing of $10,000,000 for a gigantic scheme or system of internal improvement. Under the law, three commissioners were appointed to borrow money. This scheme comprised the following works:

White Water canal	$1,400,000
White River canal	3,500,000
Wabash and Erie extension	1,300,000
Wabash river improvements	50,000
Madison and Lafayette railroad	1,300,000
Turnpike from Vincennes to New Albany	1,150,000
Turnpike from New Albany to Crawfordsville	1,300,000
Total	10,000,000

These extensive improvements having been projected to benefit all localities in the state, work was commenced simultaneously on the whole, and the result was that vast sums of money were expended before any one improvement was completed.

To pay the principal and interest on the internal improvement debt the following funds were set apart: 1st, the tolls of the works; 2d, the tolls from the Wabash and Erie canal when the debt contracted for its construction should be paid from the lands granted by Congress; 3d, the sums received from Congress under the act for the distribution of the surplus revenue, $860,254 44; 4th, the bank stock owned by the state, when the profits accruing on it should have repaid the loans contracted to purchase it.

The original plan of internal improvements was from time to time largely extended, and it soon became evident that $20,000,000 would not more than half suffice to complete the work, as it was found necessary, on account of sectional clamor, to carry on all the works of the state at the same time. The state also lost heavily in the negotiation of the bonds.

The state being unable to continue borrowing, the public works were suspended in 1839, and in 1840 the board of internal improvement was suspended, only one member being continued, at a salary of $1,000 per annum.

At this time the public debt aggregated $14,057,000, which had realized $12,303,988 72, and of this latter sum $3,559,791 34 had been lost through the Morris Canal Bank and other institutions, who purchased state bonds, agreeing to pay for them in installments, and after having transferred the bonds failed to pay for them.

The revenue in 1839 from all sources was estimated at $420,388, which was $400,000 less than required to pay the interest and civil expenses, but the estimate fell wide of the mark. In 1839 the tax was raised by adding a 75 cent poll-tax, but the sum collected was insufficient to meet the ordinary expenses of the state.

There were assessed in that year 100,166 polls. Most of the voters then occupying Indiana were small farmers, living in log huts, and depending upon sales of pork and grain to provide the necessaries of life. The expenditures on the National road stopped in 1838; the public works in 1839. The state being unable to pay the interest, offered 7 per cent. bonds, to mature in 5 years, in payment, but of these only $36,000 were accepted. From 1840 until 1847 no further efforts were made to pay interest on the debt. In 1840 and 1842 treasury notes were issued

to meet present needs of the state, which were receivable for public dues, amounting to $2,222,640, which were canceled from time to time, so that in October, 1848, there were outstanding of these only the sum of $431,200. There was also issued in 1842 $100,000 in treasury notes to redeem an equal amount of $50 bonds and another description of scrip, amounting to $419,355, which was gradually redeemed.

Thus, when the state suspended payment of interest, there was outstanding about $3,000,000 of paper issued in various forms due to domestic creditors, which, being receivable in payment of taxes, prevented the receipt of available money.

It was found necessary to make some settlement of the state debt. Among the schemes projected was one which involved the sale of the public works, but none of these were adopted.

In 1845, however, a proposition was made by the leading bondholders to compromise the debt, based upon the Wabash canal. It was evident that the state could not pay her debts in full by taxation, and the state's creditors proposed that the state pay one-half of the debt by taxation and the other with the property and the tolls of the Wabash and Erie canal.

The following statement of bonds issued is taken from the report of the auditor of state to the legislature of 1846, submitted for the year ending November 1, 1845:

Internal improvement bonds	$8,900,000
Wabash and Erie canal bonds	1,727,000
State Bank bonds	2,413,000
Surplus revenue bonds	294,000
Madison and Indianapolis railroad bonds	456,000
Seven per cent. bonds issued to pay interest	1,100,000
Lawrenceburgh and Indianapolis railroad bonds	221,000
Total	15,111,000

Of this amount, the $294,000 surplus revenue bonds had been redeemed; there was in the treasury $1,064,000 of the 7 per cent. bonds signed, but not issued; $189,000 of the bonds issued in aid of the Lawrenceburgh and Indianapolis railroad and $1,064,000 of miscellaneous bonds had been redeemed and canceled; making a total redemption of $2,611,000, and leaving the amount outstanding on November 1, 1845, $12,500,000. The agent of the state had received, but not yet settled for, $20,000, leaving a net debt of $12,480,000. Of this amount the State Bank paid interest on $1,390,000, leaving the amount of $11,090,000 outstanding, for which provision was required.

The whole foreign debt*, according to that authority, was then as follows:

Bonds on which the state has to pay interest	$11,090,000
Bonds on which the bank pays interest	1,390,000
Interest up to January 1, 1846, including arrears	2,777,320
Total	15,257,320

The amount of annual interest on the foreign debt was as follows:

On $100,000, at 6 per cent	$6,000
On $36,000, at 7 per cent	2,520
On $10,954,000, at 5 per cent	547,700
Total	556,220

There were also outstanding on that date treasury notes as follows:

Six per cent. treasury notes	$491,435
Interest on same (estimated)	147,000
Five per cent. treasury notes	441,325
Interest on same (estimated)	69,000
And loans from the bank	56,000
	1,204,760
Making the total debt	16,462,080

The interest payable annually on the treasury notes was as follows:

On bonds as above	$556,220
On 6 per cent. treasury notes	29,486
On 5 per cent. treasury notes	22,066
Total	607,772

The total estimated revenue for 1846 was $392,000.

* The words foreign debt are used in this state to distinguish it from the debt owing by the state to certain funds held in trust by the state.

On January 19, 1846, an act for the funding of the debt was passed by the Indiana legislature,* which was supplemented by an act passed on January 27, 1847.† The main features of these enactments were that the outstanding bonds should be surrendered, and in lieu thereof certificates were to be issued for one-half of the principal, bearing 5 per cent. interest, 4 per cent. payable in cash and 1 per cent. to be funded on January 1, 1853, interest payable semi-annually; for one-half of the unpaid interest from January 1, 1841, to 1847, a certificate, to bear interest after January 1, 1853, at the rate of 2½ per cent. per annum, payable semi-annually. These certificates of stock were to be redeemable at the pleasure of the state after twenty years. The 1 per cent. arrearage interest on the principal, to be funded on January 1, 1853, should thereafter bear interest at the rate of 2½ per cent. per annum, or, at the option of the holder, be added to the certificate above mentioned as being issued for one-half of the arrearage interest.

These certificates of stock were to be paid out of the state revenues, and the faith of the state was pledged for the payment thereof.

For the remaining half a certificate of stock should be issued, bearing interest at the rate of 5 per cent. per annum from January 1, 1847, payable semi-annually, and for the remaining half of the back interest (from 1841 to 1847) a certificate of stock, bearing interest at the rate of 5 per cent. per annum after January 1, 1853, payable semi-annually. For the payment of these certificates the Wabash and Erie canal, and all tolls, lands, and effects belonging thereto, from the Ohio state line to Evansville, and all the property of the state therein, were pledged.

The act provided further that the bonds should not be exchanged until the sum of $800,000 should be subscribed toward the completion of the canal from Lafayette to Evansville, the amounts to be repaid out of the tolls of the canal, and the bondholders were authorized to subscribe *pro rata;* the certificates of stock to be issued in exchange for the bonds were to be of two classes—"preferred", being those to be issued the subscribers to the $800,000 loan, and "deferred", being those issued to non-subscribers. Three trustees were to be appointed to take charge, management, and control of the canal and complete the same, two of them to be appointed by the subscribers, and the other by the state.

For the purpose of providing for the payment of the interest, and for other purposes, a tax of 25 cents on the $100 was directed to be levied, and 75 cents on each poll (in addition to 3½ cents for certain specified purposes), and it was believed that that rate would be sufficient to meet the wants of the state.

The value of property steadily increased. The assessment for state purposes, which in 1844 was $304,657 17, had in 1848 increased to $488,627 44. The collections in 1848 exceeded the estimate by $40,000. The outstanding treasury notes were gradually canceled.

The total canal debt in 1849 was nearly $7,000,000, and was liable to be increased to nearly $8,000,000 by the surrender of outstanding bonds. The state debt was about the same, and it was then estimated that the interest payable by the state in 1853 would be about $330,000, and that the domestic debt would be canceled. When the trustees took charge of the canal, in July, 1847, there were 887,067 acres of land belonging to the same, which by act of 1848 was increased to 922,386 acres, estimated in all to be worth about $1,500,000. The tolls gradually increased from year to year, and the interest was promptly paid. In January, 1851, all but $1,186,000 of the old bonds had been converted into state and canal bonds, the state had passed her greatest financial difficulties, and the ability to meet her liabilities in the future seemed assured.

As stated above, the amount of bonds outstanding prior to surrender under the state debt arrangement with holders was $11,090,000, or, as accounted for in the table below, $11,048,000.

From a report of the auditor of state it appears that on August 5, 1850, there had been surrendered—

Wabash and Erie canal bonds	$1,250,000
Internal improvement bonds	6,973,000
Madison and Indianapolis railroad bonds	365,000
Lawrenceburgh and Indianapolis railroad bonds	80,000
State bank bonds	866,000
Seven per cent. bonds, to pay interest	29,000
Total	9,563,000
Total outstanding August 5, 1850	1,485,000
Grand total	11,048,000

On October 31, 1851, the amount outstanding was $1,300,000. On that date there had been issued stock for which the state was liable to the amount of $6,657,720; stocks chargeable on the Wabash and Erie canal, $6,325,262 50; total, $12,982,982 50.

At this time all of the treasury notes had been redeemed, and it appears that though only $70,000 were issued, yet $76,635 had been in circulation and had been redeemed. The authors of the fraud were never discovered.

* Laws 1845–'46, p. 3. † Laws 1846–'47, p. 3.

In 1851 a new constitution was adopted, which went into effect on the 1st day of November of that year. Section II of Article X of that instrument provided that all the revenues derived from the sale of any public works belonging to the state, and from the net annual income thereof, and any surplus that may at any time remain in the treasury derived from taxation for general state purposes, after the payment of the ordinary expenses of the government and of the interest of bonds of the state, other than bank bonds, should be annually applied, under direction of the general assembly, to the payment of the principal of the public debt.

The constitution further provided that no law should authorize a debt to be contracted on behalf of the state except in the following cases: To meet casual deficits in the revenue; to pay interest on the state debt; to repel invasion, suppress insurrection, or, if hostilities be threatened, provide for the public defense. And it was further provided that no county should subscribe for stock in any incorporated company unless the same be paid for at the time of such subscription, nor should any county loan its credit to any incorporated company, nor borrow money for the purpose of taking stock in any such company, nor should the general assembly ever, on behalf of the state, assume the debts of any county, city, town, or township, nor of any corporation whatever.

The state has ever since promptly paid the interest and has gradually redeemed the principal of the debt thus refunded, and from time to time old state bonds were presented and exchanged for the 5 per cent. and 2½ per cent. state stocks, under the law of 1846 and 1847. In common with other northern states, a large war debt was created; but the credit of the state suffered at no time, and her resources were ample to meet all her engagements promptly.

The following exhibit is taken from the auditor's report for the year ending October 31, 1872:

Foreign debt:	
Five per cent. state stock*	$32,869.99
Two and a half per cent. state stock*	5,020 13
War loan bonds	139,000 00
Total foreign debt	176,890 12
Domestic debt:	
Non-negotiable bonds held by the school fund	3,729,016 15
Total debt	3,905,906 27

From 1847 to 1872 the state had paid as interest on the public debt the sum of $9,097,332 35. There were also outstanding 191 bonds of $1,000 each, issued prior to 1841, known as the internal-improvement bonds. The holders had declined to surrender these bonds under the acts of 1846 and 1847, or under the Butler bill, as it was called.† To enforce the payment of these bonds a suit was commenced in the circuit court of Carroll county against the Wabash and Erie canal. A special session of the legislature was held, beginning on November 13, 1872. An act was passed at that session, and approved on December 12, 1872‡, by which the redemption of the 191 bonds was authorized and directed, and a temporary loan of $200,000 was authorized. On the 10th of March, 1873§, a further temporary loan was authorized. These bonds were from that time forward redeemed as fast as presented, and on October 31, 1874, all but 94 had been redeemed, and on October 31, 1880, only 27 were outstanding and unpaid.

An amendment to the constitution was ratified by the people on the 18th day of February, 1873, and it was declared part of the constitution by proclamation of March 7, 1873. It provides that no law or resolution shall ever be passed by the general assembly that shall recognize any liability of the state to pay or redeem any certificate or stocks issued in pursuance of an act entitled "An act to provide for the funded debt of the state of Indiana, and for the completion of the Wabash and Erie canal to Evansville, passed January 19, 1846", and the acts amendatory thereof‖, which by provision of said acts, or either of them, shall be payable exclusively from the proceeds of the canal lands and the tolls and revenues of the canal in the acts mentioned, and that no such certificates or stock should ever be paid by the state.

The canal has not been a successful enterprise. The canal debt was over $16,000,000 in November, 1874, when suit was begun by the bondholders in the circuit court of the United States for the district of Indiana to terminate the trust, and asking sale of the canal property. The estimated value of the canal lands remaining was about $1,500,000. Afterward a decree of sale was entered, and the canal and all property belonging thereto has been sold by the receiver appointed by the court. The final settlement and distribution has as yet not been made, and it cannot, therefore, be stated how much will be realized by the bondholders.

According to Governor Wright, at the opening of 1857 the entire amount of the funded debt of Indiana outstanding of the 5 per cent. stock was $5,156,560, and of the 2½ per cent. stock, $1,812 57. The exhibit of the common school fund, including the estimated value of the sinking fund in the State Bank at that date, amounted to $4,912,012 42. The governor recommended that the sinking fund commissioners should be directed

*Ceased to bear interest from September 1, 1870.

†The proposition to adjust the debt was made by Mr. Charles F. Butler, the agent of the foreign bondholders, and hence the name.

‡Laws 1872–73, p. 11. §Laws 1873, p. 77. ‖Acts 1847, p. 3.

by law to invest the funds that accumulate in their hands in the stocks of the state. According to Representative W. Hunter, of the committee on ways and means of the state legislature of Indiana, the state debt, at the close of 1850, amounted to $9,964,969 83.

On account of the refusal of the legislature of 1858, in extra session, to levy a tax, as recommended by Governor Willard, the debt slightly increased, and amounted to $10,286,855 57 in 1859.

In 1862 the funded indebtedness of the state was reduced to the following three loans:

Five per cent	$5,322,500 00
Two and a half per cent	2,054,773 50
Six per cent, war loan	1,334,000 00
Total	8,711,273 50

The state, in May, 1861, had appropriated in aid of the federal government $2,000,000 by an issue of twenty-year 6 per cent. bonds. The debt remained almost stationary, though in 1865 a slight decrease is noticed. Between 1865 and 1866, as the following table shows, a decrease of nearly $3,500,000 is noted, a large amount of the bonds becoming due, which were paid by the sinking fund:

Character of bonds.	1865.	1866.	Decrease.
Two and a half per cent. stock	$2,076,460	$1,191,092	$885,368
Five per cent. stock	5,342,500	3,829,936	1,512,564
War loan 6 per cent. bonds	1,371,780	309,000	1,062,780
Vincennes University bonds	66,685	66,585	100
Total	8,857,425	5,396,613	3,460,812

The debt of this state, divided among the polls registered in 1865, was $44 67 per poll; divided among the polls of 1866 it was $23 58 per poll, being a proportionate reduction of the state debt to nearly one-half its amount. Compared with the taxable value of property, the debt of 1865 was 1.55 per cent.; but the debt of 1866 was only 0.92 per cent., and it is evident from this showing that the financial condition of the state was improving at this date.

The following is a statement of the debt of Indiana on the 31st day of October, 1880:

Five per cent. certificates, state stock	$14,469 99
Two and one-half per cent. certificates, state stock	2,925 13
Six per cent. war loan bonds	139,000 00
Five per cent. temporary loan bonds (due April 1, 1884)	510,000 00
Five per cent. temporary loan bonds (due December 1, 1884)	200,000 00
Five per cent. temporary loan bonds, held by Purdue University (due April 1, 1881)	200,000 00
Internal improvement bonds	27,000 00
Six per cent.—	
School fund bond, 1867	709,024 85
School fund bond, 1867	2,658,057 30
School fund bond, 1868	184,234 00
School fund bond, 1871	177,700 00
School fund bond, 1873	175,767 07
Total state debt	4,998,178 34

ILLINOIS.

The state of Illinois very early commenced the system of public improvement by the aid of state loans. In 1824 the New York and Erie canal was opened, giving a weighty impulse to the progress of the West. The great success of the Erie canal is thought by many writers to have afforded a tempting example to Illinois, because her situation in relation to the lakes is not unlike New York. Illinois abuts on lake Michigan, as New York does on lake Erie, and her great river, the Illinois, holds the same relation to the state navigation as does the Hudson to that of New York. As early as 1823 the route had been explored. The population was too sparse to undertake it, however, until 1829, when Congress made a grant of 290,914 acres in aid. The state then authorized a loan of $500,000 to carry on the work. A special commission was appointed. The canal was to extend from Peru, on the Illinois river, to the Chicago river, 5 miles from its mouth—about 100 miles. When the work was projected it was estimated that there were about 15,000 families in the whole state, and the expense of the work was estimated at $8,654,337. Yet this canal was but a part of an immense system of internal improvements for which the act was passed in 1837. This act created a board of fund commissioners to manage the fiscal concerns of the public works and a board of

public works to determine routes and superintend the execution. This internal-improvement system embraced the works in the following table, showing the total length of each railroad projected in the state and the aggregate length of all the railroads:

Name of railroad.	Miles.	Estimated cost per mile.	Total cost.
Central railroad	457.5	$8,326	$3,809,145
Southern Cross railroad	294.0	8,200	2,410,800
Northern Cross railroad	234.5	8,480	1,988,560
Shelbyville and Paris branch, Central railroad	71.5	19,588	1,400,542
Peoria and Warsaw railroad	116.0	8,351	968,716
Alton and Shelbyville railroad	71.0	8,295	588,945
Belleville and Lebanon railroad	23.5	7,000	164,500
Bloomington, Mackinaw, Peoria and Pekin railroad	53.7	11,736	630,810
Total	1,321.7		11,962,018

In addition to the cost of these projected railroads (about $12,000,000), the estimated cost of the canal construction was $8,654,337. The state also held an interest in the State Bank of Illinois and the Bank of Illinois to the amount of $3,400,000.

In commenting on these projects started by the young state, Kettell, writing in 1852, says:

> There were then (1837) 70,000 log-cabin farmers in the state, and these loans were at the rate of about $300 to each family. For all the purposes mentioned stocks were issued. The work was commenced under this law, and the effort to sell the bonds at a moment when the financial horizon began to lower and all other states were desperately pressing the market produced ruinous losses.

The following is a recapitulation of the state debt of Illinois in 1842:

Total bank stock	$2,665,000
Total internal improvement debt	5,614,196
Total canal debt	4,338,907
Total state-house	116,000
Total college, school, and seminary funds	808,085
Total due state bank for warrants	294,190
Total debt upon which interest accrues	13,836,378

The annual interest on this debt was $830,132. To meet its liabilities the state had the following resources at the time unavailable:

Value of lands remaining unsold of canal grants	$238,985
Value of lands granted to the state under the provisions of an act entitled "An act to appropriate the proceeds of the sales of the public lands and to grant pre-emption rights", approved September 4, 1841	210,132
Value of lands purchased by the state for internal improvement purposes	40,332
Amount due canal fund from sale of lands, town lots, stone, and timber	201,964
Total	691,413

In 1842 it became impossible for Illinois to comply with its obligations, and the state found itself on the verge of bankruptcy, with all these incomplete improvements on hand. Matters seem to have remained unchanged until 1843, when it was proposed to make the canal lands a special pledge for the sum necessary to complete the canal. The amount necessary for this purpose was estimated at $1,600,000, and the legislature of Illinois passed a law authorizing the governor to raise the funds necessary to complete the Illinois and Michigan canal and place as security for the money the canal and all the canal lands. The provisions of the act were that a loan should be negotiated solely on the credit of the canal and its lands of $1,600,000, to bear 6 per cent. annual interest; that the canal and the canal property should be vested in three trustees, one to be named by the governor and two by the subscribers to the loan; that at least $400,000 of this loan should be paid in during the course of the first year after the execution of the trust deeds; that the canal should be finished in three years from the commencement of the trust; that no sales of the canal lands should be made until three months after the completion of the canal, when the trustees were to offer them for sale; that all the proceeds of the canal and canal property should be first applied to the repayment of the interest and principal of the proposed loan. The property assigned to the trustees as security for the loan was as follows: The canal, that cost the state $5,000,000; the lands, amounting to 230,467 acres, valued, after the completion of the canal, at $10 per acre, amounting to $2,304,670; lots in the various towns on the canal, valued at $1,900,000; making a total of $9,204,670.

The loan was effected, and the work pushed to completion. The lands, on being sold, more than realized the estimated values on which the trust was based, and the revenues equaled expectations.

The other great work for which Illinois loaned its credit was the Illinois Central railroad. The original length of this road, as given in the table above, was to have been 457½ miles, and the cost was estimated at $8,909,145. The state actually expended upon it before its failure $1,016,905, mostly for a depot in Cairo, for clearing out the track, and in grading and embankments. In 1850 life was infused into this undertaking by the United States government, when, in September of that year, Congress made a grant of lands in aid of it. This was the first land grant made by Congress directly for the construction of a railroad. The act of Congress donating these lands authorized grants of right of way through the public lands 200 feet wide, with the privilege of taking materials for construction—earth, stone, and timber. It also granted every alternate section of land, twelve sections wide, the whole length of the road and of its branches. In case the lands there were occupied, an equivalent quantity was granted elsewhere, not over 15 miles from the road. The road was to be commenced simultaneously at both ends, and the lands to be sold only as the work progressed. The road was to remain a public highway for the use of the government of the United States, free from toll or other charges. If the road was not completed in ten years, the state of Illinois should pay to the United States the proceeds of any land sold, and the remaining land should revert to the United States. The passage of the act brought proposals to build the road. On the 22d of March, 1851, the act to incorporate the Illinois Central railroad was approved by the company through its president, Robert Schuyler, esq., and the same day the treasurer of the company, in accordance with the provisions of the act, deposited with the state treasurer $200,000 in specie. On the 24th the governor executed a deed of all the lands granted by the government of the United States to the state of Illinois; also of the lot of ground obtained by the state of Illinois in the city of Cairo for a depot; also of all the right of way, grading, embankments, excavations, survey, work, materials, profiles, plates, and papers in anywise appertaining to said railroad and branches, and the work was begun in earnest.

The subsequent history of this enterprise, and the rapid liquidation of the debt of this state, is well known. The constitutional convention of 1848 had taken hold of the debt question with a firm hand, and provided that there be annually assessed and collected, in the same manner as other state revenues, a tax of two mills on each dollar's worth of taxable property, in addition to all other taxes. The fund thus created was to be kept separate, and annually, on the 1st day of January, apportioned and paid over *pro rata* upon all such state indebtedness, other than the canal and school indebtedness, as might for that purpose be presented by the holders of the same, to be entered as credits upon, and to that extent in extinguishment of, the principal of said indebtedness. This provision created an objective point in the finances of the state, and from the date of its enactment to that of its repeal by the constitution of 1870 the debt, so subsequent figures will show, gradually and steadily decreased.

In 1847 a part of the debt was funded, and, according to the message of Governor French, transmitted to the legislature in 1851, the debt stood as follows on the 7th of January of that year:

Principal of debt funded under act of 1847		$5,590,565
Interest on same to same date		1,020,278
Average interest, funded		1,945,485
Unfunded interest on improvement bonds and other kinds of indebtedness		789,941
Total		9,346,269
From this amount deduct interest paid from mill-and-a-half tax and for sale of lands and other credits		561,788
Making the debt (other than the canal debt)		8,784,481
The canal debt on the 1st of January, 1851, was, exclusive of the $1,600,000 loan	$7,078,117	
To this should be added the balance due on the canal loan, of	1,033,000	
	8,111,117	
Deduct for interest paid from mill-and-a-half tax, bonds and scrip redeemed, and interest	269,088	
		7,842,029
Making the aggregate state debt at this date		16,626,510

In 1854 the debt had decreased, and the principal and interest due, after deducting all payments, January 1, 1854, was $15,725,725 96. In January, 1857, Governor Matteson gave a very favorable account of the continued liquidation of the state debt. During the last four years, he says, the amount of $4,564,800 had been paid, besides the payment of the entire interest on the principal during that time. The whole accruing interest for the past six months on the debt of the state was paid on the 1st of January, 1857. There was now no doubt about the state being prepared to pay interest on the whole debt as it matured. The net debt at this time (1857) was $12,834,144.

The total amount of taxable property, as shown in 1857, was about $407,500,000—an increase over the preceding year of over $57,500,000. The total receipts for taxes levied in 1857 amounted to $1,821,012. During the years 1857 and 1858 the principal of the public debt had been reduced $1,050,324 13, the arrears of interest reduced $116,552 61, and the state debt, principal and interest, reduced to $11,138,453. The public debt of the state,

including the canal debt, on the 1st of December, 1860, had been reduced to $10,277,161 36. On the 1st of December, 1862, the debt had been increased by the issue of war bonds to the amount of $2,050,000 ($50,000 was for revenue), and the total aggregated $13,337,381 37. On the 30th of December, 1864, the debt had been reduced to $11,121,564, and on the corresponding date in 1865 it was $9,982,691—a decrease within a year of $1,138,873. The biennial report of the state treasurer for the year ending December 1, 1866, gives the following recapitulation of the state debt:

Bank and internal improvement stock, payable after 1860	$31,000
Internal improvement stock, payable after 1870	42,000
Refunded stock, payable 1860 to 1877	1,261,000
Normal University bonds, payable in 1879	64,000
Thornton loan bonds, payable in 1879	143,000
War bonds of 1861, payable in 1879	945,200
Illinois and Michigan canal (dollar) bonds, payable 1860 to 1870	852,060
Illinois and Michigan canal (sterling) bonds, payable in 1870	1,534,888
Inscribed stock	3,722,254
Scrip and unfunded indebtedness	42,909
Aggregate debt December 1, 1866	8,638,251

This statement shows a reduction during the five years ending in 1866 of $3,688,909.

The total indebtedness of the state, December 1, 1874, was but $1,730,972. It was then estimated that the semi-annual receipts from the Illinois Central railroad, which are set apart by law for the payment of the public debt, would be sufficient to meet the interest and to pay the indebtedness as fast as it became due, and that on January 1, 1880, when all the outstanding obligations of the state would become payable, there would be a surplus of the Illinois Central railroad fund of over $500,000. October 1, 1880, the bonded debt of Illinois was $281,059, viz:

Issue.	Purpose of issue.	Maturity.	Amount.
1847	Internal improvement stock bonds	After 1877	$154,459
1859	Refunded stock bonds	After 1877	103,000
Various years	Internal improvement stock bonds, $10,600; canal bonds, $13,000	After 1877	23,600
			281,059

All the above debt has been paid since October 1, 1880, except the last item of $23,600. The bonds composing this item have been called for several years, and not having been presented for payment, it is supposed they have been destroyed.

MICHIGAN.

Perhaps the cause of the early embarrassments of this state may be found in a clause in the constitution, adopted at her admission into the Union in 1836, which provided for the encouragement of internal improvements by the government of the state, and further, that "it shall be the duty of the legislature, as soon as may be, to make provision by law for ascertaining the proper objects of improvement in relation to roads, canals, and navigable waters". It should be borne in mind that Michigan became a state and passed this constitution in times of unusual speculative excitement. The year the constitution was adopted the purchases of land on speculation in this territory aggregated over four million acres, being nearly one-half of the gross sales made in that territory from 1818 to 1849. This speculative fever had called into life numerous banks, and, although the population of Michigan was but 31,639 in 1831, in 1833 it had twenty banks, and at the close of 1837 forty banks, with aggregate loans of nearly $4,000,000.

One of the first acts of the legislature, on the admission of the state into the Union, was to appoint a board of commissioners of internal improvements and authorize, March 21, 1837, the survey and construction of 557 miles of railroads, 231 miles of canals, and the improvement of 321 miles of river navigation. A loan of $5,000,000 was authorized for these objects. According to *Hunt's Magazine* for 1850, the following are the amounts appropriated and expended upon the system thus projected from the formation of the government of the state to November, 1847:

Internal improvements of Michigan.

	Appropriated.	Expended.
Central railroad	$1, 957, 833 57	$1, 954, 308 22
Southern railroad	948, 906 77	948, 234 20
Northern railroad	150, 638 00	110, 596 71
Havre Branch railroad	20, 000 00	952 34
Detroit and Grand River railroad	5, 000 00	4, 285 43
Northern turnpike	30, 000 00	.....
Clinton and Kalamazoo canal	406, 152 37	405, 880 77
Saginaw turnpike	5, 000 00	4, 975 01
Saginaw canal	62, 000 00	42, 098 33
Grand River Rapids canal	25, 000 00	225 30
Saint Mary's canal	50, 000 00	8, 059 86
Improvement of Grand and Maple rivers	30, 000 00	26, 498 01
Improvement of Kalamazoo river	8, 000 00	6, 572 05
Improvement of Flint river	6, 250 00	6, 249 31
Improvement of Saint Joseph's river	32, 584 31	22, 625 30
Total	3, 737, 367 02	3, 541, 561 90

In commenting on this expenditure a financial writer in 1850 says:

Michigan has realized, probably, as much for the amount expended in the shape of internal improvements as any other state west of New York, having expended the bulk of the appropriations for the construction of railroads, which have been productive and have been sold for nearly the total cost. Nevertheless her scheme was extravagant in the extreme. The population at the time the debt was produced did not exceed 100,000. The popular vote for President was only 11,439. If there were 15,000 voters, all agricultural settlers on new lands, then in the state, the proposed debt was equal to $333 per head, in addition to the support of the state. At the same ratio New York could better afford a debt of $200,000,000. This strongly indicates the wildness of the speculative feeling then abroad and the strength of the delusion under which the speculators labored. While this delusion lasted the larger portion of the Michigan debt was created, but the revulsion took place before the proceeds were realized, and the subsequent issues were a consequence of that fact.

The following history of the part-paid debt of Michigan was prepared by the Hon. H. R. Pratt, deputy auditor general:

By an act approved March 21, 1837, a loan not exceeding $5,000,000 was authorized by the legislature, to be expended for internal improvements. Bonds to the full amount of the loan were prepared and executed, and a contract made with the Morris Canal and Banking Company of New Jersey to place the loan on the market in installments, the company to be paid a commission for their services. A portion of the bonds were disposed of under this contract, and the proceeds paid over to the state. A new contract was then made, by which said company became the purchasers from the state of that portion of the bonds then remaining unsold, payment to be made in installments. The United States Bank of Philadelphia became surety for the fulfillment of this contract on the part of the Morris Canal and Banking Company, and the bonds were delivered.

Under the two contracts the state received pay in full for $1,387,000 of bonds; for the remainder but a small portion of the amount was paid to the state when the Morris Canal and Banking Company failed. A further small sum was paid by the United States Bank of Philadelphia, as sureties, when that bank also failed.

It was ascertained that a large amount of the bonds for which only partial payment to the state had been made had been transferred by the Morris Canal and Banking Company to the United States Bank of Philadelphia, the latter necessarily having full knowledge of the fact that they had not been paid for.

As soon as the state became aware that it would not receive full consideration for the bonds, notice was given that it would consider itself bound to repay only the money actually received. This was done by act No. 60, approved February 17, 1842, which required the governor to issue a proclamation, to be published in New York and Philadelphia, requiring the holders of the part-paid bonds to return them to the state and receive new bonds for the amount of money that had been paid to the state thereon. Such proclamation was issued in April, 1842.

A report made by the state treasurer, December 6, 1842, states that these "part-paid" bonds were principally held by the United States Bank of Philadelphia, and that they had been hypothecated to different houses in Europe. This hypothecation was reported to the legislature to have been made under circumstances that did not affect the equities of the state.

Such, in brief, is the history of the case. The state made strenuous efforts to secure something from the wreck of the two banks, but with small results; and upon becoming aware that it would not receive full consideration for the bonds, promptly gave notice that it would consider itself bound to repay only the money it had actually received, and this while the bonds were owned by a bank that had full knowledge of all the facts.

All but $21,000 of the "unrecognized" or "part-paid" bonds have been surrendered, and new bonds for the amount received by the state, and interest thereon, taken in their stead.

The state of Michigan has always been ready to recognize, and will recognize as a just debt and pay in full with interest, without abatement, every dollar of her bonds for which she received consideration, and this notwithstanding the fact that all the money that actually was received on the bonds under consideration was squandered on works from which the state received no benefit or reimbursement, except what was realized on the sale of the Central and Southern railroads.

In early days the state also loaned its credit by issue of bonds to certain railroad companies, with the understanding that such companies were to take care of both principal and interest. The companies failed, but the state paid the bonds.

In 1845, owing to the failure of the wheat crop of the preceding year, the severity of the taxation necessary to meet the interest upon the state debt became manifest, and public attention was called to the desirability of

reducing the debt by the sale of the public works. The only works of all those constructed by the state which had yielded any income were the Central and the Southern railroads. The total value of both these roads was estimated at $3,363,880. These the state was determined to sell and to secure payment in certificates of the state indebtedness, namely, the full-paid bonds and those issued for the interest on them at par, and the part-paid bonds at a rate equal to what the state had actually received, with the interest thereon. This was calculated at $431 30½ for a bond of $1,000. Accordingly a company, mostly of Boston gentlemen, applied for a charter to purchase the Central road, and March 5, 1846, a bill was passed which gave the company the right to purchase the Central railroad, with all its appurtenances of lands and right of way which the state at that time owned or had acquired, for the sum of $2,000,000, $500,000 of which was to be paid to the state within six months after the passage of the act, and the remaining $1,500,000 within one year thereafter. It further provided that the treasurer of the state should receive in payment for said roads the bonds of the state specified in the first section of the act to liquidate the public debt, approved March 8, 1843, and to provide for the interest thereon in full-paid bonds.

The same legislature which passed the law for the sale of the Central railroad also passed an act for the sale of the Southern railroad and for the incorporation of the Michigan Southern railroad. The sale of the Southern railroad was, however, made contingent upon that of the Central, and the law for the charter of the latter company, by express provision, did not take effect and become in force until after the charter of the Central Railroad Company. The company, however, complied with the terms of the sale of the railroad, and official notice was issued in September, 1846, to the effect that the company, in compliance with the terms of the act, "having paid into the state treasury, in money, an amount about sufficient to pay the interest due on the bonds for January and July, the necessity of assessing and collecting a tax sufficient for the payment thereof did not now exist; also that the direction to assess a tax sufficient for the payment of the interest which became due on the state bonds the 1st day of January last was also countermanded and annulled".

By the sale of this Central railroad $2,000,000 of debt was extinguished and the completion of the road to lake Michigan insured, improving the condition of the state. The engagements of the companies having been promptly met, the Central railroad made its final payment in September, 1847. The payment on the Southern road still further reduced the debt.

Governor McCleland, in his message, describes the financial condition of Michigan at the close of the year 1852 as healthy and encouraging, the debt having been reduced from $2,568,268 in November, 1851, to $2,307,850 in 1852. The revenue in 1853 was $657,268, and the expenditures for the same year $396,450, leaving a considerable surplus on hand. The auditor, in his report for this year, says:

> All the state indebtedness, except what are termed the "part-paid" bonds, the redemption of which can be compelled or payment stopped, was called in last year, and, as our bonds are above par, none can be purchased under our present laws. There is therefore no further opportunity of liquidating state indebtedness with the surplus on hand except by paying for what few "part-paid" bonds may be voluntarily surrendered.

The legislature of 1855 passed an act requiring that the "part-paid" bonds be surrendered for adjustment or that the interest should stop. From the following statement of the public debt on November 30, 1858, it will be perceived that most of them were at that date returned and new bonds, at the adjusted rate, issued in their stead:

Penitentiary bonds, due January 1, 1859	$20,000
Penitentiary bonds, due in 1860	40,000
Internal improvement warrant bonds	50
Full-paid $5,000,000 loan bonds, due January, 1863	177,000
Adjusted bonds	1,726,085
Part-paid $5,000,000 loan bonds, when funded, will amount to	104,142
Outstanding internal improvement warrants	3,752
New bonds issued in July last, due 1878	266,000
Total	2,337,629

The following year (1859) the debt had been slightly reduced, and, aside from $100,000 of canal bonds guaranteed by the state, amounted to $2,316,328. The debt was increased by a loan of $1,000,000, made May 10, 1861, to meet war expenses, and according to the treasurer's report the funded and fundable debt stood, November 30, 1862, $2,981,038. The entire debt, which became due in 1863, amounting to nearly $2,000,000, was refunded by the two million loan bonds, issued that year and redeemable, $250,000 in 1868, $500,000 in 1873, $500,000 in 1878, and $750,000 in 1883. The next step was to refund the war loan, which became due in 1864, for which bonds bearing

7 per cent. interest, and redeemable in 1886 and 1890, were issued. The state treasurer, in his report to the legislature, makes the following exhibit of the state indebtedness at the close of 1864:

Classes.	Interest.	Due.	Amount.
Renewal loan bonds	6	Jan. 1, 1878	$216,000
Two million loan bonds	7	Jan. 1, 1868	250,000
Do	6	Jan. 1, 1873	500,000
Do	6	Jan. 1, 1876	500,000
Do	6	Jan. 1, 1883	750,000
Saint Marie canal bonds	6	Jan. 1, 1873	100,000
War loan bonds	7	Jan. 1, 1886	1,122,000
War bounty loan bonds	7	May 1, 1890	345,000
Total funded debt			3,783,000
Adjusted bonds past due		4,000	
Full-paid $5,000,000 loan bonds, past due		12,000	
War-loan bonds ($100 and $50) called in		400	
Unrecognized $5,000,000 loan bonds, $146,000 adjustable for		86,999	
			97,399
Total funded and fundable debt			3,880,399
TRUST FUND DEBT.			
Primary school fund		1,144,239	
University fund		264,872	
Normal school fund		39,204	
Railroad deposits		2,157	
			1,450,472
			5,330,871

The liquidation of the debt of Michigan continued without interruption during the years following.

The financial condition of the state, as shown by the annual report of the state treasurer for 1879, is as follows:

Cash balance, September 30, 1879	$606,267 63
Receipts for the year	2,793,321 90
Total resources	3,399,589 53
Payments during the year	1,820,946 52
Cash balance, September 30, 1880	1,578,643 01

There were demands against this balance, maturing on or before December 31, 1880, of $260,820 12.

The indebtedness to trust funds at the close of the fiscal year, September 30, was:

To the sinking fund	$908,895 27
To the canal fund	48,664 75
To the primary school interest fund	94,331 33
Total	1,051,891 35

Add the latter amount to the maturing indebtedness stated above, and the total demands against the treasury aggregated $1,312,711 47, leaving a net cash surplus of $265,931 54.

The trust debt of the state, the principal of which never matures and cannot be paid, is as follows:

To primary school fund	$2,554,590 96
To 5 per cent. primary school fund	326,350 95
To university fund	465,788 46
To agricultural college fund	153,137 70
To normal school fund	56,635 32
To railroad and other deposits	8,052 63
Total	3,564,556 02

On this debt the state pays 7 per cent. interest, except on the normal school fund, which draws 6 per cent. The interest paid to these several funds during the year was:

To primary school fund	$190,876 86
To agricultural college fund	10,240 28
To university fund	32,393 51
To normal school fund	3,378 72
Total	236,889 37

During the year the state received as interest on surplus funds $32,763 05; on specific taxes overdue, $6,640 54; on United States bonds, $13,500; total, $52,903 59; and paid a total interest on its bonded debt of $55,770. Of the bonded debt of the state $15,149 97 is overdue, draws no interest, and has a reserve for its payment. The debt to become due is $890,000. The sinking fund applicable to its payment amounts to $1,208,895 27, leaving a surplus of $318,895 27. By a decision of the supreme court, made since the date of the treasurer's report, the constitutional provision setting apart the specific taxes for the payment of the bonded debt of the state is held to be complied with by holding a sufficient reserve for that purpose, and the surplus on hand, with the future proceeds from specific taxes, is ordered turned over to the primary school fund.

The act of May 10, 1861, entitled "An act authorizing a war loan", provided that for the purpose of organizing the volunteer militia, repelling invasion, suppressing insurrection, etc., the governor and state treasurer be authorized to negotiate loan or loans not to exceed $1,000,000 on the most favorable terms obtainable, redeemable, at the pleasure of the state, within or at the expiration of twenty-five years from January 1, 1861, with interest not to exceed 7 per cent. per annum, payable semi-annually. The act further provides that for the purpose of paying the bonds there shall be levied annually one-sixteenth of one mill on the dollar of taxables in addition to all other taxes.

Under this act bonds to the amount of $1,249,400 (termed "war bonds") were issued, all of which have been paid. The money realized on the bonds was used in arming and equipping troops.

Under act 24, laws of 1864, and acts 85 and 295, laws of 1865, bonds (termed "war bounty bonds") were issued to the amount of $1,306,000, and the proceeds used in paying bounties to volunteers. Of this loan $1,007,000 has been paid, leaving $299,000 outstanding, which becomes due in 1890.

Bonded debt of state, September 30, 1880	$905,150
War bonds, $299,000, at 6 per cent	591,000
"Two-million loan" bonds, $591,000, at 7 per cent	299,000
Canal loan bonds, $15,150, not bearing interest	15,150
Total	905,150
Maturity:	
Past due and not presented for payment	15,150
1883	591,000
1890	299,000
Total	905,150

The state sinking fund amounts to $1,208,895.

WISCONSIN.

The constitution of Wisconsin for 1848 provides that the credit of the state shall never be given or loaned in aid of any individual, association, or corporation, and that it shall never contract any public debt, except to pay current expenses of the government, not to exceed $100,000, and then a tax to pay the same must immediately be evied and especially appropriated to pay the debt; and such appropriation shall not be repealed, nor the taxes postponed or diminished, until the whole debt is paid. The legislature may also borrow money to repel invasion, suppress insurrection, or defend the state in time of war.

The constitution also imposes the duty on the legislature to provide for the organization of cities and incorporated villages, and to restrict their power of taxation, assessments, borrowing money, contracting debts, and loaning their credits, so as to prevent abuses in assessments and taxation and in contracting debts by such municipal corporations.

Under these provisions of the constitution the legislature, being itself cut off from loaning the credit of the state in aid of internal improvements, conferred very freely upon counties, towns, cities, and villages the power of contracting debts for such purposes, which power was used to a considerable extent. Twenty-four counties had, according to an article in *Hunt's Magazine* for 1858, contracted debts at that time and issued bonds to the extent of $11,489,000.

Beside this, there was authorized at that date an additional indebtedness of $3,500,000, which, if incurred, carried the figures to $15,000,000. The governor about this time in his message strongly denounced this system as evasive of the intention of the constitution, and advised the immediate repeal of the laws authorizing towns, counties, and villages to loan their credit, and also recommended that the cities be restrained from any further loans of a similar character, adding that the large debt was not less onerous because it is weighing upon the people locally than it would be if contracted by the state.

By an amendment to the constitution, ratified in 1874, there was added to the article imposing on the legislature the duty of restricting the taxation and debt of cities one to the effect that no county, city, town, village, school

district, or other municipal corporation should be allowed to become indebted in any manner, or for any purpose, to any amount, including existing indebtedness, in the aggregate exceeding 5 per cent. on the value of the taxable property therein, to be ascertained by the last assessment for state and county taxes previous to the incurring of such indebtedness. It was further provided that any municipal corporation creating a debt should levy an annual tax sufficient to pay the interest as it should fall due and the principal within twenty years.

As the ordinary state debt is expressly limited by constitutional provision to a sum not to exceed $100,000, except in case of invasion or to suppress rebellion, this was the sum total of the state issues. Chapter 239, laws 1861, as amended by chapter 307, 1861, authorized the issue of $200,000 in bonds, and they were issued up to May, 1861, when the legislature (assembled in extra session) voted a war loan of $1,000,000, and at the regular session of 1862 (chapter 226, laws 1862) authorized a loan of $50,000 for enlargement of the capitol, and bonds were issued for a further loan of $200,000. In 1863 still another loan, or an issue of certificates of indebtedness not exceeding $350,000, was authorized, and also a loan of $50,000 for the purpose of defraying extraordinary expenditures in the enlargement of the state capitol. Other laws were passed authorizing temporary loans from the trust funds, for which certificates were issued and deposited with the state treasurer. The issues for war purposes under these several authorizations were as follows: In 1860–'61, bonds to the amount of $951,500; in 1861–'62, bonds to the amount of $473,100; in 1862–'63, bonds, $75,400, and certificates, $220,000—total, $295,400; in 1863–'64, certificates, $385,000; and in 1864–'65, certificates, $623,000. These sums amount to an aggregate of $2,728,000. Of this amount there have been redeemed, by returning to the bank comptroller the circulation of discredited banks (authorized by chapter 282, laws of 1865), state bonds to the amount of $548,800, deducting which from the above aggregate left the whole outstanding indebtedness of the state, on the 30th September, 1865, at $2,179,200, or, including interest receipts ($376,011) issued for discredited currency, at $2,555,211.

Of this indebtedness there were held at the date named the sums (as follows) by the—

School fund	$1,000,700
University fund	53,060
Normal school fund	278,000
Amount due trust funds	1,331,760
Bank department for state banks	77,200
Bank department for banks assigned to the state	57,500
Insurance companies on deposit	366,000
Corporations and individuals	346,800
Currency interest-bearing receipts	376,011
Aggregate debt	2,555,211

It was necessary to sell the great bulk of the bonds authorized during the war at a time of extraordinary depression in the stock markets. United States 6 per cent. bonds were selling at 84½ per cent.; Illinois 6 per cents. at 77, and Michigan 7 per cents. at 82. The state treasurer says that there was no option with the loan commissioners as to the time of selling the bonds. The necessities of the commonwealth compelled their sale for whatever could be obtained. The law directed the loan commissioners to negotiate and contract for a loan or loans on the most favorable terms which, in their judgment, could be obtained. Finding insurmountable obstacles in the way of raising the money in New York, the bonds were finally sold to the Wisconsin banks at what was called par, 70 per cent. to be paid on the delivery of the bonds, and the remaining 30 per cent. in semi-annual installments of 1 per cent. Eight hundred thousand dollars were disposed of on these terms. The next sale was made on similar terms, except that 80 per cent. was paid on delivery. Subsequent sales were all made at par, the whole amount paid on the delivery of the bonds. It was never supposed that the entire 30 per cent. left unpaid in the first sale would in all cases be paid. By the terms of the bonds given by the banks to secure the payment of this 30 per cent. the bill-holders were first to be fully protected.

In quite a number of cases, in closing up banks, there has not been enough realized to redeem the circulation and pay the 30 per cent. bonds in full; yet, notwithstanding these losses, the state realized in the aggregate on all bonds sold during the progress of the war 88 per cent.

The following is a statement of the bonded debt issued for war purposes, bearing 6 per cent. interest:

ISSUE.		MATURITY.	
1861	$10,000	1880	$9,000
1862	1,000	1886	1,000
		1888	1,000
Total	11,000	Total	11,000

In addition to this bonded debt of $11,000, the state has a floating debt of $2,241,000, certificates of indebtedness to trust funds, and $57 outstanding currency certificates, making the aggregate debt of the state $2,252,057.

IOWA.

The state of Iowa inherited from the territory of that name a debt of over $19,000. To pay the same and meet the pressing exigencies of the new commonwealth a loan of $55,000 was negotiated in 1847, payable in ten years, $30,000 of which bore 10 per cent. interest, and the remainder 8 per cent. May 1, 1849, $16,442 05 was borrowed from the state school fund, and September 15 following $6,000. For these loans 10 per cent. interest was also paid. March 17, 1850, a bond for $2,000, bearing 8 per cent. interest, was issued. In 1852, $2,353 70 more was borrowed from the school fund, and 10 per cent. interest paid thereon. In 1853 the $2,000 bond was paid off. In 1856 the debt to the school fund had increased to $61,442 05, and the whole debt in December of that year was $128,009 69, including outstanding warrants of $11,567 64. The present state constitution limits the power to contract debts to supply casual deficits or failures in revenues, not to exceed $250,000, and losses to the permanent school or university funds, occasioned by defalcation, mismanagement, or fraud of the agents or officers controlling the same.

The state may, in addition to the above, contract debts to repel invasion, suppress insurrection, or defend the state in war. The credit of the state is not in any manner to be given or loaned in aid of any individual, association, or corporation.

In January, 1858, all funded debt had been paid off except that to the school fund, now amounting to $122,295 75. During the year 1858 a loan of $200,000 was effected on bonds having ten years to run, and bearing 7 per cent. interest. In 1861 the state issued bonds to the amount of $300,000 for purposes of war and defense. These bore 7 per cent. interest, and are payable July 1, 1881.

The debt at this time amounted to $622,295 75, at which figure it remained until 1868, when the $200,000 loan of 1858 became due. This loan was at that time paid off, to accomplish which, however, $112,202 26 was borrowed from the school fund, to bear 8 per cent. interest, and to be repaid March 2, 1888. The debt, aggregating $534,498 01, has remained the same to the present time, June 1, 1880.

In addition to the foregoing, the state has issued in favor of its own school fund two bonds, to the amount of $10,937 18, on account of losses to that fund, in accordance with section 3, article 7, of the state constitution. These bear 8 per cent. interest, and are irredeemable.

All the indebtedness to the school fund bore 10 per cent. interest up to November 12, 1864. Since that time it has borne 8 per cent.

MINNESOTA.

When Minnesota entered upon her existence as a state both the United States and Europe were suffering from the effects of the financial crisis of 1857. Credit was shaken, immigration checked, capitalists ceased to invest their money, operations in real estate were suspended, and the settlement of the state, which had so propitiously begun, was entirely stopped. To fully understand the circumstances which led to the creation of the debt of Minnesota, it will be necessary to recall the fact that on March 3, 1857, Congress passed an act entitled "An act making a grant of land to the territory of Minnesota, in alternate sections, to aid in the construction of certain railroads in said territory". On the 22d of May, 1857, the legislature of the territory of Minnesota passed an act to accept the grant and execute the trust created by an act of Congress of March 3, 1857. The original act of Congress granted "every alternate section of land designated by odd numbers, for six sections in width, on each side of each of (four) said roads and branches", with a grant in lieu of such of the sections as might be sold or pre-empted before the lines should be located. The territorial act accepted the grant upon the terms, conditions, and instructions contained in the conferring act, and assumed and undertook the trust created by the said act of Congress.

The constitution of the state of Minnesota, as originally framed and adopted by her people, restricted the public debt, except in case of invasion or insurrection, to $250,000. Subsequently it became evident that, to insure the speedy construction of the railroads for which the state had received from Congress the above grant of land, the state must lend aid to the companies chartered by the territorial legislature, to which the lands had been transferred by the same authority for railroad purposes. The legislature of the state, at its first session, in accordance with the mode prescribed by the constitution for its own amendment, passed an act loaning the credit of the state to the four land-grant companies to the amount of $1,250,000 each, or $5,000,000 in the aggregate, upon certain conditions, and providing for the submission of the act to the vote of the people. The vote was taken on the 15th of April, 1858, resulting in a majority of nearly 20,000 in favor of the act.

Soon after the adoption of what was called the "loan amendment" the railroad companies commenced work upon their respective lines. Upon application being made by the companies to the governor of the state for state bonds for labor actually performed in compliance with the law, it appears that Governor Sibley made public what he deemed to be the proper construction of the language of the amendment, and, in order to exact a strict compliance on the part of the companies with the prescribed requirements before any of the obligations of the state should be issued, he prepared and placed upon the executive journal, on the 4th of August, 1858, a memorandum of the conditions

upon which the state bonds would be delivered, a copy of which was duly transmitted to the companies. The memorandum of the governor was to the effect that the state must receive in return for the bonds the exclusive first-mortgage bonds of these companies to an amount equal to the state bonds received by them, giving priority of lien upon their entire lands, roads, and franchises in favor of the state. The companies objected to this construction, and, upon the governor's refusal to issue the state bonds to them upon any other terms, a writ of mandamus was applied for to the supreme court of the state by the Minnesota Pacific Railroad Company to compel the governor to deliver to that company the bonds of the state without exacting the exclusive first-mortgage bonds of the company in return. The question was argued before the supreme court, and the majority of that tribunal decided that the ruling of the governor was erroneous, and that the state, by her own act, had placed herself on a like footing with other holders of the first-mortgage bonds of the companies under their deeds of trust, and could not, therefore, legally acquire an exclusive priority of lien upon the property of the companies.

Governor Sibley submitted to the writ, and directed the issue of the state bonds. The publicity of the disagreement between the governor of the state and the railroad company by these proceedings was the first blow to the market value of the bonds, which, under the original construction, had been eagerly sought for at par. The several companies received the state bonds due them and attempted to effect their negotiation, but without success. They then appealed to the governor for aid in disposing of the bonds. Anxious that the progress of the work upon the roads should not be interrupted, the governor spent several weeks in New York city, endeavoring to sell the bonds, but without result. That failure the governor, in his message of December 8, 1859, attributes to the opposition of citizens of the state, acting through the public prints and by private letters, to thwart his efforts.

Unable to negotiate the bonds received from the state, and possessed of little or no means of their own, the railroad companies became unable to raise money upon their own bonds except at ruinous rates. All labor on the roads was suspended, and the companies found themselves without the means to meet their engagements, or at that time, with the single exception of the Southern Minnesota Company, to pay the December installment of the semi-annual interest on the state bonds they had received. Further issue of state railroad bonds was stopped, the issue amounting, at the close of 1859, as follows:

To the Minnesota and Pacific Railroad Company	$600,000
To the Minneapolis and Cedar Valley Company	600,000
To the Transit Company	500,000
To the Southern Minnesota Company	575,000
Making in all	2,275,000

At this date there had been completed of graded road for superstructure of the several companies as follows:
On the line of the Minnesota and Pacific Railroad Company, 62 miles and 3,213 feet.
On the Minneapolis and Cedar Valley, 69¼ miles.
On the Transit, 50 miles.
On the Southern Minnesota, or main line of the Minnesota Valley, 37½ miles.
On the Root River branch, 20 miles and 1,004 feet.

The Minneapolis and Cedar Valley Company filed in the executive office a full waiver of all its rights, under the decision of the supreme court, accepting the original terms prescribed by the governor.

The Southern Minnesota Company so changed and restricted its trust deed that, in lieu of $9,500,000 proposed of first-mortgage bonds in its original trust deed, only $2,000,000 should be issued on its entire line of road, including $1,250,000 to the state. The Transit Company by its trust deed bound itself to issue only $1,860,000 of first-mortgage bonds, including those of the state, until 62 miles of its road should be completed and the cars running thereon, and only $30,000 on each mile of its road as it should be graded and completed, in sections of ten miles, after the completion of the 62 miles as aforesaid. In addition, these companies formally accepted the ruling of the executive, by which only one-half of the state aid was to be applied to the grading of their respective roads, the remainder to be delivered only as each road was completed and the cars running thereon.

The companies last named also obligated themselves to secure the right of way on their respective lines as soon as possible.

The Minnesota and Pacific Company also assented substantially to the terms imposed on the Transit Company, but the instrument was not filed in the executive office.

The history of these unfortunate enterprises was, in brief, that the work stopped, the companies made default in payment of interest, and became insolvent. The state then proceeded to foreclose its securities. By these foreclosure proceedings it acquired about 250 miles of graded road, the franchises of the companies, the lands of the companies; in fact, it acquired the title to all the securities which it had taken for its indemnity, including nearly 5,000,000 acres of land, as security for its liability for $2,275,000, bonds and interest.

In 1860 the state, by an amendment to her constitution, repudiated the bonds and forbade the levying of a tax to pay the interest. The lands, road-bed, and franchises, which the state held for its indemnity, were afterward granted by it to existing companies free and clear.

This action of the state left the holders of the bonds unprovided for. One of the contractors, who had received payment in bonds, brought suit in the United States court against the Southern Minnesota Company, the Saint Paul

and Sioux City Company, and others. The decision of the court was, that where land is conveyed to the state by a corporation as indemnity against losses on state bonds loaned to it the bondholders have no equity for the application of the land to the payment of the bonds which can be enforced against the state, and her grantees take the property discharged of any claim of the bondholders. This was affirmed by the Supreme Court of the United States.

In his annual message of January, 1877, the governor advocated a recognition of the old repudiated bonds. He says that the state has, by strong implications, uniformly affirmed the validity of the bonds, and cites numerous instances as proof, and refers to the decision of Judge Dillon and the Supreme Court.

The bonds in question were issued in 1858 and 1859 in aid of railroads, bearing interest at 7 per cent., and redeemable in 1883. The amount of the issue was $2,275,000, on which the unpaid interest for seventeen years amounts to nearly $3,000,000 more, making the repudiated debt, principal and interest, over $5,000,000.

The same year the joint legislative committee reported a bill providing for an issue of 6 per cent. bonds, to be issued in lieu of the old bonds and their unpaid coupons, to the amount of $1,600 for each outstanding 7 per cent. bond or coupon, or $3,640,000 in lieu of the then outstanding indebtedness. This provision was not to go into effect unless the people ratified an act devoting the proceeds of the 500,000 acres of internal-improvement land to the payment of the principal and interest. This proposition was submitted to the people for ratification on the 12th of June, but was rejected.

On the assembling of the state legislature, January, 1881, the holders of the bonds again appeared and submitted another proposition for settlement of the disputed bonds of "50 per cent. of the amount nominally due upon the bonds and coupons", which was duly considered and finally provided for by the passage of an act approved March 2, 1881. The act provided that the judges of the supreme court should act as a tribunal for the adjustment of the debt.

The judges of the supreme court declined to act upon the tribunal, as required by the act, and it was finally made up by the appointment of five district judges, and they convened as such tribunal on the 6th day of August, when D. A. Secombe, a citizen and taxpayer of the state, applied to the supreme court for a writ of prohibition against the said tribunal, on the ground that the act of adjustment was unconstitutional and void. The question being taken under advisement by the court, the tribunal adjourned for thirty days.

In their decree the supreme court decided that the constitutional amendment of 1860, declaring that no provision should ever be made for the payment of the state railroad bonds without a submission to the people, was invalid. This amendment, the court held, was in violation of section 10 of article 1 of the Constitution of the United States, in that it impaired the obligation of the state contract with the bondholders. The tribunal was also decided illegal. This decision, that full and final power and authority to provide for the settlement of these bonds was vested in the legislature, and the renewal of the bondholders' proposition for adjustment at fifty cents, resulted in Governor Pillsbury calling a special session of the legislature September 19, 1881. The legislature met in response to the call of the governor and enacted a law providing for the cancellation of the Minnesota State railroad bonds and coupons, and the issuance to their holders, in lieu and in full satisfaction thereof, of new bonds (in denominations of $1,000 each), to be known as Minnesota State Railroad Adjustment bonds, in amount aggregating 50 per cent. of the par value of the principal and interest of the aforesaid canceled bonds and coupons on the first (1) day of January, 1884. These new bonds, bearing date July 1, 1881, and (after January 1, 1884) drawing interest not exceeding 5 per cent. per annum, are made payable after 10 years and not more than 30 years from their date, at the option of the state, interest payable semi-annually, in January and July of each year, in the city of New York. A proviso reserved to the state the right to pay the bondholders in cash, in case its new bonds could be negotiated at par at a less rate of interest than 5 per cent., and in that case the new bonds were to bear interest from January 1, 1882. Under the terms of this proviso new bonds have been issued to the amount of $4,000,000, bearing interest at 4½ per cent. per annum, and on January 14, 1882, all but 108 of the 2,275 Minnesota State Railroad bonds had been surrendered and canceled, their holders having been paid in new bonds or in cash.

The amounts received by the holders of the old bonds under this adjustment is equivalent to the face value of the old bonds with interest thereon for 23 years, at the rate of 3½ per cent. per annum.

The following is an exhibit of the state debt as it stood in 1880:

Recognized state debt	$290,000
Loan of 1873—7 per cent. for public buildings, due in 1883	175,000
Temporary loan, for purchase of seed-grain for sufferers by grasshoppers	115,000
Total	290,000
Unrecognized state debt:	
Bonds issued in 1858—for railroad aid, due in 1883—7 per cent	2,275,000

MISSOURI.

The constitution of the state of Missouri, adopted in 1820, provided that there should be but one bank (with not exceeding five branches) in the state, with a capital of not more than $5,000,000, at least one-half of which might be subscribed by the state, at its option. Early in the year 1837 the state authorized the emission of

$2,500,000 of bonds as a subscription to the capital of the bank. It will be observed that these bonds were authorized at the moment of the general crash of 1837. Negotiation was almost impossible. The bank, however, struggled on against the difficulties of the situation. According to *Hunt's Merchants' Magazine* for 1858, the Bank of Missouri was the only institution started at the time of the first suspension of the banks in the United States, South and West, that did not suspend at the second revulsion of 1839. In 1858 the capital of the bank amounted to $1,719,605; loans, $2,244,473; specie, $1,702,101; circulation, $2,301,106; deposits, $1,428,928. In 1857 a general bank law had been enacted, and a number of banks were chartered, six of which went into operation in Saint Louis. The bonds which had been authorized as a subscription to the capital stock of the bank had never been issued beyond a small amount.

The fifth section of the bank charter had directed the governor to issue the bonds of the state to the bank in full payment of the state's subscription to the capital stock. These bonds were to bear 5½ per cent. interest, payable semi-annually in New York, but were not to carry interest until they were sold, and the bank could not discount or do business on these bonds until the proceeds were actually in the bank. Under these provisions the bonds could not be sold. In 1839 the legislature passed an amendment to the charter, in which the governor was authorized to take up these bonds and issue others in their place, which the bank was required to take in full payment of the state's stock. These bore 6 per cent. interest, payable semi-annually. The principal and interest might be made payable whenever deemed most desirable. The act contained a section pledging the state to the punctual payment of the interest semi-annually, but no provision that the interest should not be paid until the bonds were sold.

Under this law new bonds were issued and delivered to the bank, and by the bank sent to Europe, but were not negotiated, and were finally returned. The bank held, therefore, $2,000,000 of these bonds, bearing an interest of 6 per cent., when the legislature passed a resolution to have the bonds returned and canceled.

The whole amount of the state debt outstanding January 1, 1857, was as follows:

On what account issued.	Date of bond.	Rate of interest.	When payable.	Amount issued.
Bank stock	1837	5½	1862	$63,000
Bank stock	1837	5½	1862	100,000
Bank stock	1837	5½	1863	100,000
Bank stock	1837	6	1863	99,000
Building of the capitol	1838	6	1863	40,000
Payment of state bonds falling due 1851	1851	6	1856	200,000
Payment of state bonds falling due 1853	1853	6	1863	200,000
Total				802,000

When the project of building a road to the Pacific was broached the interest of the state of Missouri therein was seen to be very direct and immediate. In March, 1849, the Pacific railroad was incorporated by the state ni an act which was amended in March, 1851. In 1852 Congress granted the right of way and a portion of the public lands to the state of Missouri for the construction of certain roads therein, now known as the Hannibal and Saint Joseph and the Missouri Pacific and Southwest Branch.

In January following the state of Missouri invested the Pacific railroad, to lead from Saint Louis to a point on the western boundary of the state, with the portion of lands so donated by Congress and applicable to the purpose, and the state agreed to loan its bonds to certain railroads mentioned below.

The conditions of these loans to the several roads were as follows: When the directors reported that $50,000 were subscribed *bona fide* by individuals and expended, the state should issue its bonds for a similar amount, and for each similar subscription of $50,000, until the appropriation should be exhausted. To secure the state, the entire franchise of the roads, their lands, building, furniture, and equipment, were to be mortgaged to the state. The proceedings under this law to July, 1857, were as follows:

	Interest.	Authorized.	Issued to July, 1857.	Sold.	To be issued.	Track laid.
	Per ct.					*Miles.*
Pacific railroad	6	$7,000,000	$6,380,000	$4,917,000	$620,000	139
Hannibal and Saint Joseph	6	3,000,000	3,000,000	1,140,000	.....	64
North Missouri	6	5,500,000	3,150,000	1,954,000	2,350,000	75
Saint Louis and Iron Mountain	6	3,600,000	2,600,000	2,145,000	1,000,000	46
Cairo and Fulton	6	650,000	180,000	100,000	470,000	.....
Platte County	6	700,000	.....	.....	700,000	.....
Southwest Branch Pacific	7	4,500,000	.....	.....	.....	.....
Total for railroads	.....	24,950,000	15,310,000	10,256,000	5,140,000	.....

The $4,500,000 bonds of the Southwest branch were indorsed by the state and bore 7 per cent., but these did not sell as well as the 6 per cent. direct debt of the state. When the panic overtook the country, in the fall of 1857, the sales were as low as 69¾ for Iron Mountain, 45 for the Pacific, and 80 for Cairo and Fulton. The bonds not sold were held as follows:

	Hypothecated.	In agents' hands.	Total.
Pacific railroad	*$1,117,000	$346,000	$1,463,000
Hannibal and Saint Joseph	.....	†1,860,000	1,860,000
North Missouri	50,000	146,000	196,000
Saint Louis and Iron Mountain	.....	455,000	455,000
Cairo and Fulton	.....	80,000	80,000
Total	1,167,000	2,887,000	4,054,000

*$352,000 reported sold at an average of 75½. †In hands of fiscal agent, Boston, a portion of which had been sold.

The panic put a stop to the negotiation of the bonds, and made it necessary to suspend the works. For this purpose a law was passed suspending the further issue of bonds, under the law of 1855, until March, 1859, except for the purpose of completing works at that time nearly done: On the North Missouri railroad, $750,000; on the Iron Mountain railroad, $470,000; on the Pacific railroad (Kansas stem), $400,000; and the Pacific railroad (Southwest branch), $500,000; making a total of $2,120,000.

These bonds were not to be sold at less than 90 cents. Those of the Southwest branch were 6 per cent. bonds, in place of the indorsed bonds of the state, which bore 7 per cent. interest. The issue of this $2,120,000 of bonds made the total debt of Missouri at that time $18,006,000, for the interest on which the state was responsible.

For the interest due January, 1860, the state had to provide, the roads being unable to do so. The amount of the interest due at that date was $516,190. The state borrowed of the savings banks the money necessary to pay the January interest at 8 per cent. per annum and 1½ per cent. premium for exchange. The money was borrowed for sixty days. The balance of the bonds, amounting to $3,349,000, it was supposed at this time would be immediately issued to the railroads. This was all subsequently loaned, with the exception of $1,150,000, to the North Missouri.

The debt continued to increase, and according to a statement of the auditor of public accounts, made at the close of 1862, it had reached $27,370,000, composed of the following items:

Miscellaneous debts	$602,000
Pacific railroad bonds (main)	7,000,000
Pacific railroad (southwest branch)	4,500,000
Hannibal and Saint Joseph	3,000,000
North Missouri	4,350,000
Iron Mountain	3,600,000
Cairo and Fulton	650,000
Platte County	700,000
Revenue bonds	431,000
State defense warrants	725,000
Arrears of interest due	1,812,000
Total	27,370,000

We have already shown that all the railroad companies, except the North Missouri, received from the state the full amount of the loan authorized. This company failed to pay interest before the total amount was drawn, and consequently further loans were withheld.

During the war Missouri suffered largely, not only from the destruction of its railroads, but also in consequence of the suspension of industrial pursuits. No interest was paid on the railroad debt from January, 1861, to 1866, except by the Hannibal and Saint Joseph Railroad Company, which paid promptly. On the reorganization of the state one of the first acts of the convention was to restore the public credit. To this end an ordinance was passed April 8, 1865 (and by a subsequent vote of the people made a part of the fundamental law of the state), which provided for the collection of a tax of one-quarter of 1 per cent. on all other real estate and property and its application to the payment of the debt and accrued interest. The funding act passed by the legislature arranged the terms on which the debt was to be liquidated.

Its chief provision was the funding of the principal of the whole debt and the interest that would accrue up to January 1, 1868, into a consolidated thirty years' debt. The loan to the Hannibal and Saint Joseph Company, however, was excepted, for the reason that the legislature was satisfied with the company's ability to protect the state from loss. The interest on these new bonds was 3 per cent. for the first four years, 4 per cent. for the second four years, 5 per cent. for the next four years, and 6 per cent. for the next six years, and increasing 1 per cent. every

four years after. This arrangement was based on the probable proceeds of the convention tax on an increasing valuation. The debt thus provided for, principal and interest, is as follows:

Series of bonds.	Principal of debt.	Interest to Jan. 1, 1868.	Total amount.
Pacific railroad	$7,600,000	$2,940,000	$9,940,000
Southwestern Branch railroad	4,500,000	2,030,000	6,530,000
North Missouri railroad	4,350,000	1,827,000	6,177,000
Iron Mountain railroad	3,600,000	1,470,420	5,070,420
Cairo and Fulton railroad	650,000	273,000	923,000
Platte County railroad	700,000	294,000	994,000
Revenue bonds	431,000	232,630	663,630
Total	21,231,000	9,067,050	*30,298,050

*From this total there is to be deducted the amount paid in coupons and bonds (about $200,000) by the several state banks and by the late owners of the Platte County railroad, and also $5,000,000, the amount paid to the state for the Pacific railroad, sold under act of March 31, 1868.

In January, 1870, the debt was $20,866,000, of which, however, the state was only called upon to provide interest upon $17,866,000, the interest on the remaining $3,000,000 being promptly paid by the Hannibal and Saint Joseph railroad.

In December, 1871, the governor of the state, in his message to the legislature, recommended the registration of state bonds and payment of interest after January, 1872, in gold. The debt of the state he gives, as shown by the fund commissioners' report, at $17,869,000 (excluding the bonds issued to the Hannibal and Saint Joseph railroad); the assessed value of all property, as presented by the auditor, $575,000,000, the tax provided by ordinance to meet interest and retire bonds being one-quarter of 1 per cent. After showing the amount of debt falling due each year, the governor remarks "that the only bonds which mature in amounts likely to cause any difficulty are those of 1875 and 1876, and that a loan of $2,500,000 or $3,000,000 for five years will bridge the interval up to a time when the surplus will be able to retire them. After that, the residue of our bonded debt can be anticipated and bought in at pleasure".

In April, 1874, the Missouri legislature passed a law authorizing the governor to prepare one million refunding bonds, bearing 6 per cent. interest, and running 20 years, with which to take up the bonds which became due July and January, 1874. These refunding bonds were to be registered and to have coupons attached, and to be issued to the fund commissioners from time to time in such amounts as might be needed.

On the 1st day of January, 1875, the debt of Missouri was $17,839,000, and the annual interest on the entire debt was $1,074,590.

March 27, 1875, a bill to fund the bonds falling due in 1875 and 1876 passed both houses. The bill provided for the issuing of $5,000,000 of 5.20 bonds of gold or currency, at the option of the fund commissioners, the gold bonds bearing interest at 5 per cent., and the currency bonds interest not exceeding 6 per cent. Bonds to an amount necessary to take up the maturing obligations were duly issued.

The semi-annual report of the fund commissioners of the state contained the following account of the transactions of that commission up to and including June 30, 1876. The following table presents the condition of the bonded debt at that time, and the amount of bonds retired and still outstanding:

Series of bonds.	Outstanding January 1, 1875.	Retired in 1875 and 1876.	Issued in 1875 and 1876.	Outstanding July 1, 1876.
Pacific railroad	$3,735,000	$762,000	.....	$2,973,000
Saint Louis and Iron Mountain railroad	2,340,000	468,000	.....	1,872,000
Southwest Branch Pacific railroad	1,455,000	671,000	.....	784,000
North Missouri railroad	2,853,000	597,000	.....	2,256,000
Platte County railroad	504,000	.....	.....	504,000
Cairo and Fulton	392,000	.....	.....	392,000
Consolidation bonds	2,727,000	.....	.....	2,727,000
State debt proper	439,000	.....	.....	439,000
Northwestern Lunatic Asylum	200,000	.....	.....	200,000
University	201,000	.....	.....	201,000
Southwest branch (guaranteed)	1,589,000	1,589,000	.....	.....
Funding bonds	400,000	.....	$600,000	1,000,000
Refunding bonds	104,000	.....	.....	104,000
Certificates of indebtedness—school fund	900,000	.....	.....	900,000
Mayberg & Waugelin and Hancock, Roach & Co.	.....	.....	41,000	41,000
Renewal fund bonds	.....	.....	3,087,000	3,087,000
Total	17,839,000	4,087,000	3,728,000	17,480,000

In order to meet the large amount of bonds maturing during the years 1875 and 1876 the fund commissioners, with the advice and consent of the governor, issued and negotiated the following bonds of the denomination of $1,000 each:

When issued.	Number of bonds sold.	Series.	Amount realized.	Rate per cent.
1875.				
March	600	Funding bonds	$571,075 00	95.17+
May 1	266	Renewal funding bonds	259,109 60	99.65+
July 1	540	Renewal funding bonds	534,600 00	99.00
December 1	2,287	Renewal funding bonds	2,258,961 90	98.76+
1876.				
July 1	200	Renewal funding bonds	209,006 00	104.50+
December 1	225	Renewal funding bonds	232,945 31	103.52+

From the foregoing it will be seen that during the years 1875 and 1876 there were issued 3,728 bonds of $1,000 each, the proceeds of which, except 41 bonds issued under the provisions of an act approved March 29, 1875, were applied to the payment of maturing bonds.

In addition to the above there were sold, in June, 1876, 200 bonds of $1,000 each at a fraction over 104½ cents (or $1,045 03 each bond) on the dollar, which were delivered and paid for, but not included in the foregoing table, because the proceeds, in accordance with the terms of sale, were not paid into the treasury within the period of time embraced in the report of the fund commissioners.

The commissioners say that in the face of the stringency of the money market, making it almost impossible to collect taxes, they have not only met the accruing interest promptly, but have paid off and retired $359,000 of bonds during the preceding eighteen months, which left the balance of $41,447 93, to meet and take up a like amount of outstanding bonds. They say that the state securities have advanced from 92½ to 105½ cents on the dollar. Owing to the reduction made in the bonded debt, and the funding of the 7 per cent. with the 6 per cent. bonds, the annual interest decreased between January 1, 1875, and June 30, 1876, $37,000.

The following tables present an analysis of the state debt as it stood December 31, 1880:

Bonded debt	$16,259,000
Issued for—	
Railroads	6,797,000
Refunding old debt	7,681,000
State university	201,000
Lunatic asylum	200,000
State debt proper	439,000
Penitentiary indemnity	41,000
School fund	900,000
Bearing 6 per cent. interest	16,259,000

ISSUE.		MATURITY.	
Previous to 1860	$6,712,000	1882	$17,000
1860	242,000	1883	422,000
1862	17,000	1885	4,000
1863	265,000	1886	1,922,000
1868	2,727,000	1887	3,242,000
1872	401,000	1888	3,251,000
1874	504,000	1889	863,000
1875	3,228,000	1890	242,000
1876	425,000	1892	401,000
1877	838,000	1894	504,000
Unspecified (school fund)	900,000	1895	3,228,000
		1896	425,000
		1897	838,000
		Indefinite (school fund)	900,000
Total	16,259,000	Total	16,259,000

This bonded debt ($16,259,000) does not include the $3,000,000 of bonds issued to the Hannibal and Saint Joseph Railroad Company. That company pays the interest on these bonds promptly, the state having a statutory mortgage lien on the road to secure the payment of both principal and interest (auditor's report, 1879–'80). The above amount ($3,000,000) was issued, and matures as follows:

ISSUE.		MATURITY.	
1857	$1,501,000	1886	$500,000
1874	500,000	1887	1,000,000
1875	203,000	1894	500,000
1876	779,000	1895	203,000
1877	17,000	1896	779,000
		1897	17,000
		Overdue	1,000
Total	3,000,000	Total	3,000,000

Statement of the bonded debt of Missouri, exclusive of $3,000,000 in Hannibal and Saint Joseph railroad bonds:

Outstanding January 1, 1865	$21,734,000
Outstanding January 1, 1867	20,147,000
Outstanding January 1, 1869	18,654,000
Outstanding January 1, 1871	17,866,000
Outstanding January 1, 1873	18,748,000
Outstanding January 1, 1875	17,839,000
Outstanding January 1, 1877	17,248,000
Outstanding January 1, 1879	16,758,000
Outstanding January 1, 1881	16,259,000

The debt was mainly created under the following acts giving aid to railroads; of the amount of state credit loaned to the several railroad companies, the several acts under which state bonds were issued, and the amount issued to each:

Name of company.	Under what act of the general assembly issued.	Amount loaned each company.	Total amount loaned each company.	Amount of state bonds issued.	Total amount of state bonds issued.
Pacific Railroad Company.	"Act to expedite the construction of the Pacific and the Hannibal and Saint Joseph railroads", approved February 22, 1851.	$2,000,000		$2,000,000	
	"Act to accept a grant of land, made to the state of Missouri by the Congress of the United States, to aid in the construction of certain railroads in the state, and to apply a portion thereof to the Pacific railroad", approved December 25, 1852.	1,000,000		1,000,000	
	Same act, to southwest branch of the Pacific railroad, by the act subsequently mentioned, of December 10, 1855, transferred to Kansas road.	1,000,000		1,000,000	
	"Act to secure the completion of certain railroads in this state", which became a law December 10, 1855.	2,000,000		2,000,000	
	"Act to amend an act to secure the completion of certain railroads in this state, and for other purposes", approved March 3, 1857.	1,000,000		1,000,000	
			$7,000,000		$7,000,000
Pacific Railroad Company, southwest branch.	"Act to secure the completion of certain railroads in this state", which became a law December 10, 1855 (construction or guarantee bonds).	3,000,000		3,000,000	
	Act to amend the act above recited, approved March 3, 1857	1,500,000		*800,000	
	An act amendatory of the act of March 3, 1857, approved November 19, 1857	700,000		700,000	
			5,200,000		4,500,000
Hannibal and Saint Joseph Railroad Company.	"Act to expedite the construction of the Pacific and the Hannibal and Saint Joseph railroads", approved February 22, 1851.	1,500,000		1,500,000	
	"Act to secure the completion of certain railroads in this state", which became a law December 10, 1855.	1,500,000		1,500,000	
			3,000,000		3,000,000
North Missouri Railroad Company.	"Act to expedite the construction of the North Missouri railroad", approved December 23, 1852.	2,000,000		1,959,000	
	"Act to secure the completion of certain railroads in this state", which became a law December 10, 1855.	2,000,000		2,000,000	
	Act to amend the above act of December 10, 1855, approved March 3, 1857	1,500,000		400,000	
			5,500,000		4,350,000
Saint Louis and Iron Mountain Railroad Company.	"Act to expedite the construction of the Iron Mountain branch of the Pacific railroad", approved December 26, 1852, and "An act explanatory and amendatory of said act", approved February 23, 1853.	750,000		750,000	
	"Act to aid in the construction of the Saint Louis and Iron Mountain railroad", approved March 3, 1855.	750,000		750,000	
	"Act to secure the completion of certain railroads in this state", which became a law December 10, 1855.	1,500,000		1,500,000	
	Act to amend the above act of December 10, 1855, approved March 3, 1857	600,000		276,000	
	"Act in relation to the Saint Louis and Iron Mountain Railroad Company", approved March 9, 1859.			225,000	
			3,600,000		3,501,000
Cairo and Fulton Railroad Company.	"Act to expedite the construction of the Cairo and Fulton railroad of Missouri", which became a law December 11, 1855.	250,000		250,000	
	"Act to amend the 'Act to secure the completion of certain railroads in this state, and for other purposes'", approved March 3, 1857.	400,000		400,000	
			650,000		650,000
Platte County Railroad Company.	"Act to amend 'An act to secure the completion of certain railroads in this state, and for other purposes'", approved March 3, 1857.	700,000		700,000	
			700,000		700,000
	Total		25,650,000		23,701,000

*Of the amount issued to the Southwest Branch Pacific railroad $3,800,000 were 7 per cent. guaranteed and $2,589,000 were 6 per cent. direct; total, $6,389,000. There was exchanged $1,889,000 of the 7 per cents for a like amount of the 6 per cents, which left $4,500,000 of aid granted.

All outstanding bonds bear interest at the rate of 6 per cent. per annum.

KANSAS.

The constitution of 1859 of Kansas provides that no debt shall be contracted by the state except for the purpose of defraying extraordinary expenses and making public improvements, such debts not to exceed in the aggregate $1,000,000. Such debt must be authorized by law for a specified purpose, and must be adopted by a majority of the members elected to each house, the vote to be taken by yeas and nays; and every such law must provide for levying an annual tax sufficient to pay the interest and the principal when the same may become due. Other debts may be contracted by the state, provided the proposed law authorizing the same be first submitted to a direct vote of the electors of the state at a general election, and ratified by a majority of all the votes cast thereat. Money may also be borrowed to repel invasion, suppress insurrection, and defend the state in war.

The state cannot be a party in carrying on any work of internal improvement, or become a stockholder in any banking institution.

Hon. P. E. Bonebrake, for several years auditor of state, has prepared for the Census Office, a tabular statement showing the condition of the bonded debt of the state at eighteen annual periods, *i. e.*, from 1861 to 1878.

In connection with the table of Mr. Bonebrake, herewith appended, it is to be noted that the sinking fund is largely, but not wholly, composed of Kansas state bonds, and that the amount of such bonds are included with those owned by the several school funds in the next column, "State bonds owned by the state." The third column shows the total of outstanding bonds, no deductions being made for the amounts held in the several funds.

The indebtedness remained the same in 1880.

Year.	Sinking fund.	State bonds owned by state.	State bonded debt.	Year.	Sinking fund.	State bonds owned by state.	State bonded debt.
1861			$150,000	1870	$67,359 56	$468,375 00	$1,341,975
1862			150,000	1871	109,947 20	562,125 00	1,336,675

Total	1,181,975	Total	1,181,975

NEBRASKA.

The original constitution of Nebraska contains several provisions in regard to the incurring of debts. Section 32 of Article II provides that the legislature shall not authorize the borrowing of money or the issuance of state bonds for any sum exceeding in the aggregate $50,000 without submitting a proposition therefor to a vote of the people for their approval or rejection, except in case of war, to repel invasion, or suppress insurrection. Section 2 of the article of finance reads: "The credit of the state shall never be given or bound loaned in aid of any individual, association, or corporation."

Section 4 of the same article provides that the legislature may, for the purpose of defraying extraordinary expenses, contract public debts not to exceed $50,000, the law authorizing the same to be passed by a majority of the members elected to each house, and shall provide for the levy of an annual tax sufficient to pay the interest and to extinguish the principal in ten years.

Another section authorizes the borrowing of money to repel invasion or defend the state in war. The sixth section of the same article prohibits the state from contracting debts for works of internal improvement or being a party in carrying on such works; but if grants be made to the state, dedicated to particular works of internal improvement, then the state may carry on the same and devote the avails of such grants and pledge, or appropriate the revenues derived from such works, in aid of their completion.

A new constitution was adopted, and ratified October 12, 1875.

The provision last mentioned is omitted, and the amount which a state may borrow is changed to $100,000. The section first above mentioned (section 32, Article II) is also omitted.

On February 17, 1875, an act was passed authorizing the issue of $50,000 bonds, payable in ten years from date, with 10 per cent. per annum interest, payable semi-annually. These bonds were issued for the purpose of purchasing seed-grain for distribution among the citizens of the state made destitute by the ravages of the grasshoppers in the year 1874. The act provides for the levy of an annual tax of one-tenth mill on the dollar in addition to all other taxes for the payment of interest and redemption of principal.

Section 8 of Article IX of the constitution of 1875 reads: "The legislature, at its first session, shall provide a law for the funding of all outstanding warrants and other indebtedness of the state at a rate of interest not exceeding 8 per cent. per annum."

In accordance with this provision, the legislature, at the ensuing session, on February 14, 1877, passed an act to fund the indebtedness of the state. The act states the debt to be $566,369 38, and bonds were issued to that amount, payable twenty years after April 1, 1877, bearing 8 per cent. interest, payable semi-annually. These bonds were to be sold (giving the preference to the school fund of the state) on April 1, 1877, to the highest bidder, at not less than par, the bonds issued to the school fund to be taken at par. The act provides that all outstanding warrants not presented for payment before May 1, 1877, should from that day cease to bear interest.

Under this act bonds were issued and disposed of as follows:

For redemption of certificates of indebtedness issued by the state and held by the permanent school fund	$342,957 34
Sold to permanent school fund at par, for cash	83,310 01
Sold to the highest bidder for cash, at 1.07	123,000 00
Total issued	549,267 35
Premium on $123,000, sold at 1.07	8,610 00
Total realized	557,877 35

On January 1, 1879, the state had no indebtedness other than that represented by the following bonds:

Ten per cent. ten-year bonds, issued in 1875 for relief of grasshopper sufferers	$50,000 00
Eight per cent. funding bonds, issued in 1877	549,267 35
Total	599,267 35

On February 24, 1879, an act was passed directing the immediate redemption of $100,000 of the funding bonds held by the school fund, and providing for the reinvestment of that amount by the board of educational funds, thus leaving the amount of the bonded debt of the state, November 30, 1880, at $499,267 35.

COLORADO.

Colorado was created a separate territory in 1861. Successive acts and presidential vetoes bring the admission as a state to August 31, 1876, when, by proclamation, Colorado was declared one of the states of the Union.

Profiting by the experience of the older states, Colorado, in and by her constitution, has restricted the power of the state to contract any debt, by loan in any form, except to provide for casual deficiencies of revenue, erect public buildings for the use of the state, to suppress insurrection and defend the state in war, and to assist in

defending the United States, and the amount of debt contracted in any one year to provide for deficiencies of the revenue shall not exceed one-fourth of a mill on each dollar of taxable property, and the aggregate amount of such debt shall not at any time exceed three-fourths of a mill on the dollar on such valuation until the same shall equal $100,000,000, and thereafter such debt shall not exceed $100,000; and the debt incurred for erection of public buildings shall not exceed a half mill on the dollar, nor at any time exceed $50,000, except that if a law to that effect be ratified by a majority of all the voters voting thereon at a general election a debt not to exceed three mills on the dollar of such valuation may be incurred for the erection of public buildings.

Under the constitution, neither the state, nor any county, city, township, or school district, can become a stockholder or joint owner in any corporation or company, nor can any such civil division lend or pledge the faith thereof to, or become responsible for, the debts of any person, company, or corporation, public or private, in or out of the state. These provisions do not apply, however, to debts incurred by any county or municipality during the territorial government.

When Colorado became a state she assumed the debt of the territory, amounting to about $42,000.

The debt of the state on the 30th day of November, 1880, consisted of outstanding warrants and certificates of indebtedness to the amount of $212,814.

NEVADA.

On becoming a state Nevada assumed the territorial debt, which, on October 30, 1864, amounted to $264,110 47, maturing as follows:

Bonds, February 1, 1865	$5,000 00
Bonds, March 1, 1865	20,000 00
Bonds, February 1, 1866	35,000 00
Bonds, March 1, 1866	20,000 00
Bonds, February 1, 1867	35,000 00
Bonds, March 1, 1867	20,000 00
Bonds, February 1, 1868	40,000 00
Bonds, February 1, 1869	50,000 00
	225,000 00
Outstanding warrants	39,110 47
Total	264,110 47

Of the bonded debt, $165,000 was bearing 10 per cent., and $60,000 was bearing 18 per cent. per annum, payable semi-annually.

These bonds were issued in 1862 and 1864, respectively, $165,000 being for current and existing indebtedness of the territory, and $60,000 being unpaid balance of bonds issued for the erection of a state prison.

The issue and sale of $150,000 in bonds was authorized by the legislature by act passed January 4, 1865. The bonds were to be dated when issued, to mature after one year from date, to bear interest not exceeding 2 per cent. per month, and to be sold at not less than par value.

On February 14, 1865, 10 per cent. interest-bearing bonds, to mature on January 1, 1870, to the amount of $110,000, were authorized to be issued for the purpose of refunding the territorial prison bonds and the outstanding warrants of that government. This act was amended on March 10, 1865, so as to include other claims against the territory.

On December 31, 1865, there were outstanding—

Territorial bonds	$160,000
State bonds for territorial indebtedness	116,042
State bonds under act January 4, 1865	60,000
Interest on bonded debt	23,780
	359,822
And a floating debt of about	90,000

On January 19, 1866, an act authorizing the issue of $200,000 bonds was passed for the purpose of defraying the expenses of the government.

On December 31 of that year the bonds outstanding were as follows:

Territorial bonds	$125,000
State bonds for territorial indebtedness, act February 14, 1865	96,156
State bonds, under act January 19, 1866, due February 1, 1867	200,000
	421,156

The floating indebtedness and interest on the debt amounted to $164,000, and there was available in the state treasury about $90,000.

On February 6, 1867, a loan of $500,000 was authorized, and bonds to bear interest not exceeding 12* per cent. per annum, payable in five years, were to be issued therefor. The act recites that the loan is made under the provisions of section 7, Article XVII, and of section 3, Article IX.

The outstanding territorial bonds were all redeemed, and all the territorial indebtedness, as well as the $200,000 state bonds, were paid out of the proceeds of this loan.

There were outstanding on December 31, 1869, in addition to the above, bonds issued under the act of February 14 and March 10, 1865, amounting, with interest, to $80,575.

On February 27, 1871, an act authorizing the issue of $120,000 for redemption of bonds issued for the extinguishment of territorial debt and $280,000 to defray expenses of the government was passed. The bonds were to bear 10 per cent. interest, and payable within ten years.

Under several intervening acts loans were made, and the following exhibits the debt of the state on December 31, 1872:

State bonds issued April 1, 1871, redeemable in ten years		$160,000
State bonds issued March 1, 1872, redeemable in ten years		120,000
State bonds issued March 1, 1872, redeemable in fifteen years		380,000
		660,000
Floating debt and interest		70,724
		730,724
There was in the sinking fund belonging to school fund—		
Bonds amounting, with interest, to	$107,173	
Cash in treasury	240,181	
		347,354
Net debt		383,370

An act was passed in 1875, and amended by an act passed January 28, 1879, under which the entire state debt was funded. The redeemable bonded debt of Nevada, December 31, 1880, amounted to $56,400. This amount comprises bonds issued in 1871 to refund the old debt of the state. They bear 10 per cent. interest, and mature in 1881. In addition to this, the state issued to the school fund in 1879 bonds to the amount of $380,000, bearing 5 per cent. interest, which are irredeemable. The sinking fund of the state at that date amounted to $312,372, composed of cash and California state bonds.

OREGON.

The debt of the state of Oregon on April 1, 1880, consisted of two kinds, *i. e.*, bonds bearing 7 per cent. and warrants bearing 10 per cent. interest. Of the first the following is a schedule:

Soldiers' bounty bonds.—Authorized by act of legislative assembly, approved October 24, 1864, "granting bounties to volunteers of this state enlisted in the service of the United States," due July 1, 1884; amount still outstanding, $26,000, for which there is on hand, applicable to their payment, $30,000; but as they are not payable, at the option of the state, holders will not relinquish them.

Soldiers' relief bonds.—Authorized by act of legislative assembly, approved October 24, 1864, appropriating $100,000 for relief of discharged officers and soldiers from this state; due in twenty years; amount still outstanding, $761 10. The funds for the payment of both classes of these bonds were raised by special levy of a one-mill tax on all real and personal property in the state, which act was repealed and approved by the governor October 24, 1876.

Willamette Falls Canal and Lock Company's bonds.—The payment of principal and interest of these is guaranteed by the state, according to an act of the legislative assembly approved October 21, 1870; payable out of moneys arising from the sale of "state lands" and the 5 per cent. United States land sale fund; amount still outstanding, $156,000. These bonds mature January 1, 1880. (?)

Modoc war bonds.—These bonds were issued in payment of the debt arising out of the Modoc war of 1872. The act creating them was approved October 22, 1874. The amount issued and still outstanding is $132,858 76, payable out of the general fund by taxation. These bonds matured July 1, 1880, but no provision having been made for their payment by the legislature of 1878, they are still in the hands of the original holders or their assigns.

Indian war bonds of 1878.—Authorized by act of the legislature, approved October 17, 1878, for payment of the debt arising out of the war with the "Nez Percé", "Cayuse," and other tribes of Indians in 1877-'78. Amount issued and in course of being audited (approximated), $42,000. These bonds are payable out of the general fund, and mature January 1, 1890.

State warrants bearing ten per cent. interest.—These warrants were authorized by acts of the legislature at different sessions to aid in the construction of "wagon roads" in different parts of the state; were issued during the years 1873, 1874, and 1875; the amount still outstanding is $135,600, with interest from date, payable out of

* Increased to 15 per cent. by act of February 25, 1867.

the "swamp and overflowed", "tide", 5 per cent. United States land sale, and other state land funds. The law creating this class of liabilities was declared unconstitutional by one of the state circuit courts, but that decision was reversed by the supreme court of the state at its present session, commencing January 1, 1880.

Other outstanding warrants.—Warrants payable out of special tax of three mills on all real and personal property in the state are being rapidly paid. These now amount to about $28,000, with interest from June 1, 1874.

The following is a statement of the debt September 1, 1880:

Bonds bearing 7 per cent. interest:		
Soldiers' relief bonds, payable July 1, 1884		$761 10
The soldiers' bounty bonds, payable January 1, 1875		25,850 00
Willamette Falls canal bonds, payable January 1, 1881		151,500 00
Modoc war bonds, payable January 1, 1880		132,921 78
Umatilla war bonds, payable January 1, 1890		45,475 51
		356,508 39
Outstanding warrants:		
Warrants drawing 10 per cent. interest, payable out of specific funds, such as swamp, overflowed, tide, 5 per cent., and other land funds, exclusive of interest	$134,530 00	
Outstanding warrants, payable from special tax, exclusive of interest	20,337 76	
		154,867 76
Total state indebtedness		511,376 15

CALIFORNIA.

The history of the California state debt is a short one. Upon the admission of this state to the Union a constitution was adopted which provided that the legislature should not in any manner create any debt or liability which should, singly or in the aggregate, with any previous debts and liabilities, exceed the sum of $300,000, except in case of war, to repel invasion, or to suppress insurrection, unless the issue was first submitted to the people after three months' notice. The state was also forbidden to engage with others in any internal improvement, or to subscribe to stock thereto, or lend its aid or credit to any corporation or institution. The cities in California are also forbidden by the same instrument to incur a like liability.

On the 1st of February, 1850, an act was passed authorizing the making of a temporary loan of $300,000, with which to set the treasury in operation.

On the 29th of April, 1851, an act was passed to fund the debt of the state, for which purpose $700,000 in bonds were issued. On the 1st of May, 1852, an act was passed authorizing the issue of $600,000 in bonds, in order to pay all outstanding comptroller's warrants issued since April 29, 1851, and prior to December 31, 1852. Bonds were also issued by act of May 17, 1853, to meet the expenses of the government from December 31, 1852, to June 30, 1853. On the 16th of March, 1855, a loan was authorized, and bonds to the amount of $700,000 were issued to pay all outstanding comptroller's warrants drawn upon the state treasury between the 30th day of June, 1853, and the 1st day of July, 1855. On the 19th day of April, 1856, bonds to the amount of $1,500,000 were issued to pay all outstanding indebtedness occurring prior to January 1, 1857. An act was passed April 28, 1857, authorizing the treasurer to prepare and issue bonds to the amount of $3,900,000 to fund the indebtedness of the state. The claims entitled to be funded were as follows:

First. Civil bonds issued under the acts passed in the years 1851, 1852, 1853, 1855, and 1856.

Second. Comptroller's warrants, drawn under sanction of law, for civil expenses incurred prior to January 1, 1857.

Third. Just or legal claims against the state incurred prior to January, 1857, and which were allowed and audited by act of the legislature.

On the 30th of April, 1860, $200,000 of bonds were authorized to pay these claims.

1. April 4, 1863, soldiers' bounty bonds	$2,000,000
2. April 27, 1863, soldiers' relief bonds	600,000
3. April 4, 1864, line officers' relief bonds	65,000

On the 4th of April, 1870, $250,000 in capitol bonds were issued for payment of work or labor done or material furnished in, on, or about the state capitol and its surrounding grounds. On the 2d of April, 1870, an act was passed authorizing the issue of $3,700,000 in bonds for the payment of the funded indebtedness of the state, as follows:

First. Outstanding bonds issued under act of April 28, 1857.

Second. Outstanding bonds issued under act of April 30, 1860.

Third. Outstanding soldiers' relief bonds.

Fourth. Outstanding soldiers' bounty bonds.

On the 28th of March, 1872, $250,000 state capitol bonds were issued for payment of work or labor done or material furnished in or about the state capitol and its surrounding grounds after the 1st day of June, 1872.

The total funded debt of California on June 30, 1879, was $3,403,000, of which amount the state school fund holds $1,737,500, and the "consolidated perpetual endowment fund of the University of California" $952,500, making a total of $2,690,000, which, deducted from the total indebtedness, leaves $713,000 in the hands of parties unknown. These bonds were issued:

Years.	Amount.	Date of act authorizing.
1857	$5,000	April 28, 1857.
1860	1,500	April 30, 1860.
1863	95,500	April 27, 1863.
1870	250,000	April 4, 1870.
1872	250,000	March 28, 1872.
1873	2,801,000	April 2, 1870.
Total	3,403,000	

On that date there was a sinking fund for the redemption of bonds (besides the amount required to redeem the bonds issued in 1857 and 1860) amounting to $89,886 47, but, in the opinion of the treasurer of state, legislation was required to designate the bonds to be redeemed.* On the same date the floating debt was $83,170 25, consisting of outstanding comptroller's warrants; but the money to pay the same was then in the treasury, the total amount of cash in the treasury being $1,498,450 55.

The following is a further analysis of the bonded debt:

Bonded debt	$3,403,000
Issued for—	
Public buildings	500,000
Refunding old debt	2,801,000
Unspecified	6,500
Soldiers' relief bonds	95,500
Total	3,403,000
Rates of interest—	
Six per cent	2,801,000
Seven per cent	602,000
Total	3,403,000
Issue:	
Previous to 1860	6,500
" 1870	250,000
" 1872	250,000
" 1873	2,801,000
" 1863	95,500
Total	3,403,000
Maturity unspecified: July 1, 1885; July 1, 1887; July 2, 1893; July 1, 1883	3,403,000

THE TERRITORIES.

Most of the territories have no debt in their territorial capacity. The changes are so rapid in their new settlements that, with the power of municipal obligation of counties, towns, and school districts in some of them, it is not easy to be so exact as in older and more permanently established communities in any statement of local municipal debt. The only territories having a bonded territorial debt in 1880 were Idaho, with $69,249, and Montana, with $70,000.

* Treasurer's Report, 1879, page 16.

CONSTITUTIONAL PROVISIONS

RELATING TO

STATE AND LOCAL DEBTS.

CONSTITUTIONAL PROVISIONS RELATING TO STATE AND LOCAL DEBTS.

The following table shows at a glance the state constitutional provisions restricting the power of the states and minor political divisions to lend their credit to or in aid of corporations, etc., or to become stockholders in any corporations:

States.	The credit of the state cannot be loaned, or aid given, to corporations, etc.			The state cannot become a stockholder in any corporation, etc.			Minor political divisions cannot loan their credit or grant aid.			Minor political divisions cannot become stockholders, etc.

* Subdivision *three*.
a Refers to towns only; took effect June, 1879.
b Unless expressly assented to by the people.
c Refers to counties only, which cannot loan their credit, or become indebted for works of internal improvement unless authorized by the legislature.
d Unless bill authorizing the same be read three times.
e Except by a vote of a majority of voters, &c.
f Unless authorized by a two-thirds vote at a general election.
g It is made the duty of the legislature to restrict the powers.
h Unless two-thirds of the voters assent.
i Unless three-fourths of the voters assent.
j Refers to counties only, and they may become stockholders but cannot incur debt or borrow money therefor.
k Refers to banking corporations only.
l Indebtedness for aiding construction of railroad cannot exceed five per centum of taxable property.
m State cannot engage in any work of internal improvement or become stockholder in any banking institution.
n Cannot make donation without vote of people.
o The restraining provision is under "separate sections", superscribed "Municipal subscriptions to railroads", etc.
p Cannot engage in works of internal improvement.
q State cannot assume debts of minor political divisions or other corporations except when incurred for war purposes.
r Refers to railroad corporations only.
s Except for educational or charitable purposes.
t Railroad corporations excepted.

NEW ENGLAND STATES.

MAINE.

The credit of the state cannot be directly or indirectly loaned. No debt or liability can be created by the legislature which shall, with previous debts and liabilities, exceed the amount of $300,000, except to suppress insurrection and repel invasion, or for purposes of war. This provision, however, does not refer to any money that has been or may be deposited with the state by the government of the United States, or to any other fund which the state shall hold in trust for any Indian tribe. By an amendment adopted in 1868 the legislature is authorized to issue bonds, payable within twenty-one years, with 6 per cent. annual interest, the proceeds to be devoted solely toward the reimbursement of the expenditures incurred by cities, towns, villages, and plantations for war purposes during the rebellion, the total issue of bonds authorized by this amendment not to exceed, in the aggregate, $3,500,000. An amendment adopted in 1877 limits the amount of indebtedness to be created by cities and towns to 5 per cent. of the last regular valuation of such city or town, except for war loans, to pay existing debts, or temporary loans, to be paid out of the current year's revenue.

CONSTITUTION OF 1820.

ART. VI. [Amendment adopted in 1848.] The credit of the state shall not be directly or indirectly loaned in any case. The legislature shall not create any debt or debts, liability or liabilities, on behalf of the state, which shall singly, or in the aggregate, with previous debts and liabilities hereafter incurred at any one time, exceed three hundred thousand dollars, except to suppress insurrection, to repel invasion, or for purposes of war; but this amendment shall not be construed to refer to any money that has been or may be deposited with this state by the government of the United States, or to any fund which the state shall hold in trust for any Indian tribe.

ART. XIII. [Amendment adopted in 1868.] The state is authorized to issue bonds, payable within twenty-one years, at a rate of interest not exceeding six per cent. a year, payable semi-annually, which bonds, or their proceeds, shall be devoted solely toward the reimbursement of the expenditures incurred by the cities, towns, and plantations of the state for war purposes during the rebellion, upon the following basis: Each city, town, and plantation shall receive from the state one hundred dollars for every man furnished for the military service of the United States under and after the call of July second, eighteen hundred and sixty-two, and accepted by the United States toward its quota for the term of three years, and in the same proportion for every man so furnished and accepted for any shorter period; and the same shall be in full payment for any claim upon the state on account of its war debts by any such municipality. A commission appointed by the governor and council shall determine the amount to which each city, town, and plantation is entitled, to be devoted to such reimbursement; the surplus, if any, to be appropriated to the soldiers who enlisted or were drafted and went at any time during the war, or, if deceased, to their legal representatives. The issue of bonds hereby authorized shall not exceed in the aggregate three million five hundred thousand dollars, and this amendment shall not be construed to permit the credit of the state to be directly or indirectly loaned in any other case or for any other purpose.

ART. XXII. [Amendment of 1877, in force January 2, 1878.] No city or town shall hereafter create any debt or liability which, singly or in the aggregate with previous debts or liabilities, shall exceed five per centum of the last regular valuation of said city or town: *Provided, however*, That the adoption of this article shall not be construed as applying to any fund received in trust by said city or town, nor to any loan for the purpose of renewing existing loans or for war, or to temporary loans to be paid out of money raised by taxation during the year in which they are made.

NEW HAMPSHIRE.

Amendment to section 5, part 2, of the constitution ratified in 1877 provides that the general court (legislature) cannot authorize any town to loan or give its money or credit for the benefit of any corporation having for its object the dividend of profits, or in any way aid the same by taking stock or bonds.

VERMONT.

There is no constitutional limitation in this state respecting indebtedness, taxation, or the power to become stockholders, loaning or giving aid, etc., by the state, or by any political division thereof.

MASSACHUSETTS.

There is no constitutional limitation in this state respecting indebtedness, taxation, or the power to become stockholders, loaning or giving aid, etc., by the state, or by any political division thereof.

RHODE ISLAND.

In the state of Rhode Island the general assembly have no power, without the express consent of the people, to incur state debts exceeding $50,000, except in time of war, or in case of insurrection or invasion. Nor can they, without such consent, pledge the faith of the state for the payment of the obligations of others. By the terms of the constitution this provision does not apply to deposits made by the general government. Every bill appropriating public money or public property for local or private purposes requires the assent of two-thirds of the members elected to each house of the general assembly.

CONSTITUTION OF 1842.

ART. IV, SEC. 13. The general assembly shall have no power hereafter, without the express consent of the people, to incur state debts to an amount exceeding fifty thousand dollars, except in time of war, or in case of insurrection or invasion; nor shall they in any case, without such consent, pledge the faith of the state for the payment of the obligations of others. This section shall not be construed to refer to any money that may be deposited with this state by the government of the United States.

ART. IV, SEC. 14. The assent of two-thirds of the members elected to each house of the general assembly shall be required to every bill appropriating the public money or public property for local or private purposes.

CONNECTICUT.

The constitution of the state of Connecticut places no limitation upon the power of the general assembly to create liabilities on behalf of the state, but an amendment adopted in October, 1877, provided that no county, city, town, borough, or other municipality shall ever subscribe to the capital stock of any railroad corporation, or become a purchaser of the bonds, or make donation to, or loan its credit in aid of, any such corporation.

ART. XXV. [Amendment adopted in October, 1877.] No county, city, town, borough, or other municipality shall ever subscribe to the capital stock of any railroad corporation, or become a purchaser of the bonds, or make donation to, or loan its credit, directly or indirectly, in aid of any such corporation; but nothing herein contained shall affect the validity of any bonds or debts incurred under existing laws, nor be construed to prohibit the general assembly from authorizing any town or city to protect, by additional appropriations of money or credit, any railroad debt contracted prior to the adoption of this amendment.

MIDDLE STATES.

NEW YORK.

The power of the assembly to loan the credit of the state was taken away in New York by the constitution of 1846. The constitution of that year provides that the credit of the state shall not, in any manner, be given or loaned to, or in aid of, any individual, association, or corporation. The state may, to meet casual deficits or failures in revenues, or for expenses not provided for, contract debts not to exceed at any time $1,000,000. The legislature may, in addition to this limited power, contract debts to repel invasion, suppress insurrection, and defend the state in war. Debts not above specified cannot be contracted unless the same be authorized by law for some single work or object, and such laws must impose and provide for the collection of a direct annual tax to pay the interest on such debt as it falls due, and the principal thereof within eighteen years from the time of contracting the same, and such laws do not take effect until they have been submitted to the people at a general election, and have received a majority of all the votes cast for or against them at such election. On the final passage of such bill in either house of the legislature the question is taken by yeas and nays, and entered upon the journals. No such law can be submitted to be voted upon within three months after its passage, nor at any general election when any other law, or any bill or amendment of the constitution, shall be submitted to be voted for or against. It is made a duty of the legislature to provide for the organization of cities and villages, and to restrict their power of taxation, assessment, borrowing money, contracting debts, and loaning their credit. This provision is supplemented by amendments adopted in 1874, which provide that no county, city, town, or village shall hereafter give any money or property, or loan its credit to, or in aid of, any individual, association, or corporation, or become an owner of stock in, or bonds of, any association or corporation, or be allowed to incur any indebtedness, except for county, city, town, or village purposes. The tenth section of this amendment provides that neither the credit nor the money of the state shall be given or loaned to, in, or aid of any association, corporation, or private undertaking, with a further provision that the section (article 8, section 10) shall not prevent the legislature from making provision for the education and support of the blind and deaf and dumb and juvenile delinquents, etc.

CONSTITUTION OF 1846.

ART. VII, SEC. 9. The credit of the state shall not, in any manner, be given or loaned to, or in aid of, any individual, association, or incorporation.

ART. VII, SEC. 10. The state may, to meet casual deficits or failures in revenues, or for expenses not provided for, contract debts; but such debts, direct and contingent, singly or in the aggregate, shall not at any time exceed one million of dollars, and the moneys arising from the loans creating such debts shall be applied to the purpose for which they were obtained, or to repay the debt so contracted, and to no other purpose whatever.

ART. VII, SEC. 11. In addition to the above limited power to contract debts, the state may contract debts to repel invasion, suppress insurrection, or defend the state in war, but the money arising from the contracting of such debts shall be applied to the purpose for which it was raised, or to repay such debts, and to no other purpose whatever.

ART. VII, SEC. 12. Except the debts specified in the tenth and eleventh sections of this article, no debt shall be hereafter contracted by or on behalf of this state unless such debt shall be authorized by a law for some single work or object, to be distinctly specified therein, and such law shall impose and provide for the collection of a direct annual tax to pay, and sufficient to pay, the interest on such debt as it falls due, and also to pay and discharge the principal of such debt within eighteen years from the time of the contracting thereof. No such law shall take effect until it shall at a general election have been submitted to the people and have received a majority of all the

votes cast for and against it at such election. On the final passage of such bill in either house of the legislature the question shall be taken by ayes and noes, to be duly entered on the journals thereof, and shall be: "Shall this bill pass, and ought the same to receive the sanction of the people?" The legislature may at any time after the approval of such law by the people, if no debt shall have been contracted in pursuance thereof, repeal the same, and may at any time by law forbid the contracting of any further debt or liability under such law; but the tax imposed by such act, in proportion to the debt and liability which may have been contracted in pursuance of such law, shall remain in force and be irrepealable, and be annually collected, until the proceeds thereof shall have made the provision hereinbefore specified to pay and discharge the interest and principal of such debt and liability. The money arising from any loan or stock creating such debt or liability shall be applied to the work or object specified in the act authorizing such debt or liability, or for the repayment of such debt or liability, and for no other purpose whatever. No such law shall be submitted to be voted on within three months after its passage or at any general election when any other law, or any bill, or any amendment to the constitution, shall be submitted to be voted for or against.

ART. VIII, SEC. 9. It shall be the duty of the legislature to provide for the organization of cities and incorporated villages, and to restrict their power of taxation, assessment, borrowing money, contracting debts, and loaning their credit, so as to prevent abuses in assessments and in contracting debt by such municipal corporation.

The following amendments were adopted in 1874:

ART. VIII, SEC. 10. Neither the credit nor the money of the state shall be given or loaned to or in aid of any association, corporation, or private undertaking. This section shall not, however, prevent the legislature from making such provision for the education and support of the blind, the deaf and dumb, and juvenile delinquents as to it may seem proper; nor shall it apply to any fund or property now held, or which may hereafter be held, by the state for educational purposes.

ART. VIII, SEC. 11. No county, city, town, or village shall hereafter give any money or property, or loan its money or credit, to or in aid of any individual, association, or corporation, or become, directly or indirectly, the owner of stock in or bonds of any association or corporation, nor shall any such county, city, town, or village be allowed to incur any indebtedness, except for county, city, town, or village purposes. This section shall not prevent such county, city, town, or village from making such provision for the aid or support of its poor as may be authorized by law.

NEW JERSEY.

In New Jersey the state credit cannot be directly or indirectly loaned in any case, nor can the legislature in any manner create any debt or liability of the state which shall, singly or in the aggregate with previous debts, at any time exceed $100,000, except for purposes of war, or to repel invasion or to suppress insurrection, unless the same is authorized by law for some single object or work; such law does not take effect until it is submitted to the people at a general election, and has received the sanction of the majority of all the votes cast for or against it. This provision does not refer, however, to any money that has been or may be deposited with the state by the government of the United States. Counties, cities, boroughs, towns, townships, and villages cannot give any money or property or loan money or credit to, or in aid of, any individual, association, or corporation, or become security for or be the owner of any stock or bonds of any association or corporation, nor can any donation of land or appropriation of money be made by either the state or any municipal corporation to or for the use of any society, association, or corporation.

Article I, amendments to the constitution, ratified in 1875, provides:

Paragraph 20. No donation of land or appropriation of money shall be made by the state or any municipal corporation to or for the use of any society, association, or corporation whatever.

Article 4, constitution of 1844, provides:

SEC. 6. *Three.* The credit of the state shall not be directly or indirectly loaned in any case.

Four. The legislature shall not, in any manner, create any debt or debts, liability or liabilities, of the state, which shall singly or in the aggregate, with any previous debts or liabilities, at any time exceed one hundred thousand dollars, except for purposes of war, or to repel invasion, or to suppress insurrection, unless the same shall be authorized by a law for some single object or work, to be distinctly specified therein, which law shall provide the ways and means, exclusive of loans, to pay the interest of each debt or liability as it falls due, and also to pay and discharge the principal of such debt or liability within thirty-five years from the time of the contracting thereof, and shall be irrepealable until such debt or liability, and the interest thereon, are fully paid and discharged; and no such law shall take effect until it shall, at a general election, have been submitted to the people, and have received the sanction of a majority of all the votes cast for and against it at such election, and all money to be raised by the authority of such law shall be applied only to the specific object stated therein, and to the payment of the debt thereby created. This section shall not be construed to refer to any money that has been or may be deposited with this state by the government of the United States.

Amendment to constitution ratified in 1875:

Article I, Paragraph 19. No county, city, borough, town, township, or village shall hereafter give any money or property, or loan its money or credit to, or in aid of, any individual, association, or corporation, or become security for, or be directly or indirectly the owner of, any stock or bonds of any association or corporation.

PENNSYLVANIA.

In Pennsylvania no debt can be created by or on behalf of the state, except to supply casual deficiencies of revenue, repel invasion, suppress insurrection, defend the state in war, or pay existing debts; the debt created to supply deficiencies in revenue cannot, however, exceed, in the aggregate, at any one time, $1,000,000. The credit of the commonwealth cannot be pledged or loaned to, nor can the commonwealth become a joint owner or stock owner in any company, association, or corporation, nor assume the debt, or any part thereof, of any city, county,

borough, or township, unless the same was contracted to enable the state to repel invasion, etc. The general assembly is forbidden to authorize any county, city, borough, township, or incorporated district to become a stockholder in any company, association, or corporation, or to obtain or appropriate money for, or loan its credit to, any such corporation, association, institution, or individual. The debt of any county, city, borough, township, school district, or other municipality cannot exceed 7 per cent. upon the assessed valuation of the taxable property therein, nor can such municipality or incorporated district incur any new debt or increase its indebtedness to an amount exceeding 2 per cent. upon such assessed valuation, without the consent of the electors thereof at a public election. In cities, however, where the debt exceeded 7 per cent. of the valuation at the time of the adoption of the constitution (1873), the same may by law be authorized to increase the sum 3 per cent. upon such valuation. Before incurring any indebtedness, such county, township, etc., must, at or before the time of so doing, provide for the collection of an annual tax sufficient to pay the interest, and also the principal thereof, within thirty years, and also create a sinking fund, which shall be inviolably pledged for the payment of its funded debt.

CONSTITUTION OF 1873.

ART. IX, SEC. 4. No debt shall be created by or on behalf of the state, except to supply casual deficiencies of revenue, repel invasions, suppress insurrection, defend the state in war, or to pay existing debt, and the debt created to supply deficiencies in revenue shall never exceed, in the aggregate, at any one time, one million of dollars.

ART. IX, SEC. 5. All laws authorizing the borrowing of money by and on behalf of the state shall specify the purpose for which the money is to be used, and the money so borrowed shall be used for the purpose specified, and no other.

ART. IX, SEC. 6. The credit of the commonwealth shall not be pledged or loaned to any individual, company, corporation, or association, nor shall the commonwealth become a joint owner or stockholder in any company, association, or corporation.

ART. IX, SEC. 7. The general assembly shall not authorize any county, city, borough, township, or incorporated district to become a stockholder in any company, association, or corporation, or to obtain or appropriate money for, or to loan its credit to, any corporation, association, institution, or individual.

ART. IX, SEC. 8. The debt of any county, city, borough, township, school district, or other municipality or incorporated district, except as herein provided, shall never exceed seven per centum upon the assessed value of the taxable property therein, nor shall any such municipality or district incur any new debt or increase its indebtedness to an amount exceeding two per centum upon such assessed valuation of property without the assent of the electors thereof at a public election, in such manner as shall be provided by law; but any city, the debt of which now exceeds seven per centum of such assessed valuation, may be authorized by law to increase the same three per centum in the aggregate, at any one time, upon such valuation.

ART. IX, SEC. 9. The commonwealth shall not assume the debt, or any part thereof, of any city, county, borough, or township, unless such debt shall have been contracted to enable the state to repel invasion, suppress domestic insurrection, defend itself in time of war, or to assist the state in the discharge of any portion of its present indebtedness.

ART. IX, SEC. 10. Any county, township, school district, or other municipality incurring any indebtedness shall, at or before the time of so doing, provide for the collection of an annual tax sufficient to pay the interest, and also the principal thereof, within thirty years.

ART. XV, SEC. 3. Every city shall create a sinking fund, which shall be inviolably pledged for the payment of its funded debt.

DELAWARE.

There are no constitutional provisions restricting the legislature of Delaware, or any counties, cities, or other municipalities therein, from incurring debts, subscribing to stock, or loaning their respective credit.

MARYLAND.

In Maryland no debt can be contracted by the general assembly unless the same is authorized by a law which provides for the collection of an annual tax sufficient to pay the interest as it falls due and to discharge the principal within fifteen years from the time of contracting the same, and the general assembly may, without levying tax, borrow an amount not to exceed $50,000 to meet temporary deficiencies in the treasury, and contract debt to any amount that may be necessary for the defense of the state. The credit of the state cannot in any manner be given or loaned to or in aid of any individual, association, or corporation, nor can the general assembly in any manner engage in the construction of works of internal improvement, nor in granting aid thereto, which shall involve the faith or credit of the state, nor make any appropriations, except in aid of the construction of works of internal improvement in certain named counties, which aid or advances shall not exceed $500,000. Counties cannot contract debts or obligations in the construction of any railroad, canal, or other work of internal improvement, nor give or loan their credit to or in aid of such corporation, unless specially authorized by an act of the general assembly, which must be published two months before the next election for members of the house of delegates in the newspaper published in the county, and be approved by a majority of all the members elected to each house of the general assembly.

CONSTITUTION OF 1867.

ART. III, SEC. 34. No debt shall be hereafter contracted by the general assembly, unless such debt shall be authorized by a law providing for the collection of an annual tax, or taxes, sufficient to pay the interest on such debt as it falls due, and also to discharge the principal thereof, within fifteen years from the time of contracting the same; and the taxes laid for this purpose shall not be repealed or applied to any other object until the said debt, and interest thereon, shall be fully discharged. The credit of the state shall not in any manner be given or loaned to, or in aid of, any individual, association, or corporation; nor shall the general assembly have the power in any mode to involve the state in the construction of works of internal improvement, nor in granting any aid thereto, which shall involve the

faith or credit of the state; nor make any appropriation therefor, except in aid of the construction of works of internal improvement in the counties of Saint Mary's, Charles, and Calvert, which have had no direct advantage from such works as have been heretofore aided by the state; and provided that such aid, advances, or appropriations shall not exceed, in the aggregate, the sum of five hundred thousand dollars. And they shall not use or appropriate the proceeds of the internal-improvement companies, or of the state tax now levied, or which may hereafter be levied, to pay off the public debt, to any other purpose until the interest and debt are fully paid or the sinking fund shall be equal to the amount of the outstanding debt; but the general assembly may, without laying a tax, borrow an amount, never to exceed fifty thousand dollars, to meet temporary deficiencies in the treasury, and may contract debts to any amount that may be necessary for the defense of the state.

ART. III, SEC. 54. No county of this state shall contract any debt or obligation in the construction of any railroad, canal, or other work of internal improvement, nor give or loan its credit to, or in aid of, any association or corporation, unless authorized by an act of the general assembly, which shall be published for two months before the next election for members of the house of delegates, in the newspapers published in such county, and shall also be approved by a majority of all the members elected to each house of the general assembly at its next session after said election.

SOUTHERN STATES.

VIRGINIA.

The credit of the state of Virginia cannot be granted in aid of any person, association, or corporation, nor can the state subscribe to or become interested in the stock of any such company, association, or corporation. No scrip, certificate, or other evidence of state indebtedness can be issued, except for previously existing debts, or for such debts as are expressly authorized by the constitution of 1870; nor can the state be a party to or become interested in any work of internal improvement, nor engage therein, otherwise than in the expenditure of grants to the state of land or other property. The state cannot assume the indebtedness of any county, borough, or city, nor loan its credit to the same.

CONSTITUTION OF 1870.

ART. X, SEC. 12. The credit of the state shall not be granted to, or in aid of, any person, association, or corporation.

ART. X, SEC. 13. No scrip, certificate, or other evidence of state indebtedness shall be issued except for the redemption of stock previously issued, or for such debts as are expressly authorized in this constitution.

ART. X, SEC. 14. The state shall not subscribe to or become interested in the stock of any company, association, or corporation.

ART. X, SEC. 15. The state shall not be a party to or become interested in any work of internal improvement, nor engage in carrying on any such work, otherwise than in the expenditure of grants to the state of land or other property.

ART. X, SEC. 17. The state shall not assume any indebtedness of the county, borough, or city, nor lend its credit to the same.

WEST VIRGINIA.

The legislature of West Virginia cannot contract any debt for the state, except to meet casual deficits in the revenue, to redeem a previous liability of the state, to suppress insurrection, to repel invasion, or defend the state in time of war. The payment of all liabilities other than that for the ordinary expenses of the state must be equally distributed over a period of at least twenty years. The credit of the state cannot be granted to, nor can the state assume the debts or liabilities of, any county, city, town, township, corporation, or person, nor become a joint owner or stockholder in any company or corporation, either in the state or elsewhere, formed for any purpose whatever. Counties cannot assess taxes in any one year to exceed 95 cents on $100 valuation, except for the support of free schools or the payment of indebtedness existing at the time of the adoption of the constitution of 1872, except with the assent of three-fifths of the voters of the county. Counties, cities, school districts, and municipal corporations are not allowed to become indebted in any manner to an amount, including existing indebtedness, in the aggregate, exceeding 5 per cent. of the value of all taxable property therein; and no debt shall be contracted unless all questions connected therewith shall have been submitted to the people and received three-fifths of all the votes cast for or against the same.

CONSTITUTION OF 1872.

ART. X, SEC. 4. No debt shall be contracted by this state, except to meet casual deficits in the revenue, to redeem a previous liability of the state, to suppress insurrection, repel invasion, or defend the state in time of war; but the payment of any liability, other than that for the ordinary expenses of the state, shall be equally distributed over a period of at least twenty years.

ART. X, SEC. 5. The power of taxation of the legislature shall extend to provisions for the payment of the state debt and interest thereon, the support of free schools, and the payment of the annual estimated expenses of the state; but whenever any deficiency in the revenue shall exist in any year, it shall, at the regular session thereof held next after the deficiency occurs, levy a tax for the ensuing year sufficient, with the other sources of income, to meet such deficiency, as well as the estimated expenses of such year.

ART. X, SEC. 6. The credit of the state shall not be granted to or in aid of any county, city, township, corporation, or person; nor shall the state ever assume or become responsible for the debts or liabilities of any county, city, town, township, corporation, or person; nor shall the state ever hereafter become a joint owner or stockholder in any company or association, in this state or elsewhere, formed for any purpose whatever.

ART. X, SEC. 7. County authorities shall never assess taxes in any one year the aggregate of which shall exceed ninety-five cents per one hundred dollars valuation, except for the support of free schools, payment of indebtedness existing at the time of the adoption of this constitution, and for the payment of any indebtedness, with the interest thereon, created under the succeeding section, unless such assessment, with all questions involving the increase of such aggregate, shall have been submitted to the vote of the people of the county and have received three-fifths of all the votes cast for and against it.

ART. X, SEC. 8. No county, city, school district, or municipal corporation, except in cases where such corporations have already authorized their bonds to be issued, shall hereafter be allowed to become indebted, in any manner, or for any purpose, to an amount, including existing indebtedness, in the aggregate exceeding five per centum on the value of the taxable property therein, to be ascertained by the last assessment for state and county taxes previous to the incurring of such indebtedness; nor without, at the same time, providing for the collection of a direct annual tax sufficient to pay, annually, the interest on such debt, and the principal thereof, within and not exceeding thirty-four years: *Provided*, That no debt shall be contracted under this section unless all questions connected with the same shall have been first submitted to a vote of the people and have received three-fifths of all the votes cast for and against the same.

NORTH CAROLINA.

In North Carolina all laws passed to raise money on the credit of the state, or to pledge the faith of the state, or to impose any tax, or to allow counties, cities, or towns to do so, are required to be read three several times in each house of the general assembly, and pass three several readings on three different days, and be agreed to by each house respectively, and the yeas and nays on the second and third reading of the bill must be entered on the journal.

Until the bonds of the state shall be at par, the general assembly has no power to contract any new debt, except to supply a casual deficit, or for suppressing invasion or insurrection, unless the bill authorizing the same shall levy a special tax to pay the interest annually. The credit of the state cannot be given or loaned except to aid in the completion of such railroads as may be unfinished at the date of the adoption of the present constitution (1876), or in which the state has a direct pecuniary interest, unless the subject is submitted to a direct vote of the people and approved by a majority of those voting on the proposition. Counties, cities, towns, and other municipal corporations cannot contract debts or pledge their faith or loan their credit, nor can they levy any tax, except for the necessary expenses thereof, unless by the vote of a majority of all the qualified voters therein. These several provisions were adopted and became part of the constitution of 1876. An amendment adopted and ratified March 4, 1879, forbids the general assembly from assuming or paying any debt or bond incurred or issued by authority of the convention of the year 1868, or of any debt or bond incurred or issued by the legislature of 1868, either at its special session of that year or at its regular sessions of the years 1868–'69 and 1869–'70, except the bonds issued to fund the interest on the old debts, unless the proposition to pay them shall have first been submitted to the people and ratified by the vote of the majority of all the qualified voters of the state at a regular election held for that purpose.

CONSTITUTION OF 1876.

ART. II, SEC. 14. No law shall be passed to raise money on the credit of the state, or to pledge the faith of the state, directly or indirectly, for the payment of any debt, or to impose any tax upon the people of the state, or to allow the counties, cities, or towns to do so, unless the bill for the purpose shall have been read three several times in each house of the general assembly and passed three several readings, which reading shall have been on three different days, and agreed to by each house respectively, and unless the yeas and nays on the second and third reading of the bill shall have been entered on the journal.

ART. V, SEC. 4. Until the bonds of the state shall be at par, the general assembly shall have no power to contract any new debt or pecuniary obligation in behalf of the state, except to supply a casual deficit, or for suppressing invasion or insurrection, unless it shall in the same bill levy a special tax to pay the interest annually. And the general assembly shall have no power to give or lend the credit of the state in aid of any person, association, or corporation, except to aid in the completion of such railroads as may be unfinished at the time of the adoption of this constitution, or in which the state has a direct pecuniary interest, unless the subject be submitted to a direct vote of the people of the state and be approved by a majority of those who shall vote thereon.

ART. VII, SEC. 7. No county, city, town, or other municipal corporation shall contract any debt, pledge its faith, or loan its credit, nor shall any tax be levied or collected by any officers of the same, except for the necessary expenses thereof, unless by a vote of a majority of the qualified voters therein.

An amendment to article 1, section 6, ratified by the legislature March 14, 1879, is as follows:

Nor shall the general assembly assume or pay, or authorize the collection of any tax to pay, either directly or indirectly, expressed or implied, any debt or bond incurred or issued by authority of the convention of the year one thousand eight hundred and sixty-eight, nor shall any debt or bond incurred or issued by the legislature of the year one thousand eight hundred and sixty-eight, either at its special session of the year one thousand eight hundred and sixty-eight or at its regular sessions of the years one thousand eight hundred and sixty-eight and one thousand eight hundred and sixty-nine, and one thousand eight hundred and sixty-nine and one thousand eight hundred and seventy, except the bonds issued to fund the interest on the old debts of the state, unless the proposing to pay the same shall have first been submitted to the people, and by them ratified by the vote of a majority of all the qualified voters of the state at a regular election held for that purpose.

SOUTH CAROLINA.

The constitution of South Carolina, adopted in 1868, forbids the issue of any scrip, certificate, or other evidence of indebtedness, except for the redemption of previously-issued evidences of indebtedness, or for such debts as are expressly authorized by the constitution. Public debts may be contracted for the purpose of defraying extraordinary

expenditures; such debts shall be authorized by law for some single object, and such laws do not take effect until passed by the votes of two-thirds of the members of each branch of the general assembly, to be recorded by yeas and nays on the journals of each house, and each such law must levy a tax annually sufficient to pay the annual interest of such debt. It is made the duty of the general assembly to provide for the incorporation of cities and towns, and restrict their powers of taxation, contracting debts, borrowing money, and loaning their credit. By an amendment adopted in 1873 the general assembly is forbidden to create any further debt or obligation, either by the loan of the credit of the state, by guarantee, indorsement, or otherwise, except for the ordinary and current business of the state, without the consent of two-thirds of the qualified voters of the state voting on the question.

CONSTITUTION OF 1868.

ART. IX, SEC. 10. No scrip, certificate, or other evidence of state indebtedness shall be issued, except for the redemption of stock, bonds, or other evidences of indebtedness previously issued, or for such debts as are expressly authorized in this constitution.

ART. IX, SEC. 7. For the purpose of defraying extraordinary expenditures, the state may contract public debts; but such debts shall be authorized by law for some single object, to be distinctly specified therein; and no such law shall take effect until it shall have been passed by the vote of two-thirds of the members of each branch of the general assembly, to be recorded by yeas and nays on the journals of each house, respectively; and every such law shall levy a tax annually sufficient to pay the annual interest of such debt.

ART. IX, SEC. 14. Any debt contracted by the state shall be by loan on state bonds, of amounts not less than fifty dollars each, on interest, payable within twenty years after the final passage of the law authorizing such debt. * * * *

ART. IX, SEC. 9. The general assembly shall provide for the incorporation and organization of cities and towns, and shall restrict their powers of taxation, borrowing money, contracting debts, and loaning their credit.

The following amendment to the constitution was ratified in 1873:

ART. XVI. To the end that the public debt of South Carolina may not hereafter be increased without the due consideration and free consent of the people of the state, the general assembly is hereby forbidden to create any further debt or obligation, either by the loan of the credit of the state, by guaranty, indorsement, or otherwise, except for the ordinary and current business of the state, without first submitting the question as to the creation of any such new debt, guaranty, indorsement, or loan of its credit, to the people of this state at a general state election; and unless two-thirds of the qualified voters of this state, voting on the question, shall be in favor of a further debt, guaranty, indorsement, or loan of its credit, none such shall be created or made.

GEORGIA.

The constitution now in force in the state of Georgia was adopted in 1877. By the terms thereof no debt shall be contracted by or on behalf of the state, except to supply casual deficiencies of revenue, to repel invasion, suppress insurrection, and defend the state in war, or to pay the existing public debt. The debt created to supply deficiencies in the revenue shall not exceed $200,000. The credit of the state shall not be pledged or loaned, nor shall the state become a joint owner or stockholder in any company, association, or corporation. An amendment to the constitution of 1870 was adopted and ratified on May 1, 1877. It declares as illegal, null, and void a number of bonds issued by the state and guaranteed by the state. The payment or assessment of any of the bonds or debt mentioned in that amendment is forbidden by the present constitution, nor can any officer of the state or of the general assembly consent to submit the question of the validity of the bonds thus declared illegal to any tribunal. The bonded debt of the state cannot be increased, except to repel invasion, suppress insurrection, defend the state, etc. The general assembly is required to raise by taxation annually $100,000, which is to constitute a sinking fund for the redemption of existing public debt. The general assembly cannot, by vote, resolution, or order, grant any donation or gratuity to, nor can they authorize any county, municipal corporation, or political division of the state to become a stockholder in, any company or corporation, or appropriate money for or loan its credit thereto, except for purely charitable purposes. The debts of counties, municipal corporations, or other political divisions of the state cannot exceed 7 per cent. of the assessed value of all the taxable property therein, nor can any new debt be incurred, except for a temporary loan to supply casual deficiencies of revenue, not to exceed one-fifth of 1 per cent. of the assessed value of the taxable property therein, without the assent of two-thirds of the qualified voters thereof. Cities whose debt does not exceed 7 per cent. at the time of the adoption of the constitution may be authorized by law to increase it to that amount. Before incurring any bonded indebtedness, such counties, etc., must, at or before the time of doing so, provide for the payment and collection of an annual tax sufficient in amount to pay the interest and the principal within thirty years. The state cannot assume the debt of any political division thereof unless the same is incurred in defense of the state.

CONSTITUTION OF 1877.

Art. VII, sec. 3, par. I. No debt shall be contracted by or on behalf of the state, except to supply casual deficiencies of revenue, to repel invasion, suppress insurrection, and defend the state in time of war, or to pay the existing public debt; but the debt created to supply deficiencies in revenue shall not exceed, in the aggregate, two hundred thousand dollars.

Ib., sec. 4, par. I. All laws authorizing the borrowing of money by or on behalf of the state shall specify the purposes for which the money is to be used, and the money so obtained shall be used for the purpose specified, and for no other.

Ib., sec. 5, par. I. The credit of the state shall not be pledged or loaned to any individual, company, corporation, or association, and the state shall not become a joint owner or stockholder in any company, association, or corporation.

Ib., sec. 11, par. I. The general assembly shall have no authority to appropriate money, either directly or indirectly, to pay the whole, or any part, of the principal or interest of the bonds or other obligations which have been pronounced illegal, null, and void by the general assembly, and the constitutional amendments ratified by a vote of the people on the (1st day of May, 1877;* nor shall the general assembly have authority to pay any of the obligations created by the state under laws passed during the late war between the states, nor any of the bonds, notes, or obligations made and entered into during the existence of said war, the time for the payment of which was fixed after the ratification of a treaty of peace between the United States and the Confederate States; nor shall the general assembly pass any law, or the governor, or other state official, enter into any contract, or agreement, whereby the state shall be made a party to any suit in any court of this state, or of the United States, instituted to test the validity of any such bonds or obligations.

Ib., sec. 12, par. I. The bonded debt of the state shall never be increased, except to repel invasion, suppress insurrection, or defend the state in time of war.

Section 13 provides for the application of the proceeds of the railroads (the property of the state) toward the payment of the public debt.

Ib., sec. 14, par. I. The general assembly shall raise, by taxation, each year, in addition to the sum required to pay the public expenses and interest on the public debt, the sum of one hundred thousand dollars, which shall be held as a sinking fund, to pay off and retire the bonds of the state which have not yet matured, and shall be applied to no other purpose whatever. If the bonds cannot at any time be purchased at or below par, then the sinking fund herein provided for may be loaned by the governor and treasurer of the state: *Provided*, The security which shall be demanded for said loan shall consist only of the valid bonds of the state; but this section shall not take effect until the eight per cent. currency bonds, issued under the act of February the 19th, 1873, shall have been paid.

Ib., sec. 16, par. I. The general assembly shall not, by vote, resolution, or order, grant any donation or gratuity in favor of any person, corporation, or association.

Ib., sec. 6, par. I. The general assembly shall not authorize any county, municipal corporation, or political division of this state to become a stockholder in any company, corporation, or association, or to appropriate money for, or to loan its credit to, any corporation, company, association, institution, or individual, except for purely charitable purposes. This restriction shall not operate to prevent the support of schools by municipal corporations within their respective limits: *Provided*, That if any municipal corporation shall offer to the state any property for locating or building a capitol, and the state accepts such offer, the corporation may comply with such offer.

Ib., sec. 7, par. I. The debt hereafter incurred by any county, municipal corporation, or political division of this state, except as in this constitution provided for, shall never exceed seven per centum of the assessed value of all the taxable property therein, and no such county, municipality, or division shall incur any new debt, except for a temporary loan or loans, to supply casual deficiencies of revenue, not to exceed one-fifth of one per centum of the assessed value of taxable property therein, without the assent of two-thirds of the qualified voters thereof, at an election for that purpose, to be held as may be prescribed by law; but any city, the debt of which does not exceed seven per centum of the assessed value of the taxable property at the time of the adoption of this constitution, may be authorized by law to increase, at any time, the amount of said debt three per centum upon such assessed valuation.

Ib., sec. 7, par. II. Any county, municipal corporation, or political division of this state which shall incur any bonded indebtedness under the provisions of this constitution shall, at or before the time of so doing, provide for the assessment and collection of an annual tax sufficient in amount to pay the principal and interest of said debt within thirty years from the date of the incurring of said indebtedness.

Ib., sec. 8, par. I. The state shall not assume the debt, nor any part thereof, of any county, municipal corporation, or political division of the state, unless such debt shall be contracted to enable the state to repel invasion, suppress insurrection, or defend itself in time of war.

Ib., sec. 10, par. I. Municipal corporations shall not incur any debt until provision therefor shall have been made by the municipal government.

FLORIDA.

The constitution of Florida grants express power to issue state bonds for securing the debt of the state, for the erection of state buildings, and support of state indebtedness, and forbids the pledging or loaning of the credit thereof to any individual, etc.; nor can the state become a joint owner or stockholder of any company, or authorize

---

* The following is the constitutional amendment referred to, and was adopted as an additional clause to the sixth section of the third article of the constitution of 1870. It was ratified on the 1st day of May, 1877:

"Neither the general assembly, nor any other authority or officer of this state, shall ever have power to pay, or recognize as legal, or in any sense valid or binding upon the state, any direct bonds, gold bonds, or currency bonds, or the state's alleged guarantee or indorsement of any railroad bonds, or any other bonds, guarantees, or indorsements heretofore declared to be illegal, fraudulent, or void by act or resolution of the legislature of the state, or that may be declared illegal, fraudulent, or void by act or resolution of the legislature originating this amendment, viz: The state gold bonds issued under the act of October 17, 1870, in aid of the Brunswick and Albany Railroad Company; the currency bonds, issued under the act of August 27, 1870; the quarterly gold bonds, issued under the act of September 15, 1870, which are enumerated in the act of August 23, 1872; the indorsement of the state upon the bonds of the Brunswick and Albany Railroad Company, made under the act of March 18, 1869; the indorsement of the state upon the bonds of the Cartersville and Van Wert Railroad Company and of the Cherokee Railroad Company; the indorsement of the state upon the bonds of the Bainbridge, Cuthbert, and Columbus Railroad Company, and all other bonds, guarantees, or indorsements declared illegal, fraudulent, or void, as herein provided. Nor shall any general assembly ever have power to provide for the reindorsement of such railroad bonds, or to place the state's guarantee upon the same; or to provide for the indorsement or guarantee by the state of any new bonds issued in lieu of, or to pay off, or retire such railroad bonds by any railroad company; or to issue bonds of the state to such railroad companies, or other persons, in payment or in lieu of such indorsed bonds, or other bonds herein declared illegal; or to lend the aid or credit of the state, by any act, resolution, or law, to such railroad companies, or to other incorporated companies, or persons acquiring or succeeding to the rights and franchises of said companies; or to buy the railroads of such companies; or to submit the question of the liability of the state upon any of the bonds, or indorsements upon bonds, or other guarantee herein declared illegal, fraudulent and void, or upon any claim for money advanced upon said bonds, indorsements, or guarantees, or expended by said companies or other person in and about the construction of said railroads, to the decision of any court, tribunal, or person whatever; or to pay, assume, or secure, directly or indirectly, by any act, resolution, or law, any money advanced, or claimed to have been advanced, on the bonds, indorsements, or other guarantees herein declared to be invalid."

any county, city, borough, or township to do so, or to loan their credit thereto. All laws authorizing the levying of taxes for the benefit of chartered companies, or for paying the interest on bonds issued by them, are declared null and void.

CONSTITUTION OF 1868.

ART. XIII, SEC. 6. The legislature shall authorize the several counties and incorporated towns in the state to impose taxes for county and incorporation purposes, and for no other purpose. * * * .

ART. XIII, SEC. 8. No tax shall be levied upon persons for the benefit of any chartered company of the state, or for paying the interest on any bonds issued by said chartered companies, counties, or corporations, for the above-mentioned purposes, and any laws to the contrary are hereby declared null and void.

Section 7, article 13, constitution 1868, as amended in 1875, reads as follows:

The legislature shall have power to provide for issuing state bonds, bearing interest, for securing the debt of the state, for the erection of state buildings, and for the support of state institutions; but the credit of the state shall not be pledged or loaned to any individual, company, corporation, or association, nor shall the state become a joint owner or stockholder in any company, association, or corporation.

The legislature shall not authorize any county, city, borough, township, or incorporated district to become a stockholder in any company, association, or corporation, or to obtain or appropriate money for, or to loan its credit to, any corporation, association, institution, or individual.

ALABAMA.

The state of Alabama cannot engage in any work of internal improvement, loan money or its credit in aid thereof, be interested in any private or corporate enterprise, or lend money or credit to any individual, association, or corporation; nor can the general assembly authorize any political division of the state to do so. No new debt can be created against or incurred by the state, except to repel invasion or suppress insurrection, and then only by the concurrence of two-thirds of the members of each house of the general assembly, and the vote must be taken by yeas and nays and entered on the journals. The governor, however, may be authorized to negotiate temporary loans, not to exceed the sum of $100,000. Bonds may be issued in adjustment of existing state indebtedness. The power to levy tax in one year is limited to three-quarters of 1 per cent. on the value of the taxable property. Counties cannot levy exceeding one-half of 1 per cent., except that they may levy an additional one-fourth of 1 per cent. for the payment of existing indebtedness, and a special tax to pay debts created in the erection of public buildings. Cities, towns, and other municipal corporations cannot levy to exceed one-half of 1 per cent. of the value of the property as assessed for state taxation during the preceding year, except that for the payment of debts existing at the date of the ratification of the constitution (1875) an additional 1 per cent. may be collected, to be exclusively applied to that purpose.

CONSTITUTION OF 1875.

ART. 4, SEC. 54. The state shall not engage in works of internal improvement, nor lend money or its credit in aid of such; nor shall the state be interested in any private or corporate enterprise, or lend money or its credit to any individual association or corporation.

ART. 4, SEC. 55. The general assembly shall have no power to authorize any county, city, town, or other subdivision of this state to lend its credit or to grant public money or thing of value in aid of, or to any individual, association, or corporation whatsoever, or to become a stockholder in any such corporation, association, or company, by issuing bonds or otherwise.

ART. X, SEC. 3. After the ratification of this constitution no new debt shall be created against or incurred by this state or its authority, except to repel invasion or suppress insurrection, and then only by a concurrence of two-thirds of the members of each house of the general assembly, and the vote shall be taken by yeas and nays and entered on the journals; and any act creating or incurring any new debt against this state, except as herein provided for, shall be absolutely void: *Provided*, The governor may be authorized to negotiate temporary loans, never to exceed $100,000, to meet deficiencies in the treasury, and until the same is paid no new loan shall be negotiated: *Provided further*, That this section shall not be so construed as to prevent the issuance of bonds in adjustment of existing state indebtedness.

ART. X, SEC. 4. The general assembly shall not have the power to levy in any one year a greater rate of taxation than three-fourths of one per centum on the value of the taxable property within this state.

ART. X, SEC. 5. No county in this state shall be authorized to levy a larger rate of taxation in any one year, on the value of the taxable property therein, than one-half of one per centum: *Provided*, That to pay debts existing at the ratification of this constitution an additional rate of one-fourth of one per cent. may be levied and collected, which shall be exclusively appropriated to the payment of such debts, or the interest thereon: *Provided further*, That to pay any debt or liability now existing against any county, incurred for the erection of the necessary public buildings or other ordinary county purposes, or that may hereafter be created for the erection of necessary public buildings or bridges, any county may levy and collect such special taxes as may have been, or may hereafter be, authorized by law, which taxes, so levied and collected, shall be applied exclusively for the purposes for which the same shall have been levied and collected.

ART. X, SEC. 7. No city, town, or other municipal corporation other than provided for in this article shall levy or collect a larger rate of taxation, in any one year, on the property thereof, than one-half of one per centum of the value of such property, as assessed for state taxation during the preceding year: *Provided*, That for the payment of debts existing at the date of the ratification of this constitution, and the interest thereon, an additional rate of one per centum may be collected, to be applied exclusively to such indebtedness. * * * [The balance of this section makes exceptions in regard to Mobile until January 1, 1879.]

MISSISSIPPI.

The credit of the state of Mississippi cannot be pledged or loaned in aid of any person, association, or corporation, nor can the state become a stockholder in any corporation or association, nor can the legislature authorize any

county, city, or town to do so, unless two-thirds of the qualified voters of such county, city, or town assent thereto The payment of the bond or bonds generally known as the Union Bank bonds or Planters' Bank bonds is forbidden by an amendment adopted in 1875.

Article XII of the constitution of 1868 provides:

SEC. 5. The credit of the state shall not be pledged or loaned in aid of any person, association, or corporation, nor shall the state hereafter become a stockholder in any corporation or association.

Amended in 1875 as follows:

ART. XII, SEC. 5. Add the following:

Nor shall the state assume, redeem, secure, or pay any indebtedness or pretended indebtedness claimed to be due by the state of Mississippi to any person, association, or corporation whatsoever, claiming the same as owners, holders, or assignees of any bond or bonds now generally known as Union Bank bonds or Planters' Bank bonds.

Article XII, constitution of 1868:

SEC. 14. The legislature shall not authorize any county, city, or town to become a stockholder in, or to loan its credit to, any company, association, or corporation, unless two-thirds of the qualified voters of such county, city, or town, at a special election or regular election to be held therein, shall assent thereto.

SEC. 16. No county shall be denied the right to raise, by special tax, money sufficient to pay for the building and repairing of court-houses, jails, bridges, and other necessary conveniences for the people of the county; and money thus collected shall never be appropriated for any other purpose: *Provided*, The tax thus levied shall be a certain per cent. on all tax levied by the state.

LOUISIANA.

The present constitution of Louisiana was adopted in 1879, and by the terms of its provisions the general assembly has no power to contract debts or liabilities, or to issue bonds or other evidences of indebtedness, except for the purpose of repelling invasion or suppressing insurrection. Neither the state nor any political division thereof can loan its credit or become stockholder in any corporation or association; nor can the state, nor any political division thereof, assume the debts of any other corporation or association whatsoever, nor undertake to carry on the business of any such corporation or association, or become part owner therein. The state tax on property, for all purposes whatever, is limited to six mills on the dollar of its assessed value in any one year.

Article 44 of the constitution of 1879 provides:

The general assembly shall have no power to contract, or to authorize the contracting, of any debt or liability, on behalf of the state, or to issue bonds or other evidence of indebtedness thereof, except for the purpose of repelling invasion or for the suppression of insurrection.

Article 56. The funds, credit, property, or things of value of the state, or of any political corporation thereof, shall not be loaned, pledged, or granted to or for any person or persons, association or corporation, public or private; nor shall the state or any political corporation purchase or subscribe to the capital or stock of any corporation or association whatever, or for any private enterprise; nor shall the state, nor any political corporation thereof, assume the liabilities of any political, municipal, parochial, private, or other corporation or association whatsoever; nor shall the state undertake to carry on the business of any such corporation or association, or become a part owner therein: *Provided*, The state, through the general assembly, shall have the power to grant the right of way through its public lands to any railroad or canal.

Article 209. The state tax on property for all purposes whatever, including expenses of government, schools, levees, and interest, shall not exceed in any one year six mills on the dollar of its assessed valuation, if the ordinance regarding the bonded debt of the state is adopted and ratified by the people; and if said ordinance is not adopted and ratified by the people, said state tax for all purposes aforesaid shall not exceed in any one year five mills on the dollar of the assessed valuation of the property; and no parish or municipal tax for all purposes whatsoever shall exceed ten mills on the dollar of valuation: *Provided*, That for the purpose of erecting and constructing public buildings, bridges, and works of public improvement in parishes and municipalities the rates of taxation herein limited may be increased when the rate of such increase, and the purpose for which it is intended, shall have been submitted to a vote of the property tax-payers of such parish or municipality entitled to a vote under the election laws of the state and a majority of same voting at such election shall have voted therefor.

TEXAS.

In the state of Texas no debt can be created by, or on behalf of the state, except to supply casual deficiencies of revenue, repel invasion, etc., or pay existing debts. The debt created to supply deficiencies in revenue cannot exceed $200,000. The credit of the state, or of any county, city, town, or other political corporation, cannot be loaned or pledged, nor can either of them grant public money or thing of value to any individual, association, or corporation, or become a stockholder in any corporation, association, or company. The state tax, exclusive of the tax necessary to pay the public debt, is limited to 50 cents on the $100 valuation; that of counties, cities, and towns to one-half of the state tax, except for the payment of debts already incurred. Exception is made in the constitution for cities having more than ten thousand inhabitants (see article 11, section 5).

CONSTITUTION OF 1876.

ART. III, SEC. 49. No debt shall be created by or on behalf of the state, except to supply casual deficiencies of revenue, repel invasion, suppress insurrection. defend the state in war, or pay existing debt; and the debt created to supply deficiencies in the revenue shall never exceed in the aggregate at any one time two hundred thousand dollars.

ART. III, SEC. 50. The legislature shall have no power to give or to lend, or to authorize the giving or lending, of the credit of the state in aid of or to any person, association, or corporation, whether municipal or other, or to pledge the credit of the state in any manner whatsoever for the payment of the liabilities, present or prospective, of any individual, association of individuals, municipal or other corporation whatsoever.

ART. III, SEC. 51. The legislature shall have no power to make any grant, or authorize the making of any grant, of public money to any individual, association of individuals, municipal or other corporation whatsoever: *Provided*, That this shall not be so construed as to prevent the grant of aid in case of public calamity.

ART. III, SEC. 52. The legislature shall have no power to authorize any county, city, town, or other political corporation or subdivision of the state to lend its credit or to grant public money or thing of value in aid of or to any individual, association, or corporation whatsoever, or to become a stockholder in such corporation, association, or company.

ART. VIII, SEC. 9. The state tax on property, exclusive of the tax necessary to pay the public debt, shall never exceed fifty cents on the one hundred dollars' valuation, and no county, city, or town shall levy more than one-half of said state tax, except for the payment of debts already incurred, and for the erection of public buildings, not to exceed fifty cents on the one hundred dollars in any one year, and except as in this constitution is otherwise provided. [See sections 5, 6, and 7, Article XI.]

ART. XI, SEC. 3. No county, city, or other municipal corporation shall hereafter become a subscriber to the capital of any private corporation or association, or make any appropriation or donation to the same, or in any wise loan its credit; but this shall not be construed to in any way affect any obligation heretofore undertaken pursuant to law.

ART. XI, SEC. 4. Cities and towns having a population of ten thousand inhabitants or less may be chartered alone by general law. They may levy, assess, and collect an annual tax to defray the current expenses of their local government, but such tax shall never exceed, for any one year, one-fourth of one per cent., and shall be collectible only in current money. And all license and occupation tax levied, and all fines, forfeitures, penalties, and other dues accruing to cities and towns, shall be collectible only in current money.

ART. XI, SEC. 5. Cities having more than ten thousand inhabitants may have their charters granted or amended by special act of the legislature, and may levy, assess, and collect such taxes as may be authorized by law, but no tax for any purpose shall ever be lawful for any one year which shall exceed two and one-half per cent. of the taxable property of such city; and no debt shall ever be created by any city, unless at the same time provision be made to assess and collect annually a sufficient sum to pay the interest thereon and create a sinking fund of at least two per cent. thereon.

ART. XI, SEC. 6. Counties, cities, and towns are authorized, in such mode as may now or may hereafter be provided by law, to levy, assess, and collect the taxes necessary to pay the interest and provide a sinking fund to satisfy any indebtedness heretofore legally made and undertaken; but all such taxes shall be assessed and collected separately from that levied, assessed, and collected for current expenses of municipal government, and shall, when levied, specify in the act of levying the purpose therefor, and such taxes may be paid in the coupons, bonds, or other indebtedness, for the payment of which such tax may have been levied.

ART. XI, SEC. 7. All counties and cities bordering on the coast of the Gulf of Mexico are hereby authorized, upon a vote of two-thirds of the tax-payers therein (to be ascertained as may be provided by law), to levy and collect such tax for construction of sea-walls, breakwaters, or sanitary purposes as may be authorized by law, and may create a debt for such works, and issue bonds in evidence thereof; but no debt for any purpose shall ever be incurred in any manner by any city or county unless provision is made, at the time of creating the same, for levying and collecting a sufficient tax to pay the interest thereon and provide at least two per cent. as a sinking fund; and the condemnation of the right of way for the erection of such works shall be fully provided for.

Section 8 provides that the legislature may aid counties and cities mentioned in section 7.

ARKANSAS.

The constitution of the state of Arkansas does not restrict the legislature from incurring any indebtedness on behalf of the state, but does provide that the general assembly, in incorporating towns and cities, shall restrict their power of taxation, assessment, borrowing money, and contracting debts; nor can any state tax be allowed, except to raise means for the payment of the just debts of the state, defray the necessary expenses, sustain schools, repel invasion, and suppress insurrection, except by a majority of two-thirds of both houses of the assembly. The state is not prohibited from becoming a stockholder in companies, etc. Counties, cities, towns, and other municipal corporations cannot be stockholders in any company or corporation, or appropriate money for or loan their credit thereto. Municipal corporations cannot levy tax exceeding five mills on the dollar of the assessed value of real estate, except to pay existing indebtedness at the time of the adoption of the constitution (1874), for which an additional tax of five mills on the dollar may be levied.

CONSTITUTION OF 1874.

ART. V, SEC. 31. No state tax shall be allowed, or appropriation of money made, except to raise means for the payment of the just debts of the state, for defraying the necessary expenses of the government, to sustain common schools, to repel invasion, and suppress insurrection, except by a majority of two-thirds of both houses of the general assembly.

ART. XII, SEC. 3. The general assembly shall provide by general laws for the organization of cities (which may be classified) and incorporated towns, and restrict their power of taxation, assessment, borrowing money, and contracting debts, so as to prevent the abuse of such power.

SEC. 4. No municipal corporation shall * * * levy any tax on real or personal property to a greater extent in one year than five mills on the dollar of the assessed value of the same: *Provided*, That to pay indebtedness existing at the time of the adoption of this constitution an additional tax of not more than five mills on the dollar may be levied.

SEC. 5. No county, city, town, or other municipal corporation shall become a stockholder in any company, association, or corporation, or obtain or appropriate money for, or loan its credit to, any corporation, association, institution, or individual.

KENTUCKY.

In the state of Kentucky debts may be contracted to meet casual deficits or failures in the revenue not to exceed $500,000. The state may, however, contract debts to repel invasion, suppress insurrection, and provide for

the public defense. Other debts may be contracted, but a law authorizing the same must make provision to levy and collect an annual tax sufficient to pay the interest and discharge the principal within thirty years, and such law does not take effect unless sanctioned by a majority of all votes cast for or against it at a general election. Debts may be contracted by the general assembly without such vote, when the money to be derived therefrom is to be used for the purpose of paying an existing debt. The credit of the state cannot be given or loaned.

CONSTITUTION OF 1850.

ART. II, SEC. 35. The general assembly may contract debts to meet casual deficits or failures in the revenue, but such debts, direct or contingent, singly or in the aggregate, shall not at any time exceed five hundred thousand dollars; and the moneys arising from loans creating such debts shall be applied to the purposes for which they were obtained or to repay such debts: *Provided*, That the state may contract debts to repel invasion, suppress insurrection, or, if hostilities are threatened, provide for the public defense.

ART. II, SEC. 36. No act of the general assembly shall authorize any debt to be contracted on behalf of the commonwealth, except for the purposes mentioned in the thirty-fifth section of this article, unless provision be made therein to lay and collect an annual tax sufficient to pay the interest stipulated and to discharge the debt within thirty years; nor shall such act take effect until it shall have been submitted to the people at a general election, and shall have received a majority of all the votes cast for or against it: *Provided*, That the general assembly may contract debts by borrowing money to pay any part of the debt of the state without submission to the people, and without making provision in the act authorizing the same for a tax to discharge the debt so contracted, or the interest thereon.

ART. II, SEC. 33. The credit of this commonwealth shall never be given or loaned in aid of any person, association, municipality, or corporation.

TENNESSEE.

The credit of the state of Tennessee cannot now be loaned or given in aid of any person, association, or company, nor can any bonds of the state be issued to any railroad company, under prior constitutions and laws, which shall then be in default in paying the interest upon said bonds previously loaned to them, or which shall, after the adoption of the constitution (1870), sell or dispose of any such bonds loaned to it for less than par. The credit of no county, city, or town can be loaned, nor can either of them become a stockholder with others in any company, association, or corporation, except upon an election first held, and the assent of three-fourths of the votes cast at said election is obtained.

CONSTITUTION OF 1870.

ART. II, SEC. 33. No bonds of the state shall be issued to any railroad company which, at the time of its application for the same, shall be in default in paying the interest upon the state bonds previously loaned to it, or that shall hereafter, before such application, sell or absolutely dispose of any state bonds loaned to it for less than par.

ART. II, SEC. 31. The credit of the state shall not be hereafter loaned or given to or in aid of any person, association, company, corporation, or municipality.

ART. II, SEC. 29. * * * The credit of no county, city, or town shall be given or loaned to or in aid of any person, company, association, or corporation, except upon an election to be first held by the qualified voters of such county, city, or town, and the assent of three-fourths of the votes cast at said election. Nor shall any county, city, or town become a stockholder with others in any company, association, or corporation, except upon a like election and the assent of a like majority. *a* * * *

WESTERN STATES.

OHIO.

To supply casual deficits or failures in revenues, and to meet expenses not otherwise provided for, the general assembly of the state of Ohio may contract debts not to exceed the sum of $750,000, and in addition thereto may contract such debt as may be necessary to repel invasion and defend the state in war, and to redeem the outstanding indebtedness of the state existing at the time of the adoption of the constitution (1851). The state, counties, cities, towns, and townships cannot become stockholders in any joint stock company, corporation, or association, or loan their credit thereto. It is made the duty of the legislature to restrict the power of taxation and the creation of debts by cities and incorporated villages. The constitution also provides for a sinking fund, sufficient in amount to pay the annual interest on the public debt and to reduce the principal annually not less than $100,000.

CONSTITUTION OF 1851.

ART. VIII, SEC. 1. The state may contract debts to supply casual deficits or failures in revenues or to meet expenses not otherwise provided for, but the aggregate amount of such debts, direct and contingent, whether contracted by virtue of one or more acts of the general assembly or at different periods of time, shall never exceed seven hundred and fifty thousand dollars; and the money arising from the creation of such debts shall be applied to the purpose for which it was obtained or to repay the debts so contracted, and to no other purpose whatever.

---

a The section exempted certain counties from the three-fourths rule until 1880, and provided that a majority vote should be sufficient until that year, and that thereafter the three-fourths rule should apply.

ART. VII, SEC. 2. In addition to the above limited power, the state may contract debts to repel invasion, suppress insurrection, defend the state in war, or to redeem the present outstanding indebtedness of the state; but the money arising from the contracting of such debts shall be applied to the purpose for which it was raised or to repay such debts, and to no other purpose whatever; and all debts incurred to redeem the present outstanding indebtedness of the state shall be so contracted as to be payable by the sinking fund, hereinafter provided for, as the same shall accumulate.

ART. VIII, SEC. 3. Except the debts above specified in sections 1 and 2 of this article, no debt whatever shall hereafter be created by or on behalf of the state.

ART. VIII, SEC. 4. The credit of the state shall not, in any manner, be given or loaned to, or in aid of, any individual, association, or corporation whatever; nor shall the state ever hereafter become a joint owner or stockholder in any company or association, in this state or elsewhere, formed for any purpose whatever.

ART. VIII, SEC. 5. The state shall never assume the debts of any county, city, town, or township, or of any corporation, whatever, unless such debt shall have been created to repel invasion, suppress insurrection, or defend the state in war.

ART. XII, SEC. 6. The state shall never contract any debt for purposes of internal improvement.

ART. VIII, SEC. 6. The general assembly shall never authorize any county, city, town, or township, by vote of its citizens or otherwise, to become a stockholder in any joint stock company, corporation, or association whatever, or to raise money for, or loan its credit to or in aid of, any such company, corporation, or association.

ART. VIII, SEC. 7. The faith of the state being pledged for the payment of its public debt, in order to provide therefor there shall be created a sinking fund, which shall be sufficient to pay the accruing interest on such debt and annually to reduce the principal thereof by a sum not less than one hundred thousand dollars, increased yearly, and each and every year, by compounding, at the rate of six per cent. per annum. The said sinking fund shall consist of the net annual income of the public works and stocks owned by the state, of any other funds or resources that are or may be provided by law, and of such further sum, to be raised by taxation, as may be required for the purposes aforesaid.

ART. XIII, SEC. 6. The general assembly shall provide for the organization of cities and incorporated villages, by general laws, and restrict their power of taxation, assessment, borrowing money, contracting debts, and loaning their credit, so as to prevent the abuse of such power.

ILLINOIS.

In the state of Illinois debts not exceeding in the aggregate $280,000 may be contracted to meet casual deficits or failures in revenues; but no other debt, except for the purpose of repelling invasion or defending the state in war, can be contracted, unless a law authorizing the same shall be first submitted to the people and receive a majority of the votes cast for members of the general assembly at such election. Such law must be first published for three months, and by its terms make provision for the payment of the interest annually. The state cannot assume or pay the debts or liabilities of, or give, loan, or extend its credit to, or in aid of, any public or other corporation, association, or individual, nor can the state become a stockholder in any corporation or stock company created for banking purposes. The constitution does not limit the power of the state to become such stockholder in other corporations. Banking charters must be submitted to the people and receive a majority of the votes cast at such election. Counties, cities, townships, school districts, and other municipal corporations are not allowed to become indebted to an amount, including existing obligations, exceeding 5 per cent. on the value of the taxable property therein, and before incurring such indebtedness must provide for the collection of a direct annual tax sufficient to pay the interest and discharge the principal within twenty years from the time of contracting the same; nor can either of such political divisions become subscribers to the capital stock of any railroad or private corporation, or make donation to or loan its credit in aid thereof. This provision does not affect the rights of such municipalities to make subscriptions where they have been authorized prior to the adoption of the constitution (1870).

CONSTITUTION OF 1870.

ART. IV, SEC. 18. * * * The state may, to meet casual deficits or failures in revenues, contract debts, never to exceed, in the aggregate, $250,000, and moneys thus borrowed shall be applied to the purpose for which they were obtained or to pay the debt thus created, and to no other purpose; and no other debt, except for the purpose of repelling invasion, suppressing insurrection, or defending the state in war (for payment of which the faith of the state shall be pledged), shall be contracted unless the law authorizing the same shall, at a general election, have been submitted to the people, and have received a majority of the votes cast for members of the general assembly at such election. The general assembly shall provide for the publication of said law for three months at least before the vote of the people shall be taken upon the same, and provision shall be made at the time for the payment of the interest annually, as it shall accrue, by a tax levied for the purpose, or from other sources of revenue, which law, providing for the payment of such interest by such tax, shall be irrepealable until such debt be paid: *And prorided further*, That the law levying the tax shall be submitted to the people with the law authorizing the debt to be contracted.

ART. IV, SEC. 20. The state shall never pay, assume, or become responsible for the debts or liabilities of, or in any manner give, loan, or extend its credit to or in aid of, any public or other corporation, association, or individual.

ART. XI, SEC. 5. No state bank shall hereafter be created, nor shall the state own or be liable for any stock in any corporation or joint stock company or association for banking purposes now created or to be hereafter created. No act of the general assembly authorizing or creating corporations or associations, with banking powers, whether of issue, deposit, or discount, nor amendments thereto, shall go into effect, or in any manner be in force, unless the same shall be submitted to a vote of the people at the general election next succeeding the passage of the same and be approved by a majority of all the votes cast at such election for or against such law.

Section superscribed "canal":

* * * The general assembly shall never loan the credit of the state, or make appropriations from the treasury thereof, in aid of railroads or canals: *Provided*, That any surplus earnings of any canal may be appropriated for its enlargement or extension.

ART. IX, SEC. 12. No county, city, township, school district, or other municipal corporation shall be allowed to become indebted in any manner, or for any purpose, to an amount, including existing indebtedness, in the aggregate exceeding five per centum on the value of the taxable property therein, to be ascertained by the last assessment for the state and county taxes previous to the incurring of such indebtedness. Any county, city, school district, or other municipal corporation incurring any indebtedness as aforesaid shall, before or at the time of doing so, provide for the collection of a direct annual tax sufficient to pay the interest on such debt as it falls due, and also to pay and discharge the principal thereof within twenty years from the time of contracting the same. This section shall not be construed to prevent any county, city, township, school district, or other municipal corporation from issuing their bonds in compliance with any vote of the people which may have been had prior to the adoption of this constitution, in pursuance of any law providing therefor.

Another section, superscribed "municipal subscriptions to railroads or private corporations," provides:

No county, city, town, township, or other municipality shall ever become subscriber to the capital stock of any railroad or private corporation, or make donation to or loan its credit in aid of such corporation: *Provided, however*, That the adoption of this article shall not be construed as affecting the right of any such municipality to make such subscriptions where the same have been authorized, under existing laws, by a vote of the people of such municipalities prior to such adoption.

By section 24 of the schedule attached to this constitution it is provided that nothing contained in said constitution shall deprive the legislature of power to authorize the city of Quincy to create certain indebtedness, for which the people of said city had theretofore given their votes.

INDIANA.

The constitution of the state of Indiana prohibits the creation of any debt on behalf of the state, except to meet casual deficits in the revenue, pay interest on the state debt, to repel invasion, and provide for the public defense; nor can the state become a stockholder in any corporation or association, or loan the credit of the state to any person, association, or corporation, or assume the debts of any county, city, town, or township, or of any other corporation. Counties cannot subscribe for stock in any company, unless it is paid for at the time of the subscription, nor can such county loan its credit to any company, nor borrow money for the purpose of taking stock. An amendment ratified March 14, 1881, provides that no political or municipal corporation shall become indebted in any manner (except in times of war) to an amount exceeding 2 per cent. on the value of the taxable property therein, and all bonds or obligations in excess thereof are void.

CONSTITUTION OF 1851.

ART. X, SEC. 5. No law shall authorize any debt to be contracted on behalf of the state, except in the following cases: To meet casual deficits in the revenue, to pay the interest on the state debt, to repel invasion, suppress insurrection, or, if hostilities be threatened, provide for the public defense.

ART. X, SEC. 6. No county shall subscribe for stock in any incorporated company unless the same be paid for at the time of such subscription; nor shall any county loan its credit to any incorporated company, nor borrow money for the purpose of taking stock in any such company; nor shall the general assembly ever, on behalf of the state, assume the debts of any county, city, town, or township, nor of any corporation whatever.

ART. XI, SEC. 12. The state shall not be a stockholder in any bank after the expiration of the present bank charter; nor shall the credit of the state ever be given or loaned in aid of any person, association, or corporation; nor shall the state hereafter become a stockholder in any corporation or association.

The following amendment, ratified March 14, 1881, is known as amendment No. 9:

SEC. 1. No political or municipal corporation in this state shall ever become indebted in any manner or for any purpose to an amount, in the aggregate, exceeding two per centum on the value of the taxable property within such corporation, to be ascertained by the last assessment for state and county taxes previous to the incurring of such indebtedness; and all bonds or obligations in excess of such amount given by such corporations shall be void: *Provided*, That in time of war, foreign invasion, or other great public calamity, on petition of a majority of the property owners, in number and value, within the limits of such corporation, the public authorities, in their discretion, may incur obligations necessary for the public protection and defense to such amount as may be requested in such petition.

MICHIGAN.

To meet deficits in revenue the general assembly of Michigan may contract debts on behalf of the state not to exceed $50,000. Debts may also be contracted to repel invasion, suppress insurrection, and defend the state in war. The state cannot subscribe to or be interested in the stock of any company, association, or corporation, nor can the credit of the state be loaned in any manner. No scrip, certificate, or other evidence of state indebtedness can be issued, except for the redemption of stock issued previous to the adoption of the constitution (1850), or for such debts as are expressly authorized by the constitution. The state cannot engage in any work of internal improvement, or be interested therein, except in the expenditure of grants to the state of land or other property. The legislature is directed to provide for the incorporation and organization of cities and villages, and to restrict their powers of taxation, borrowing money, contracting debts, and loaning their credit.

CONSTITUTION OF 1850.

ART. XIV, SEC. 3. The state may contract debts to meet deficits in revenue. Such debts shall not in the aggregate at any one time exceed fifty thousand dollars. The moneys so raised shall be applied to the purposes for which they were obtained, or to the payment of the debts so contracted.

ART. XIV, SEC. 4. The state may contract debts to repel invasion, suppress insurrection, or defend the state in time of war. The money arising from the contracting of such debts shall be applied to the purposes for which it was raised or to repay such debts.

ART. XIV, SEC. 6. The credit of the state shall not be granted to or in aid of any person, association, or corporation.

ART. XIV, SEC. 7. No scrip, certificate, or other evidence of state indebtedness shall be issued, except for the redemption of stock previously issued, or for such debts as are expressly authorized in this constitution.

ART. XIV, SEC. 8. The state shall not subscribe to or be interested in the stock of any company, association, or corporation.

ART. XIV, SEC. 9. The state shall not be a party to, or interested in, any work of internal improvement, nor engaged in carrying on any such work, except in the expenditure of grants to the state of land or other property.

ART. XV, SEC. 13. The legislature shall provide for the incorporation and organization of cities and villages, and shall restrict their powers of taxation, borrowing money, contracting debts, and loaning their credit.

WISCONSIN.

In the provisions of the constitution of the state of Wisconsin the legislature is authorized to borrow money to repel invasion, suppress insurrection, or defend the state in war; and for the purpose of defraying the extraordinary expenses of the state debts may also be contracted, not to exceed, in the latter case, $100,000.

The law authorizing the creation of such debt must specify the object thereof, receive a majority of the votes of all the members elected to each house, and levy an annual tax sufficient to pay the interest and the principal within five years. The state cannot contract any debt for works of internal improvement, or be a party to carry on such works, but may devote the avails of grants of lands or other property made to the state in aid of the completion of such works. Counties, cities, towns, villages, school districts, and other municipal corporations cannot become indebted to an amount exceeding in the aggregate 5 per cent. on the taxable property therein, and before incurring any indebtedness must provide for the collection of a direct annual tax sufficient to pay the interest and discharge the principal within twenty years.

CONSTITUTION OF 1848.

ART. VIII, SEC. 3. The credit of the state shall never be given or loaned in aid of any individual, association, or corporation.

ART. VIII, SEC. 4. The state shall never contract any public debt except in the cases and manner herein provided.

ART. VIII, SEC. 6. For the purpose of defraying extraordinary expenditures the state may contract public debts, but such debts shall never in the aggregate exceed one hundred thousand dollars. Every such debt shall be authorized by law, for some purpose or purposes to be distinctly specified therein, and the vote of a majority of all the members elected to each house, to be taken by yeas and nays, shall be necessary to the passage of such law, and every such law shall provide for levying an annual tax sufficient to pay the annual interest of such debt and the principal within five years from the passage of such law, and shall specially appropriate the proceeds of such taxes to the payment of such principal and interest; and such appropriation shall not be repealed, nor the taxes be postponed or diminished, until the principal and interest of such debt shall have been wholly paid.

ART. VIII, SEC. 7. The legislature may also borrow money to repel invasion, suppress insurrection, or defend the state in time of war; but the money thus raised shall be applied exclusively to the object for which the loan was authorized, or to the repayment of the debt thereby created.

ART. VIII, SEC. 9. No scrip, certificate, or other evidence of state debt whatsoever shall be issued, except for such debts as are authorized by the sixth and seventh sections of this article.

ART. VIII, SEC. 10. The state shall never contract any debt for works of internal improvement, or be a party in carrying on such works; but whenever grants of land or other property shall have been made to the state, especially dedicated by the grant to particular works of internal improvement, the state may carry on such particular works, and shall devote thereto the avails of such grants, and may pledge or appropriate the revenues derived from such works in aid of their completion.

Amendment adopted in 1874:

ART. XI, SEC. 3. No county, city, town, village, school district, or other municipal corporation shall be allowed to become indebted in any manner, or for any purpose, to any amount, including existing indebtedness, in the aggregate exceeding five per centum on the value of the taxable property therein, to be ascertained by the last assessment for state and county taxes previous to the incurring of such indebtedness. Any county, city, town, village, school district, or other municipal corporation incurring any indebtedness as aforesaid shall, before or at the time of doing so, provide for the collection of a direct annual tax sufficient to pay the interest on such debt as it falls due, and also to pay and discharge the principal thereof within twenty years from the time of contracting the same.

IOWA.

In the state of Iowa debts may be contracted to repel invasion, suppress insurrection, and defend the state in war. Debts may also be contracted to supply casual deficits in the revenue, and to meet expenses not otherwise provided for, not exceeding, however, the sum of $250,000. No other debts can be incurred unless the same be authorized by law for some single work or object, which shall also impose and provide for the collection of a direct annual tax sufficient to pay the interest and discharge the principal within twenty years from the time of contracting the same. Such law, before it takes effect, must be submitted to the people at a general election, and receive a majority of all the votes cast for and against it thereat, and must have been published in one newspaper in each county throughout the state for three months preceding the election. The state cannot become a stockholder in any corporation, nor assume the debts thereof, unless incurred in time of war for the benefit of the state, nor can the credit of the state be loaned or given in aid of any individual, association, or corporation. Political and municipal corporations are prohibited from becoming stockholders in any banking corporation.

CONSTITUTION OF 1857.

ART. VII, SEC. 1. The credit of the state shall not, in any manner, be given or loaned to, or in aid of, any individual, association, or corporation; and the state shall never assume or become responsible for the debts or liabilities of any individual, association, or corporation.

ART. VII, SEC. 2. The state may contract debts to supply casual deficits or failures in revenues, or to meet expenses not otherwise provided for, but the aggregate amount of such debts, direct and contingent, whether contracted by virtue of one or more acts of the general assembly or at different periods of time, shall never exceed the sum of two hundred and fifty thousand dollars; and the money arising from the creation of such debts shall be applied to the purpose for which it was obtained or to repay the debts so contracted, and to no other purpose whatever.*

ART. VII, SEC. 4. In addition to the above limited power to contract debts, the state may contract debts to repel invasion, suppress insurrection, or defend the state in war; but the money arising from the debts so contracted shall be applied to the purpose for which it was raised, or to repay such debts, and to no other purpose whatever.

ART. VII, SEC. 5. Except the debts hereinbefore specified in this article, no debt shall be hereafter contracted, by or on behalf of this state, unless such debt shall be authorized by some law for some single work or object, to be distinctly specified therein; and such law shall impose and provide for the collection of a direct annual tax sufficient to pay the interest on such debt as it falls due, and also to pay and discharge the principal of such debt within twenty years from the time of the contracting thereof; but no such law shall take effect until at a general election it shall have been submitted to the people and have received a majority of all the votes cast for or against it at such election; and all the money raised by authority of such law shall be applied only to the specific object therein stated, or to the payment of the debt created thereby; and such law shall be published in at least one newspaper in each county, if one is published therein, throughout the state, for three months preceding the election at which it is submitted to the people.

ART. VII, SEC. 6. The legislature may at any time after the approval of such law by the people, if no debt shall have been contracted in pursuance thereof, repeal the same, and may at any time forbid the contracting of any further debt or liability under such law; but the tax imposed by such law, in proportion to the debt or liability which may have been contracted in pursuance thereof, shall remain in force and be irrepealable, and be annually collected, until the principal and interest are fully paid.

ART. VIII, SEC. 3. The state shall not become a stockholder in any corporation, nor shall it assume or pay the debt or liability of any corporation unless incurred in time of war for the benefit of the state.

ART. VIII, SEC. 4. No political or municipal corporation shall become a stockholder in any banking corporation, directly or indirectly.

MINNESOTA.

In the state of Minnesota public debts may be contracted, not exceeding $250,000, for the purpose of defraying extraordinary expenses. Such debt must be authorized by law, be passed by a vote of two-thirds of the members of each branch of the legislature, and be recorded on the journal of each house, and must levy a tax sufficient to pay the annual interest of the debt and to discharge the principal within ten years from the final passage of the law. The state cannot contract any debt for works of internal improvement, or be a party in carrying on the same, except in cases where grants of land or other property shall have been made to the state, dedicated by the grant to a specific purpose, and in such cases the avails of such grants shall be voted thereto, and the revenues derived from such works may be pledged or appropriated in aid of the completion thereof. Public debts may also be contracted in time of war or to repel invasion or suppress insurrection. The credit of the state cannot be given or loaned in aid of any individual, association, or corporation. Under the provisions of the amendment adopted in 1858, bonds known as Minnesota state railroad bonds were authorized to be issued. This provision was repealed in 1860, and an amendment then adopted provides that no law levying a tax or making other provision for the payment of interest or principal of such bonds shall take effect until the same is submitted to a vote of the people and adopted by a majority of those voting upon the proposition. An amendment ratified in 1872 authorizes the further creation of a public debt to an amount, in addition to that already provided for, not exceeding $250,000, for the purpose of erecting and completing certain public buildings, the bonds to be issued therefor to be payable in not less than ten nor more than thirty years from date. Counties, cities, townships, and other corporations cannot issue bonds or become indebted in any manner to aid in the construction of equipment or railroads to an amount exceeding 5 per cent. of the value of the taxable property therein.

Article IX of the constitution of 1857 provides as follows:

SEC. 5. For the purpose of defraying extraordinary expenditures the state may contract public debts, but such debts shall never, in the aggregate, exceed two hundred and fifty thousand dollars. Every such debt shall be authorized by law for some single object, to be distinctly specified therein, and no such law shall take effect until it shall have been passed by the vote of two-thirds of the members of each branch of the legislature, to be recorded by yeas and nays on the journals of each house, respectively; and every such law shall levy a tax annually sufficient to pay the annual interest of such debt, and also a tax sufficient to pay the principal of such debt within ten years from the final passage of such law, and shall specially appropriate the proceeds of such taxes to the payment of such principal and interest, and such appropriation and taxes shall not be repealed, postponed, or diminished until the principal and interest of such debt shall have been wholly paid. The state shall never contract any debts for works of internal improvement, or be a party in carrying on such works, except in cases where grants of land or other property shall have been made to the state, especially dedicated by the grant to specific purposes, and in such cases the state shall devote thereto the avails of such grants, and may pledge or appropriate the revenues derived from such works in aid of their completion.

SEC. 6. All debts authorized by the preceding section shall be contracted by loan on state bonds of amounts not less than five hundred dollars each, on interest, payable within ten years after the final passage of the law authorizing such debt, and such bonds shall not be sold by the state under par. A correct registry of all such bonds shall be kept by the treasurer in numerical order, so as always to exhibit the number and amount unpaid and to whom severally made payable.

---

* Losses to the permanent school or university fund, occasioned by defalcation, etc., are not to be included in the above limit (sec. 3).

SEC. 7. The state shall never contract any public debt, unless in time of war, to repel invasion or suppress insurrection, except in the cases and in the manner provided in the fifth and sixth sections of this article.

SEC. 8. The money arising from any loan made or debt or liability contracted shall be applied to the object specified in the act authorizing such debt or liability, or to the repayment of such debt or liability, and to no other purpose whatever.

The following amendment to the constitution was ratified in 1860:

ART. IX, SEC. 10.* So altered and amended as to read: The credit of the state shall never be given or loaned in aid of any individual, association, or corporation. Nor shall there be any further issue of bonds denominated "Minnesota railroad bonds", under what purports to be an amendment to section 10 of article 9 of the constitution, adopted on the fifteenth of April, eighteen hundred and fifty-eight, which is hereby expunged from the constitution, excepting and reserving to the state, nevertheless, all rights, remedies, and forfeitures accruing under said amendment.

Amendment adopted in 1860:

ART. IX, SEC. 2. So altered and amended as to read: * * * But no law levying a tax or making other provision for the payment of interest or principal of the bonds denominated "Minnesota state railroad bonds" shall take effect or be in force until such law shall have been submitted to a vote of the people of the state and adopted by a majority of the electors of the state voting upon the same.

Amendment ratified in 1872:

ART. IX, SEC. 14. For the purpose of erecting and completing buildings for a hospital for the insane, a deaf, dumb, and blind asylum, and state prison, the legislature may by law increase the public debt of the state to an amount not exceeding two hundred and fifty thousand dollars, in addition to the public debt already heretofore authorized by the constitution; and for that purpose may provide by law for issuing and negotiating the bonds of the state, and appropriate the money only for the purpose aforesaid, which bonds shall be payable in not less than ten nor more than thirty years from the date of the same, at the option of the state.

Amendment ratified in 1879:

ART. IX, SEC. 15. The legislature shall not authorize any county, township, city, or other municipal corporation to issue bonds or to become indebted in any manner to aid in the construction or equipment of any of all railroads to any amount that shall exceed five per centum of the value of the taxable property within such county, township, city, or other municipal corporation, the amount of such taxable property to be ascertained and determined by the last assessment of said property, made for the purpose of state and county taxation previous to the incurring of such indebtedness.

MISSOURI.

No debts can be contracted in the state of Missouri on behalf of the state, except as follows: First, to renew existing bonds when there is not a sufficient amount in the sinking fund; second, upon the recommendation of the governor, upon the occurrence of an unforeseen emergency or deficit in the revenue, to an amount not exceeding $250,000, be paid in not more than two years from the date of this creation; third, if the temporary liability incurred, or to be incurred, on the occurrence of such unforeseen emergency or deficiency in the revenue, exceed the sum of $250,000, the legislature may submit an act providing for a loan or for contracting a liability containing a provision for levying a sufficient tax to pay the interest and principal when they become due (the principal to be paid in not more than thirteen years) to the qualified voters of the state. Such act must be published for three months, and submitted to the people at a special election held for that purpose, and ratified by a two-thirds majority. The credit of the state cannot be loaned or given to, nor can any grant be made to any individual, association of individuals, municipal or other corporations. Counties, townships, and other municipalities cannot subscribe to the capital stock of any corporation or institution, or make appropriations or donations, or loan their credit thereto. This provision does not prohibit the carrying out of any contract made prior to the adoption of the constitution (1875). The constitution places the following limitation upon the power of taxation: For county purposes, in counties having $6,000,000 valuation or less, not exceeding fifty cents on the $100 valuation; in counties having between $6,000,000 and $10,000,000, not to exceed forty cents on the $100; in counties having $10,000,000 and under $30,000,000, not exceeding fifty cents on the $100; and in counties having $30,000,000 or more, the rate shall not exceed thirty-five cents on the $100 valuation. For city and town purposes, the annual rate in cities and towns having thirty thousand inhabitants or more, not exceeding one hundred cents on $100; in cities and towns having less than thirty thousand and over ten thousand, not exceeding sixty cents on the $100; in cities and towns having less than ten thousand and more than one thousand, not exceeding fifty cents on the $100; and in towns having one thousand or less, not exceeding twenty-five cents on the $100. For school purposes in districts the annual rate shall not exceed forty cents on the $100. This may be increased, however, in districts formed of cities and towns to an amount not to exceed one dollar, and in other districts to an amount not to exceed sixty-five cents on the $100, whenever a majority of the voters, who are taxpayers, voting at an election held to decide the question, vote for the increase. For the purpose of erecting public buildings in any county, city, or school district the rate may be increased to such an amount as may be necessary, provided two-thirds of the qualified voters of the county assent thereto at an election held for that purpose. If the limit of indebtedness above described has already been exceeded at the time of the adoption of the constitution (1875) in cities containing over two hundred thousand

*The constitution of 1857 provided as follows, Article IX, section 10:

"The credit of the state shall never be given or loaned in aid of any individual, association, or corporation."

In the following year the section quoted was amended so as to allow state bonds to be issued to the amount of $5,000,000 to aid in the construction of railroads. The amendment above set out was adopted in 1860.

inhabitants, then seven-eighths of the entire revenue may be pledged in anticipation of the collection thereof, but the bonded indebtedness cannot be increased, nor can any bonds be issued until such excess ceases, except for the renewal of other bonds.

Article IV of the constitution of 1875 provides:

SEC. 44. The general assembly shall have no power to contract or to authorize the contracting of any debt or liability on behalf of the state, or to issue bonds or other evidences of indebtedness thereof, except in the following cases: First. In renewal of existing bonds when they cannot be paid at maturity out of the sinking fund or other resources. Second. On the occurring of an unforeseen emergency, or casual deficiency of the revenue, when the temporary liability incurred, upon the recommendation of the governor first had, shall not exceed the sum of two hundred and fifty thousand dollars for any one year, to be paid in not more than two years from and after its creation. Third. On the occurring of any unforeseen emergency or casual deficiency of the revenue, when the temporary liability incurred or to be incurred shall exceed the sum of two hundred and fifty thousand dollars for any one year, the general assembly may submit an act providing for the loan, or for the contracting of the liability, and containing a provision for levying a tax sufficient to pay the interest and principal when they become due (the latter in not more than thirteen years from the date of its creation), to the qualified voters of the state; and when the act so submitted shall have been ratified by a two-thirds majority, at an election held for that purpose, due publication having been made of the provisions of the act for at least three months before such election, and the act thus ratified shall be irrepealable until the debt thereby incurred shall be paid, principal and interest.

SEC. 45. The general assembly shall have no power to give or to lend, or to authorize the giving or lending, of the credit of the state in aid of or to any person, association, or corporation, whether municipal or other, or to pledge the credit of the state in any manner whatsoever, for the payment of the liabilities, present or prospective, of any individual, association of individuals, municipal or other corporation whatsoever.

SEC. 46. The general assembly shall have no power to make any grant, or to authorize the making of any grant, of public money or thing of value to any individual, association of individuals, municipal or other corporation whatsoever: *Provided*, That this shall not be so construed as to prevent the grant of aid in a case of public calamity.

SEC. 47. The general assembly shall have no power to authorize any county, city, town, or township, or other political corporation or subdivision of the state now existing, or that may be hereafter established, to lend its credit or to grant public money or thing of value in aid of or to any individual, association, or corporation whatsoever, or to become a stockholder in such corporation, association, or company.

ART. IX, SEC. 6. No county, township, city, or other municipality shall hereafter become a subscriber to the capital stock of any railroad or other corporation or association, or make appropriation or donation, or loan its credit to or in aid of any such corporation or association, or to or in aid of any college or institution of learning or other institution, whether created for or to be controlled by the state or others. All authority heretofore conferred for any of the purposes aforesaid by the general assembly, or by the charter of any corporation, is hereby repealed: *Provided, however*, That nothing in this constitution contained shall affect the right of any such municipality to make such subscription where the same has been authorized under existing laws by a vote of the people of such municipality prior to its adoption, or to prevent the issue of renewal bonds, or the use of such other means as are or may be prescribed by law for the liquidation or payment of such subscription, or of any existing indebtedness.

ART. X, SEC. 11. Taxes for county, city, town, and school purposes may be levied on all subjects and objects of taxation, but the valuation of property therefor shall not exceed the valuation of the same property in such town, city, or school district for state and county purposes. For county purposes, the annual rate on property, in counties having six million dollars or less, shall not, in the aggregate, exceed fifty cents on the hundred dollars' valuation; in counties having six million dollars and under ten million dollars, said rate shall not exceed forty cents on the hundred dollars' valuation; in counties having ten million dollars and under thirty million dollars, said rate shall not exceed fifty cents on the hundred dollars' valuation; and in counties having thirty million dollars or more, said rate shall not exceed thirty-five cents on the hundred dollars' valuation. For city and town purposes, the annual rate on property in cities and towns having thirty thousand inhabitants or more, shall not, in the aggregate, exceed one hundred cents on the hundred dollars' valuation; in cities and towns having less than thirty thousand and over ten thousand inhabitants, said rate shall not exceed sixty cents on the hundred dollars' valuation; in cities and towns having less than ten thousand and more than one thousand inhabitants, said rate shall not exceed fifty cents on the hundred dollars' valuation; and in towns having one thousand inhabitants or less, said rate shall not exceed twenty-five cents on the hundred dollars' valuation. For school purposes in districts, the annual rate on property shall not exceed forty cents on the hundred dollars' valuation: *Provided*, The aforesaid annual rates for school purposes may be increased in districts formed of cities and towns to an amount not to exceed one dollar on the hundred dollars' valuation, and in other districts to an amount not to exceed sixty-five cents on the hundred dollars' valuation, on the condition that a majority of the voters who are tax-payers, voting at an election held to decide the question, vote for said increase. For the purpose of erecting public buildings in counties, cities, or school districts the rates of taxation herein limited may be increased when the rate of such increase and the purpose for which it is intended shall have been submitted to a vote of the people, and two-thirds of the qualified voters of such county, city, or school district, voting at such election, shall vote therefor. The rate herein allowed to each county shall be ascertained by the amount of taxable property therein, according to the last assessment for state and county purposes, and the rate allowed to each city or town by the number of inhabitants, according to the last census taken under the authority of the state or of the United States; said restrictions, as to rates, shall apply to taxes of every kind and description, whether general or special, except taxes to pay valid indebtedness now existing, or bonds which may be issued in renewal of such indebtedness.

ART. IX, SEC. 19. The corporate authorities of any county, city, or other municipal subdivision of this state, having more than two hundred thousand inhabitants, which has already exceeded the limit of indebtedness prescribed in section 12 of article 10 of this constitution, may, in anticipation of the customary annual revenue thereof, appropriate, during any fiscal year, toward the general governmental expenses thereof, a sum not exceeding seven-eighths of the entire revenue applicable to general governmental purposes (exclusive of the payment of the bonded debt of such county, city, or municipality) that was actually raised by taxation alone during the preceding fiscal year; but until such excess of indebtedness cease no further bonded debt shall be incurred, except for the renewal of other bonds.

KANSAS.

The constitution of the state of Kansas provides for the contracting of public debts in an amount of $1,000,000 for the purpose of defraying the extraordinary expenses of the state and making public improvements. Such debt must be authorized by law for a specified purpose, and must be adopted by a majority of the members elected to

each house, the vote to be taken by yeas and nays; and every such law must provide for levying an annual tax sufficient to pay the interest and the principal when the same become due. Other debts may be contracted by the state, provided the proposed law authorizing the same be first submitted to a direct vote of the electors of the state at a general election, and ratified by a majority of all the votes cast thereat. Money may also be borrowed to repel invasion, suppress insurrection, and defend the state in war. The state cannot be a party in carrying on any work of internal improvement, or become a stockholder in any banking institution.

CONSTITUTION OF 1859.

ART. XI, SEC. 5. For the purpose of defraying extraordinary expenses and making public improvements the state may contract public debts; but such debts shall never, in the aggregate, exceed one million dollars, except as hereinafter provided. Every such debt shall be authorized by law for some purpose specified therein, and the vote of a majority of all the members elected to each house, to be taken by the yeas and nays, shall be necessary to the passage of such law; and every such law shall provide for levying an annual tax sufficient to pay the annual interest of such debt, and the principal thereof, when it shall become due, and shall specifically appropriate the proceeds of such taxes to the payment of such principal and interest; and such appropriation shall not be repealed, nor the taxes postponed or diminished, until the interest and principal of such debts shall have been wholly paid.

ART. XI, SEC. 6. No debt shall be contracted by the state, except as herein provided, unless the proposed law for creating such debt shall first be submitted to a direct vote of the electors of the state at some general election; and if such proposed law shall be ratified by a majority of all the votes cast at such general election, then it shall be the duty of the legislature next after such election to enact such law and create such debt, subject to all the provisions and restrictions provided in the preceding sections of this article.

ART. XI, SEC. 7. The state may borrow money to repel invasion, suppress insurrection, or defend the state in time of war; but the money thus raised shall be applied exclusively to the object for which the loan was authorized, or to the repayment of the debt thereby created.

ART. XI, SEC. 8. The state shall never be a party in carrying on any works of internal improvement.

ART. XIII, SEC. 5. The state shall not be a stockholder in any banking institution.

NEBRASKA.

In the state of Nebraska debts may be contracted, not to exceed $100,000, to meet casual deficits or failures in revenues, but no other indebtedness shall be incurred, except for the purpose of repelling invasion, suppressing insurrection, or defending the state in war. The law authorizing the creation of any debt must provide for the levying of a tax for the payment of the interest until the debt is paid. The credit of the state cannot be loaned. Cities, counties, towns, precincts, and other subdivisions of the state cannot become subscribers to the capital stock of any railroad or private corporation or association, or owners of such stock; nor can they make donation to any railroad or other work of internal improvement unless the proposition to do so shall have been first voted on at an election. Such donations of the county, with the donations of the subdivisions, cannot exceed 10 per cent. of the assessed valuation of the county, but may be increased 5 per cent. by a two-thirds vote. All bonds or evidences of indebtedness issued by any such subdivision are not valid unless there be indorsed thereon the certificate by the secretary and auditor of the state, showing that the same is issued pursuant to law.

Article XII of the constitution of 1875 provides:

SEC. 1. The state may, to meet casual deficits or failures in the revenues, contract debts, never to exceed, in the aggregate, one hundred thousand dollars; and no greater indebtedness shall be incurred, except for the purpose of repelling invasion, suppressing insurrection, or defending the state in war; and provision shall be made for the payment of the interest annually, as it shall accrue, by a tax levied for the purpose, or from other sources of revenue, which law providing for the payment of such interest by such tax shall be irrepealable until such debt be paid.

SEC. 2. No city, county, town, precinct, municipality, or other subdivision of the state shall ever make donations to any railroad or other work of internal improvement unless a proposition so to do shall have been first submitted to the qualified electors thereof at an election by authority of law: *Provided*, That such donations of a county, with the donations of such subdivisions, in the aggregate shall not exceed ten per cent. of the assessed valuation of such county: *Provided, further*, That any city or county may, by a two-thirds vote, increase such indebtedness five per cent. in addition to such ten per cent., and no bonds or evidences of indebtedness so issued shall be valid unless the same shall have indorsed thereon a certificate, signed by the secretary and auditor of state, showing that the same is issued pursuant to law.

SEC. 3. The credit of the state shall never be given or loaned in aid of any individual, association, or corporation.

MUNICIPAL CORPORATIONS.

ART. XI, SEC. 1. No city, county, town, precinct, municipality, or other subdivision of the state shall ever become a subscriber to the capital stock, or owner of such stock, or any portion or interest therein, of any railroad or private corporation or association.

COLORADO.

In Colorado, neither state nor any county, city, town, township, or school district, shall loan or pledge their credit, or become responsible for any debt contracted or liability of any person, company, or corporation, or make any donation or grant to, or in aid of, or become a subscriber to, or shareholder, in any corporation or company. Debts may be contracted by the state to provide for casual deficiencies in revenue, to erect public buildings, suppress insurrection, defend the state, or assist in defending the United States. The amount of debt contracted in any one year to provide for deficiencies of revenue shall not exceed one-fourth mill on each dollar of taxable property within the state, and the aggregate amount shall not at any time exceed three-fourths of a mill on each

dollar of valuation, until the valuation shall equal $100,000,000, and, therefore, such debt shall not exceed $100,000. The debt incurred in any one year for erection of public buildings shall not exceed one-half mill on each dollar of valuation, and the aggregate amount shall never exceed the sum of $50,000, which may be increased in the aggregate to three mills on each dollar of valuation, provided a law for that purpose be ratified by vote of a majority of such qualified electors of the state as shall vote on the proposition. Laws authorizing the creation of a debt are irrepealable until the indebtedness provided for shall have been fully paid or discharged. They must specify the purpose to which the funds are to be applied, provide for the levy of a tax to pay the interest and extinguish the principal, which in the case of debts contracted for the erection of public buildings or to supply deficiencies of revenue shall not be in less than ten or more than fifteen years. Counties cannot contract any debt except for the purpose of erecting public buildings and making and repairing public roads and bridges, and such indebtedness for any one year is limited as follows: In counties wherein the assessed valuation of taxable property exceeds $5,000,000, $1 50 on each $1,000; counties in which the valuation is less than $5,000,000, $3 on each $1,000; and the entire amount of indebtedness of any county for all purposes, exclusive of the debt contracted before the adoption of the constitution (1876), cannot at any time exceed twice the amount above limited, unless the question of incurring such debt shall be authorized by a majority of the taxpaying voters of such county. School districts can create no debt except upon the vote of the qualified electors who have paid school taxes during the preceding year. Except in supplying water, no city or town can contract any debt except by means of an ordinance, which shall be irrepealable, until the indebtedness is paid, not to exceed at one time twelve mills on each dollar of valuation, and which shall have been submitted to and adopted by a majority of the qualified voters who have paid a property tax during the preceding year. The debts thus created must be paid in not less than ten nor more than fifteen years, and cannot in the aggregate exceed 3 per cent. of the taxable valuation of the property. These several provisions do not apply to contracts made prior to the adoption of the constitution.

Constitution of 1876.

Art. XI, Sec. 1. Neither the state, nor any county, city, town, township, or school district, shall lend or pledge the credit or faith thereof, directly or indirectly, in any manner to, or in aid of, any person, company, or corporation, public or private, for any amount or for any purpose whatever, or become responsible for any debt, contract, or liability of any person, company, or corporation, public or private, in or out of the state.

Sec. 2. Neither the state, nor any county, city, town, township, or school district, shall make any donation or grant to, or in aid of, or become a subscriber to, or shareholder in, any corporation or company, or a joint owner with any person, company, or corporation, public or private, in or out of the state, except as to such ownership as may accrue to the state by escheat or by forfeiture, by operation or provision of law; and except as to such ownership as may accrue to the state, or to any county, city, town, township, or school district, or to either or any of them, jointly with any person, company, or corporation, by forfeiture or sale of real estate for non-payment of taxes, or by donation or devise for public use, or by purchase by or on behalf of any or either of them, jointly with any or either of them, under execution in cases of fine, penalties, or forfeiture of recognizance, breach of condition of official bond, or of bond to secure public moneys, or the performance of any contract in which they or any of them may be jointly or severally interested.

Sec. 3. The state shall not contract any debt by loan, in any form, except to provide for casual deficiencies of revenue, erect public buildings for use of the state, suppress insurrection, defend the state, or, in time of war, assist in defending the United States; and the amount of debt contracted in any one year to provide for deficiencies of the revenue shall not exceed one-fourth of a mill on each dollar of valuation of taxable property within the state, and the aggregate amount of such debt shall not at any time exceed three-fourths of a mill on each dollar of said valuation until the valuation shall equal one hundred millions of dollars, and thereafter such debt shall not exceed one hundred thousand dollars, and the debt incurred in any one year for erection of public buildings shall not exceed one-half mill on each dollar of said valuation, and the aggregate amount of such debt shall never at any time exceed the sum of fifty thousand dollars (except as provided in section five of this article); and in all cases the valuation in this section mentioned shall be that of the assessment last preceding the creation of said debt.

Sec. 4. In no case shall any debt above mentioned in this article be created, except by a law, which shall be irrepealable, until the indebtedness therein provided for shall have been fully paid or discharged; such law shall specify the purposes to which the funds so raised shall be applied, and provide for the levy of a tax sufficient to pay the interest on, and extinguish the principal of, such debt within the time limited by such law for the payment thereof, which, in the case of debts contracted for the erection of public buildings and supplying deficiencies of revenue, shall not be less than ten nor more than fifteen years; and the funds arising from the collection of any such tax shall not be applied to any other purpose than that provided in the law levying the same; and when the debt thereby created shall be paid or discharged, such tax shall cease, and the balance, if any, to the credit of the fund, shall immediately be placed to the credit of the general fund of the state.

Sec. 5. A debt for the purpose of erecting public buildings may be created by law, as provided for in section four of this article, not exceeding in the aggregate three mills on each dollar of said valuation: *Provided*, That before going into effect such law shall be ratified by the vote of a majority of such qualified electors of the state as shall vote thereon at a general election, under such regulations as the general assembly may prescribe.

Sec. 6. No county shall contract any debt by loan in any form, except for the purpose of erecting necessary public buildings, making or repairing public roads and bridges; and such indebtedness contracted in any one year shall not exceed the rates upon the taxable property in such county following, to wit: counties in which the assessed valuation of taxable property shall exceed five millions of dollars, one dollar and fifty cents on each thousand dollars thereof; counties in which such valuation shall be less than five millions of dollars, three dollars on each thousand dollars thereof; and the aggregate amount of indebtedness of any county, for all purposes, exclusive of debts contracted before the adoption of this constitution, shall not at any time exceed twice the amount above herein limited, unless when, in manner provided by law, the question of incurring such debt shall, at a general election, be submitted to such of the qualified electors of such county as in the year last preceding such election shall have paid a tax upon property assessed to them in such county, and a majority of those voting thereon shall vote in favor of incurring the debt; but the bonds, if any be issued therefor, shall

not run less than ten years; and the aggregate amount of debt so contracted shall not at any time exceed twice the rate upon the valuation last herein mentioned: *Provided*, That this section shall not apply to counties having a valuation of less than one million of dollars.

SEC. 7. No debt by loan in any form shall be contracted by any school district for the purpose of erecting and furnishing school-buildings or purchasing grounds unless the proposition to create such debt shall first be submitted to such qualified electors of the districts as shall have paid a school tax therein in the year next preceding such election, and a majority of those voting thereon shall vote in favor of incurring such debt.

SEC. 8. No city or town shall contract any debt by loan in any form, except by means of an ordinance, which shall be irrepealable until the indebtedness therein provided for shall have been fully paid or discharged, specifying the purposes to which the funds to be raised shall be applied, and providing for the levy of a tax, not exceeding twelve mills on each dollar of valuation of taxable property within such city or town, sufficient to pay the annual interest and extinguish the principal of such debt within fifteen, but not less than ten, years from the creation thereof; and such tax, when collected, shall be applied only to the purposes in such ordinance specified until the indebtedness shall be paid or discharged; but no such debt shall be created unless the question of incurring the same shall, at a regular election for councilmen, aldermen, or officers of such city or town, be submitted to a vote of such qualified electors thereof as shall, in the year next preceding, have paid a property tax therein, and a majority of those voting on the question, by ballot deposited in a separate ballot-box, shall vote in favor of creating such debt; but the aggregate amount of debt so created, together with the debt existing at the time of such election, shall not at any time exceed three per cent. of the valuation last aforesaid. Debts contracted for supplying water to such city or town are excepted from the operation of this section. The valuation in this section mentioned shall be in all cases that of the assessment next preceding the last assessment before the adoption of such ordinance.

SEC. 9. Nothing contained in this article shall be so construed as to either impair or add to the obligation of any debt heretofore contracted by any county, city, town, or school district, in accordance with the laws of Colorado territory, or prevent the contracting of any debt, or the issuing of bonds therefor, in accordance with said laws, upon any proposition for that purpose which may have been, according to said laws, submitted to a vote of the qualified electors of any county, city, town, or school district before the day on which this constitution takes effect.

NEVADA.

In the state of Nevada public debts to the amount of $300,000 may be contracted. In addition to this, money may be borrowed to repel invasion, suppress insurrection, and defend the state in war. Every debt incurred must be authorized by a law which provides for the levying of a tax sufficient to pay the interest on the same annually and the principal within twenty years. The appropriation thus made is not repealable, nor can the payment of the taxes be postponed until the principal and the interest of the debt are discharged. The state cannot loan its money or credit, subscribe to or be interested in the stock of any company, association, or corporation (except those formed for educational and charitable purposes), nor assume the debts of any county, town, city, or other corporation, unless the same have been created to repel invasion or suppress insurrection. In addition to the above limit, the debts and liabilities of the territory of Nevada are assumed by the state. Counties, cities, towns, and other municipal corporations cannot become stockholders in any joint stock company or corporation, or loan their credit in aid of such company or corporation, except railroad corporations, companies, or associations. The legislature is directed to provide for the organization of cities and towns, and to restrict their powers of taxation, assessment, borrowing money, contracting debts, and loaning their credit, except for procuring supplies of water.

Article IX of the constitution of 1864 provides:

SEC. 3. For the purpose of enabling the state to transact its business upon a cash basis from its organization the state may contract public debts; but such debts shall never in the aggregate, exclusive of interest, exceed the sum of three hundred thousand dollars, except for the purpose of defraying extraordinary expenses, as hereinafter mentioned. Every such debt shall be authorized by law for some purpose or purposes, to be distinctly specified therein, and every such law shall provide for levying an annual tax sufficient to pay the interest semi-annually and the principal within twenty years from the passage of such law, and shall specially appropriate the proceeds of said taxes to the payment of said principal and interest; and such appropriation shall not be repealed, nor the taxes be postponed or diminished, until the principal and interest of said debts shall have been wholly paid. Every contract of indebtedness entered into or assumed by or on behalf of the state, when all its debts and liabilities amount to said sum before mentioned, shall be void and of no effect, except in cases of money borrowed to repel invasion, suppress insurrection, defend the state in time of war, or, if hostilities be threatened, to provide for the public defense.

SEC. 4. The state shall never assume the debts of any county, town, city, or other corporation whatever unless such debts have been created to repel invasion, suppress insurrection, or to provide for the public defense.

ART. VIII, SEC. 9. The state shall not donate or loan money or its credit, subscribe to or be interested in the stock of any company, association, or corporation, except corporations formed for educational or charitable purposes.

SCHEDULE, SEC. 7. All debts and liabilities of the territory of Nevada lawfully incurred, and which remain unpaid at the time of the admission of this state into the Union, shall be assumed by and become the debt of the state of Nevada: *Provided*, That the assumption of such indebtedness shall not prevent the state from contracting the additional indebtedness, as provided in section three of article nine of this constitution.

ART. VIII, SEC. 10. No county, city, town, or other municipal corporation shall become a stockholder in any joint stock company, corporation, or association whatever, or loan its credit in aid of any such company, corporation, or association, except railroad corporations, companies, or associations.

SEC. 8. The legislature shall provide for the organization of cities and towns by general laws; and restrict their powers of taxation, assessment, borrowing money, contracting debts, and loaning their credit, except for procuring supplies of water.

OREGON.

In the state of Oregon neither the state, nor any county, city, town, or other municipal corporation, shall become a stockholder in any joint stock company, or be interested therein; nor can either of them, except the state, raise

any money for such corporations, or loan its credit thereto. The state cannot assume the debts of any county, city, town, or other corporation, unless the same have been created to repel invasion, suppress insurrection, or defend the state in war. Except in case of war, or to repel invasion or suppress insurrection, the legislative assembly can create no debts or liabilities which shall exceed in the aggregate $50,000. Counties cannot create debts exceeding $5,000 except in time of war or to suppress insurrection, and exclusive of the debt owing by such counties at the time of the adoption of the constitution (1857).

CONSTITUTION OF 1857.

ART. XI, SEC. 6. The state shall not subscribe to, or be interested in, the stock of any company, association, or corporation.

ART. XI, SEC. 7. The legislative assembly shall not, in any manner, create any debt or liabilities which shall singly, or in the aggregate, with previous debts or liabilities, exceed the sum of fifty thousand dollars, except in case of war, or to repel invasion or suppress insurrection; and every contract of indebtedness entered into, or assumed by or on behalf of the state, when all its liabilities and debts amount to said sum, shall be void and of no effect.

ART. XI, SEC. 8. The state shall never assume the debts of any county, town, city, or other corporation whatever, unless such debts shall have been created to repel invasion, suppress insurrection, or defend the state in war.

ART. IX, SEC. 2. The legislative assembly shall provide for raising revenue sufficient to defray the expenses of the state for each fiscal year, and also a sufficient sum to pay the interest on the state debt, if there be any.

ART. XI, SEC. 5. Acts of the legislative assembly incorporating towns and cities shall restrict their powers of taxation, borrowing money, contracting debts, and loaning their credit.

ART. XI, SEC. 9. No county, city, town, or other municipal corporation, by vote of its citizens or otherwise, shall become a stockholder in any joint stock company, corporation, or association whatever, or raise money for, or loan its credit to or in aid of, any such company, corporation, or association.

ART. XI, SEC. 10. No county shall create any debt or liabilities which shall singly, or in the aggregate, exceed the sum of five thousand dollars, except to suppress insurrection or repel invasion; but the debts of any county at the time this constitution takes effect shall be disregarded in estimating the sum to which such county is limited.

CALIFORNIA.

In the state of California debts may be incurred for the purpose of repelling invasion, suppressing insurrection, and defending the state in war. Other debts may be created not exceeding in the aggregate $300,000, provided the same be authorized by law for some single object or work, which law shall provide ways and means, exclusive of loans, for payment of the interest and to discharge the principal of the debt within twenty years. The law, however, does not take effect unless the same be published in at least one newspaper in each county, or city and county, throughout the state for three months, be submitted to the people at a general election, and receive a majority of the votes cast on the proposition. The state cannot loan its credit, nor subscribe to nor be interested in the stock of any company, association, or corporation, nor can they authorize any county, county and city, township, or other political corporation to loan such credit, or to authorize the making of any gift of any public money or thing of value to any individual, municipal or other corporation.*

Counties, cities, townships, boards of education, and school districts cannot incur any indebtedness or liability exceeding in any year the income and revenue provided for it for such year without the assent of two-thirds of the qualified electors thereof, voting at a special election; nor unless provision be made for the collection of an annual tax sufficient to pay the interest on the indebtedness as it falls due, and also to constitute a sinking fund for the payment of the principal within twenty years. The state may grant aid to institutions conducted for the support of minor orphans, or half orphans, or abandoned children, or aged persons in indigent circumstances.

CONSTITUTION OF 1879.

ART. XVI, SEC. 1. The legislature shall not, in any manner, create any debt or debts, liability or liabilities, which shall, singly or in the aggregate, with any previous debts or liabilities, exceed the sum of three hundred thousand dollars, except in case of war, to repel an invasion, or suppress insurrection, unless the same shall be authorized by law for some single object or work, to be distinctly specified therein, which law shall provide ways and means, exclusive of loans, for the payment of the interest of such debt or liability as it falls due, and also to pay and discharge the principal of such debt or liability within twenty years of the time of the contracting thereof, and shall be irrepealable until the principal and interest thereon shall be paid and discharged; but no such law shall take effect until, at a general election, it shall have been submitted to the people, and shall have received a majority of all the votes cast for and against it at such election; and all moneys raised by authority of such law shall be applied only to the specific object therein stated, or to the payment of the debt thereby created; and such law shall be published in at least one newspaper in each county, or city and county, if one be published therein, throughout the state, for three months next preceding the election at which it is submitted to the people. * * *

ART. XII, SEC. 13. The state shall not in any manner loan its credit, nor shall it subscribe to or be interested in the stock of any company, association, or corporation.

ART. IV, SEC. 31. The legislature shall have no power to give or to lend, or to authorize the giving or lending, of the credit of the state, or of any county, city and county, city, township, or other political corporation or subdivision of the state now existing, or that may be hereafter established, in aid of, or to any person, association, or corporation, whether municipal or otherwise, or to pledge the credit thereof, in any manner whatever, for the payment of the liabilities of any individual, association, municipal or other corporation whatever; nor shall it have power to make any gift, or authorize the making of any gift, of any public money or thing of value to

* The constitution does not restrict the minor political divisions from becoming stockholders.

any individual, municipal or other corporation whatever: *Provided*, That nothing in this section shall prevent the legislature granting aid, pursuant to section twenty-two of this article; and it shall not have power to authorize the state, or any political subdivision thereof, to subscribe for stock, or to become a stockholder in any corporation whatever.

Section 22, referred to, provides that the state may grant aid to institutions conducted for the support and maintenance of minor orphans, or half orphans, or abandoned children, or aged persons in indigent circumstances, etc.

ART. XI, SEC. 18. No county, city, town, township, board of education, or school district shall incur any indebtedness or liability in any manner, or for any purpose, exceeding in any year the income and revenue provided for it for such year, without the assent of two-thirds of the qualified electors thereof voting at an election to be held for that purpose, nor unless, before or at the time of incurring such indebtedness, provision shall be made for the collection of an annual tax sufficient to pay the interest on such indebtedness as it falls due, and also to constitute a sinking fund for the payment of the principal thereof within twenty years from the time of contracting the same. Any indebtedness or liability incurred contrary to this provision shall be void.

*The city of Richmond having paid $63,000, the actual outstanding bonded indebtedness is $104,000.

†In 1879 the city of Louisville paid $7,000 of its bonded debt, leaving outstanding $3,072,000.

‡Of this amount $9,296,260, issued in 1875, runs from one to fifty years, but is payable semi-annually in amounts decided by lot.

§$2,000 of these bonds were issued in aid of the Kennebec and Portland Railroad; were due November 1, 1870, but are yet uncalled for, and the remainder, $22,750, were paid July 1, 1880.

‖ This amount was paid July 1, 1880.

* Inclusive of some stocks and bonds which, strictly considered, may not be held to belong to the sinking fund.

† Exclusive of West Virginia's portion.

‡ Approximation by state officials.

§ Old debt (January 1, 1874), of which $18,034,800 had been refunded January 1, 1880.

‖ The amount entered as sinking fund is only a sufficient portion of it to balance the gross debt. There are over and above this in the sinking fund of Michigan $303,745. In other words, this fund amounts to $1,208,895. There are in the sinking fund of Nevada $312,372, or $236,976 more than is necessary to pay the debt.

¶ The amount of the war and defense loan shown in the report of the state auditor is $300,000, but the amount here included, authorized by letter from him, is only $12[illegible],000.

** Not inclusive of $3,000,000 Hannibal and Saint Joseph railroad bonds.

a The city of Plainfield, as a city, has no debt whatever. Its fire department, with an organization entirely independent, but covering the same ground and affecting the same people, has a debt in amount equal to the sums in the table. This debt is ascribed to the city, with this explanation, as the most suitable point to locate it.

SOUTHERN STATES.

TABLE XX.—STATE AND LOCAL INDEBTEDNESS IN DETAIL—Continued.

[NOTE.—In counties marked with an asterisk (*) there is no indebtedness. In the following states only those cities, towns, etc., which have 7,500 or more inhabitants are mentioned by name: Florida, Alabama, Mississippi, Louisiana, Kentucky, and Tennessee. In Texas only one city having less than 7,500 inhabitants (Sherman, population 6,093) is mentioned by name. In all other states the cities, towns, etc., with 1,000 or more inhabitants, which have indebtedness, are mentioned by name. In some states having school district debt the schedules failed to state whether it was a funded or floating debt; in such cases it has been entered as floating.]

WESTERN STATES.

TABLE XX.—STATE AND LOCAL INDEBTEDNESS IN DETAIL—Continued.

[NOTE.—In counties marked with an asterisk (*) there is no indebtedness. In the following states only those cities, towns, etc., which have 7,500 or more inhabitants are mentioned by name: Illinois, Colorado, Nevada, and California. In Wisconsin only one city having less than 7,500 inhabitants (Green Bay, population 7,464) is mentioned by name. In all other states the cities, towns, etc., with 1,000 or more inhabitants, which have indebtedness, are mentioned by name. In some states the schedules failed to state whether the school district debt was a bonded or floating debt; in such cases it has been entered as floating.]

OHIO.

INDIANA. (*a*)

SUMMARY.

	Bonded debt.	Floating debt.	Gross debt.	Sinking fund.	Net debt.
Total State debt	$16,794,078	$1,751,413	$18,545,491	$190,754	$18,354,737
State debt proper	4,998,178		4,998,178		4,998,178
Total local debt	11,795,900	1,751,413	13,547,313	190,754	13,356,559
County debt	2,886,557	1,187,897	4,074,454	26,400	4,048,054
Township debt (*a*)	79,214	148,226	227,440		227,440
City and town debt (*a*)	8,830,129	415,290	9,245,419	164,354	9,081,065

a The township and city and town schedules so manifestly embraced the school district debt, although not usually in a separable shape, that an independent exhibit of this debt is not made.

Watertown	7,883	Mar. 31, 1880	229,400		229,400		229,400	29 10	H. Belber, city clerk.

* Green Bay, Wisconsin, which has slightly less than 7,500 inhabitants, is included.

NOTES AND CORRECTIONS.

Since the stereotyping of the pages of Part II, a few errors and omissions have been discovered, some of which have been corrected in the proper place, while others are here noted. It is thought well, also, to call attention to certain variations from uniformity in Table XX. The scheme for this table provided for the individual exhibition of the indebtedness of all incorporated cities, towns, villages, and boroughs having 1,000 inhabitants or more, and the aggregation of all in each county with less than 1,000 in a single statement. The exigencies of the work has precluded the complete carrying out of this plan, and in several states, indicated by prefatory notes, pp. 775, 788, 825, and 875, only the corporations having 7,500 or more inhabitants, are shown by name. Township debt is only shown by county aggregates. The New England towns are not identical with the townships of the middle and western states, hence they are exhibited by name.

NOTE *a*—NORTH CAROLINA.—Township bonded debt incurred for aid to railroads (not shown in Table XX) exists as follows:

Caswell county	$13,500
Granville county	9,000
Iredell county	10,000
Surry county	20,000
Total	52,500

NOTE *b*—ALABAMA.—The county bonded debt of Greene county is $39,500 instead of $59,500, as shown in Table XX. By this change the several totals into which the county bonded debt enters should be reduced $20,000.

NOTE *c*—MISSISSIPPI.—The county floating debt of Attala county is $3,000, instead of $5,000, as shown in Table XX. By this change the several totals into which the county floating debt enters should be reduced $2,000.

NOTE *d*—LOUISIANA.—The parish debt of Saint Bernard parish, which is given as a bonded debt amounting to $5,757, should have been stated as a floating debt of $5,276. The segregation of bonded and floating debt is thus changed, and the aggregate reduced $481 for the several totals into which the parish debt enters.

NOTE *e*—ARKANSAS.—The school district indebtedness, amounting to $45,121, is omitted in Table XX. The total debt of counties having indebtedness of this character should, therefore, be increased by such amount as pertains to each; and the several other totals into which school district debt enters should be increased by the full amount, $45,121.

The appended table exhibits the school district debt by counties; counties having no debt of this kind are omitted:

Arkansas	$2	Madison	$266
Benton	475	Marion	1,200
Boone	400	Mississippi	313
Calhoun	400	Montgomery	2,275
Carroll	181	Nevada	150
Columbia	481	Newton	524
Conway	1,000	Perry	15
Crawford	100	Phillips	834
Cross	850	Pike	2,000
Dallas	1,200	Poinsett	200
Desha	950	Pope	696
Drew	5,000	Saline	70
Faulkner	4,231	Searcy	357
Fulton	56	Sebastian	1,283
Hempstead	742	Sevier	1,000
Howard	350	Sharp	312
Independence	347	Stone	107
Jackson	250	Union	275
Jefferson	10,196	White	1,900
Lee	230	Woodruff	350
Lincoln	1,790		
Little River	1,263	Total	45,121
Logan	500		

NOTE *f*—ILLINOIS.—The small amount of state debt proper existing in 1880 was redeemed in the succeeding year, except a trifling amount not presented for payment.

NOTE *g*—IOWA.—There is no township indebtedness. The amount of the war and defense loan, shown in the report of the state auditor, October 1, 1879, is $300,000, but the amount considered in the tabulation of state debt proper, authorized by letter from the auditor, is only $125,000.

NOTE *h*—MISSOURI.—Such township indebtedness as exists in Missouri was mainly incurred for aid to railroads prior to 1875. The new constitution, which became operative in that year, forbids the creation of debt for such purpose. There was, probably, in the census year indebtedness of this character to the amount of $3,500,000, some of it being of doubtful or disputed validity. No sufficiently exact information was obtainable, hence it is not included in Table XX.

The exhibit for Saint Louis county, omitted in Table XX, was as follows:

	Bonded debt.	Floating debt.	Gross debt.	Sinking fund.	Net debt.
SAINT LOUIS COUNTY.					
Total	$2,500	$3,877	$6,377	.....	$6,377
City and town debt	2,500	3,877	6,377	.....	6,377
Kirkwood	2,500	1,677	4,177	.....	4,177
Cities and towns under 1,000	.....	2,200	2,200	.....	2,200

NOTE *i*—KANSAS.—The indebtedness of boards of education of cities, which should have been reported as school district indebtedness, in some cases was combined with city debt proper, and the whole reported as city debt, and so tabulated; therefore, the true school district indebtedness is somewhat larger than that exhibited in Table XX and the true city and town debt somewhat less.

NOTE *j*—COLORADO.—The county debt of Hinsdale county—amounting to: bonded, $65,000; floating, $34,922; total, $99,922, was inadvertently omitted from Table XX.

INDEX.
